RE: Access Point, Inc.
Tariff Revision - M.D.T.E. Tariff No. 3 (Access)

Dear Ms. Williams:

Enclosed for filing please find the original and one (1) copy of the above-referenced tariff filing submitted on behalf of Access Point, Inc. This filing, made in compliance with the requirements of the Federal Communications Commission Report and Order in WC Docket No. 10-90, etc., FCC No. 11-161, implements the second phase of Intercarrier Compensation transition by setting terminating switched access rates to mirror interstate access rates and rate structure. This filing also revises text for the Identification and Rating of VoIP-PSTN Traffic. The Company respectfully requests an effective date of July 1, 2013 for this filing. *A check in the amount of \$100.00 is enclosed for payment of the filing fee.*

The following tariff pages are included with this filing:

- 5th Revised Page 2 Updates Check Sheet
- 2nd Revised Page 23 Revises text for Identification and Rating of VoIP-PSTN Traffic
- 1st Revised Pages 23.1, 23.2 Revises text for Identification and Rating of VoIP-PSTN Traffic
- 5th Revised Page 59 Reduces End Office Intrastate Terminating Access Rates

A copy of this filing has also been submitted via email to DPU.efiling@state.ma.us.

Please acknowledge receipt of this filing by date-stamping the extra copy of this cover letter and returning it to me in the self-addressed, stamped envelope provided for that purpose. Any questions you may have regarding this filing should be directed to my attention at 407-740-3001 or via email to tforte@tminc.com. Thank you for your assistance in this matter.

Sincerely,

Thomas M. Forte
Consultant to Access Point, Inc.

By: Jason Brown, Regulatory Affairs 1100 Crescent Green, Suite 109 Cary, North Carolina 27518	MAA1301

SECTION 2 - RULES AND REGULATIONS, (CONT'D)

2.9 Obligations of the Customer (Continued)

2.9.2 (continued)

(d) Jurisdictional Audits (continued)

- 4) Should an audit reveal that the misreported percentage(s) of use has resulted in an underpayment of access charges to the Company of five percent or more of the total Switched Access Services bill, the customer shall reimburse the Company for the cost of the audit. Proof of cost shall be the bills, in reasonable detail submitted to the Company by the auditor.
- 5) Within 15 days of completion of the auditor's report, the Company will furnish a copy of the audit results to the person designated by the customer to receive such results.

2.9.3 Identification and Rating of VoIP-PSTN Traffic

(a) Scope

Relevant VoIP-PSTN Traffic is the traffic exchanged in time division multiplexing ("TDM") format that originates and/or terminates in Internet protocol ("IP") format. This section governs the identification of VoIP-PSTN Traffic that is required to be compensated at interstate access rates (unless the parties have agreed otherwise) by the Federal Communications Commission in its Report and Order in WC Docket Nos. 10-90 et. al., FCC No. 11-161, as Amended and Revised, (November 18, 2011) ("FCC Order"). Specifically, this section establishes the method of separating such traffic (referred to in this tariff as "Relevant VoIP-PSTN Traffic") from the Customer's traditional intrastate access traffic, so that such Relevant VoIP-PSTN Traffic can be billed in accordance with the FCC Order. (T)

(b) Rating of Relevant VoIP-PSTN Traffic (T)

The Relevant VoIP-PSTN Traffic identified in accordance with this tariff section will be billed in accordance with the Company's applicable interstate switched access rates in Tariff FCC No. 2 and Section 3.9.3 (A) following. (T)

(D)

Issued: May 31, 2013

Effective: July 1, 2013

By:

Jason Brown, Regulatory Affairs
1100 Crescent Green, Suite 109
Cary, North Carolina 27518

MAa1301

SECTION 2 - RULES AND REGULATIONS, (CONT'D)

2.9 Obligations of the Customer (Continued)

2.9.3 Identification and Rating of VoIP-PSTN Traffic (continued)

(c) Calculation and Application of Percent-VoIP-PSTN-Usage Factor

The Company will determine the number of Relevant VoIP-PSTN Traffic minutes of use ("MOU") to which interstate rates will be applied under subsection (B), above, by applying a Percent VoIP Usage ("PVU") factor to the total intrastate access MOU (however determined - either based on call detail information or PIU) exchanged between the Company and the Customer. The PVU will be derived and applied as follows: (T)

1. The Customer will calculate and furnish to the Company a factor (the "PVU-A") representing the whole number percentage of the total access MOU that the Customer exchanges with the Company in the State, that (a) is sent to the Company and that originates in IP format; or (b) is received from the Company and terminates in IP format. This PVU-A shall be based on information such as the number of the Customer's retail VoIP subscriptions in the state (e.g., as reported on FCC Form 477), traffic studies, actual call detail, or other relevant and verifiable information.
2. Company will, likewise, calculate a factor (the "PVU-B") representing the percentage of the Company's total access MOU in the State that the Company originates or terminates in IP format. This PVU-B shall be based on information such as the number of the Company's retail VoIP subscriptions in the state (e.g., as reported on FCC Form 477), traffic studies, actual call detail, or other relevant and verifiable information.
3. The Company will use the PVU-A and PVU-B factors to calculate an effective PVU factor that represents the percentage of total access MOU exchanged between the Company and the Customer that is originated and/or terminated in IP format, whether at the Company's end, at the Customer's end, or at both ends. The effective PVU factor will be calculated as the sum of: (A) the PVU-A factor and (B) the PVU-B factor times (1.0 minus the PVU-A factor).

Issued: May 31, 2013

By:

Jason Brown, Regulatory Affairs
1100 Crescent Green, Suite 109
Cary, North Carolina 27518

Effective: July 1, 2013

MAa1301

SECTION 2 - RULES AND REGULATIONS, (CONT'D)

2.9 Obligations of the Customer (Continued)

2.9.3 Identification and Rating of VoIP-PSTN Traffic (continued)

(c) Calculation and Application of Percent-VoIP-PSTN-Usage Factor (continued)

4. The Company will apply the effective PVU factor to the total intrastate access MOU exchanged with the Customer to determine the number of Relevant VoIP-PSTN Traffic MOUs. (T)

Example 1: The PVU-B is 10% and the PVU-A is 40%. The effective PVU factor is equal to $40\% + (10\% \times 60\%) = 46\%$. The Company will bill 46% of the Customer's intrastate access MOU in accordance with the Company's applicable interstate switched access tariff.

Example 2: The PVU-B is 10% and the PVU-A is 0%. The effective PVU factor is $0\% + (100\% \times 10\%) = 10\%$. The Company will bill 10% of the Customer's intrastate access MOU in accordance with the Company's applicable interstate switched access tariff.

Example 3: The PVU-A is 100%. No matter what the PVU-B factor is, the effective PVU is 100%. The Company will bill 100% of the Customer's intrastate access MOU in accordance with the Company's applicable interstate switched access tariff.

5. If the Customer does not furnish the Company with a PVU-A pursuant to the preceding paragraph 1, the Company will utilize an effective PVU equal to the PVU-B.
6. The Customer shall not modify their reported PIU factor to account for VoIP-PSTN Traffic.

RE: ACN Communication Services, Inc.
Revision for M.D.T.E. Tariff No. 3 (Access)

Dear Ms. Williams:

Enclosed for filing please find the original and one (1) copy of the above referenced tariff filing submitted on behalf of ACN Communication Services, Inc. This filing, made in compliance with the requirements of the Federal Communications Commission Report and Order in WC Docket No. 10-90, *et. al.*, FCC No. 11-161, implements the second phase of intercarrier compensation transition by setting terminating switched access rates at parity with interstate access rates and rate structure. The Company respectfully requests an effective date for this filing of July 1, 2013.

The following tariff pages are included:

- 4th Revised Page 2 Updates Check Sheet
- 1st Revised Page 25.1 Revises Rating of Toll VoIP-PSTN Traffic

SECTION 2 - RULES AND REGULATIONS, (CONT'D.)

2.9 Obligations of the Customer (Continued)

2.9.3 Identification and Rating of Toll VoIP-PSTN Access Traffic

A. Scope

Toll VoIP-PSTN Traffic is the traffic exchanged in time division multiplexing ("TDM") format that originates and/or terminates in Internet protocol ("IP") format. This section governs the identification of Toll VoIP-PSTN Traffic that is required to be compensated at the lower of intrastate or interstate access rates (unless the parties have agreed otherwise) by the Federal Communications Commission in its Report and Order in WC Docket Nos. 10-90 et. al., FCC No. 11-161 (November 18, 2011) ("FCC Order") and the FCC's Second Order on Reconsideration (April 25, 2012) ("Second Order"). Specifically, this section establishes the method of separating such traffic (referred to in this tariff as "Relevant VoIP-PSTN Access Traffic") from the Customer's traditional intrastate access traffic, so that such Relevant VoIP-PSTN Access Traffic can be billed in accordance with the FCC Order and Second Order.

B. Rating of Toll VoIP-PSTN Access Traffic

The Relevant VoIP-PSTN Traffic identified in accordance with this tariff section will be billed as follows:

1. Between December 29, 2011 and September 8, 2012, the applicable rate elements used in providing access for Relevant VoIP PSTN Traffic that originates on the Company's network for termination to the Customer's end users (originating traffic) will be billed at the rates listed below:

Direct Transport, per minute	\$0.0024060
Direct/Tandem Combination, per minute	\$0.0056920

2. Beginning September 8, 2012 through June 30, 2014, the applicable rate elements used in providing access for Relevant VoIP PSTN Traffic that originates on the Company's network for termination to the Customer's end users (originating traffic) will be billed at intrastate access rates, as set forth in Section 3.9.3.A following.
3. Beginning July 1, 2014 the applicable rate elements used in providing access for Relevant VoIP PSTN Traffic that originates on the Company's network for termination to the Customer's end users (originating traffic) will be billed at the rates for terminating traffic set forth in Section 3.9.

RE: **BullsEye Telecom, Inc.**
Replacement Page for Revision to M.D.T.E. Tariff No. 2 (Access)

Dear Ms. Williams:

Enclosed for filing please find the original and one (1) copy of the above referenced replacement tariff revision page submitted on behalf of BullsEye Telecom, Inc. This filing, made pursuant to the request of Armine Simonyan, Economist, adds text recommended for clarification of the Company's terminating switched access rates.

The following tariff page is included:

3rd Revised Page 60 Adds Note on Terminating Switched Access Rates

This filing has also been submitted via email to DPU.efiling@state.ma.us.

Please acknowledge receipt of this filing by date-stamping the extra copy of this cover letter and returning it to me in the self-addressed, stamped envelope provided for that purpose. Any questions you may have regarding this filing should be directed to my attention at 407-740-3002 or via email to cwightman@tminc.com. Thank you for your assistance in this matter.

