

Massachusetts Bell Atlantic OSS Test Observations
Status Summary by Observation Number as of 08/18/00

ID	Brief Description	Status	Status Reason	Notes	Additional Documents
1	KPMG initial review of maintenance and repair metrics reports found several discrepancies among reported information.	Closed	Discussion Completed	<p>10/02/99: Issued</p> <p>11/08/99: BA stated that the 61.27% represents the percentage of the top 100 retail customers that were out of service less than 24 hours and is correctly reported. Also, BA states that transcription errors should be eliminated by the implementation of the “mechanized data tool” that is to be utilized to create the October metrics reports and all reports going forward. KPMG stated that it will review BA’s response to the Observation and will communicate results of this analysis on the 11/12/99 call.</p> <p>11/12/99: BA’s response was that 1) the error was due to manual transcription and BA will no longer have manual transcription beginning with October reports, and 2) the retail 100 metric for M&R out of service is calculated differently than the regular retail metric for M&R out of service. According to the Consolidated Arbitration report by BA that is valid. The “top 100 retail customers” issue is closed. The observation status will remain deferred until BA can confirm that the new transcription process is in place (with the October reports).</p> <p>12/10/99: KPMG indicated that the October reports have been received by BA and are currently under review. KPMG anticipates being prepared for discussion about this observation on the 12/30/99 call.</p> <p>01/07/00: KPMG revised the statement from 12/10/99. The October M&R reports have not been received yet. The status this Observation remains deferred until the reports have been reviewed.</p> <p>01/14/00: KPMG has received the October M&R reports and will be giving an update on the status of this Observation on 01/21/00.</p> <p>01/21/00: KPMG has reviewed the October M&R reports and was able to confirm that the new transcription process is in place. Therefore, this Observation can be closed.</p>	MA Observation report 1.doc
2	The mapping for PIC and LPIC is confusing and appears to be incorrect.	Closed	Discussion completed	<p>11/23/99: Issued</p> <p>12/03/99: Issue 2.1 BA agreed that the mapping is incorrect. It should state</p>	MA Observation report 2.doc

Massachusetts Bell Atlantic OSS Test Observations
Status Summary by Observation Number as of 08/18/00

ID	Brief Description	Status	Status Reason	Notes	Additional Documents
				<p>“N1*P9**41*PIC”. BA expects documentation changes only, unless CLEC software changes are required. BA will send out a change report process email by 12/17 COB.</p> <p>Issue 2.2 BA agreed to the issue. The EDI sample is correct. BA will change the qualifying data element to reflect this (e.g. “N101=83”). BA expects that only documentation changes will be necessary, unless CLEC software changes are required. BA will send out a change report process email by 12/17/99.</p> <p>12/17/99:</p> <p>Issue 2.1 BA Flash CR# 1153 was sent on 12/16/99 giving an update on the issue. This Observation is closed.</p> <p>Issue 2.2 BA Flash CR# 1153 was sent on 12/16/99 giving an update on the issue. The notification was partly incorrect. It is actually in the P01 loop and the PID03 value is “TI” instead of “T1”. This Observation is going to be closed when BA sends the corrected version of the Flash announcement.</p> <p>01/07/00:</p> <p>Issue 2.2 BA sent the corrected version of the Flash announcement on 12/20/99. Therefore, this Observation can be closed.</p>	
3	KPMG observed misleading and missing references (3.1), misplaced documentation (3.2) and unclear commands (3.3) in the BA North Order Business Rules v 1.7.	Closed	Discussion completed	<p>11/23/99: Issued</p> <p>12/03/99:</p> <p>Issue 3.1 (A) BA agreed that the reference is misleading. BA will change the reference to make it clearer. BA will send out CLEC change notification by 12/10/99. (B) BA agrees that clarification is needed. BA will insert cross-references, and BA will send out a clarification statement by 12/17/99.</p> <p>Issue 3.2 BA agreed to the mistake. BA is going to take out the misplaced page and issue a CLEC change notification by 12/10/99.</p> <p>Issue 3.3 BA agreed that the interdependency of SVGTYP and CFA in the North Order Business Rules v 1.7 makes it confusing to write an order. BA explained that the interdependency of the two fields is required for order</p>	MA Observation report 3.doc

Massachusetts Bell Atlantic OSS Test Observations
Status Summary by Observation Number as of 08/18/00

