**Background:** The Economic Analysis Office of the Division of Career Services (DCS) has recently published the annual LMI Profiles. The data in these Profiles will be useful for areas in developing the local FY 2010 Annual Plans. The Profiles can be found on the Department of Labor and Workforce Development home page as described below.

## LMI Profiles

The profiles are produced annually for the State and each of the 16 Workforce Investment Areas. Each profile includes data on the labor force, employment, unemployment, industry structure, population and demographic trends, projected occupational demand, and worker commuting patterns.
