**Antenna on Your TV? Act Now to Make Sure You Are Prepared.**

The nationwide switch to digital television broadcasting will be complete on June 12, 2009, but your local TV stations may switch sooner. Act now to make sure you are prepared. By June 12, 2009, analog-only TVs that receive programming through an antenna will require a converter box to continue to receive over-the-air TV. Some broadcast stations may transition earlier, so you should check with your local broadcast stations to confirm when they will turn off their analog signal and switch to digital-only broadcasting.

TVs connected to FiOS® TV will not be affected by the broadcast DTV transition.

Analog-only TVs should also continue to work as before to receive low power, Class A or translator television stations and with cable and satellite TV services, gaming consoles, VCRs, DVD players, and similar products.

Information about obtaining subsidized coupons for the government's converter box program can be obtained at [www.ntiadv.gov](http://www.ntiadv.gov), [www.dtv2009.gov](http://www.dtv2009.gov) or by calling 1-888-DTV-2009, or 1-877-530-2634 (TTY). More information about the broadcast DTV transition in general is available at your local television stations, [www.DTV.gov](http://www.DTV.gov) or by calling 1-888-CALL-FCC (voice) or 1-888-TELL-FCC (TTY). You may also contact the DTV Transition Coalition at [www.dtvtransition.org](http://www.dtvtransition.org), or Verizon at 1-888-558-3755 (voice) or 888-558-3770 (TTY).

#### Changes in Federal Charges Beginning on or about April 1, 2009

Effective on or about April 1, 2009, the Federal Subscriber Line Charge may change on your main phone line and on any additional phone line. This charge helps pay for the costs of providing and maintaining the local network.

In addition, your Federal Universal Service Fund (FUSF) surcharge may change effective on or about April 1, 2009. The FUSF surcharge, which is authorized by the FCC and reviewed quarterly, provides funding for programs to keep local telephone rates affordable for all customers and to provide discounts to schools, libraries, rural health care providers and low-income families.

**Antenna on Your TV? Act Now to Make Sure You Are Prepared.**

The nationwide switch to digital television broadcasting will be complete on June 12, 2009, but your local TV stations may switch sooner. Act now to make sure you are prepared. By June 12, 2009, analog-only TVs that receive programming through an antenna will require a converter box to continue to receive over-the-air TV. Some broadcast stations may transition earlier, so you should check with your local broadcast stations to confirm when they will turn off their analog signal and switch to digital-only broadcasting.

TVs connected to FiOS® TV will not be affected by the broadcast DTV transition.

Analog-only TVs should also continue to work as before to receive low power, Class A or translator television stations and with cable and satellite TV services, gaming consoles, VCRs, DVD players, and similar products.

Information about obtaining subsidized coupons for the government's converter box program can be obtained at [www.ntiadv.gov](http://www.ntiadv.gov), [www.dtv2009.gov](http://www.dtv2009.gov) or by calling 1-888-DTV-2009, or 1-877-530-2634 (TTY). More information about the broadcast DTV transition in general is available at your local television stations, [www.DTV.gov](http://www.DTV.gov) or by calling 1-888-CALL-FCC (voice) or 1-888-TELL-FCC (TTY). You may also contact the DTV Transition Coalition at [www.dtvtransition.org](http://www.dtvtransition.org), or Verizon at 1-888-558-3755 (voice) or 888-558-3770 (TTY).

### Antenna on Your TV? Act Now to Make Sure You Are Prepared.

The nationwide switch to digital television broadcasting will be complete on June 12, 2009, but your local TV stations may switch sooner. Act now to make sure you are prepared. By June 12, 2009, analog-only TVs that receive programming through an antenna will require a converter box to continue to receive over-the-air TV. Some broadcast stations may transition earlier, so you should check with your local broadcast stations to confirm when they will turn off their analog signal and switch to digital-only broadcasting.

TVs connected to FiOS® TV will not be affected by the broadcast DTV transition.

Analog-only TVs should also continue to work as before to receive low power, Class A or translator television stations and with cable and satellite TV services, gaming consoles, VCRs, DVD players, and similar products.

