Section 1: Introduction

As required by statute, the Separate and Secure Waiting Area (SSWA) Task Force Co-Chairs, Paula M. Carey, Chief Justice of the Trial Court and Liam Lowney, Executive Director of the Massachusetts Office of Victim Assistance, are filing an Implementation Progress Report to the Legislature outlining progress made in implementing the updated SSWA provision of the Massachusetts Victim Bill of Rights (G. L. c.258B, Section 3) enacted July 2010. This report provides detail on the Task Force and our mandate, the court-by-court designation process implemented by the Task Force, the compliance status of each assessed location through June 2014, and next steps needed for locations to achieve compliance. The Co-Chairs will continue to file annual Implementation Progress Reports every July to update the Legislature on progress made in implementing the recommendations provided in the Final Implementation Plan Report, submitted to the Legislature in July 2012, to ensure accountability and ultimate compliance with this mandate.

Mandate and Background:

The mandate for courts to provide SSWAs was established in 1984 with the enactment of the MA Victim Bill of Rights. The SSWA provision of G.L. c. 258B, s. 3(i) required courts to provide for a separate room that is meant to protect victims and witnesses from threats, intimidation and assaults from the defendant and/or their friends and family members. However, this requirement was “subject to appropriation and to available resources.”

Due to physical capacity and operational limitations, compliance with this longstanding right has been a challenge for many courts to achieve. However, lack of this space has resulted in serious safety concerns for victims and witnesses visiting our courthouses to perform their civic duty. As these safety concerns impede the fair administration of justice, section 134 of chapter 131 of the Acts of 2010 was enacted to create a Task Force with the capacity to assess the status of SSWAs and to identify and address significant obstacles faced by courts to achieve compliance with the statute.

The 2010 legislation amended G. L. c. 258B, s. 3(i) to remove the language “subject to appropriation and to available resources” which was a longstanding barrier to implementing this right. The 2010 legislation also established a Task Force to assess each court to determine realistic solutions given available resources to improve victim and witness safety in courthouses.

Enacted Statutory Language (Sections 99 and 134 of Chapter 131 of the Acts of 2010):

SECTION 99. Section 3 of chapter 258B of the General Laws, as appearing in 2008 Official Edition, is hereby amended by striking out clause (i) and inserting in place thereof the following clause:-

(i) for victims, family members and witnesses to be provided, by the court as provided in section 17 of chapter 211B, with a secure waiting area or room which is separate from the waiting area of the defendant or the defendant's family, friends, attorneys or witnesses and separate from the district attorney's office; provided, however, that the court shall designate a waiting area at each courthouse; and provided further, that designation of those areas shall be made in accordance with the implementation plan developed by the task force.

SECTION 134. There shall be a task force established to conduct a court-by-court assessment and develop an implementation plan regarding the designation or creation of separate and secure waiting areas in district and superior courthouses for victims and witnesses of crimes, as required under section 17 of chapter 211B and clause (i) of the first paragraph of section 3 chapter 258B of the General Laws.

The task force shall be chaired by both the executive director of the Massachusetts office for victim assistance and the chief justice for administration and management or their designees; the task force shall include, but not be limited to, the chair of the victim and witness assistance board or a designee; 1 victim, public member of the victim and witness assistance board chosen by the chairs; 1 community-based victim services provider chosen by the executive director of the Massachusetts office for victim assistance; the commissioner of capital asset management or a designee; 1 district attorney victim witness program director to be chosen by the president of the Massachusetts District Attorneys Association; 1 representative from the court clerks chosen by the chief justice for administration and management; 1 representative of the chief probation officers to be chosen by the commissioner of probation; 1 representative of the administrative office of the trial court fiscal department chosen by the chief justice for administration and management; and 1 representative of the court facilities department chosen by the chief justice for administration and management. Additional members may be appointed by the governor in consultation with the co-chairs of the task force.