RE: **BullsEye Telecom, Inc.**
Revision for M.D.T.E. Tariff No. 2 (Access)

Dear Ms. Williams:

Enclosed for filing please find the original and one (1) copy of the above referenced tariff filing submitted on behalf of BullsEye Telecom, Inc. This filing, made in compliance with the requirements of the Federal Communications Commission Report and Order in WC Docket No. 10-90, *et. al.*, FCC No. 11-161, implements the second phase of intercarrier compensation transition by setting terminating switched access rates at parity with interstate access rates and rate structure. Additionally, language under Identification and Rating of VoIP-PSTN Traffic is updated. The Company respectfully requests an effective date for this filing of July 1, 2013.

The following tariff pages are included:

- 5th Revised Page 2 Updates Check Sheet
- 1st Revised Page 24.1 Revises Identification & Rating of Toll VoIP-PSTN Traffic
- 1st Revised Page 24.2 Revises Identification & Rating of Toll VoIP-PSTN Traffic
- 1st Revised Page 24.4 Deletes Initial PVU Factor
- 2nd Revised Page 38 Deletes Note
- 1st Revised Page 59 Deletes Direct Trunked Transport, Revises Tandem Switched Transport Note 1 Text, Adds Note 2
- 3rd Revised Page 60 Reduces Terminating Switched Access Rates, Deletes Note
- 1st Revised Page 62 Adds Text on Service Order Charges

Also enclosed is a check in the amount of \$100.00 to cover the filing fee. This filing has been submitted via email to DPU.efiling@state.ma.us.

Please acknowledge receipt of this filing by date-stamping the extra copy of this cover letter and returning it to me in the self-addressed, stamped envelope provided for that purpose. Any questions you may have regarding this filing should be directed to my attention at 407-740-3002 or via email to cwrightman@tminc.com. Thank you for your assistance in this matter.

SECTION 2 - RULES AND REGULATIONS, (CONT'D)

2.9 Obligations of the Customer (Continued)

2.9.3 Identification and Rating of Toll VoIP-PSTN Traffic (Continued)

(b) Rating of Toll VoIP-PSTN Traffic (Continued)

- (2) Beginning July 13, 2012 through June 30, 2014, the applicable rate elements used in providing access for Relevant VoIP PSTN Traffic that originates on the Company's network for termination to the Customer's end users (originating traffic) will be billed at intrastate access rates, as set forth in Section 3.9 following.
- (3) Beginning July 1, 2014 the applicable rate elements used in providing access for Relevant VoIP PSTN Traffic that originates on the Company's network for termination to the Customer's end users (originating traffic) will be billed at the rates set forth in (1) above.
- (4) Beginning December 29, 2011, the applicable rate elements used in providing access for Relevant VoIP PSTN Traffic that originates from the Customer's end users and terminates on the Company's network (terminating traffic) will be billed at rates set forth in 3.9.3B. (T)

(c) Calculation and Application of Percent-VoIP-PSTN-Usage Factor

The Company will determine the number of Relevant VoIP-PSTN Traffic minutes of use ("MOU") to which interstate rates will be applied under Section 2.9.3 (b), above, by applying a Percent VoIP Usage ("PVU") factor to the total intrastate access MOU (however determined – either based on call detail information or PIU) exchanged between the Company and the Customer, until July 20, 2012 and after June 30, 2014. From July 20, 2012 through June 30, 2014, the PVU will be applied to only the terminating intrastate access MOU. The PVU will be derived and applied as follows:

- 1) Except as otherwise provided in Section 2.9.3 (c) 3) below, the Customer will calculate and furnish to the Company a factor (the "PVU-A") representing the whole number percentage of the total intrastate access MOU that the Customer exchanges with the Company in the State, that (a) is terminating access sent to the Company and that originates in IP format; or (b) is originating access received from the Company and terminates in IP format until July 20, 2012 and after June 30, 2014. From July 20, 2012 through June 30, 2014, the PVU will represent only the terminating intrastate access MOU. This PVU-A shall be based on information such as the number of the Customer's retail VoIP subscriptions in the state (e.g., as reported on FCC Form 477), traffic studies, actual call detail, or other relevant and verifiable information. (T)

Charter Fiberlink MA-CCO, LLC

Issue Date: July 23, 2013

Effective Date: August 22, 2013

Regulations, Rates and Charges applying to the provision of intrastate Access Services within the serving areas of Charter Fiberlink MA - CCO, LLC

7.1.1. Local Switching

Local Switching

Local Switching provides local end office switching and end user termination functions necessary to complete the transmission of switched access communications to and from the end users served by the local end office.

Rates apply to all FGD access minutes that originate from or terminate to the Telephone Company's end office (equal access) and to all FGB access minutes that terminate to the Telephone Company's end office.

Rates and Charges	Originating	Terminating	(C)
Local Switching Per MOU 9102 Verizon New England Inc.	\$0.002302 ¹	\$0.002297	(I)

Shared End Office Trunk Port Charge

The Shared End Office Trunk Port provides for the termination of a Tandem-Switched Trunk at an end office. The Shared End Office trunk Port is usage rated and shall be assessed to all access minutes that utilize Tandem-Switched Transport.

When Tandem-Switched Transport is provided by more than one company, the Shared End Office Trunk port charge shall be bill by the Telephone Company in whose territory the end office is located.

Rates and Charges	Originating	Terminating	(C)
Shared End Office Trunk Port Per MOU 9102 - Verizon New England Inc.	\$0.0016880 ¹	\$0.0016880 ¹	(I)

7.1.2. Transport

Tandem Switched Transport

Tandem-Switched Transport consists of the circuits used in common by multiple customers from the LEC's access tandem to the Telephone Company's end office. The Tandem-Switched Transport Rate includes four sub-elements: a Tandem-Switched Transport – Termination rate, a Tandem-Switched Transport rate, a Tandem Switch Rate and a Shared Multiplexing rate. The third sub-element, Tandem Switch Rate does not apply for Telephone Company's current Network Configuration. The other sub-elements are provide below:

1. The Tandem-Switched Transport – Termination element is a usage rated, per minute.

¹ Charter Fiberlink MA – CCO, LLC intrastate rates mirror the rates found in The Verizon Telephone Company Tariff M.D.T.E. No. 15.

**Issued By: Betty Sanders, Director-Regulatory Affairs
12405 Powerscourt Drive, St. Louis, MO 63131
Charter Fiberlink MA-CCO, LLC**

Regulations, Rates and Charges applying to the provision of intrastate Access Services within the serving areas of Charter Fiberlink MA - CCO, LLC

Rate to recover costs incurred at the ends of the transmissions links.

- 2. The Tandem-Switched Transport element is usage rated and distance-sensitive, i.e., a per access minute per airline mile rate. The rate recovers costs of the transmission facilities, including intermediate transmission circuit equipment, between the end-points of the circuits.

Territory Rates and Charges	Originating	Terminating	(C)
Tandem Switched Transport – Termination			(C)
9102 Verizon New England Inc. Per Access Minute, Per Mile	\$0.0000000 ¹	\$0.0000000 ¹	
Tandem Switched Transport - Facility			(C)
9102 Verizon New England Inc. Per Access Minute of Use	\$0.0000020 ¹	\$0.0000020 ¹	(R)

7.2. Ordering Charges

7.2.1. Access Order Charge

A nonrecurring, per occurrence charge assessed for the processing of access orders, is applied per access order for the installation, addition, change, rearrangement or move of Access Services.

Rates and Charges - Massachusetts

Access Order Charge

Non-Recurring Charge	\$100.00
----------------------	----------

7.2.2. Design Change Charge

A nonrecurring per occurrence charge is assessed for any change to an access order that requires an engineering review or reevaluation of facilities needed in order to implement the requested access service.

In the case of a Customer-initiated modification of Service, charges for the subsequent orders are in addition to the costs incurred before the Customer changed the original order.

Rates and Charges – Massachusetts

¹ Charter Fiberlink MA – CCO, LLC intrastate rates mirror the rates found in the Verizon Telephone Company Tariff M.D.T.E. No. 15.

RE: Clear Rate Communications, Inc.
M.D.T.C. Tariff No. 2 - Access Tariff Revision

Dear Ms. Williams:

Enclosed for filing please find the original and one (1) copy of the above referenced tariff filing submitted on behalf of Clear Rate Communications, Inc. In compliance with the Federal Communications Commission Report and Order in WC Docket No. 10-90, etc., FCC No. 11-161 (released Nov 18, 2011) ("FCC Order"), this filing makes the required access rate reductions. The Company respectfully requests an effective date for this filing of July 1, 2013.

The following tariff pages are included with this filing:

- 1st Revised Page 2 Updates Check Sheet
- 1st Revised Page 62 Reduces local switching terminating rates

Also enclosed is a check in the amount of \$100.00 for the filing fee. This filing has also been submitted via email to DPU.efiling@state.ma.us.

Please acknowledge receipt of this filing by date-stamping the extra copy of this cover letter and returning it to me in the self-addressed, stamped envelope provided for that purpose. Any questions you may have regarding this filing should be directed to my attention at 407-740-3006 or via email to croesel@tminc.com. Thank you for your assistance in this matter.

Sincerely,

Carey Roesel
Consultant to Clear Rate Communications, Inc.

RE: Conversent Communications of Massachusetts, Inc. d/b/a EarthLink Business
Letter of Compliance with FCC ICC/USF Order - M.D.T.C. Tariff No. 2 (Access Services)

Dear Ms. Williams:

Conversent Communications of Massachusetts, Inc. d/b/a EarthLink Business ("EarthLink") submits this letter affirming its compliance with 47 C.F.R. §51.911, *inter alia* requiring competitive local exchange carriers to set intrastate terminating switched exchange access rates no higher than the carrier's corresponding interstate rates no later than July 1, 2013. EarthLink's Massachusetts intrastate switched access rates are presently set at or below parity to its corresponding interstate rates. Accordingly, EarthLink's July 1, 2013 switched access rate amendments are already in compliance with the requirements of the FCC ICC/USF Report and Order; therefore, no rate reduction is required at this time.

The Company's Federal Access Tariff, FCC Tariff No. 7, can be viewed at the following web address:
<https://apps.fcc.gov/etfs/public/tariff.action?idTariff=509>.

A copy of this letter has also been submitted via email to DPU.efiling@state.ma.us.

Please acknowledge receipt of this filing by date-stamping the extra copy of this cover letter and returning it to me in the self-addressed, stamped envelope provided for that purpose.