ID	Brief Description	Status	Status Reason	Notes	Additional Documents
				<p>writing. The SVGTYP field is required when the CFA field is populated and the LNA field equals "V." The CFA field is required when the LNA field is "C" or "V" and the SVGTYP field is "M." The SVGTYP field may not be populated unless the CFA field is populated. Similarly, the CFA field may not be populated unless the SVGTYP field is populated (specifically with "M"). KPMG will review the issue and look for alternative wording for this business rule by 12/7/99.</p> <p>12/7/99: Issue 3.3 After reviewing the complex nature of this issue, KPMG believes that the rules could not be written any clearer. Therefore, no changes to the business rules are needed. Issue 3.3 is closed.</p> <p>12/10/99: Flash CR# 1135 on changes with regard to Issues 3.1 (A) and 3.2 was sent 12/9/99. These issues are closed. The review of Issue 3.1 (B) is pending. A Flash is going to be sent by 12/17/99.</p> <p>01/07/00: Issue 3.1 (B) BA sent the corrected version of a Flash CR# 1174 on 12/21/99. Therefore, this Observation can be closed.</p>	
4	KPMG observed a discrepancy between the North Order EDI Guide v 1.7 and the North Order Business Rules v 1.7 specifications.	Closed	Discussion completed	<p>11/23/99: Issued</p> <p>12/03/99: BA agreed to the issue. The North Order EDI Guide v 1.7 mapping for an N1 loop is correct. BA will update the North Order Business rules v 1.7 specifications accordingly. BA expects a documentation only change and will send out a CLEC change notification by 12/10/99.</p> <p>12/10/99: Flash CR# 1135 announcement was sent on 12/9/99 giving an update on the North Order Business rules v 1.7 specifications. This Observation is closed.</p>	MA Observation report 4.doc
5	KPMG observed inconsistencies between EDI specifications and EDI examples in the North Order EDI Guide v 1.7.	Closed	Discussion completed	<p>11/23/99: Issued</p> <p>12/03/99: Issue 5.1 BA agreed. The ORI tag in the EDI specifications for the TCMULT field on page 184 is missing. The North Order EDI Guide v 1.7 should state "N9*H5*ORI*TCMULT"</p>	MA Observation report 5.doc

Massachusetts Bell Atlantic OSS Test Observations
Status Summary by Observation Number as of 08/18/00

ID	Brief Description	Status	Status Reason	Notes	Additional Documents
				<p>for the TCMULT data field in the detailed explanation like in the example on page 192. BA expects a documentation only change and will send out a CLEC change notification by 12/17/99.</p> <p>Issue 5.2 BA agreed. The example for the OA data field mapping specification on page 184 in the North Order EDI Guide v 1.7 is wrong. The example should state instead "N9*H5*OROA". BA expects a documentation only change and will send out a CLEC change notification by 12/17/99.</p> <p>12/17/99: Flash CR# 1154 was sent on 12/16/99 giving an update on both issues to ensure consistency throughout the North Order EDI Guide v 1.7. This Observation is closed.</p>	
6	A system software error in Bell Atlantic's DCF server is preventing the correct routing and processing of Level 5 (flow through) orders.	Closed	Discussion Completed	<p>12/14/99: Issued</p> <p>12/17/99: Although BA has already addressed this issue satisfactorily on 12/5, KPMG is publishing this Observation. The Observation is closed.</p>	MA Observation report 6.doc
7	Flow through documentation is not publicly or readily available to CLECs.	Closed	Discussion Completed	<p>12/14/99: Issued</p> <p>12/17/99:</p> <p>Issue 7.1 BA agreed. BA is going to change all North Notes and Conditions on Web and will create and post by 02/21/00.</p> <p>Issue 7.2 BA agreed. BA will send an update by 12/31/99.</p> <p>01/07/00:</p> <p>Issue 7.2 BA revised its announcement from 12/17/99 and will send an update by 01/14/99.</p> <p>01/28/00:</p> <p>Issue 7.2 BA has updated the BA North Generic Ordering Flow-Through Scenario Document on BA's TISOC web-site. It appears to be current and comprehensive. Issue 7.2 can be closed.</p> <p>02/18/00:</p> <p>Issue 7.1 BA revised its announcement from 12/17/99 and will give a new completion date for the change on 02/25/00.</p> <p>02/25/00:</p> <p>Issue 7.1 BA has not announced a new completion date for the</p>	MA Observation report 7.doc