The task force shall convene no later than January 1, 2011 and develop a plan for conducting the court-by-court assessment and a timeline to guide the completion of the implementation plan. The implementation plan shall include, but not be limited to, a definition of a separate and secure waiting area under section 17 of chapter 211B and clause (i) of the first paragraph of section 3 of chapter 258B of the General Laws; a list of courthouses that do and do not have separate and secure waiting areas that meet the definition; the feasibility of allocating existing space for use as a separate and secure waiting area in those courts that do not have waiting areas; a comprehensive fact-based analysis of the fiscal and operational impacts, if any, of such allocations; a recommendation on who would staff the safe and secure waiting areas; the fiscal impact of such staffing recommendations, if any; a timeline for designating or creating the spaces in those courthouses in which allocation of such space is deemed feasible; the sequence in which separate and secure waiting areas shall be designated or created in courthouses in which the task force has determined that such allocation is feasible; and a recommendation for interim accommodations, where allocation of such space is not deemed immediately feasible and such interim accommodations are practicable. For those district and superior courthouses undergoing new construction or substantial renovation as defined by the task force, the separate and secure waiting areas shall be included in the final plans and completed construction. The task force chairs shall file an implementation progress report every 365 days and a final plan to the chairs of the house and senate ways and means committees, the senate and house chairs of the joint committee on the judiciary and the clerks of the senate and house of representatives not later than July 1, 2012.

Task Force Composition and Charge

The Task Force is co-chaired by Paula M. Carey, Chief Justice of the Trial Court and Liam Lowney, Executive Director of the Massachusetts Office for Victim Assistance (MOVA). Members include representatives from the courts (Clerks, Probation, Facilities, Court Security, and OCM Fiscal departments), a representative from the Division of Capital Asset Management and Maintenance (DCAMM), those who serve victims (MOVA, Attorney General's Office, and the Victim Rights Law Center), and a victim/survivor.

The appointment of specific professionals to the Task Force was determined by their status as key stakeholders uniquely qualified to assess current needs and resources available in courthouses and to assess fiscal and operational costs for any recommendations generated.

Separate and Secure Waiting Area Task Force

Co-Chairs

Paula M. Carey, Chief Justice of the Trial Court
Liam Lowney, Executive Director, MOVA

Members

Martha Coakley, Attorney General of Massachusetts
Marybeth Brady, Clerk-Magistrate, Malden District Court
Milton Britton, Jr., Chief Probation Officer, Norfolk Superior Court
Jenn Campbell, Project Manager, DCAM
Michael Lane, Environmental Coordinator, Facilities Management, OCM
Stacy Malone, Esq., Executive Director, Victim Rights Law Center
Patrice Provitola, Deputy Director, MOVA
Mark Strahan, Fiscal Affairs Training Coordinator, OCM
Evelyn Tobin, Victim & Witness Assistance Board Victim/Public Member

Ex Officio Consultants

Thomas Connolly, Deputy Director of Security, OCM
Mary Gorham, Procurement Manager/Leased Properties, OCM
Richard L'heureux, Manager, Court Capital Projects, OCM

Staff

Ann Archer, Administrative Attorney, OCJ
Chris Klaskin, Legislative Affairs Coordinator, MOVA
Jamie Sabino, STOP Grant Coordinator, OCM

Since completing the statewide assessment process and submitting the required Final Implementation Plan Report in July 2012, the Task Force continues its efforts to ensure full compliance with this mandate by:

- ◆ Working with identified stakeholders to implement SSWA designations that required next steps,
- ◆ Addressing issues reported by stakeholders regarding the operation and/or functionality of designated SSWAs, and
- ◆ Tracking and maintaining implementation progress reports.

SSWA Definition

The 2010 legislation stipulates that a definition of a SSWA be included in the Implementation Plan. The Task Force, therefore, developed a definition for a SSWA to outline the basic standards a room must meet to achieve compliance with the mandate. The following definition identifies the safety features and operational factors needed to facilitate this space, while remaining flexible enough to account for varied physical challenges and resource capacities of courts statewide:

The Separate and Secure Waiting Area shall be a locked room within the courthouse that is utilized exclusively for victims, witnesses and family members¹ as identified by prosecutors.² This space shall be sized reasonably to accommodate victims, witnesses and family members so they can all be free from intimidation, threats or other interference from defendants and defendant's friends or families.