Any questions you may have regarding this filing should be directed to my attention at 407-740-3001 or via email to tforte@tminc.com. Thank you for your assistance in this matter.

Sincerely,

Thomas M. Forte
Consultant to Conversent Communications of Massachusetts, Inc.

GENERAL EXCHANGE AND ACCESS SERVICES TARIFF

SECTION 19- VOIP-PSTN TRAFFIC

(N)

19.1 Identification and Rating of VoIP-PSTN Traffic

19.1.1 Scope - This section governs the identification of VoIP-PSTN Traffic that is required to be compensated at interstate access rates (unless the parties have agreed otherwise) by the Federal Communications Commission in its Report and Order in WC Docket Nos. 10-90, etc., FCC Release No. 11-161 (Nov. 18, 2011), as Amended or Revised ("FCC Order"). Specifically, this section establishes the method of separating such traffic (referred to in this tariff as "Relevant VoIP-PSTN Traffic") from the Customer's traditional intrastate access traffic, so that such Relevant VoIP-PSTN Traffic can be billed in accordance with the FCC Order.

19.1.2 Rating of VoIP-PSTN Traffic - The Relevant VoIP-PSTN Traffic identified in accordance with this Section will be billed at rates equal to the lower of the tariffed rates for the Company's switched access services as described in Section 11.1 of this tariff or Section 4 of the Company's FCC access services tariff. Consistent with the FCC Order, charges are assessed by the Company for services provided by the Company and/or by any of its VoIP Provider Partner(s).

19.1.3 Calculation and Application of Percent-VoIP-Usage Factor - the Company will determine the number of Relevant VoIP-PSTN Traffic minutes of use ("MOU") to which interstate rates will be applied under section 19.1.2 above, by applying a Percent VoIP Usage ("PVU") factor to the total intrastate access MOU (however determined - either based on call detail information or PIU) exchanged between the Company and the Customer.

The PVU for traffic will be derived and applied as follows:

- A. The Customer will calculate and furnish to the Company a factor (the "PVU-A") representing the percentage of the total intrastate and interstate access MOU for traffic that the Customer exchanges with the Company in the State, that (a) is sent to the Company and that originates in IP format; or (b) is received from the Company and terminates in IP format. This PVU-A shall be based on information such as the number of the Customer's retail VoIP subscriptions in the state (e.g., as reported on FCC Form 477), traffic studies, actual call detail, or other relevant and verifiable information consistent with the FCC Order.
- B. Company will, likewise, calculate a factor (the "PVU-B") representing the percentage of the Company's total access MOU for traffic in the State that the Company originates or terminates in IP format. This PVU-B shall be based on information such as the number of the Company's retail VoIP subscriptions in the state (e.g., as reported on FCC Form 477), traffic studies, actual call detail, or other relevant and verifiable information consistent with the FCC Order.

(N)

Issued by: Vice President, Tax

Issued: September 4, 2012

Effective: October 4, 2012

GENERAL EXCHANGE AND ACCESS SERVICES TARIFF

SECTION 19 – VOIP-PSTN TRAFFIC (CONT'D.)

(N)

19.1 Identification and Rating of VoIP-PSTN Traffic (Cont'd.)

19.1.3 (Cont'd.)

- C. The Company will use the PVU-A and PVU-B factors to calculate an over-all PVU factor that represents the percentage of total access MOU for service exchanged between the Company and the Customer that is originated or terminated in IP format, whether at the Company's end, at the Customer's end, or at both ends. The PVU factor will be calculated as the sum of: (A) the PVU-A factor and (B) the PVU-B factor times (1.0 minus the PVU-A factor).
- D. The Company will apply the over-all PVU factor to the total service intrastate access MOU exchanged with the Customer to determine the number of Relevant VoIP-PSTN Traffic MOUs for service.

Examples for PVU Factor Calculations:
(The calculation elements in these examples are generic.)

Example 1: The PVU-B is 10% and the PVU-A is 40%. The over-all PVU factor is equal to $40\% + (10\% \times 60\%) = 46\%$. The Company will bill 46% of the Customer's intrastate access MOU as VoIP-PSTN Traffic, pursuant to this Section of this Tariff.

Example 2: The PVU-B is 10% and the PVU-A is 0%. The over-all PVU factor is $0\% + (100\% \times 10\%) = 10\%$. The Company will bill 10% of the Customer's intrastate access MOU as VoIP-PSTN Traffic, pursuant to this Section of this Tariff.

Example 3: The PVU-A is 100%. No matter what the PVU-B factor is, the over-all PVU is 100%. The Company will bill 100% of the Customer's intrastate access MOU as VoIP-PSTN Traffic, pursuant to this Section of this Tariff.

Use of Default Percentages - Company

Where the Company's PVU-B is equal to the percentage of VoIP subscribers in the state based on the FCC's *Local Competition Report*, as released periodically, as set forth in paragraph 963 of the FCC Order (the "Default Percentage"), and the Customer's PVU-A is also equal to the Default Percentage, the PVU factor applicable to traffic exchanged between the Company and the Customer shall be the Default Percentage.

Default PVU Factors - Customer

If the Customer does not furnish the Company with a PVU factor pursuant to the preceding paragraph 19.1.3.A of this Section, the Company will utilize a PVU equal to the Company's PVU-B factor.

(N)

Issued: September 4, 2012

Effective: October 4, 2012

GENERAL EXCHANGE AND ACCESS SERVICES TARIFF

SECTION 19 – VOIP-PSTN TRAFFIC (CONT'D.)

(N)

19.1 Identification and Rating of VoIP-PSTN Traffic (Cont'd.)

19.1.4 Initial PVU Factors - If the PVU factors are not available and/or cannot be implemented in the Company's billing systems by October 4, 2012, once the factors are available and can be implemented the Company will adjust the Customer's bills to reflect the PVUs retroactively to October 4, 2012. In calculating the initial PVUs, the Company will take the Customer-specified PVU-A into account retroactively to October 4, 2012, provided that the Customer provides the factor to the Company no later than November 15, 2012; otherwise, it will set the initial PVU equal to the PVU-B, as specified in subsection 19.1.3.B, above.

19.1.5 PVU Factor Updates - The Customer may update the PVU-A factor quarterly using the method set forth in subsection 19.1.3.A, above. If the Customer chooses to submit such updates, it shall forward to the Company, no later than 15 days after the first day of January, April, July and/or October of each year, a revised PVU-A factor based on data for the prior three months, ending the last day of December, March, June and September, respectively. The Company will use the revised PVU-A to calculate a revised PVU. The revised PVU factor will apply prospectively and serve as the basis for billing until superseded by a new PVU.

19.1.6 PVU Factor Verification - Not more than twice in any year, the Company may ask the Customer to verify the PVU-A factor furnished to the Company and Customer may ask the Company to verify the PVU-B factor and the calculation of the PVU factor. The party so requested shall comply, and shall reasonably provide the records and other information used to determine the respective PVU-A and PVU-B factor.

RE: Cooperative Communications, Inc.
Revision to Massachusetts DTC Tariff No. 2 (Switched Access Services)

Dear Ms. Williams:

Enclosed for filing please find the original and one (1) copy of the above referenced tariff filing submitted on behalf of Cooperative Communications, Inc. This filing is submitted in compliance with Phase II of the ICC reform requirements mandated by Federal Communications Commission Report and Order in WC Docket No. 10-90, etc., FCC No. 11-161 (released Nov 18, 2011). Pursuant to the FCC requirements, this filing revises the Company's intrastate access rates and rate structure to conform to its corresponding interstate rates and rate structure. The Company respectfully requests an effective date of July 1, 2013.

Also enclosed is a check in the amount of \$100.00 to cover the filing fee.

This filing has been submitted via email to DPU.efiling@state.ma.us.

The following tariff pages are included with this filing:

- 1st Revised Page 2 Updates Check Sheet
- 1st Revised Page 54 Revises switched access rate structure and rates
- 1st Revised Page 55 Revises switched access rate structure and rates

Please acknowledge receipt of this filing by date-stamping the extra copy of this cover letter and returning it to me in the self-addressed, stamped envelope provided for that purpose.

Any questions you may have regarding this filing should be directed to my attention at 407-740-3031 or via email to stomas@tminc.com. Thank you for your assistance in this matter.

Sincerely,

Consultant to Cooperative Communications

SECTION 3 – SERVICE AND DESCRIPTION (Cont'd)

3.5 SPECIAL ARRANGEMENTS

3.5.1 Individual Case Basis (ICB) Arrangements

An Individual Case Basis Arrangement will be developed by the Company on a case-by-case basis, in response to a *bona fide* request from a Customer or prospective Customer to develop a competitive bid for a service offered under these schedules. In response to such a competitive request, the Company may offer rates different than those specified for the services in these schedules. ICB rates will be offered to the Customer in writing and on a nondiscriminatory basis. All ICB arrangements will comply and be consistent with the statutory and regulatory requirements set forth in Massachusetts General Law, Chapter 159, and D.T.C. 90-24.

3.5.2 Temporary Promotional Programs

The Company may establish temporary promotional programs, wherein it may waive or reduce nonrecurring or recurring charges, in order to introduce present or potential Customers to the Company's service offerings.

3.6 ACCESS SERVICES

3.6.1 Local Switching

The Local Switching rate category provides the functions necessary to complete the transmission of Switched Access communications to and from the end users served by the local end office. The functions included are:

- a) Local End Office Switching, i.e., the common switching functions associated with the various Switched Access Service arrangements;
- b) The line or trunk side arrangements which terminate the Local Transport facilities at end offices;
- c) Intercept, i.e., the termination of a call at a Telephone Company Intercept operator or recording; and
- d) The terminations for end user lines (common lines).

SECTION 3 – SERVICE AND DESCRIPTION (Cont'd)

3.6 ACCESS SERVICES (Cont'd)

3.6.2 Dedicated End Office Trunk Port

The Dedicated End Office Trunk Port provides for the termination of Direct Trunked Transport trunks at an end office. The Dedicated End Office Trunk Port rate, set forth in Section 4 following, applies per activated trunk for all trunkside services terminating at either analog or digital end offices.

3.6.3 800 Data Base Access Service Customer Identification Charge

The 800 Data Base Access Service Customer Identification Charge, as specified in Section 4 following, applies to each 800 Data Base Access Service call delivered to the customer. The charge is assessed to the customer on a per query basis and may consist of customer identification (i.e., Carrier Identification Code (CIC)), delivery of the dialed 800 ten-digit number, ANI, and the allowable area of service, designated by the customer, from which 800 calls can be received.