Massachusetts Bell Atlantic OSS Test Observations

ID	Brief Description	Status	Status Reason	Notes	Additional Documents
				<p>change yet. This Issue remains deferred.</p> <p>03/10/00: Issue 7.1 BA stated that the North Notes and Conditions on the web-site will be posted by 03/17/00. This Issue remains deferred until KPMG has been able to verify the changes in the North Notes and Conditions on the web-site.</p> <p>03/24/00: Issue 7.1 BA stated that the documentation changes have partially been implemented on the web-site. This Issue remains deferred until KPMG has been able to verify all changes in the North Notes and Conditions on the web-site.</p> <p>04/24/00: Issue 7.1 KPMG has verified that all documentation changes have been implemented on the web-site. This Issue can be closed.</p>	
8	KPMG observed missing and unclear commands in the BA North Order Business Rules v 1. 7	Closed	Discussion completed	<p>12/14/99: Issued</p> <p>12/17/99: Issue 8.1 BA agreed. The CFA field will be changed to "optional". A CLEC notification will be sent by 12/31/99.</p> <p>Issue 8.2 BA stated that "E" and "J" should not be grayed out. BA is going to clarify the command and send out a CLEC notification by 12/31/99.</p> <p>01/07/00: Issue 8.1 BA revised its announcement from 12/17/99 and will send out a CLEC notification by 01/14/99.</p> <p>Issue 8.2 BA revised its announcement from 12/17/99 and will send out a CLEC notification by 01/14/99.</p> <p>01/14/00: Issue 8.1 BA explained that the investigation on this Observation could not be concluded yet and announced to send out a CLEC notification by 01/21/99.</p> <p>Issue 8.2 BA explained that the investigation on this Observation could not be concluded yet and announced to send out a CLEC notification by 01/21/99.</p> <p>01/21/00: Flash CR# 1223 was sent on 01/19/00 giving a satisfactory solution for both issues. This Observation can be closed.</p>	MA Observation report 8.doc

Massachusetts Bell Atlantic OSS Test Observations
Status Summary by Observation Number as of 08/18/00

ID	Brief Description	Status	Status Reason	Notes	Additional Documents
9	KPMG observed a discrepancy between the BA North Order EDI Guide v 1.7 and the BA North Order Business Rules v 1.7	Closed	Discussion Complete	<p>12/14/99: Issued</p> <p>12/17/99: BA agreed. For Web GUI, the following work around exists: "Platform as is" must be submitted as "platform as specified" to BA. In addition, BA will issue a change request to correct this issue. This will take 2-6 months.</p> <p>01/21/00: BA offered a work-around as an interim solution for the problem in Flash CR#1222 sent 01/20/00. The status of the Observation remains deferred until the correction on the issue could be confirmed.</p> <p>05/12/00: BA announced that there is no schedule for the code changes yet. The status of this Observation remains deferred.</p> <p>06/02/00: Related Observation #82 has been issued.</p> <p>06/30/00: KPMG has been able to verify the BA work-around. This Observation is closed.</p>	MA Observation report 9.doc
10	KPMG observed a discrepancy between RETAS on-line help and the RETAS Student User Guide for CLECs	Closed	Discussion Complete	<p>01/04/00: Issued</p> <p>01/07/00: BA agreed. BA will place a change request on the matter and expects to deliver a change notification within the next 4 to 6 weeks.</p> <p>03/07/00: The status of the Observation remains deferred until the scheduled release and verification of CR#1197.</p> <p>03/28/00: BA stated that correction for this Observation will be included in the April release of the RETAS Student User Guide for CLECs. The status of this Observation remains deferred until KPMG has been able to validate that the discrepancy between RETAS on-line help and the RETAS Student User Guide no longer exists.</p> <p>04/28/00: Issue 10.1 The status of this Issue remains deferred. KPMG reviewed the updates to the RETAS online Help. Previously the Online Help for the Circuit ID field incorrectly referenced Appendix E of the RETAS Student User Guide for CLECs to obtain valid circuit ID formats. KPMG observed that the help provided for the circuit ID field now correctly references the appendix E in the Trouble Administration Business Rules (version 2.5) for</p>	MA Observation report 10.doc

Massachusetts Bell Atlantic OSS Test Observations

ID	Brief Description	Status	Status Reason	Notes	Additional Documents
				<p>most RETAS masks. However, the help provided for the circuit ID field for the "Extended Trouble History Request Message Set" mask still incorrectly references Appendix E in the Training Guide. The status of this Issue remains deferred.</p> <p>Issue 10.2 KPMG reviewed the updates to the RETAS online Help and observed that the "Test Result Codes" field in the Create Trouble Ticket Menu is incorrectly referenced in Appendix G in the Trouble Administration Business Rules (version 2.5) for valid values. The status of this Issue remains deferred.</p> <p>05/12/00: BA announced that corrections on both Issue 10.1 and 10.2 are going to be included in the June release of the RETAS Student User Guide for CLECs. The status of this Observation remains deferred until KPMG has been able to verify those changes.</p> <p>06/30/00: On further retest KPMG was able to validate the changes made by BA to KPMG's comments dated 4/28/00. This Observation can be closed.</p>	
11	KPMG observed an inconsistency between the BA North Order Business Rules v 1.7.1 and operating procedures	Closed	Discussion completed	<p>01/04/00: Issued</p> <p>01/07/00: BA agreed. The Observation refers to the field with the name "Access Information" and appears to be a discrepancy of TISOC and Business Rules. BA will discuss this issue with TISOC and analyze and investigate any changes. No date for a change notification has been announced.</p> <p>01/21/00: BA stated that the "LCTELNUM" field will be changed to a "conditional" field in the Notes and Conditions. BA announced that Flash CR# 1242 is going to be sent with an update by 01/28/00.</p> <p>01/28/00: BA announced that updates have been made to the BA North Order Business Rules v 1.7.1 to ensure consistency with current BA business processes. These updates also apply to the North Order Business Rules v 1.8.1 released for February. To address the defect, the usage for the "LCTELNUM" field will be changed from "optional" to "conditional." Also, there will be an appendix the Notes</p>	MA Observation report 11.doc

