Hi,

I am a homeowner of 85 Whitney Road in Eastham, Ma.

During my years of ownership I have observed the insurance rates skyrocket with no apparent end in sight.

It is incomprehensible that the Insurance Commissioner and those that represent us have let this happen.

I would sincerely hope this issue is given the attention that it deserves. Insurance company's represent big business and seem to unbridled by those who represent us and are placed in trusted state positions.

Please do something for those of us who are being victimized by the current insurance practices.

Thank you,

James N Onembo