RE: CTC Communications Corp. d/b/a EarthLink Business
MDTC Tariff No. 7

Dear Ms. Williams:

Enclosed for filing please find the original and one (1) copy of the above referenced tariff filing submitted on behalf of CTC Communications Corp. d/b/a EarthLink Business. This filing implements the Federal Communications Commission's second phase of the intercarrier compensation restructuring, WC Docket No. 07-135 et al., mirroring interstate access rates and rate structures. The Company respectfully requests an effective date for this filing of July 1, 2013. A check in the amount of \$100.00 is enclosed to cover the filing fee.

The following tariff pages are included with this filing:

- Preface, 4th Revised Page 1 Updates Check Sheet
- Preface, 4th Revised Page 4 Updates Check Sheet
- Section 9, 2nd Revised Page 7 Reduces rate

Please acknowledge receipt of this filing by date-stamping the extra copy of this cover letter and returning it to me in the self-addressed, stamped envelope provided for that purpose. Any questions you may have regarding this filing should be directed to my attention at 407-740-3001 or via email to tforte@tminc.com. Thank you for your assistance in this matter.

Sincerely,

Thomas M. Forte
Consultant to CTC Communications Corp.

*Re: DSCI Corporation
M.D.T.E. Tariff No. 4 – Access Service
Proposed Revisions for effect July 22, 2013*

Dear Ms. Williams:

On June 20, 2013, DSCI Corporation ("DSCI") filed proposed revisions to its M.D.T.E. Tariff No. 4, with an issued date of June 21, 2013 and effective date of July 22, 2013. The tariff revisions were filed in accordance with the Federal Communications Commission's 2011 Report and Order, FCC 11-161 (in Docket Nos. 07-135, 01-92 et al., released November 18, 2011) ("ICC Reform Order") directing the filing of tariff revisions. For your convenience, copies of the revised tariff pages are attached hereto consisting of the following pages:

- Check sheet, section 1 Third Revised Page 4
- Switched access rates and charges, section 3 Third Revised Page 8

These revisions decrease the Transport Mileage Termination – Per minute, per mile rates from \$ 0.00003 to \$ 0.000027. The ICC Reform Order directs local exchange carriers to submit revisions to their intrastate access charges to be effective July 1, 2013. See ICC Reform Order, ¶ 801, Fig. 9; 47 C.F.R. § 51.705(c). Therefore, DSCI respectfully requests expedited treatment in order for these revisions to become effective July 1, 2013 in accordance with the ICC Reform Order.

A check in the amount of \$100.00, payable to "Commonwealth of Massachusetts," is included for the expedited fee associated with the filing of the tariff revisions. An additional copy of this transmittal letter is enclosed, to be date-stamped and returned in the postage prepaid envelope provided.

**Re: DSCI Corporation
Revisions to M.D.T.E. Tariff No. 4 – Access Service**

Dear Ms. Cottrell:

On behalf of DSCI Corporation ("DSCI"), transmitted herewith is the original plus two (2) copies of revisions to its M.D.T.E. Tariff No. 4, the check sheet, section 1 Third Revised page 4, and switched access rates and charges, section 3 Third Revised page 8. Pursuant to Department Rules, the original submission of this filing is submitted on three-hole-punched paper. In addition, a check in the amount of \$100.00, payable to "Commonwealth of Massachusetts," is included for the expedited fee associated with the filing of the tariff revisions. DSCI's M.D.T.E. Tariff No. 4 is issued June 21, 2013 to be effective July 22, 2013 in accordance with the Federal Communications Commission's 2011 Report and Order, FCC 11-161 (in Docket Nos. 07-135, 01-92 et al., released November 18, 2011) directing the filing of tariff revisions.

An additional copy of this transmittal letter is enclosed, to be date-stamped and returned in the postage prepaid envelope provided.

Should there be any questions regarding this filing, kindly contact the undersigned at (703) 714-1319 or via email at mpd@commlawgroup.com.

Re: Letter of Explanation
Granby Telephone LLC d/b/a OTT Communications
Resubmission of Tariff M.D.T.C. No. 8 Proposed Revisions for July 2, 2013

Dear Ms. Williams:

Enclosed please find two (2) copies of proposed revisions to Granby Telephone LLC's d/b/a OTT Communications ("Granby") Tariff M.D.T.C. No. 8, which carries an effective date of July 2, 2013.

After discussions with Staff, Granby requests that its filing dated May 28, 2013 be withdrawn and that the enclosed filing be substituted. Granby has made the administrative changes that Staff requested as well as included all revised terminating rates. Rate increases and decreases are indicated on Sheet 5 with the appropriate symbol, per the Department's tariff rules.

In addition, Granby has enclosed a spreadsheet detailing the calculations associated with its intrastate rates. Due to the sensitive nature of the information contained in this spreadsheet, Granby has provided both a confidential and public version, as well as a Motion from Public Disclosure.

Finally, please find a Motion for Admission Pro Hac Vice for the Department's consideration.

Re: Granite Telecommunications LLC, Tariff Advice Letter No. 6

Dear Ms. Williams:

Enclosed for submission to the Massachusetts Department of Telecommunications and Cable ("Department") are an original, one three-hole punched, and two (2) copies of revised Sheets 2, and 90 for incorporation into Granite Telecommunications Inc. LLC's ("Granite") switched exchange access telecommunications service tariff, Massachusetts D.T.E. Tariff No 2 for incorporation into the Tariff. Also enclosed is the \$100.00 tariff filing fee.

With this submission, Granite complies with the July 1, 2013 interstate access rate benchmarking requirement set forth in Section 51.911(c) of the Federal Communications Commission's ("FCC") rules, 47 C.F.R. § 51.911(c), Access Reciprocal Compensation Rates for Competitive LECs, promulgated under the USF/ICC Transformation Order,¹ as amended, which states in part:

Beginning July 1, 2013, notwithstanding any other provision of the Commission's rules, all Competitive Local Exchange Carrier Access Reciprocal Compensation rates for switched exchange access services subject to this subpart shall be no higher than the Access Reciprocal Compensation rates charged by the competing incumbent local exchange carrier, in accordance with the same procedures specified in §61.26 of this chapter.

¹ *Connect America Fund et al.*, WC Dkt. No. 10-90 *et al.*, Report and Order and Further Notice of Proposed Rulemaking, FCC 11-161 (rel. Nov. 18, 2011) (*USF/ICC Transformation Order*), *pets. for review pending*, *Direct Commc'ns Cedar Valley, LLC v. FCC*, No. 11-9581 (10th Cir. filed Dec. 8, 2011) (and consolidated cases).

PAID
\$100.00 SC

Ms. Catrice Williams

April 26, 2013

Page 2

Granite now establishes separate composite terminating intrastate rates at parity with the corresponding interstate rate, effective July 1, 2013. The Company's originating rates remain unchanged. Granite's interstate rates are currently below the dominant incumbent local exchange carrier's interstate rates.

Please acknowledge receipt of this filing by date-stamping and returning the additional copy of this transmittal letter and tariff pages in the self-addressed, postage-paid envelope provided for this purpose. Thank you for your attention to this matter. Questions may be directed to the undersigned.

Sincerely,

RE: Withdrawal of Access Tariff Filing
Hypercube Telecom, LLC MA D.T.E Tariff No. 2

Dear Ms. Williams:

Pursuant to my conversations with Armine Simonyan, enclosed for filing please find the original and one (1) copy of this request to withdraw the MA D.T.E Tariff No. 2 revisions filed on May 30, 2013. Hypercube Telecom, LLC filed its FCC ordered access tariff revision to be effective July 1, 2013, however, since the Company's composite local switching and tandem switched are already below the interstate level, no rate revisions are required at this time.

Please acknowledge receipt of this filing by date-stamping the extra copy of this cover letter and returning it to me in the self-addressed, stamped envelope provided for that purpose.

Any questions you may have regarding this filing should be directed to my attention at 407-740-3002 or via email to cwightman@tminc.com.

Thank you for your assistance in this matter.

Sincerely,

Connie Wightman
Consultant

RE: Hypercube Telecom, LLC MA D.T.E Tariff No. 2 (Access)

Dear Ms. Williams:

Enclosed for filing please find the original and one (1) copy of the above referenced tariff filing submitted on behalf of Hypercube Telecom, LLC. This filing implements the Federal Communications Commission's second phase of the intercarrier compensation restructuring, WC Docket No. 07-135 et al., mirroring interstate access rates and rate structures. This filing also adds text to Calculation and Application of Percent-VoIP-PSTN Usage Factors. The Company respectfully requests an effective date for this filing of July 1, 2013.

A check in the amount of \$100.00 is enclosed to cover the filing fee.

The following tariff pages are included with this filing:

- 5th Revised Page 2 Updates Check Sheet
- 2nd Revised Page 25.3 Adds text to Calculation and Application of Percent-VoIP-PSTN Usage Factors
- 2nd Revised Page 25.4 Adds text to Calculation and Application of Percent-VoIP-PSTN Usage Factors; moves text
- Original Page 25.4.1 Location for moved text; adds text to Calculation and Application of Percent-VoIP-PSTN Usage Factors
- 2nd Revised Page 46 Refers terminating access rates to Section 4.5.3

Please acknowledge receipt of this filing by date-stamping the extra copy of this cover letter and returning it to me in the self-addressed, stamped envelope provided for that purpose.

Any questions you may have regarding this filing should be directed to my attention at 407-740-3002 or via email to cwightman@tminc.com.

ACCESS SERVICES

SECTION 2 – RULES AND REGULATIONS, (CONT'D.)

2.3 Obligations of the Customer, (Cont'd.)

2.3.5 Identification and Rating of Toll VoIP-PSTN Traffic, (Cont'd.)

D. Rating of Toll VoIP-PSTN Traffic

The relevant Toll VoIP-PSTN Traffic identified in accordance with this tariff section will be billed at rates equal to the Company's applicable tariffed Toll VoIP-PSTN Traffic rates as specified in Section 4.5.3 of this tariff.