Massachusetts Bell Atlantic OSS Test Observations
Status Summary by Observation Number as of 08/18/00

ID	Brief Description	Status	Status Reason	Notes	Additional Documents
				and Conditions for the "LCTELNUM" field on the EU form for further clarification. This Observation can be closed.	
12	KPMG has received standard error messages when adding TNs that were reserved using the ADR/TN Reservation form to hunting sequences	Closed	Discussion completed	01/11/00: Issued 01/14/00: Although BA has already addressed this issue satisfactorily, KPMG is publishing this Observation. This Observation can be closed.	MA Observation report 12.doc
13	KPMG observed that the process regarding xDSL migration scenarios in the BA-North Order Business Rules v 1.7 is insufficient	Closed	Discussion completed	01/11/00: Issued 01/14/00: BA stated that after further analysis and clarification of this Observation with KPMG BA will send out a CLEC change notification. KPMG could clarify on the call that the observation is not referring to a partial migration, but a resale xDSL migration as a loop. BA will provide an update on the Observation by 01/21/00. 01/21/00: BA stated that migrations are currently not permitted. A change of the Business Rules would be necessary to solve the issue. BA will send out a CLEC notification on the change. BA will invite the xDSL manager to elaborate on the issue on the Observation Status call on 01/28/00. 01/28/00: BA announced a Business Rule change noting that migrations are not permitted. Following the Change Control process BA is going to send out a change notification within the next 2 to 6 weeks. 02/11/00: BA has sent Flash CR#1285 on 02/10/00 giving a satisfactory solution for the issue. This Observation can be closed.	MA Observation report 13.doc
14	KPMG observed an inconsistency between the published documentation outlining the billing help desk process and Bell Atlantic's actual billing help desk practice.	Closed	Discussion completed	01/18/00: Issued 01/21/00: Issue A BA corrected the Billing Helpdesk Minutes from the interview on December 9, 1999. With this, the issue has been resolved and can be closed. Issue B BA agreed that the inquiry phone number included on the bills is not the correct "help-call" number. BA stated that the inquiry phone number on the bills is going to be corrected. The Observation status will remain deferred	MA Observation report 14.doc

Massachusetts Bell Atlantic OSS Test Observations
Status Summary by Observation Number as of 08/18/00

ID	Brief Description	Status	Status Reason	Notes	Additional Documents
				<p>until the change is in place in the CLEC Handbook, Volume 1, 8.1 Contact List, located on Bell Atlantic's web-site.</p> <p>02/04/00: Issue B BA stated that the inquiry phone number on the bills has been corrected. KPMG will verify this change on 02/11/00.</p> <p>02/18/00: Issue B KPMG revised its statement from 02/04/00 and will verify the change by 02/25/00.</p> <p>02/25/00: Issue B KPMG has been able to verify that the inquiry phone number on the bills has been changed. This Observation can be closed.</p>	
15	KPMG experienced a discrepancy regarding Bell Atlantic's timely sending of bills.	Closed	Discussion completed	<p>01/25/00: Issued</p> <p>01/28/00: Issue 15.1 BA agreed. BA is supposed to send bills via mail within 10 business days of their respective billing dates. With this understanding, KPMG received bills later than expected. The receipt of bills by KPMG was delayed, however, as a result of BA having incorrect billing addresses. BA stated that the addresses have been corrected and future bills will be sent within ten business days of their respective bill dates.</p> <p>Issue 15.2 BA is supposed to send bills via NDM or CD-ROM within 10 business days of their respective billing dates. BA stated that resale bills were only sent via CD-ROM prior to establishment of the NDM connection. After this connection was established, resale bills would only be sent via NDM. All bills expected via NDM, including CABS bills, have been accounted for, though some were late. The status of this Issue remains deferred pending the timely receipt of February bills.</p> <p>03/10/00: Issue 15.1 Subsequent bills have been received by KPMG in a timely manner. This issue can be closed.</p> <p>Issue 15.2 KPMG verified the timely receipt of the subsequent bills.</p>	MA Observation report 15.doc

