Subject to the terms and conditions herein, the Issuing Authority hereby grants to the Licensee the right to operate and maintain a Cable Television System in, under, over, along, across or upon the Public Ways, streets, lanes, avenues, alleys, sidewalks, bridges, highways and other public places under the jurisdiction of the Town of Falmouth within the municipal boundaries and subsequent additions thereto, including property over, under or on which the Town has an easement or right-of-way, for the purpose of reception, transmission, collection, amplification, origination, distribution, and/or redistribution of Signals in accordance with the laws of the United States of America, the Commonwealth of Massachusetts and the Town of Falmouth. In exercising rights pursuant to this Renewal License, the Licensee shall not endanger or interfere with the lives of Persons, interfere with any installations of the Town, any public utility serving the Town and/or any other Persons permitted to use Public Ways and places.

Grant of this Renewal License does not establish priority for use over other present or future permit holders or the Town's own use of Public Ways. Disputes between the Licensee and other parties regarding use of Public Ways shall be resolved in accordance with any applicable regulations of the Department of Public Works ("DPW") and any special laws or Town by-laws enacted hereafter.

Section 2.2---**TERM OF RENEWAL LICENSE**

By executing this Renewal License, the Licensee acknowledges that its rights are subject to the powers of the Town to adopt and enforce by-laws of general applicability necessary to the safety and welfare of the public. The Licensee shall comply with all applicable DPW regulations, as amended from time to time, and any by-laws enacted by the Town. Any conflict between the terms of this Renewal License and any present or future lawful exercise of the Town's police and regulatory powers shall be resolved in favor of the latter.

Section 2.5---REMOVAL OR ABANDONMENT

Upon termination of this Renewal License by passage of time or otherwise, and unless (1) the Licensee renews its Renewal License for another renewal term or (2) the Licensee transfers the Cable Television System to a transferee approved by the Issuing Authority, pursuant to Section 2.6 below, the Licensee shall remove all of its supporting structures, poles, transmission and distribution systems, and all other appurtenances from the Public Ways and shall restore all areas to their original condition. The application for consent to a transfer or assignment shall be signed by the Licensee and by the proposed transferee or assignee or by their representatives, evidence of whose authority shall be submitted with the application.

(b) In considering a request to transfer control of this Renewal License, the Issuing Authority may consider such factors as the transferee's management experience, technical expertise, financial capability and legal ability, to operate a Cable System, and any other criteria allowable under law.

Chapter 166A, Section 7.
(f) The Licensee shall submit to the Issuing Authority an original and three (3) copies, unless otherwise directed, of the application and the FCC Form 394 requesting such transfer or assignment consent.

(g) Any proposed controlling or owning Person or transferee approved by the Issuing Authority shall be subject to all of the terms and conditions contained in this Renewal License.

Section 2.7---EFFECT OF UNAUTHORIZED TRANSFER ACTION

(a) Any transfer of the Cable System without complying with Section 2.6 above shall be null and void, and shall be deemed a material breach of this Renewal License.

(b) If the Issuing Authority denies its consent to any such action and a transfer has nevertheless been effected, the Issuing Authority may revoke and terminate this Renewal License.

(c) The grant or waiver of any one or more of such consents shall not render unnecessary any subsequent consent or consents, nor shall the grant of any such consent constitute a waiver of any other rights of the Town.
ARTICLE 3

CABLE SYSTEM DESIGN

Section 3.1---SUBSCRIBER NETWORK

(a) No later than April 1, 2001 the Licensee shall make available to all residents of the Town, subject to Article 4 infra, a seven hundred fifty Megahertz (750 MHz) addressable, two-way, fiber-to-feeder Subscriber Network, fully capable of carrying seventy-seven (77) NTSC video channels in the downstream direction and four (4) NTSC video channels in the upstream direction. Said 750 MHz Cable System shall be fed by means of a fiber-optic transportation cable network. The terms of this Section 3.1(a) shall be considered met upon System Completion.

(b) Until activation of the 750 MHz Subscriber Network described above, the Licensee shall continue to make available to all residents of the Town its existing four hundred fifty Megahertz (450 MHz), two-way Subscriber Network, fully capable of carrying at least sixty-two (62) NTSC video channels in the downstream direction. The Licensee shall continue to maintain its Cable System with a technical
capacity for four (4) upstream channels with digital, audio and video return capability.
(c) Within six (6) months of System Completion, the Licensee shall remove its 450 MHz subscriber network and related equipment from the Public Ways; provided, however, that the Licensee may retain those portions of said 450 MHz subscriber network that can be utilized during the renewal term; and, provided, further, that the Licensee shall work with the Issuing Authority, in good faith, to address any concerns of the Town regarding the Licensee's occupation of the Public Ways and/or public safety. In the event of disagreement between the Town and the Licensee on specific cable plant to be removed from the Public Ways, the Town and the Licensee shall meet and discuss the issue(s), in good faith, in order to resolve any such disagreements. The Town shall request that other users of the Public Ways use their best efforts to remove unused plant and equipment from the Public Ways.

