Motorized Bicycle Definition

According to Massachusetts law (M.G.L. Chapter 90 Section 1), a "motorized bicycle" (also known as a "moped") is defined as a pedal bicycle which has a helper motor, or a non-pedal bicycle which has a motor, and:

- 1) has a cylinder capacity of no more than fifty cubic centimeters;
- 2) has an automatic transmission;
- 3) is capable of a maximum speed of **not more than 30 m.p.h.**;
- 4) complies with all applicable Federal Motor Vehicle Safety Standards (M.G.L. c.90 § 1C).

Note: If this vehicle does not qualify as a motorized bicycle, it may be subject to registration as a "Limited Use Vehicle" if it has been certified as meeting Federal Motor Vehicle Safety Standards as a motorcycle or motor driven cycle. Anyone who mis-registers a motor vehicle as a "motorized bicycle" may be guilty of operating an unregistered, uninsured, uninspected, and untitled "motor vehicle" and the vehicle may be towed and stored at the owner's expense.

Affix the Decal: The decal bearing a distinctive number is being issued to the motorized bicycle described above.

The decal must be affixed on the rear of the motorized bicycle so that the decal is clearly visible from the rear. **The Registration is valid to the end of the calendar year indicated.**

When stamped with the Registrar's Stamp and paid for in full, this form is the registration. The operator must carry his/her registration and license or learner's permit whenever operating a motorized bicycle.