E. Calculation and Application of Percent-VoIP-Usage Factor

For the Customer that selects Option 1 – Self Reporting, the Company will determine the number of relevant VoIP PSTN Traffic minutes of use ("MOU") to which interstate rates will be applied under subsection D, above, by applying a Percent VoIP Usage ("PVU") factor to the total intrastate access MOU exchanged between a the Company and the Customer. By default, the effective PVU will be equal to the total number of incumbent LEC and non-incumbent LEC VoIP subscriptions in the State divided by the sum of those reported VoIP subscriptions plus incumbent LEC and non-incumbent LEC switched access lines, based on the FCC's Local Competition Report, as released periodically. If the Customer proposes to use a different PVU, it must be derived and applied as follows:

1. Except as otherwise noted in Section 2.3.5.E.3 below, the Customer will calculate and furnish to the Company a factor (the "PVU-A") representing the whole number percentage of the total terminating intrastate access MOU that the Customer exchanges with the Company in the State, that is sent to the Company and that originated in IP format. Beginning July 1, 2014, the Customer's PVU-A shall be based on access MOU the Customer exchanges with the Company in the State that is (a) sent to the Company that originated in IP format, (b) is received from the Company and terminated in IP format, or (c) indicated via the JIP parameter (RFC-5503). This PVU-A shall be based on information that is verifiable by the Company such as traffic studies, actual call detail, or other relevant and verifiable information. (T)
2. Except as otherwise noted in Section 2.3.5.E.3 below, the Company will, likewise calculate a factor (the "PVU-B") representing the whole number percentage of the Company's total terminating intrastate access MOU in the State that terminates in IP format. Beginning July 1, 2014, the PVU-B shall be based on intrastate access MOU in the State that originates or terminates in IP format . This PVU-B shall be based on information such as the number of the Company's retail VoIP subscriptions in the state (e.g., as reported on the FCC Form 477), traffic studies, actual call detail, or other relevant and verifiable information. (T)

ACCESS SERVICES

SECTION 2 – RULES AND REGULATIONS, (CONT'D.)

2.3 Obligations of the Customer, (Cont'd.)

2.3.5 Identification and Rating of Toll VoIP-PSTN Traffic, (Cont'd.)

E. Calculation and Application of Percent-VoIP-Usage Factor, (Cont'd.)

- 4. The Company will apply the effective PVU factor to the total applicable intrastate access MOU exchanged with the Customer to determine the number of Relevant VoIP-PSTN Traffic MOUs.

Example 1:

The PVU-B is 10% and the PVU-A is 40%. The effective PVU factor is equal to $40\% + (10\% \times 60\%) = 46\%$. The Company will bill 46% of the Customer's applicable intrastate access MOU in accordance with the Company's interstate switched access tariff.

Example 2:

The PVU-B is 10% and the PVU-A is 0%. The effective PVU factor is $0\% + (100\% \times 10\%) = 10\%$. The Company will bill 10% of the Customer's applicable intrastate access MOU in accordance with the Company's interstate switched access tariff.

Example 3:

The PVU-A is 100%. No matter what the PVU-B factor is, the effective PVU is 100%. The Company will bill 100% of the Customer's applicable intrastate access MOU in accordance with the Company's interstate switched access tariff.

In the above examples, the Company will apply the PVU to terminating access from July 22, 2012 through June 30, 2014 and to originating as well as terminating access beginning July 1, 2014.

- 5. The Customer shall not modify their reported PIU factor to account for VoIP-PSTN Traffic.

SERVICE AND RATE DESCRIPTIONS (cont'd.)

3.1 Access Services (cont'd.)

3.1.2 Standard Rate Categories (cont'd.)

Standard Rate Categories (Cont'd.)

(A) End Office Switching

(D)
(C)

The End Office rate category provides the local end office switching and end user termination functions necessary to complete the transmission of Switched Access communications to and from the end users served by the Company's end office. The End Office rate category consists of the Local Switching rate element.

(M)

The Local Switching rate element provides for: a) the use of end office switching equipment; b) the terminations for the end user common lines terminating in the local end office; and c) the termination of a call at a Company Intercept operator or recording. The operator or recording tells a caller why a call, as dialed, could not be completed, and if possible, provides the correct number. Intercept rates are assessed to Customer based on the total number of access minutes.

Automatic Number Identification (ANI) provides the automatic transmission of a seven or ten digit number and information digits to the Customer's premises for calls originating in the LATA, to identify the calling telephone number. The ANI feature is an end office software function which is associated on a call-by-call basis with (1) all individual transmission path in a trunk group routed directly between an end office and a Customer's premises or, where technically feasible, with (2) all individual transmission paths in a trunk group between an end office and an access tandem, and a trunk group between an access tandem and a Customer's premises. The Dedicated Switch Port provides for the termination of Tandem Switched Transport to an end office.

(M)
(C) (M)

Access minutes for all Switched Access Service subject to the Dedicated Switch Port will be multiplied by the per minute rate set forth in Section 5.1.4¹

(C) (M)

SERVICE AND RATE DESCRIPTIONS (cont'd.)

3.1 Access Services (cont'd.)

3.1.2 Standard Rate Categories (Cont'd.)

- (D)
- (B) Tandem Switching (N)
- Tandem Switching is an access service providing transmission and tandem switching between the Customer designated premises and the Company switch(es) where the Customer's traffic is switched from or to an entity other than an End User for purposes of originating or terminating the Customer's communications.
- In addition to Tandem Switching, associated rate elements include:
 - Tandem Switching Transport Termination
 - Tandem Switching Transport Facility
 - Interconnection Charge
- (1) Tandem Switching Transport Termination
This rate element applies to the non-distance sensitive portion of the Tandem Switched Transport for transmission facilities between the Company network and the end office.
- (2) Tandem Switching Transport Facility
This rate element applies to the distance sensitive portion of the Tandem Switched Transport for transmission facilities between the Company network and the end office.
- (3) Interconnection Charge
This rate element will be applied for interconnection with the Company's network for all Switched Access minutes of use that originate or terminate at a Company end office. (N)

SERVICE AND RATE DESCRIPTIONS (cont'd.)

3.1 Access Services (cont'd.)

3.1.2 Standard Rate Categories (cont'd.)

(C) Local Transport (T)

The Local Transport rate category provides for transmission facilities between the Customer's premises or collocated interconnection location and the Company's end office switch(es) where the Customer's traffic is switched to originate or terminate its communications.

Except as stated in the following paragraph, Local Transport service is provided in conjunction with Verizon New England, Inc.. Charges for Local Transport service are computed in accordance with Section 2.6.5 preceding (Ordering, Rating, and Billing of Access Services Where More Than One Exchange Telephone Company Is Involved). For purposes of determining Local Transport Mileage, distance will be measured from the wire center that normally serves the Customer's premises to the end office switch(es).

SERVICE AND RATE DESCRIPTIONS (cont'd.)

3.1 Access Services (cont'd.)

3.1.2 Standard Rate Categories (cont'd.)

(C) Local Transport (cont'd.) (T)

The Company will provide Direct Trunked Transport between a Customer's premises and the Company's end office switch(es) upon request. At the Customer's option, Entrance Facility, Direct Trunked Transport, and STP Link Transport, may be provided by the Company, by the Customer, or by another carrier. If Direct Trunk Transport facilities are terminated at a Company end office switch location by a Customer, or by another carrier on behalf of a Customer, Entrance Facility Termination charges as described in 3.1.2(B)(1) will apply, but no other Local Transport elements will be charged. Where Common Channel Signaling Access is ordered by a Customer that uses Direct Trunk Transport facilities, the STP Port charge as described in 3.1.2(B)(7) will also apply.

The following paragraphs describe the Local Transport rate elements.

- Local Transport - Entrance Facility;
- Common Switched Transport;
- Transport Multiplexing;
- Direct Trunked Transport;
- Interconnection Charge;

SERVICE AND RATE DESCRIPTIONS (cont'd.)

3.1 Access Service (cont'd.)

3.1.2 Standard Rate Categories (cont'd.)

(C) Local Transport (cont'd.) (T)

(1) Local Transport-Entrance Facility

A Local Transport-Entrance Facility provides the communication path between a Customer's premises and the Company serving wire center of that premises for the sole use of the Customer. The Local Transport-Entrance Facility category is comprised of a DS1 rate. A Local Transport-Entrance Facility is required whether the Customer's premises and the serving wire center are located in the same or different buildings.

(2) Local Transport-Common Switched Transport

(a) The Local Transport Termination rate provides for that portion of the voice frequency transmission path at the end office and at the Customer's premises.

(b) The Local Transport Facility rate provides for that portion of the voice frequency transmission path between the end office and at the Customer's premises.

(3) Transport Multiplexing

The Local Transport multiplexing feature allows for a DS3 facility to be channelized into 28 DS1 services or for a DS1 facility to be channelized into 24 Voice Grade or Voice Grade equivalent services. Multiplexing is available at the serving wire center of the customer premises or a collocation location, or at the company's premises. The multiplexing rates and charges are set forth in Section 5.1.4.

3.1 Access Services (cont'd.)

3.1.2 Standard Rate Categories (cont'd.)

(C) Local Transport (cont'd.) (T)

(4) Local Transport- Direct Trunked Transport

The Local Transport-Direct Trunked Transport provides the transmission path from the serving wire center of the Customer's premises to an end office or as an option from the serving wire center to a tandem. This transmission path is dedicated to the use of a single Customer.

The Local Transport-Direct Trunked Transport rate category is comprised of a monthly fixed rate and a monthly per mile rate based on the facility provided. The fixed rate provides the circuit equipment at the ends of the transmission links. The per mile rate provides the transmission facilities, including intermediate transmission circuit equipment, between the end points of the circuit. The Local Transport- Direct Trunked Transport rate is the sum of the fixed rate and the per mile rate. For purposes of determining the per mile rate, mileage shall be measured as airline mileage between the serving wire center of the Customer's premises and the end office or directly to the access tandem using the V&H coordinates method.

3.1.2 Standard Rate Categories (cont'd.)

(C) Local Transport (cont'd.) (T)

(6) Local-Transport Facilities

DS1 facilities are available for Local Transport-Entrance Facilities and for Local Transport-Direct Trunked Transport facilities. A DS1 facility is capable of transmitting electrical signals at a nominal 1.544 Mbps, with the capability to channelize up to 24 voice-frequency transmission paths.

(7) Common Channel Signaling Access

Common Channel Signaling Access (CCSA) is comprised of a STP Port Termination rate and a STP Link Transport rate.

The STP Port Termination rate provides for the point of termination to the signal switching capability of the STP.

The STP Link Transport rate provides for the transmission facilities between the serving wire center of the customer designated premises and the Company STP.

(8) Interface Groups

The Interface Group is provided for terminating the Local Transport at the Customer's premises. The Interface Group provides a specified premises Interface. Where transmission facilities permit, the individual transmission path between the Customer's premises and the first point of switching may at the option of the Customer be provided with optional features.

Interface Group 1 provides DS1 level digital transmission at the point of termination at the Customer's premises. The interface is capable of transmitting electrical signals at a nominal 1.544 Mbps, with the capability to channelize up to 24 voice frequency transmission paths.