(d) The Cable System shall continue to incorporate all necessary microwave reception equipment, satellite and terrestrial reception facilities, origination facilities and signal processing equipment.

(e) No later than System Completion, the 750 MHz Subscriber Network shall include fiber capacity linking the Access Corporation studio to the Headend, for the exclusive use of the Access Corporation. There shall be no charge(s) to the Town, the Access Corporation, PEG Access Users and/or Subscribers for such fiber link.

(f) The Licensee shall maintain the Subscriber Network, at all times, in compliance with minimum FCC Technical Standards.

Section 3.2---EMERGENCY ALERT OVERRIDE

The Subscriber Network shall comply with the FCC's Emergency Alert System ("EAS") regulations.

Section 3.3---PARENTAL CONTROL CAPABILITY

The Licensee shall provide, upon request, Subscribers with the capability to control the reception of any channels being received on their television sets.

Section 3.4---STATE-OF-THE-ART

(a) The Licensee's Cable Television System shall be designed, constructed and operated to incorporate the most technically advanced design configuration and operation. If, as a result of technological developments, the quality or quantity
of Programming or services available to Subscribers or Users of the Licensee's Cable Television System in Falmouth could be greatly enhanced, the Licensee shall, at the request of the Issuing Authority, investigate the feasibility of implementing such new developments and shall implement such technological developments if such implementation (i) can be done without adding an unwarranted financial burden to Subscribers and (ii) is economically feasible and viable for the Licensee. In determining whether or not the Licensee shall be required to implement such new developments, the Issuing Authority and the Licensee shall consider, among other factors, the remaining term of this Renewal License; performance demonstrating the operational feasibility of the new developments; construction and other related costs; the adaptability of such developments to the Licensee's Cable Television System or any part thereof; and the potential marketability of the new services and other factors affecting the economic feasibility and viability of implementation of the new developments.

(b) When the Issuing Authority notifies the Licensee that either (i) fifty percent (50%) of cable television subscribers in Massachusetts, and/or (ii) fifty percent (50%) of municipalities in Massachusetts are verifiably serviced by Cable Systems with capacity greater than 750 MHz, then the Issuing Authority and the Licensee shall discuss and negotiate, in good faith, an upgrade or rebuild of the Falmouth Cable System to such greater capacity.

Section 3.5--- CABLE SYSTEM INTERCONNECTION

(a) Upon completion of the Subscriber Network pursuant to Section 3.1(a) supra, the Licensee shall seek to interconnect the Subscriber Network with any and all other adjacent cable systems within six (6) months of a request to do so by the Issuing Authority. Interconnection may be accomplished by direct cable connection, microwave link, satellite or any other appropriate method, as determined by the Licensee.

(b) Upon receiving a request from the Issuing Authority to interconnect, the Licensee shall promptly initiate negotiations with the other affected cable system(s) in order that costs may be fairly shared for both construction and operation of the interconnection link. The Licensee may be granted reasonable
extensions of time to interconnect upon a showing that such additional time is necessary to accomplish the interconnect and that the Licensee has proceeded in good faith to meet the six (6) month deadline required in paragraph (a) above.

(c) The Issuing Authority may rescind its order to interconnect upon request by the Licensee. The Issuing Authority shall grant said request if it finds that the Licensee has negotiated in good faith and had failed to obtain an approval from the system(s) involved or the other municipality involved; or that the cost of the interconnection would cause an unreasonable or unacceptable increase in subscriber rates in the Town.

(d) The Licensee shall cooperate with the Town and/or any State or federal agency which may be hereafter established for the purpose of regulating, financing or otherwise providing for the interconnection of cable systems beyond the corporate limits of the Town of Falmouth.

Section 3.6---SERVICE QUALITY

(a) In order to ensure that the Licensee is responsive in a timely manner to all service quality complaints from Subscribers, the following terms shall apply:

(i) The Licensee shall convene one (1) annual meeting each year of this Renewal License, between May 15th and September 1st, to hear Subscriber concerns regarding customer service. The Licensee shall be represented by a representative of the Licensee who shall be present to hear Subscriber's concerns. It shall be the responsibility of the Licensee to notify the Issuing Authority of the meeting; and advertise in a newspaper of local circulation; and convene the meeting in a public building in the Town of Falmouth. A written report citing all complaints issued at said meeting and the Licensee's response to said complaints shall be submitted to the Issuing Authority within one (1) month of the meeting. The Licensee shall ensure that a representative of the Issuing Authority can be present at all such meetings.

