

Sara,

As a Montague resident who has been following this issue for some time. I have had some concerns about where the town was heading. After reading the exceptionally professional MBI staff review over this past weekend which clearly shows that the MBI staff has done more than its due diligence with this matter, and attending the May 23rd hearing where I found the MBI presentation very professional and compelling, That I could not agree more with their recommendations.

I strongly urge that the DTC support the MBI staff recommendations as they overwhelmingly demonstrated that the Matrix proposal would be a local economic disaster.

Sincerely,

Charles Kelley