Information about obtaining subsidized coupons for the government's converter box program can be obtained at [www.ntiadtv.gov](http://www.ntiadtv.gov), [www.dtv2009.gov](http://www.dtv2009.gov) or by calling 1-888-DTV-2009, or 1-877-530-2634 (TTY). More information about the broadcast DTV transition in general is available at your local television stations, [www.DTV.gov](http://www.DTV.gov) or by calling 1-888-CALL-FCC (voice) or 1-888-TELL-FCC (TTY). You may also contact the DTV Transition Coalition at [www.dtvtransition.org](http://www.dtvtransition.org), or Verizon at 1-888-558-3755 (voice) or 888-558-3770 (TTY).

### Dial Dig Safe Before You Dig

It takes only one call to the Dig Safe Center to notify all member utility companies of your excavation work. To prevent harm to underground telephone, gas, electric or cable facilities, you need to call ahead of time. Massachusetts requires three business days prior notice. For information, call toll free 1 888 DIG SAFE (1 888 344-7233), or visit the Dig Safe web site at [www.digsafe.com](http://www.digsafe.com)

If there are underground facilities in your area, the utility company will identify their location for you. This will eliminate the possibility of damage and save you the expense of costly repairs. Remember to call ahead, and to pre-mark with white lines.

**Information for Massachusetts Customers about Major Extended Service Outages.**

In the event of a major extended service outage, Verizon offers customers several service options to assist them during the outage. A major extended service outage is defined as one affecting 200 or more customers for more than 48 hours. These options can be arranged by contacting Verizon repair service.

**Intercept.** This service will forward incoming calls to a recorded message informing the caller that the line is out of service, and is being repaired by Verizon. Intercept is available in all areas.

**Call Forwarding.** This service will transfer your incoming calls to a telephone number of your choice. (For calls forwarded to toll areas, applicable toll charges will be billed to your account). With this service, callers to your number won't know that their calls are being forwarded. This service is available in all areas.

**Call Answering.** This service provides small business or residence customers with the capability to receive and store voice messages, and to retrieve them by using a touch tone telephone. Call Answering is not available in all areas.

**Medical Emergencies.** A residence service customer with a critical medical condition may submit a doctor's letter verifying the need for telephone service to: Verizon Customer Sales and Service Center 350 Granite Street 3F Braintree MA 02184.

In case of a major extended service outage, Verizon will provide a cellular telephone to customers with a verified medical need. Cellular service may not be available in all areas.

**Changes in Federal Charges Beginning on or about July 1, 2009**

Effective on or about July 1, 2009, the Federal Subscriber Line Charge may change on your main phone line and on any additional phone line. This charge helps pay for the costs of providing and maintaining the local network.

In addition, your Federal Universal Service Fund (FUSF) surcharge may change effective on or about July 1, 2009. The FUSF surcharge, which is authorized by the FCC and reviewed quarterly, provides funding for programs to keep local telephone rates affordable for all customers and to provide discounts to schools, libraries, rural health care providers and low-income families.

**Call Referral Products**

With your April bill, you received notice about the new Call Referral Service offerings for Extended Basic, Split Referral, and Call Messenger. These services and charge have been delayed and we will notify you before they take effect.

### Verizon Caller ID Service Blocking Options

#### Concerned About Privacy?

Customers who subscribe to Verizon Caller ID Service have a special display device on which they see the name and telephone number of incoming calls before answering them. You may be concerned about your privacy and may not want your name and telephone number to be seen by the person you are calling. In response to this concern, Verizon offers you two ways to prevent the display of your name and telephone number: Per-Call Blocking and Line Blocking.

Per-Call Blocking is available at no charge and will prevent the display of your name and telephone number on the Caller ID Service display device. Your line is already equipped for Per-Call Blocking. All you have to do is press \*67 (dial 1167 on a rotary phone) before dialing the number.

Line Blocking is also available at no charge. Once added to your line, Line Blocking automatically prevents the display of your name and telephone number on all calls to Caller ID Service subscribers. Line Blocking can be deactivated on a call-by-call basis by simply pressing \*82 (dial 1182 on a rotary phone) before making a call.

To order Line Blocking, business customers should call 1 800 941-9900 between 8:30 am and 5 pm, Monday through Thursday, or between 9 am and 5 pm on Friday. If you have more than one telephone number, please be sure to list all numbers you wish to have the Line Blocking option.