(ii) Customer service and all other complaints shall be forwarded by the Issuing

CABLE SYSTEM SERVICE AREA AND LINE EXTENSION

Section 4.1--GENERAL POLICY
(a) The Licensee shall make cable television service(s) available to all residents of the Town, subject to the provisions of this Article 4.

(b) Installation charges shall be non-discriminatory. A standard aerial installation charge shall be established by the Licensee which shall apply to any residence located not more than two hundred fifty feet (250') from the existing aerial Trunk and Distribution System and additions thereto.

(c) Installation charges shall be consistent with federal and State regulations.

Section 4.2---LINE EXTENSION POLICY

(a) Consistent with Section 4.1(b) above, the Cable Television System shall be extended automatically, at the Licensee's sole cost and expense to any and all areas of the Town containing ten (10) Subscribers per aerial mile of cable plant or fractional proportion thereof. The Licensee shall apply for permits, if necessary, promptly. Said service shall be made available and fully activated to requesting Subscribers no later than sixty (60) days after all necessary permits are obtained.

(b) The Cable Television System shall be further extended to all areas in the Town that do not meet the requirements of subsection (a) above upon the request of the prospective Subscribers in such areas and based upon the following cost calculation: The cost of wiring such areas shall be calculated by taking the capital cost of extending such service divided by the number of Subscribers in such area minus the costs extending service to the Subscriber in an area that meets the ten (10) Subscribers per aerial mile of cable plant and/or fractional proportion thereof density requirement specified in subsection (a) above. The resulting cost shall equal the per Subscriber contribution relating to line extension of cable service in that particular area of the Town, or

\[
\frac{C}{LE} - \frac{CA}{P} = SC
\]

- C equals the cost of construction of new plant from the termination of existing cable plant;
* LE equals the number of dwelling units requesting service in the line extension area;

* CA equals the average cost of construction per mile in the primary service area;

* P equals the ten (10) Subscribers per linear mile of aerial plant; and

* SC equals the per Subscriber contribution in aid of construction in the line extension area.

Section 4.3---LINE EXTENSION PROCEDURES

(a) Any potential Subscriber located in an area of the Town without cable television service may request such service from the Licensee. In areas meeting the requirements of Section 4.2 (a) and (b) above, the Licensee shall extend service to the area promptly, but in no case later than sixty (60) days after all necessary permits are obtained. The Licensee shall expeditiously seek all necessary permits. In those areas with less than ten (10) Subscribers per aerial mile, the Licensee, shall, within thirty (30) days following a request for service, conduct a survey to determine the number of homes in the immediate area and shall inform each potential Subscriber of the possible contribution in aid of construction (see Section 4.2 (b) above) that will be charged. The Licensee shall apply for pole attachment agreements within thirty (30) days of receiving the contribution in aid of construction from all prospective Subscribers. Cable television Service(s) shall be made available and fully activated to all requesting Subscribers who made a contribution in aid of construction within sixty (60) days of receipt of pole attachment agreements by the Licensee.

(b) During the three (3) year period commencing with the completion of any particular line extension contemplated in subsection (a) above, the Licensee shall pay a pro-rata refund to any previous Subscribers who made a contribution in aid of construction, as new Subscribers, who make a contribution in aid, are added to that particular line extension; provided, however, that the Licensee need only make good faith efforts to locate such previous Subscribers.

(c) The amount of refund shall be determined by application of the line extension formula, contained in Section 4.2(b) above, reducing the per capita contribution in aid of construction each time a new Subscriber is added. Any refunds due shall be paid annually to Subscribers, or former Subscribers, entitled to receive such a refund. The Licensee
shall make available to the Issuing Authority or its designee(s), on an annual basis, the names, addresses and exact contribution in aid of construction of each new Subscriber in a line extension area. In the event that the Licensee is unable to locate Subscribers entitled to a refund, said refund, less administrative costs, shall be returned or credited to existing Subscribers in said line extension area, on a pro-rata basis.

(a) Pursuant to Massachusetts General Laws Chapter 166A, Section 9, the Licensee shall pay to the Town, throughout the term of this Renewal License, a License Fee equal to fifty cents ($0.50) per Subscriber per year, or such higher amount as may in the future be allowed pursuant to State and/or federal law. The number of Subscribers, for purposes of this section, shall be calculated on the last day of each year of the term of this Renewal License, unless otherwise allowable by applicable law(s) and/or regulation(s).

(b) In the event that the Town can collect a License Fee in the future expressed as a percentage of the Licensee’s Gross Annual Revenues (and unless such a percentage License Fee shall be a statutory requirement), the Issuing Authority and the Licensee shall enter into good faith negotiations regarding such an
increased License Fee and the procedures and timing for such percentage payments.