Massachusetts Bell Atlantic OSS Test Observations
Status Summary by Observation Number as of 08/18/00

ID	Brief Description	Status	Status Reason	Notes	Additional Documents
				This Observation can be closed.	
16	The process for completing work in the TISOC is not consistently documented.	Closed	Discussion completed	<p>02/01/00: Issued</p> <p>02/04/00: BA disagreed. BA sees KPMG's issue based in a misunderstanding in a TISOC interview with BA. The status of this Observation remains deferred until KPMG can confirm that the process for completing work in the TISOC is consistently documented.</p> <p>02/18/00: The M&P documentation received from BA describes the processes required to complete the processing of an order. The process description includes product intervals, business rules, step-by-step instructions, screen shots of the system, and references to other documentation. This Observation can be closed.</p>	MA Observation report 16.doc
17	KPMG noticed a discrepancy between the CRIS contract rate for USOC "ULB" and the rate that appears on the CSR.	Closed	Discussion completed	<p>02/08/00: Issued</p> <p>02/11/00: BA agreed. BA expects to present a solution regarding the correction of the rate by 02/18/00. The status of this Observation will remain deferred until Bell Atlantic's correction of the rate can be verified.</p> <p>02/18/00: BA explained that the correction of this issue is not as simple as expected and requires further analysis. BA expects to give the next update on 02/25/00.</p> <p>02/25/00: BA stated that the correction of the rate will be implemented by 03/18/00.</p> <p>03/28/00: KPMG will not be able to verify the correction until April. The status of this Observation remains deferred.</p> <p>04/07/00: KPMG stated that it has not been able to verify the correction yet.</p> <p>04/28/00: KPMG has been able to verify the correction. This Observation can be closed.</p>	MA Observation report 17.doc
18	KPMG noticed a change in format between the November and December Loop Summary paper bills. KPMG does not have documentation to explain the reason for the change.	Closed	Discussion Completed	<p>02/08/00: Issued</p> <p>02/11/00: BA disagreed. BA believes that the billing help desk can address questions CLECs have regarding these types of issues. In addition, BA feels that this issue does not affect the charges on the bill or the ability of the CLEC to validate the bill.</p>	MA Observation report 18.doc

Massachusetts Bell Atlantic OSS Test Observations
Status Summary by Observation Number as of 08/18/00

ID	Brief Description	Status	Status Reason	Notes	Additional Documents
				02/15/00: KPMG agrees that BA's Helpdesk provides a platform for the CLECs to clarify specific bill format questions. This Observation can be closed.	
19	The information provided in the CLEC Handbook regarding publishing the Standard Quality Baseline Validation Test Deck on the web-site is incorrect.	Closed	Discussion Completed	<p>02/08/00: Issued</p> <p>02/11/00: BA agreed. BA explained that this Test Deck was sent to the CLEC community as part of the Change control e-mails. BA further stated that the standard Quality Baseline Validation Test Deck for MA as well as for the other states under its jurisdiction would be made available on the TIS web-site by the 02/16/2000.</p> <p>02/18/00: BA has posted the correct information on the TIS web-site, but not at the location it should be. The issue remains deferred until the location has been changed.</p> <p>02/25/00: BA stated that the location of the correct information on the TIS web-site will be changed by the end of March.</p> <p>04/07/00: KPMG stated that it has not been able to verify the changes on the TIS web-site yet.</p> <p>04/11/00: KPMG has verified that the location of the correct information on the TIS web-site has been changed. This Observation can be closed.</p>	MA Observation report 19.doc
20	A disparity exists between retail and wholesale provisioning.	Closed	Discussion Completed	<p>02/08/00: Issued</p> <p>02/11/00: BA disagreed. BA explained that mobile phones are being used to either contact BA or to contact customer. BA stated that every wholesale technician carries a "butt-set" to access dial tone or to contact BA. The wholesale organization distributes mobile phones to technicians on an "as of need" basis. Various communication methods are being used by wholesale. BA feels that the difference in communication methods between resale and wholesale does not impact parity.</p> <p>Further, BA explained that SSTs do not use IBM laptops to access BA's systems. SSTs use handheld terminals instead. These terminals are used by both resale and wholesale technicians, and, if they do not have it, the technicians call the dispatch centers in either Tauten or Lowell.</p>	MA Observation report 20.doc

Massachusetts Bell Atlantic OSS Test Observations
Status Summary by Observation Number as of 08/18/00