To verify that the Line Blocking option has been activated and is working on your number(s), call the automated Line Blocking test number at 1 888 599-2927 (toll free), 24 hours a day, seven days a week. This call must be made from the number you want verified.

Note: Caller ID Service is available in most areas. Line Blocking and Per-Call Blocking do not prevent the delivery of your number when you place a call to 800, 855, 866, 877, 888 and 900 numbers, or on calls made to Enhanced 911, where available.

In the event of a major extended service outage, Verizon offers customers several service options to assist them during the outage. A major extended service outage is defined as one affecting 200 or more customers for more than 48 hours. These options can be arranged by contacting Verizon repair service.

**Intercept.** This service will forward incoming calls to a recorded message informing the caller that the line is out of service, and is being repaired by Verizon. Intercept is available in all areas.

**Call Forwarding.** This service will transfer your incoming calls to a telephone number of your choice. (For calls forwarded to toll areas, applicable toll charges will be billed to your account). With this service, callers to your number won't know that their calls are being forwarded. This service is available in all areas.

**Call Answering.** This service provides small business or residence customers with the capability to receive and store voice messages, and to retrieve them by using a touch tone telephone. Call Answering is not available in all areas.

**Medical Emergencies.** A residence service customer with a critical medical condition may submit a doctor's letter verifying the need for telephone service to: Verizon Customer Sales and Service Center 350 Granite Street 3F Braintree MA 02184.

#### **Bankruptcy Information**

If you are subject to pending bankruptcy proceedings or if you received a bankruptcy discharge, and if this statement includes charges for service prior to the filing of your bankruptcy petition, Verizon is providing the pre-bankruptcy charges for your information only and you should not pay those pre-bankruptcy charges. Please direct all correspondence concerning any bankruptcy to PO Box 3037, Bloomington, IL 61702.

#### **Centrex Plus With Assume Dial 9 (Custopak) Rate Update**

With expiration of your prior contract, your monthly recurring charge for Centrex Plus With Assume Dial 9 (Custopak) service should have been billed at \$27/line for month- to-month service. Absent a new contract that modifies the pricing for this service, this and future bills will show this rate. If you would like to purchase a new contract for Centrex Service, please contact your Verizon service representative. We apologize for any inconvenience.

#### **Closed Captioning Concerns or Complaints?**

If you are having a concern with closed captioning on a program you are currently watching, you may contact Verizon at 1-888-553-1555, via email at [videoclosedcaption@verizon.com](mailto:videoclosedcaption@verizon.com), or via facsimile at 1-888-806-7026. If you have a written closed captioning complaint, you may write to us at Verizon, PO Box 33052, 821 1st Ave N, St. Petersburg, FL 33701 Att: Dan Bennett, Director, fax 1-888-806-7026, or via email at [videoclosedcaption@verizon.com](mailto:videoclosedcaption@verizon.com).

#### **Consumer Information About Pay-Per-Call Services**

Calls to interstate 900 numbers, accessed through a long distance company, are billed in a section of the phone bill called Pay-Per-Call Services. Also, calls to telephone numbers in Massachusetts beginning with 550, 554, 920, 940 and 976 are pay-per-call services. The Information Provider determines the rates for these calls. Irresponsible calling to these numbers can result in unexpectedly high bills.

The Telephone Disclosure and Dispute Resolution Act assures that your basic and long distance service will not be disconnected for failure to pay disputed 900-call charges. If you think you've been incorrectly billed for calls to 900 numbers, call the number listed on the page of your phone bill where the charges in question appear. Charges must be disputed within 60 days of receiving your bill. The billing company must follow the billing regulations or forfeit any disputed amount (up to \$50.00 per call). You may withhold payment of the disputed amount and collection of that amount will be suspended during the investigation. If you fail to pay legitimate charges, access to 900 numbers may be denied. Further collection action may be taken by the Information Provider.

Selective Blocking Service prevents calls to pay-per-call numbers from your telephone line and is available at no charge. If you would like to order this service, please call 1 800 870-9999, toll-free, weekdays from 8 a.m. to 6 p.m. Deaf and Hard-of-Hearing customers should call 1 800 974-6006 (V/TTY).