¹ M.G.L. ch. 258B, Section 1 defines as "Victim" as any natural person who suffers direct or threatened physical, emotional, or financial harm as the result of the commission or attempted commission of a crime or delinquency offense, as demonstrated by the issuance of a complaint or indictment, the family members of such person if the person is a minor, incompetent or deceased, and, for relevant provisions of this chapter, a person who is the subject of a case reported to a prosecutor pursuant to section eighteen of chapter nineteen A, sections five and nine of chapter nineteen C, and section fifty-one B of chapter one hundred and nineteen, and the family members of such person if the person is a minor, incompetent or deceased.

M.G.L. ch. 258B, Section 1 defines as "Witness" as any person who has been or is expected to be summoned to testify for the prosecution whether or not any action or proceeding has yet been commenced.

M.G.L. ch. 258B, Section 1 defines "Family member" as a spouse, child, stepchild, sibling, parent, stepparent, dependent, as defined in section one of chapter two hundred and fifty-eight C, or legal guardian of a victim, unless such family member has been charged in relation to the crime against the victim.

² M.G.L. ch. 258B, Section 1 defines "Prosecutor" as the attorney general, assistant attorneys general, district attorney, assistant district attorneys, police prosecutors, other attorneys specially appointed to aid in the prosecution of a case, law students approved for practice pursuant to and acting as authorized by the rules of the supreme judicial court, or any other person acting on behalf of the commonwealth, including victim-witness advocates.

Section 2: Summary of Designation Process and Next Steps

The Task Force has completed the on-site tours of the 91 required court locations, which include over 135 court departments and sessions statewide, and have issued recommendations for each location. Four designated SSWAs existed prior to the on-site tours and as a result of the Task Force's assessment process, 77 have been newly established, for a total of 81 designated SSWAs. The remaining 10 court locations were determined to need a feasibility review, building re-programming and/or construction before a final SSWA designation can be made. Further details can be found in Sections 3 and 4 of this report.

SSWA Compliance Status, July 1, 2014

Implementation Plan Requirements

According to the enabling statute, the Task Force was required to consider several key factors when developing an implementation plan for courts to achieve compliance with the mandate. These key factors included:

- ◆ A fact-based analysis of the fiscal/operational impacts, if any, of space allocation for this purpose;
- ◆ A recommendation on who would staff the SSWAs and the fiscal impact of such staffing recommendations, if any;
- ◆ A timeline for designating/creating spaces where the allocation of space is deemed feasible;

- ◆ The sequence by which SSWAs shall be designated where the allocation of space is deemed feasible; and
- ◆ Recommendations for interim accommodations where the allocation of space is not deemed feasible.

Through the collaborative assessment process utilized at on-site visits, the Task Force collected critical front-line building and operational information to determine the feasibility of allocating space for SSWAs and the potential operational/fiscal impact(s) of that allocation. This front-line information was the basis for the development of each recommendation, ensuring that next steps would be tailored to meet a particular court's unique needs and challenges in order to achieve and maintain compliance with the mandate.

All staffing/personnel costs related to SSWAs across the state are absorbed by the District Attorneys' Offices given their primary role in working with victims and witnesses who use these rooms. All other costs associated with implementing next steps are addressed by the Trial Court.

Rather than develop a timeline and sequence for the designation of SSWAs, the Task Force prioritized the designation of SSWAs in courts where space was available or could be made available with minimal resources, follow up, building reprogramming, or renovation/construction. 78 court locations were determined to have space available without the need for major construction/renovation and SSWAs were designated in those courts. Three court locations were determined to

Greenfield District Court

need an operational accommodation in order to secure a SSWA (see Dukes County Juvenile Court, Holyoke Juvenile Court and Nantucket Trial Court).