ID	Brief Description	Status	Status Reason	Notes	Additional Documents
				<p>02/15/00: KPMG agrees to amend this Observation to say “any terminal with the ability to close orders.” The status of this Observation remains deferred for further discussion on the disparity issues.</p> <p>03/21/00: KPMG received data from BA that supports the parity of wholesale and resale provisioning. This Observation can be closed.</p>	
21	KPMG has identified the hours of operation for the Bell Atlantic System Support Help Desk as published in the CLEC/Resale Handbook to be incorrect.	Closed	Discussion Completed	<p>02/15/00: Issued</p> <p>02/18/00: BA agreed. The information published in the CLEC/Resale Handbook is incorrect. BA will send out a notification regarding the correction by 03/01/00 via email. The new version of the Handbook will be released by the end of March.</p> <p>02/29/00: BA sent an Informational Message: Help Desk Hours of Operation that states that the hours of operation for the BA System Support Help Desk reflected in the CLEC Handbook are incorrect.</p> <p>03/10/00: KPMG explained that the status of this Observation remains deferred until the new version of the Handbook has been released and the correction of the information published has been verified.</p> <p>04/07/00: KPMG stated that it has not been able to verify the correction of the information published in the CLEC Handbook on the TIS web-site yet.</p> <p>04/11/00: The corrected CLEC Handbook version has been posted. This Observation can be closed.</p>	MA Observation report 21.doc
22	Certain USOC rates cannot be validated in either CLEC contract rates or DTE tariffs.	Closed	Discussion completed	<p>02/15/00: Issued</p> <p>02/18/00: BA disagreed. BA explained that the rates for POR1X and POR2X could be found in FCC tariff #11, Section 31.13.13. KPMG confirmed that “service provider number portability,” as described in FCC # 11, refers to the same charge as BA's “telephone number portability cost recovery surcharge” for USOCs POR1X and POR2X. The appropriate monthly rate per line as outlined in this FCC tariff is \$0.23. This Observation can be closed.</p>	MA Observation report 22.doc

23	The 'Type of Access' field found in Category 11 records contains an undefined value.	Closed	Discussion completed	<p>02/15/00: Issued</p> <p>02/18/00: BA agreed. The cause for the error has been identified as a program problem. KPMG will verify the changes with its DUF test after 02/23/00.</p> <p>03/10/00: KPMG deferred the closure of this Observation until the change could be verified.</p> <p>04/07/00: KPMG stated that the DUF usage re-test has been completed. The test results are currently being analyzed by KPMG.</p> <p>05/12/00: KPMG has been able to verify that the field is no longer populated with an undefined value. This Observation can be closed.</p>	MA Observation report 23.doc
24	KPMG has been receiving extraneous usage records in certain NDM files.	Closed	Discussion completed	<p>02/15/00: Issued</p> <p>02/18/00: BA disagreed. BA explained that all accounts currently billed are KPMG accounts. The first six accounts listed in the table in the Observation report are an internal testing error. KPMG will research this issue further and give feedback on 02/25/00.</p> <p>02/25/00: KPMG concurs with BA's assessment. After further research, it was determined that the last nine accounts listed in the table in the Observation report belong to KPMG. This Observation can be closed.</p>	MA Observation report 24.doc
25	The information provided in the CLEC Handbook regarding publishing the 'specific test scenarios' on the web-site is incorrect.	Closed	Discussion Completed	<p>02/15/00: Issued</p> <p>02/18/00: BA agreed that the current wording in section 4.5.1 [4th paragraph] CLEC Handbook, Volume II (September release) is incorrect. BA will re-phrase this paragraph in their March 2000 release of the CLEC Handbook series. BA confirmed that the "specific test scenarios" will be sent to the CLEC's via BA Change Control e-mail only when the new release offers a different functionality which cannot be tested based on the scenarios presented in the standard Quality Baseline Validation Test Deck. They will also be posted on the web-site.</p> <p>04/07/00: KPMG stated that it has not been able to verify the corrections on the TIS web-site yet.</p>	MA Observation report 25.doc