#### **Changes in Federal Charges Beginning on or about January 1, 2010**

Effective on or about January 1, 2010, the Federal Subscriber Line Charge may change on your main phone line and on any additional phone line. This charge helps pay for the costs of providing and maintaining the local network.

In addition, your Federal Universal Service Fund (FUSF) surcharge may change effective on or about January 1, 2010. The FUSF surcharge, which is authorized by the FCC and reviewed quarterly, provides funding for programs to keep local telephone rates affordable for all customers and to provide discounts to schools, libraries, rural health care providers and low-income families.

#### **Important business rate information**

Effective with your March bill, Verizon will collect a monthly fee of \$1.47 per telephone line for business dial tone line customers, \$1.47 per system for ISDN Basic Rate Interface, \$7.35 per port for ISDN Primary Rate Interface customers and \$35.28 per port for Flexpath customers. These fees are intended to help defray the cost of a new local property tax that Massachusetts cities and towns now levy on Verizon's telephone poles and wires located on public property. State law permits but does not require Verizon to pass along this new local tax.

Effective on or about April 1, 2010, the Federal Subscriber Line Charge may change on your main phone line and on any additional phone line. This charge helps pay for the costs of providing and maintaining the local network.

In addition, your Federal Universal Service Fund (FUSF) surcharge may change effective on or about April 1, 2010. The FUSF surcharge, which is authorized by the FCC and reviewed quarterly, provides funding for programs to keep local telephone rates affordable for all customers and to provide discounts to schools, libraries, rural health care providers and low-income families.

**Important Federal Subscriber Line Charge Information**

Effective on or about July 1, 2010, the Federal Subscriber Line Charge may change on your main phone line and on any additional phone line. This charge helps pay for the costs of providing and maintaining the local network.

In addition, your Federal Universal Service Fund (FUSF) surcharge may change effective on or about July 1, 2010. The FUSF surcharge, which is authorized by the FCC and reviewed quarterly, provides funding for programs to keep local telephone rates affordable for all customers and to provide discounts to schools, libraries, rural health care providers and low-income families.

**Verizon Caller ID Service Blocking Options**

Customers with Verizon Caller ID Service have a special display device used to see the name and telephone number of incoming calls before answering them. You may be concerned about your privacy and may not want your name and number to be seen by the person you are calling. In response to this concern, Verizon offers you two ways to prevent the display of your name and number: Per-Call Blocking and Line Blocking.

Per-Call Blocking is available at no charge and will prevent the display of your name and telephone number on the Caller ID Service display device. Your line is already equipped for Per-Call Blocking. All you have to do is press \*67 (dial 1167 on a rotary phone) before dialing the number. Line Blocking is also available at no charge. Once added to your line, Line Blocking automatically prevents the display of your name and telephone number on all calls to Caller ID Service subscribers. Line Blocking can be deactivated on a call-by-call basis by simply pressing \*82 (dial 1182 on a rotary phone) before making a call. To order Line Blocking, business customers should call 1 800 941-9900 between 8:30 am and 5 pm, Mon.through Thurs., or between 9 am and 5 pm on Friday. If you have more than one telephone number, list all numbers you wish to have the Line Blocking option. To verify that the Line Blocking option has been activated and is working on your number(s), call the automated Line Blocking test number at 1 888 599-2927 (toll free), 24 hours a day, seven days a week. This call must be made from the number you want verified.

Note: Caller ID Service is available in most areas. Line Blocking and Per-Call Blocking do not prevent the delivery of your number when you place a call to 800, 855, 866, 877, 888 and 900 numbers, or Enhanced 911, where available.

**Information for Massachusetts Customers about Major Extended Service Outages**

In the event of a major extended service outage, Verizon offers customers several service options to assist them during the outage. A major extended service outage is defined as one affecting 200 or more customers for more than 48 hours. These options can be arranged by contacting Verizon repair service.

- Intercept. This service will forward incoming calls to a recorded message informing the caller that the line is out of service, and is being repaired by Verizon. Intercept is available in all areas.
- Call Forwarding. This service will transfer your incoming calls to a telephone number of your choice. (For calls forwarded to toll areas, applicable toll charges will be billed to your account). With this service, callers to your number won't know that their calls are being forwarded. This service is available in all areas.
- Call Answering. This service provides small business or residence customers with the capability to receive and store voice messages, and to retrieve them by using a touch tone telephone. Call Answering is not available in all areas.