The 10 remaining courts that require next steps are categorized by options identified -- follow up with the county, under feasibility review or construction planned. There were significant challenges in developing precise timelines for some courts given the time it would take to conduct some of the required next steps and the uncertainty about when resources will be available for any necessary renovation or construction. For example, some courts require comprehensive follow up with a variety of stakeholders (e.g., county officials, landlords, service vendors, architects, etc.) which may involve ongoing discussions and review. Other courts require substantial renovation/construction that cannot be implemented until fiscal resources are available to the Trial Court. In these complex cases, operational accommodations have been developed to ensure victim witness safety until a formal designation can be made.

The statute also requires that the final plans and completed construction of all courts scheduled for relocation, renovation, or new construction in state-owned or leased buildings after the issuance of the Final Implementation Plan Report include a SSWA. This protocol has been in place for several years, as evidenced by new courthouses that opened in 2011 -- the J. Michael Ruane Judicial Center in Salem and the Taunton Trial Court -- which have SSWAs. The development of leased facilities, such as the Middlesex Superior Court in Woburn that opened in 2008, the Third Middlesex District Court in Medford that opened in 2009 and the temporary Franklin County Courthouse that opened in 2014, all include SSWAs. The Franklin County Courthouse permanent location currently under renovation also has a SSWA included in the plans.

East Brookfield District Court

Compliance Status Classifications

Classifications have been developed by the Task Force to identify whether a particular court has a designated SSWA or what remaining next steps are needed to fully achieve compliance with the mandate. The classifications are:

Designated SSWA:

A court is in compliance with the SSWA mandate and the designated space meets the definition established by the Task Force.

Operational Accommodation(s):

Operational accommodations have been made to ensure victim and witness safety when a formal designation cannot be made or until a formal designation can be made because the court cannot designate an SSWA due to significant and/or complex challenges (e.g., if a location lacks physical space, is scheduled for relocation/consolidation in the near future, or needs substantial renovation/construction to implement a SSWA, etc.).

Option(s) Identified-Follow Up With County:

Ongoing efforts that involve all personnel necessary to finalize a designation (e.g.: court personnel, Victim Witness Advocates, County officials, etc) are underway to complete the steps necessary, including space analysis, in order to formally designate and implement a SSWA.

Options Identified-Under Feasibility Review:

Feasibility Reviews are being managed by the Facilities Management Department and conducted by a “House Doctor”. House Doctors are pre-qualified architectural/mechanical design firms that are selected through the Commonwealth’s Designer Selection Board (DSB) to provide such services to state agencies, including the Trial Court. The House Doctor’s are engaged to provide feasibility studies and code compliance review for various small scale projects such as this SSWA effort. Depending on their scope of work, they may also move into design and construction document preparation for the actual construction phase of the selected projects.

Options Identified-Construction Planned:

If a proposed SSWA is deemed to be feasible, the House Doctor will be asked to prepare plans for the SSWA. Depending on the design, construction can then either proceed using Facilities Management Department staff or an outside contractor.

The Facilities Management Department is in the process of reviewing all sites and is aiming to complete the studies by the end of Fiscal Year 2014. Modifications to these sites are expected to take place within the first two quarters of Fiscal Year 2015. The only state-owned courthouse for which construction of a SSWA is currently planned is the Malden District Court. In Malden, the SSWA will be constructed as part of a larger egress improvement project at the courthouse. Construction is expected to begin in the first quarter of Fiscal Year 2015.

Annual Progress Reports and Ongoing Monitoring

The Co-Chairs of the Task Force are required to file an annual implementation progress report to the Legislature every 365 days after the issuance of the Final Implementation Plan. The intent of this reporting requirement is to update the Legislature on the implementation progress of courts that require next steps to ensure accountability and follow through with the recommendations outlined in the Final Implementation Plan Report. Any new developments or changes made to implementation timelines, cost estimates, or the compliance status of a particular court will be detailed in these reports. The progress report will be filed on July 1 of each year until all courts conducting criminal business are fully compliant with the SSWA mandate.

In addition, the Co-Chairs of the Task Force will continually monitor the implementation progress until all mandated courts are compliant with the law. Co-Chairs will also serve as the primary contacts for reporting any compliance issues, for requests to change a room designation, or to assist with troubleshooting any other issues experienced by these designated SSWAs to remain compliant.