Ms. Catrice Williams, Commission Secretary
Massachusetts Department of Telecommunications and Cable
1000 Washington Street - Suite 820
Boston, MA 02118

RE: Lightship Telecom, L.L.C. d/b/a EarthLink Business
Letter of Compliance with FCC ICC/USF Order

Dear Ms. Williams:

Lightship Telecom, L.L.C. d/b/a EarthLink Business submits this letter affirming its compliance with 47 C.F.R. §51.911, *inter alia* requiring competitive local exchange carriers to set intrastate terminating switched exchange access rates no higher than the carrier's corresponding interstate rates no later than July 1, 2013. Lightship Telecom's Massachusetts intrastate switched access rates are presently set at or below parity to its corresponding interstate rates. Accordingly, Lightship Telecom's July 1, 2013 switched access rate amendments are already in compliance, as set forth in the Company's M.D.T.C. Tariff No. 6.

The Company's Federal Access Tariff, FCC Tariff No. 4, can be viewed at the following web address: <https://apps.fcc.gov/etfs/public/tariff.action?idTariff=509>.

Please acknowledge receipt of this filing by date-stamping the extra copy of this cover letter and returning it to me in the self-addressed, stamped envelope provided for that purpose.

Any questions you may have regarding this filing should be directed to my attention at 407-740-3001 or via email to tforte@tminc.com. Thank you for your assistance in this matter.

Sincerely,

Thomas M. Forte
Consultant to Lightship Telecom, L.L.C.

6.4 Presubscribed Interexchange Carrier Charge ("PICC")

The Presubscribed Interexchange Carrier Charge (PICC) is a monthly charge imposed by the Company on IXCs for multi-line business, ISDN-PRI and T-1 Customers served by the Company who subscribe to the IXC's long distance service. For ISDN-PRI and T-1 Customers, the Company will assess five (5) PICC charges per circuit. An IXC selected by the Customer for both their interLATA and intraLATA long distance service will be subject to a single PICC per line. This charge will not be prorated for a partial month of service, is not subject to any discounting and does not contribute to any monthly minimums.

6.4.1 Business Customer

- A. Centrex Lines --A PICC of \$0.87 applies to each Centrex line
- B. Multi-line business - PICC of \$4.36 Per presubscribed multi line business customer line

SWITCHED ACCESS SERVICES

SECTION 7 – VOIP-PSTN TRAFFIC

(N)

7.1 Identification and Rating of VoIP-PSTN Traffic

7.1.1 Scope - This section governs the identification of VoIP-PSTN Traffic that is required to be compensated at interstate access rates (unless the parties have agreed otherwise) by the Federal Communications Commission in its Report and Order in WC Docket Nos. 10-90, etc., FCC Release No. 11-161 (Nov. 18, 2011), as Amended or Revised ("FCC Order"). Specifically, this section establishes the method of separating such traffic (referred to in this tariff as "Relevant VoIP-PSTN Traffic") from the Customer's traditional intrastate access traffic, so that such Relevant VoIP-PSTN Traffic can be billed in accordance with the FCC Order.

7.1.2 Rating of VoIP-PSTN Traffic - The Relevant VoIP-PSTN Traffic identified in accordance with this Section will be billed at rates equal to the lower of the tariffed rates for the Company's switched access service as described in Section 5.1.5(C)-(F) of this tariff or Sections 5.1.6 and 5.1.7 of the Company's FCC access services tariff. Consistent with the FCC Order, charges are assessed by the Company for services provided by the Company and/or by any of its VoIP Provider Partner(s).

7.1.3 Calculation and Application of Percent-VoIP-Usage Factor - the Company will determine the number of Relevant VoIP-PSTN Traffic minutes of use ("MOU") to which interstate rates will be applied under subsection (B), above, by applying a Percent VoIP Usage ("PVU") factor to the total intrastate access MOU (however determined - either based on call detail information or PIU) exchanged between the Company and the Customer.

The PVU for traffic will be derived and applied as follows:

A. The Customer will calculate and furnish to the Company a factor (the "PVU-A") representing the percentage of the total intrastate and interstate access MOU for traffic that the Customer exchanges with the Company in the State, that (a) is sent to the Company and that originates in IP format; or (b) is received from the Company and terminates in IP format. This PVU-A shall be based on information such as the number of the Customer's retail VoIP subscriptions in the state (e.g., as reported on FCC Form 477), traffic studies, actual call detail, or other relevant and verifiable information consistent with the FCC Order.

B. Company will, likewise, calculate a factor (the "PVU-B") representing the percentage of the Company's total access MOU for traffic in the State that the Company originates or terminates in IP format. This PVU-B shall be based on information such as the number of the Company's retail VoIP subscriptions in the state (e.g., as reported on FCC Form 477), traffic studies, actual call detail, or other relevant and verifiable information consistent with the FCC Order.

SWITCHED ACCESS SERVICES

SECTION 7 – VOIP-PSTN TRAFFIC (CONT'D.)

(N)

7.1 Identification and Rating of VoIP-PSTN Traffic (Cont'd.)

7.1.3 (Cont'd.)

- C. The Company will use the PVU-A and PVU-B factors to calculate an over-all PVU factor that represents the percentage of total access MOU for service exchanged between the Company and the Customer that is originated or terminated in IP format, whether at the Company's end, at the Customer's end, or at both ends. The PVU factor will be calculated as the sum of: (A) the PVU-A factor and (B) the PVU-B factor times (1.0 minus the PVU-A factor).
- D. The Company will apply the over-all PVU factor to the total service intrastate access MOU exchanged with the Customer to determine the number of Relevant VoIP-PSTN Traffic MOUs for service.

Examples for PVU Factor Calculations:
(The calculation elements in these examples are generic.)

Example 1: The PVU-B is 10% and the PVU-A is 40%. The over-all PVU factor is equal to $40\% + (10\% \times 60\%) = 46\%$. The Company will bill 46% of the Customer's intrastate access MOU as VoIP-PSTN Traffic, pursuant to this Section of this Tariff.

Example 2: The PVU-B is 10% and the PVU-A is 0%. The over-all PVU factor is $0\% + (100\% \times 10\%) = 10\%$. The Company will bill 10% of the Customer's intrastate access MOU as VoIP-PSTN Traffic, pursuant to this Section of this Tariff.

Example 3: The PVU-A is 100%. No matter what the PVU-B factor is, the over-all PVU is 100%. The Company will bill 100% of the Customer's intrastate access MOU as VoIP-PSTN Traffic, pursuant to this Section of this Tariff.

Use of Default Percentages - Company

Where the Company's PVU-B is equal to the percentage of VoIP subscribers in the state based on the FCC's *Local Competition Report*, as released periodically, as set forth in paragraph 963 of the FCC Order (the "Default Percentage"), and the Customer's PVU-A is also equal to the Default Percentage, the PVU factor applicable to traffic exchanged between the Company and the Customer shall be the Default Percentage.

Default PVU Factors - Customer

If the Customer does not furnish the Company with a PVU factor pursuant to the preceding paragraph 7.1.3.A of this Section, the Company will utilize a PVU equal to the Company's PVU-B factor.

SWITCHED ACCESS SERVICES

SECTION 7 – VOIP-PSTN TRAFFIC (CONT'D.)

(N)

7.1 Identification and Rating of VoIP-PSTN Traffic (Cont'd.)

7.1.4 Initial PVU Factors - If the PVU factors are not available and/or cannot be implemented in the Company's billing systems by January 1, 2012, once the factors are available and can be implemented the Company will adjust the Customer's bills to reflect the PVUs retroactively to January 1, 2012. In calculating the initial PVUs, the Company will take the Customer-specified PVU-A into account retroactively to January 1, 2012, provided that the Customer provides the factor to the Company no later than November 15, 2012; otherwise, it will set the initial PVU equal to the PVU-B, as specified in subsection 7.1.3.B, above.

7.1.5 PVU Factor Updates - The Customer may update the PVU-A factor quarterly using the method set forth in subsection 7.1.3.A, above. If the Customer chooses to submit such updates, it shall forward to the Company, no later than 15 days after the first day of January, April, July and/or October of each year, a revised PVU-A factor based on data for the prior three months, ending the last day of December, March, June and September, respectively. The Company will use the revised PVU-A to calculate a revised PVU. The revised PVU factor will apply prospectively and serve as the basis for billing until superseded by a new PVU.

7.1.6 PVU Factor Verification - Not more than twice in any year, the Company may ask the Customer to verify the PVU-A factor furnished to the Company and Customer may ask the Company to verify the PVU-B factor and the calculation of the PVU factor. The party so requested shall comply, and shall reasonably provide the records and other information used to determine the respective PVU-A and PVU-B factor.

RE: Matrix Telecom, Inc. d/b/a Matrix Business Technologies d/b/a Trinsic Communications

Dear Ms. Williams:

Enclosed for filing please find the original and one (1) copy of the above referenced tariff filing submitted on behalf of Matrix Telecom, Inc. d/b/a Matrix Business Technologies d/b/a Trinsic Communications. This filing implements the Federal Communications Commission's second phase of the intercarrier compensation restructuring, WC Docket No. 07-135 et al., mirroring interstate access rates and rate structures. The Company respectfully requests an effective date for this filing of July 1, 2013. A check in the amount of \$100.00 is enclosed to cover the filing fee.

The following tariff pages are included with this filing:

- 4th Revised Page 1 Updates Check Sheet
- 4th Revised Page 49 Reduces Rates

Please acknowledge receipt of this filing by date-stamping the extra copy of this cover letter and returning it to me in the self-addressed, stamped envelope provided for that purpose. Any questions you may have regarding this filing should be directed to my attention at 407-740-3001 or via email to tforte@tminc.com. Thank you for your assistance in this matter.

Sincerely,

Thomas M. Forte
Consultant to Matrix Telecom, Inc.

Boston, MA 02118-6500

RE: Richmond Telephone Company Request for Expedited Approval Under MGL c. 159 sec. 19

Dear Secretary Williams:

Concurrent with the filing of this letter, Richmond Telephone Company ("RTC") updated its Access Tariff M.D.P.U. – No. 1 to reflect reductions in state access rates as mandated in Compliance with FCC ICC/USF Order.¹ Per that Order, on July 3, 2012 the Company moved its terminating intrastate access rates to a mid-point between its then-effective intrastate and interstate access rates. The Company did so by introducing an FCC Transitional rate element that is scheduled to go to zero on July 1 of this year.

In the next phase of this adjustment, the Company is required to take its terminating intrastate access rates as well as its switched access transport elements to parity with those charged in the interstate jurisdiction. Because RTC is a NECA participant, its rates are set by that organization and due to rate revisions implemented by NECA, RTC's July 2 terminating state access rates will fail to be in parity with those charged for interstate services, putting the company out of compliance with the FCC's rule in this matter.