Massachusetts Bell Atlantic OSS Test Observations

ID	Brief Description	Status	Status Reason	Notes	Additional Documents
				04/11/00: KPMG has verified that the information provided in the CLEC Handbook regarding publishing the 'specific test scenarios' has been corrected on the web-site. This Observation can be closed.	
26	KPMG is receiving duplicate usage records.	Closed	Discussion Complete	<p>02/22/00: Issued</p> <p>02/25/00: BA is trying to identify the cause for the receipt of duplicate usage records. BA expects to give an update on this Observation by 03/03/00.</p> <p>03/03/00: BA agreed. BA explained that these credit records have been issued against the original call, and have mistakenly been classified as code 10. BA is going to fix this error. The code fix is scheduled on 03/03/00, the implementation on 03/06/00.</p> <p>03/07/00: KPMG concurs with Bell Atlantic's assessment and will test and verify the code fix during the DUF re-test. This Observation remains deferred.</p> <p>04/07/00: KPMG stated that the DUF usage re-test has been completed. The test results are currently being analyzed by KPMG.</p> <p>05/12/00: BA received additional DUF records that contribute to the clarification of this Issue and is investigating the problem. The status of this Observation remains deferred.</p> <p>05/19/00: KPMG has finished analyzing the DUF re-test, and the results are satisfactory. Therefore, this observation is closed.</p>	MA Observation report 26.doc
27	KPMG is receiving Header and Trailer Records with an undefined value in the 'Directional Indicator' field.	Closed	Discussion completed	<p>02/22/00: Issued</p> <p>02/25/00: BA is investigating the error. If a code change is required to correct the undefined value in the 'Directional Indicator' field, a change notification will be send by 03/03/00.</p> <p>03/03/00: BA has completed its analysis and has found that no code change is required. BA stated that indicator 4 is now used to determine ownership offline.</p> <p>03/07/00: KPMG agrees with BA's response. However, Bell Atlantic's population of the 'Directional Indicator' with a 7 remains incorrect. If Bell Atlantic will not correct this</p>	MA Observation report 27.doc

Status Summary by Observation Number as of 08/18/00

ID	Brief Description	Status	Status Reason	Notes	Additional Documents
				<p>issue then Bell Atlantic should not put a value in the 'Directional Indicator' field and populate this field with a 0 instead. This observation remains deferred.</p> <p>03/10/00: KPMG has been able to validate BA's response based on documentation that BA provided on the correct population of the field. This Observation can be closed.</p>	
28	Bell Atlantic did not adhere to the prescribed processes, intervals, and procedures for notifying CLECs about a recommended upgrade to PGP version 6.5.1.	Closed	Discussion Completed	<p>02/22/00: Issued</p> <p>02/25/00: BA stated that this Observation requires further BA internal discussion. BA explained that PGP is a third party vendor software upgrade for Y2K that was described to have "no CLEC impact." BA will send this issue through the Change Management process. Furthermore, any process and procedure documentation related to this issue will be available by 04/01/00 and controlled through the Change Management process.</p> <p>03/10/00: KPMG is investigating this issue and will be able to give an update on the conditional closure of this Observation by 03/16/00.</p> <p>04/14/00: BA has indicated that the PGP software upgrade is optional to the CLEC. It is new functionality that is backwards compatible to older versions. KPMG accepted this explanation. This Observation can be closed.</p>	MA Observation report 28.doc
29	KPMG is not receiving all 030101 credit records.	Closed	Discussion Completed	<p>02/29/00: Issued</p> <p>03/03/00: BA explained that this Observation is directly related to MA Observation #26 . The code fix for MA Observation #26 will by default result in a correction of the issue in this Observation.</p> <p>03/07/00: KPMG concurs with BA's assessment and will test and verify the code fix during the DUF re-test. This Observation remains deferred.</p> <p>04/07/00: KPMG stated that the DUF usage re-test has been completed. The test results are currently being analyzed by KPMG.</p> <p>05/05/00: A set of 03 records (credit request) were found to be incomplete in the re-test. KPMG is going to send a clarification via email to BA. This Observation remains</p>	MA Observation report 29.doc

Massachusetts Bell Atlantic OSS Test Observations

ID	Brief Description	Status	Status Reason	Notes	Additional Documents
				<p>deferred.</p> <p>05/19/00: KPMG is awaiting a response from BA. This Observation remains deferred.</p> <p>06/09/00: BA announced 06/30/00 release fix.</p> <p>07/07/00: This Observation has been closed based on the announced release fix. However, this fix has not been verified. KPMG does not plan a verification of this fix.</p>	
30	KPMG is receiving 110125 records with incomplete information.	Closed	Discussion completed	<p>02/29/00: Issued</p> <p>03/03/00: BA disagreed. BA explained that the information provided in the 'Destination Field' would present redundant information in the record.</p> <p>03/07/00: KPMG agrees with BA's assessment. The absence of information in the 'Destination Field' on 110125 records would not adversely affect end-user billing. This Observation can be closed.</p>	MA Observation report 30.doc
31	Charges related to Other Charges and Credits on the February M40 bill are incorrectly prorated.	Closed	Discussion completed	<p>02/29/00: Issued</p> <p>03/03/00: BA disagreed. BA explained that the 31st day in prorating of charges is never counted according to the internal CABS reference guide 4.2, p.1. This Observation remains deferred for further investigation.</p> <p>03/10/00: KPMG agrees that BA prorated the charges correctly assuming a 30 day month. This Observation can be closed.</p>	MA Observation report 31.doc
32	KPMG noticed that Customer Service Records are missing from the January 31, 2000 resale bill.	Closed	Discussion completed	<p>02/29/00: Issued</p> <p>03/03/00: BA agreed. This Observation is tied to production problem that was fixed on 02/29/00. Corrected January bills will be resent thereafter. KPMG will receive a Billing help-desk call for further clarification. The status of the Observation remains deferred until the corrected bills have been received and reviewed.</p> <p>03/21/00: KPMG has received and reviewed the corrected bills and has been able to verify the fix. This Observation can be closed.</p>	MA Observation report 32.doc