(i) The Licensee shall not be liable for a total financial commitment pursuant to this Renewal License and applicable law in excess of five percent (5%) of its Gross Annual Revenues; provided, however, that said five percent (5%) shall not include the following: (i) the Matching Annual Funding for the Access Corporation herein (Section 7.4); (ii) the PEG Access equipment/facilities grants herein (Section 7.5); (iii) any interest due herein to the Town because of late payments; and/or (iv) any liquidated damages herein (Section 12.2).

Section 8.2---PAYMENT

Pursuant to M.G.L. Chapter 166A, Section 9, the License Fees shall be paid annually to the Town throughout the term of this Renewal License, not later than March 15th of each year, unless provided for otherwise under applicable law.

Section 8.3---OTHER PAYMENT OBLIGATIONS AND EXCLUSIONS

(a) The License Fee payments shall be in addition to and shall not constitute an offset or credit against any and all taxes or other fees or charges of general applicability which the Licensee and/or any Affiliated Person shall be required to pay to the Town, or to any State or federal agency or authority, as required herein or by law; the payment of said taxes, fees or charges shall not constitute a credit or offset against the License Fee payments all of which shall be separate and distinct obligations of the Licensee and each Affiliated Person. The Licensee herein agrees that no such taxes, fees or charges shall be used as offsets or credits against the License Fee payments, except as permitted by applicable law.

(b) In accordance with Section 622(h) of the Cable Act, nothing shall be construed to limit any authority of the Issuing Authority to impose a tax, fee, or other assessment of any kind on any Person (other than the Licensee) with respect
to cable service or other communications service provided by such Person over the Cable System for which charges are assessed to Subscribers but not received by the Licensee. For any twelve (12) month period, the fees paid by such Person with respect to any such cable service or other communications service shall not exceed five percent (5%) of such Person’s gross revenues derived in such period from the provision of such service over the Cable System.

(c) The Licensee and the Issuing Authority hereby agree that the meaning of the term "franchise fee" does not include the items in Section 622(g)(2)(A) through (E) of the Cable Act.

Section 8.4---LATE PAYMENT

In the event that the License Fees herein required are not tendered on or before the dates fixed in Section 8.1 above, interest due on such fee shall accrue from the date due at the rate of three percent (3%) above the annual Prime Rate. Any payments to the Town pursuant to this Section 8.4 shall not be deemed to be part of the License Fees to be paid to the Town pursuant to Section 8.1 hereof and shall be within the exclusion to the term "franchise fee" for requirements incidental to enforcing the Renewal License pursuant to Section 622(g)(2)(D) of the Cable Act.

Section 8.5---RECOMPUTATION

(a) Tender or acceptance of any payment shall not be construed as an accord that the amount paid is correct, nor shall such acceptance of payment be construed as a release of any claim that the Town may have for additional sums including interest payable under this Section 7.5. All amounts paid shall be subject to audit and recomputation by the Town, which shall be based on the Licensee’s fiscal year and shall occur in no event later than one year after the License Fees are tendered with respect to such fiscal year.

(b) If the Issuing Authority has reason to believe that any such payment(s) are
incorrect, the Licensee shall have ten (10) days after a request from the Issuing Authority to provide the Town with additional information documenting and verifying the accuracy of any such payment(s). In the event that the Issuing Authority does not believe that such documentation supports the accuracy of such payment(s), the Issuing Authority shall conduct an audit of such payment(s). If, after such audit and recomputation, an additional fee is owed to the Town, such fee shall be paid within thirty (30) days after such audit and recomputation. The Licensee shall contribute to the costs of such audit up to the amount determined by such audit to be due and payable. The interest on such additional fee shall be charged from the due date at the Prime Rate during the period that such additional amount is owed.

Section 8.6---AFFILIATES USE OF SYSTEM

Use of the Cable System by Affiliates shall be in compliance with applicable State and/or federal laws, and shall not detract from Services provided to Falmouth.

(e) In the event that the Town recovers from said surety, the Licensee shall take immediate steps to reinstate the performance bond to the appropriate amount required herein. Neither this section, any bond accepted pursuant thereto, or any damages recovered thereunder shall limit the liability of the Licensee under the Renewal License.

Such report shall provide a full explanation of the investigation, finding and corrective steps taken by the Licensee.

(ii) Should a Subscriber have an unresolved complaint regarding cable television operations, the Subscriber shall be entitled to file his or her complaint with the Issuing Authority or its designee(s), who shall have primary responsibility for the continuing administration of this Renewal License and the implementation of complaint procedures. The Issuing Authority and the Licensee shall enter into good faith discussions concerning possible remedies for consistent Signal degradation.