In order to update its tariff to reflect current rates to be effective on July 2, 2013, RTC, through this letter, is requesting that the following pages be permitted to go into effect on July 2, 2013:

- Access Tariff M.D.P.U. – No. 1
- Section 6 – 2nd Revised Page 113
- Section 6 – 2nd Revised Page 114
- Section 6 – 2nd Revised Page 118
- Section 6 – 2nd Revised Page 128

In support of this request, RTC notes the following:

1. The pages filed here reflect parity requirement of the FCC's Order. These rates are required to be implemented by July 2, 2013.

¹ See *In the Matter of Connect America Fund: A National Broadband Plan for Our Future (Etc.)* WC Docket Nos. 10-90, 07-135, 05-337, 03-109, CC Docket Nos. 01-92, 96-45, GN Docket No. 09-51, WT Docket no. 10-208, Report and Order and Further Notice of Proposed Rulemaking, FCC 11-161 (rel. Nov. 18, 2011)

P A I D
\$100.00 SC

June 21, 2013
Catrice C. Williams
Page 2 of 2

2. This change reflects rates currently charged by the company through its participation in the National Exchange Carrier Tariff FCC No. 5 and the concurrent elimination of the FCC Transitional rate element resulting in an aggregate rate reduction.
3. RTC is a small company (serving fewer than 1,000 lines) and accordingly lacked the resources to revise its tariff previously.
4. The expedited approval is being requested on not less than 7 days' notice.

Enclosed please find the \$100 filing fee. Any questions regarding this filing should be addressed to me at 770-649-1886 or email at Eileen@Bodamer.com.

Sincerely,

Eileen Bodamer, Consultant to Richmond Telephone Company

Cc: Rick Drake, Richmond Telephone Company, via email

June 21, 2013

Catrice C. Williams, Secretary
Massachusetts Department of Telecommunications and Cable
1000 Washington Street, 8th Floor, Suite 820
Boston, MA 02118-6500

RE: Richmond Telephone Company

Dear Secretary Williams:

Enclosed please find an original and two (2) copies of Richmond Telephone Company ("RTC") Access Tariff M.D.P.U. – No. 1 that carries an issue date of June 21, 2013 and an effective date of July 21, 2013. The proposed filing consists of the following pages:

- Access Tariff M.D.P.U. – No. 1
- Section 6 – 2nd Revised Page 113
- Section 6 – 2nd Revised Page 114
- Section 6 – 2nd Revised Page 118
- Section 6 – 2nd Revised Page 128

This filing revises the company's access tariff to reflect reductions in state access rates as mandated in Compliance with FCC ICC/USF Order.¹ Because that Order requires that terminating state access rates be at parity with interstate by July 2, 2013, RTC is separately filing a request for expedited implementation so that its rates can be implemented on short notice.

Enclosed please find the \$100 filing fee. Any questions regarding this filing should be addressed to me at 770-649-1886 or email at Eileen@Bodamer.com.

Sincerely,

Eileen Bodamer, Consultant to Richmond Telephone Company

RE: Spectrotel of New England, LLC. Revision to Massachusetts Tariff No. 2 (Switched Access Services)

Dear Ms. Williams:

Enclosed for filing please find the original and one (1) copy of the above referenced tariff filing submitted on behalf of Spectrotel of New England, LLC. This filing implements the Federal Communications Commission's second phase of the intercarrier compensation restructuring, WC Docket No. 07-135 et al., mirroring interstate access rates and rate structures. The Company respectfully requests an effective date for this filing of July 1, 2013.

A check in the amount of \$100.00 is enclosed to cover the filing fee. The following tariff pages are included with this filing:

- 1st Revised Page 2 Updates Check Sheet;
- 1st Revised Page 60 Revises Switched Access rates.

The Company does not propose any rate reductions and/or increases with this filing, but breaks out the terminating local switching composite rate of \$0.00273460 into individual rate elements to mirror the Company's interstate rate structure. The composite rate assumes 90% of the traffic is billed as Direct Transport and 10% as Direct/Tandem combination.

Please acknowledge receipt of this filing by date-stamping the extra copy of this cover letter and returning it to me in the self-addressed, stamped envelope provided for that purpose. Any questions you may have regarding this filing should be directed to my attention at 407-740-3031 or via email to sthomas@tminc.com. Thank you for your assistance in this matter.

Sincerely,

Sharon Thomas

RE: Spectrotel of New England, LLC. Revision to Massachusetts Tariff No. 2 (Switched Access Services)

Dear Ms. Williams:

Enclosed for filing please find the original and one (1) copy of the above referenced tariff filing submitted on behalf of Spectrotel of New England, LLC. This filing implements the Federal Communications Commission's second phase of the intercarrier compensation restructuring, WC Docket No. 07-135 et al., mirroring interstate access rates and rate structures. The Company respectfully requests an effective date for this filing of July 1, 2013.

A check in the amount of \$100.00 is enclosed to cover the filing fee.

The following tariff pages are included with this filing:

1st Revised Page 2 Updates Check Sheet;
1st Revised Page 60 Revises Switched Access rates.

Please acknowledge receipt of this filing by date-stamping the extra copy of this cover letter and returning it to me in the self-addressed, stamped envelope provided for that purpose. Any questions you may have regarding this filing should be directed to my attention at 407-740-3031 or via email to sthomas@tminc.com. Thank you for your assistance in this matter.

Sincerely,

Sharon Thomas

**RE: Taconic Telephone Corp. d/b/a FairPoint Communications
Revision to MDTC Tariff No. 2 (Switched Access Services)**

Dear Ms. Williams:

Enclosed for filing please find the original and one (1) copy of the above referenced tariff filing submitted on behalf of Taconic Telephone Corp. d/b/a FairPoint Communications. This filing is submitted in compliance with Phase II of the ICC reform requirements mandated by Federal Communications Commission Report and Order in WC Docket No. 10-90, etc., FCC No. 11-161 (released Nov 18, 2011). Pursuant to the FCC requirements, this filing revises Taconic's intrastate access rates and rate structure to conform to its corresponding interstate rates and rate structure. The Company respectfully requests an effective date of July 2, 2013.

Also enclosed is a check in the amount of \$100.00 to cover the filing fee.

This filing has been submitted via email to DPU.efiling@state.ma.us.

The following tariff pages are included with this filing:

Section 2

- 2nd Revised Page 1 Reduces Carrier Common Line Access terminating per minute rate;
- 1st Revised Page 2 Restructures Local Transport installation charges; increases Interim NXX Translation Charge and adds new nonrecurring charges;
- Original Page 2.1 Relocates material moved from Page 2; restructures Local Transport rates;
- Original Page 2.2 Introduces Local Transport rates;
- Original Page 2.3 Introduces Local Transport Rates;
- 1st Revised Page 3 Relocates text from page 2; Revises and reduces Local Switching Premium and non-Premium rates; Introduces Information Surcharge;
- 1st Revised Page 5 Revises Access Ordering charges.

Section 4

- 1st Revised Page 2.1 Revises VoIP-PSTN rates.

4. SWITCHED ACCESS SERVICES

4.2 Call Completion Service

Non-recurring and usage rates apply for each Call Completion Service furnished by the Company. Non-recurring charges are the one time charges that apply for a specific work activity, (e.g., new installations or changes to existing installations). Usage rates apply only when a specific rate element is used. They apply on a per Call Completion Service access minute and are accumulated over a monthly period.

Rate Categories

The following diagram depicts a generic view of the components of Call Completion Service and the manner in which the components are combined to provide a complete service.

End Office

The End Office rate category provides for the local end office switching and end user termination functions necessary to complete the transmission of Call Completion Services to and from the end users served by the Company's end offices. The End Office rate category consists of the Call Completion rate element.

A. Call Completion Rate Category

The Call Completion rate element provides for the use of end office switching equipment, terminations for the end user lines terminating in the local end office, and for the termination of calls at a Company Intercept operator or recording. Calls will be rated based on time-of-day where technically feasible. Where the technical capability does not exist, calls will be rated at day rates.

1. Call Completion

Svc. Category	Rate Element	Rate (\$)
Call Completion	Per Access Minute	.002124
VoIP-PSTN - Terminating Only Call Completion	Per Access Minute	.002406
Shared End office trunk port	Per Access MOU	.001598
VoIP-PSTN - Shared End Office trunk port	Terminating only-Per Access MOU	.001688

4.2 Call Completion Service (Cont'd)

Local Transport

Local transport provides the transmission facilities between the customer premises or collocated interconnection location and the Company's end-office switch(es) where the customer's traffic is switched to originate or terminate customer's communications.

Local transport is comprised of a Local Transport Termination rate and a Local Transport Facility rate. The Local Transport Termination rate is billed on a per access minute basis and the Local Transport Facility is billed on a per mile per access minute basis. For purposes of determining the mileage, mileage shall be measured as airline mileage between the serving wire center of the customer's premises and the end office or directly to the access tandem using the V & H coordinates method set forth in NATIONAL EXCHANGE CARRIER ASSOCIATION IN. TARIFF FCC NO. 4. Fractions of a mile are rounded up to the next whole mile before rates are applied.

A. Tandem Transport Termination

Svc. Category	Rate Element	Rate (\$)
Tandem Transport Termination	Per Access Minute	.000000
VoIP-PSTN - Terminating Only Tandem Transport Termination	Per Access Minute	.000000
Tandem Switching	Per Access Minute	.001068
VoIP-PSTN - Terminating Only Tandem Switching	Per Access Minute	.001574

(I)

B. Tandem Transport Facility

Svc. Category	Rate Element	Rate (\$)
Tandem Transport Facility	Originating-Per Access Mile	.000030

**RE: Time Warner Cable Information Services (Massachusetts), LLC
d/b/a Time Warner Cable
M.D.T.C. Tariff No. 2 (Access)
Compliance with FCC USF-ICC Reform Order, Second Phase**

Dear Ms. Williams:

Enclosed for filing please find the original and one (1) copy of this letter submitted on behalf of Time Warner Cable Information Services (Massachusetts), LLC d/b/a Time Warner Cable. The Company advises the MA Department of Telecommunications & Cable that its current Massachusetts intrastate access rates and rate structure are at parity with its Massachusetts interstate access rates. Therefore, the Company has no rate reductions or changes to file to be in compliance with the FCC's ICC Reform Order, WC Docket Nos. 10-90, et al., FCC 11-161. This filing has also been submitted via email to DPU.efiling@state.ma.us.

Please acknowledge receipt of this filing by date-stamping the extra copy of this cover letter and returning it to me in the self-addressed, stamped envelope provided for that purpose.

Any questions you may have regarding this filing should be directed to my attention at 407-740-3006 or via email to croesel@tminc.com. Thank you for your assistance in this matter.