**Medical Emergencies.** A residence service customer with a critical medical condition may submit a doctor's letter verifying the need for telephone service to: Verizon Customer Sales and Service Center 350 Granite Street 3F Braintree MA 02184. In case of a major extended service outage, Verizon will provide a cellular telephone to customers with a verified medical need. Cellular service may not be available in all areas.

**Dial Dig Safe Before You Dig**

It takes only one call to the Dig Safe Center to notify all member utility companies of your excavation work. To prevent harm to underground telephone, gas, electric or cable facilities, you need to call ahead of time. Massachusetts requires three business days prior notice.

For information, call toll free 1 888 DIG SAFE (1 888 344-7233), or visit the Dig Safe web site at [www.digsafe.com](http://www.digsafe.com)

If there are underground facilities in your area, the utility company will identify their location for you. This will eliminate the possibility of damage and save you the expense of costly repairs.

Remember to call ahead, and to pre-mark with white lines.

#### Information for Massachusetts Customers about Major Extended Service Outages

In the event of a major extended service outage, Verizon offers customers several service options to assist them during the outage. A major extended service outage is defined as one affecting 200 or more customers for more than 48 hours. These options can be arranged by contacting Verizon repair service.

- Intercept. This service will forward incoming calls to a recorded message informing the caller that the line is out of service, and is being repaired by Verizon. Intercept is available in all areas.
- Call Forwarding. This service will transfer your incoming calls to a telephone number of your choice. (For calls forwarded to toll areas, applicable toll charges will be billed to your account). With this service, callers to your number won't know that their calls are being forwarded. This service is available in all areas.
- Call Answering. This service provides small business or residence customers with the capability to receive and store voice messages, and to retrieve them by using a touch tone telephone. Call Answering is not available in all areas.

Medical Emergencies. A residence service customer with a critical medical condition may submit a doctor's letter verifying the need for telephone service to: Verizon Customer Sales and Service Center 350 Granite Street 3F Braintree MA 02184. In case of a major extended service outage, Verizon will provide a cellular telephone to customers with a verified medical need. Cellular service may not be available in all areas.

**Important Universal Service Fund Information**

Effective on or about October 1, 2010, the Federal Subscriber Line Charge may change on your main phone line and on any additional phone line. This charge helps pay for the costs of providing and maintaining the local network.

In addition, your Federal Universal Service Fund (FUSF) surcharge may change effective on or about October 1, 2010. The FUSF surcharge, which is authorized by the FCC and reviewed quarterly, provides funding for programs to keep local telephone rates affordable for all customers and to provide discounts to schools, libraries, rural health care providers and low-income families.

**855 To Be Used As A Toll Free NPA Effective October 2, 2010**

The FCC has authorized use of the 855 NPA for toll free services, in addition to the existing 800, 888, 877, and 866 NPAs. Beginning October 2, 2010, if you order new or additional toll free services, you may be assigned a toll free number beginning in 855. If your telephone equipment or call analysis software includes programming to recognize toll free numbers, please be advised that it may be necessary to contact your equipment or software provider to update programming to recognize 855 as a valid toll free NPA. For more information please contact your Verizon account representative.

As a valued Verizon customer, it is important that you are aware of developments affecting your service. Effective January 20, 2011, the standard Term and Volume plan for PRI Interface Arrangement and Access Facility will only be available to existing customers at existing locations through the end of their current term commitment period. After January 20, 2011, customers will not be able to make any modifications to their standard Term and Volume plan for PRI Interface Arrangement and Access Facility.

Verizon offers other alternatives to the standard Term and Volume plan, including the Term and Volume II Package and PRI Plus options which provide the same functionality as the standard Term and Volume plan, but at potentially lower, more competitive monthly rate.

If you have questions concerning your PRI Service, your eligibility for converting your current plan to an alternative term and volume plan, or if you want additional information regarding this change to the standard Term and Volume plan, please contact your local Sales Representative or call us toll free at 1 800 VERIZON.