Sincerely,

Carey Roesel

Re: 2013 FCC USF/ICC Transformation Order/47 C.F.R. §51.911 Interstate Switched
Exchange Access Rate Interstate Benchmarking Compliance Notification

Dear Ms. Williams:

Trans National Communications International, Inc. ("TNCII") provides this courtesy notification of its current compliance with the Federal Communications Commission's ("FCC") Report and Order and Further Notice of Proposed Rulemaking in Docket Nos. WC Docket No. 10-90, et al., FCC 11-161 (the "USF/ICC Transformation Order"), and Section 51.911, 47 C.F.R. §51.911, July 1, 2013 interstate switched access rate benchmarking compliance requirements.

In pertinent part, Section 51.911(c) of the FCC's rules, Access reciprocal compensation rates for competitive LECs, promulgated under the *USF/ICC Transformation Order*, establishes that

Beginning July 1, 2013, notwithstanding any other provision of the Commission's rules, all Competitive Local Exchange Carrier Access Reciprocal Compensation rates for switched exchange access services subject to this subpart shall be no higher than the Access Reciprocal Compensation rates charged by the competing incumbent local exchange carrier, in accordance with the same procedures specified in §61.26 of this chapter.

TNCII's Massachusetts switched exchange access tariff, Massachusetts D.T.E. Tariff No. 4, contains intrastate rates at Sheet No. 38 that currently comply with Section 61.26 of the FCC's rules, obviating the need for further amendments to comply with the July 1, 2013 interstate switched exchange access rate benchmarking requirement set forth in the *USF/ICC Transformation Order* and 47 C.F.R. §51.911. No further 2013 Tariff compliance amendment is required accordingly.

Ms. Catrice Williams, Secretary

May 30, 2013

Catrice Williams, Secretary
Department of Telecommunications and Cable
Commonwealth of Massachusetts
1000 Washington Street, Suite 820
Boston, MA 02118

Dear Secretary Williams,

We are filing herewith as of May 30, 2013 for effect July 1, 2013, tariff material consisting of the following:

(DTE-MA-No. 15)

Section	Revision of Page(s)	Original of Page(s)
30	6, 7, 8, 8.1, 8.2, 8.3, 8.4, 8.5, 8.6, 8.7, 8.8, 8.9, 8.10, 8.11, 9, 10, 11 and 12	N/A

section 6 2nd Rev. p. 72.1 via email on 6/27/2013.

In this filing, Verizon MA is complying with the directives of the FCC's order entitled Material to be Filed in Support of 2013 Annual Access Tariff Filings, WC Docket No. 13-76, released on April 19, 2013 ("Order"). The Order mandates that carriers reduce to the interstate level any of their terminating intrastate access rate elements that are higher than the equivalent interstate access rate elements.¹ The Order also allows carriers to increase intrastate access rate elements, not to exceed the equivalent interstate access rate. See Order, ¶ 12, stating that, "the prohibition on rate increases was not intended to prohibit rate increases in some intrastate rate

¹ Paragraph 10 of the FCC's Order states that, "A price cap ILEC that was not required to reduce intrastate rates in 2012 must reduce rates that are above the functionally equivalent interstate rates and adopt the interstate rate structure for all of its intrastate rates."

PAID
[Signature]

elements that are below their functionally equivalent interstate switched access rate elements if the increased revenues from the increased rate elements equal the relevant reductions from the rate elements with lowered rates.”²

The attached tariff pages reflect the directives of the FCC’s Order. Those intrastate access rate elements which are being reduced to the interstate level are noted as (R) on the right-hand side of the page. Those intrastate rate elements which are being increased to the interstate level or to a level less than the interstate level are marked as (I). In no case is Verizon MA proposing to increase an intrastate switched access rate element to exceed the equivalent interstate rate, and the proposed changes are revenue-neutral as required by the Order.

With this filing, Verizon MA is also adding term and volume discounts for DS1/DS3 Direct Trunk Transport, which are included in FCC No. 11 tariff and Verizon’s access tariffs in other states but had been inadvertently omitted from DTE No. 15. As can be seen on the attached tariff pages, the term and volume discounts refer to specific term and volume discounts contained in FCC No. 11.

Sincerely,

Regulatory – MA

cc: Senior Rate Analyst
Karlen Reed

² The FCC further explained that such rate increases are permitted “...so long as the overall rate adjustments are revenue neutral. Transitional Intrastate Access Service has three broad groupings: end office services, terminating tandem transport, and other services. A carrier should initially increase a rate in the grouping in which a rate reduction was taken to avoid gaming the process...” Order, ¶ 13.

Verizon New England Inc.

6. Switched Access Service
6.6 Rate Regulations

6.6.5 Application of Local Transport Rates		
H.	For direct trunked transport provided to an access tandem, the channel mileage applies on a fixed and per mile basis between the serving wire center and access tandem. The per mile per minute local transport facility and the per minute local transport termination rates apply for the transport from the access tandem to the end office. The per minute tandem switching rate applies to all minutes of use switched at the access tandem. The channel mileage and local transport facility mileage calculation is as set forth in Section 6.4.	
I.	The following Commitment Periods and Discount Percentages apply for Switched Access DS1/DS3. (T)	
	<u>Service Type</u>	<u>Commitment Period</u>
		<u>Discount Percentage</u>
	Switched Access DS1 Direct Trunked Transport, Multiplexer and Entrance Facility	24 months
		36 months
		60 months
		84 months
	Switched Access DS3 Direct Trunked Transport, Multiplexer and Entrance Facility	24 months
		36 months
		60 months
		84 months

Issued: May 30, 2013
Effective: July 1, 2013

TT 13-38

June 13, 2013

Catrice Williams, Secretary
Department of Telecommunications and Cable
Commonwealth of Massachusetts
1000 Washington Street, Suite 820
Boston, MA 02118

Dear Secretary Williams,

Pursuant to the Department's directive to Verizon dated June 10, 2013, Verizon is providing a spreadsheet entitled Verizon MA TT 13-38 Revenue Analysis which documents that "the increased revenues from the increased rate elements equal the relevant reductions from the rate elements with lowered rates" as required by the FCC April 19, 2013 Order WC Docket No. 13-76. The Revenue Analysis contains confidential and proprietary information and is being filed in a separate sealed envelope stamped "proprietary". A redacted version of the Revenue Analysis is attached. A Motion for Confidential Treatment is filed herewith.

In its June 10, 2013 directive, the Department asked about the CLEC notification of the proposed rate changes in TT 13-38. CLECs were informed of these changes via a Verizon Industry Letter dated May 17, 2013. A copy of the Industry Letter is attached. The Industry Letter was distributed to CLECs and posted to the Verizon Wholesale Website.

Sincerely,

Regulatory - MA

ACCESS SERVICES

SECTION 2 – REGULATIONS, (CONT'D.)

2.3 Obligations of the Customer, (Cont'd.)

2.3.4 Identification and Rating of Toll VoIP-PSTN Traffic

A. Scope

1. Toll VoIP-PSTN Traffic is a Customer's interexchange voice traffic that (1) is exchanged with the Company in Time Division Multiplexing ("TDM") format over Public Switched Telephone Network ("PSTN") facilities and (2) originates and/or terminates in Internet Protocol ("IP") format. Toll VoIP-PSTN Traffic originates and/or terminates in IP format when it originates from and/or terminates to an end user of a service that requires IP-compatible customer premises equipment.
2. In the absence of an agreement between the Company and the Customer specifying the treatment of Toll VoIP-PSTN Traffic, this section governs the treatment of Toll VoIP-PSTN Traffic pursuant to 47 C.F.R. § 51.913 and the Federal Communications Commission's orders adopting and amending those rules ("Section 51.913").
3. This section will be applied to identify intrastate Toll VoIP-PSTN Traffic exchanged with a Customer or its affiliate that is a local exchange carrier only to the extent that the Customer or its local exchange carrier affiliate has also implemented billing for intrastate Toll VoIP-PSTN Traffic in accordance with Section 51.913.

B. Rating of Toll VoIP-PSTN Traffic

Any intrastate terminating Toll VoIP-PSTN Traffic identified in accordance with this tariff section will be billed at the as provided in Section 6.3.3.h of this tariff.

As of July 11, 2012 until June 30, 2014, any intrastate originating Toll VoIP-PSTN Traffic will be billed at rates equal to the Company's intrastate originating switched access rates as provided in Section 6.3.3.d.2 of this tariff

C. Calculation and Application of Percent-VoIP-Usage Factor

The Company will determine the number of intrastate terminating Toll VoIP-PSTN Traffic minutes of use ("MOU") to which interstate terminating switched access rates will be applied under section 2.3.4.B, above, by applying a Percentage VoIP Usage ("PVU") factor to the total intrastate terminating switched access MOU received by the Company from the Customer. The PVU will be derived and applied as follows:

1. The Customer will calculate and furnish to the Company a factor (the "PVU-C") representing the percentage of the total intrastate terminating switched access MOU that the Customer delivers to the Company for termination in the state, that originated in IP format. This PVU-C shall be based on information such as the number of the Customer's retail VoIP subscriptions in the state (e.g., as reported on FCC Form 477), traffic studies, actual call detail, or other relevant and verifiable information.

6.4 Billing Name and Address (BNA) Service

6.4.1 Company will upon request, provide Billing Name and Address (BNA) Service to Telecommunications Service Providers (Customer), or its authorized billing and collection agent. Telecommunications Service Providers include interexchange carriers, operator service providers, enhanced service providers and any other provider of intrastate/interstate telecommunications services. BNA provides the billing name and address when calling party dials 101XXXX or authorizes collect and/or third party calls to pay for telecommunication services. BNA Service enables telecommunications service providers and authorized billing and collection agents to seek payment of their service directly from the calling party.

In no case shall Customer or authorized billing and collection agent of a customer disclose the billing name and address information of any subscriber to any third party, except that a customer may disclose BNA. This service is offered to Customer or its authorized billing and collection agent for the following limited purposes and may not be resold or used for any other purpose:

- Billing customers for using telecommunications service of that service provider and collecting amounts due.
- Verification of service orders of new customers, identification of customers who have moved to a new address, fraud prevention, and similar nonmarketing purposes.

6.4.2 Obligations of the Customer

XO will only accept BNA Service orders via email or fax. With each order for BNA Service, the customer must provide the name of the authorized individual(s) as well as the email address or fax number to which the BNA information should be sent.

6.4.3 Rates and Charges

	<u>Recurring Charge</u>
Billing Name and Address (Per Batch Request)	\$30.00
Billing Name and Address Found/Each	\$0.30
Billing Name and Address Not Found/Each	\$0.30