				<p>incorrect. KPMG stated that this methodology was provided to KPMG by BA help desk representatives. KPMG will recalculate the charges given the new method. The status of this Issue remains deferred for further discussion.</p> <p>Issue 41.12 BA disagreed. BA stated that this charge was correctly applied. KPMG will revisit the calculation. The status of this Issue remains deferred.</p> <p>Issue 41.13 BA disagreed. BA explained that CSRs are run prior to the bill, and thus pending orders may complete in between when the CSR is run and the bill is run, causing the difference in amount between the CSR account total and monthly access charges. KPMG will consider this explanation. The status of this Issue remains deferred.</p> <p>Issue 41.14 BA stated that usage is collected for 31 days although the “from” and “through” dates end on the 30th of the month. This Issue remains deferred for further discussion.</p> <p>Issue 41.15 BA disagreed that the usage charges were incorrect. BA will further investigate. This Issue remains deferred.</p> <p>Issue 41.16 BA disagreed, explaining that there were incorrect rates in Items 1 and 2. BA provided references in the tariff to the correct rates. Items 3 and 4 were operator handled calls that were incorrectly charged. This Issue remains deferred for further discussion.</p> <p>Issue 41.17 BA disagreed. BA explained that all charges were applied to the new number, not the old number as specified in the Observation. KPMG will investigate the Issue. The status of this Issue remains deferred.</p> <p>04/14/00: Issue 41.5 KPMG has accepted BA’s response. This Issue can be closed.</p> <p>Issue 41.12 KPMG revisited the calculation and agreed that the credit was provided on the bill. The bill is in BOS BDT format. KPMG reviewed the BDT file and verify that the correct charges were billed. This Issue can be closed.</p> <p>Issue 41.14 KPMG has accepted BA’s explanation. This Issue can be closed.</p>

				06/16/00: Issue 43.2 KPMG was able to verify the fix implemented by BA on a loop bill associated with another KPMG CLEC. Therefore, this Observation can be closed.	
44	KPMG is missing a Field Identifier Description (FID) on one of its bills.	Closed	Discussion completed	03/07/00: Issued 03/10/00: BA explained that it needs more time to analyze this problem. BA will address this Observation on 03/16/00. 03/16/00: BA disagreed. The Issue remains deferred. 03/21/00: KPMG agrees with BA's response that the Field Identifier Description can be found in other sources. This Observation can be closed.	MA Observation report 44.doc
45	KPMG is receiving UNE-P usage records with incomplete information.	Closed	Discussion completed	03/07/00: Issued 03/10/00: BA explained that it needs more time to analyze this problem. BA will address this Observation on 03/16/00. 03/16/00: BA disagreed. BA gave the following explanation for originating access records: If the call is operator handled then the 'To Number' is not populated. BA gave the following explanation for Terminating access records: The 'from number' may or may not be populated depending on the transport equipment. The Issue remains deferred for further investigation by KPMG. 03/31/00: KPMG agreed. The presence of CIC code in the 110101 and 110120 records provides sufficient information to allow UNE calls to be rated as InterLATA/IntraLATA toll messages. Since InterLATA/IntraLATA toll messages are not distinguished separately on the UNE bill, the CLEC is able to reconcile the UNE bill despite missing To/From Numbers in the UNE messages. This Observation can be closed.	MA Observation report 45.doc
46	KPMG is receiving 100119 records with an undefined value in the 'Type of Class' field.	Closed	Discussion Completed	03/07/00: Issued 03/10/00: BA disagreed. BA stated that the value is defined in code O95 in ATIS (web-site). The status of this Observation remains deferred until KPMG has received and reviewed documentation to verify the validity of the O95 value for the "Type of Class" field.	MA Observation report 46.doc

				03/16/00: The Issue remains deferred until KPMG will be able to verify the documentation on the ATIS web-site. 03/21/00: After further research and examination of OBF documentation pertaining to issue #2049 (Type of CLASS field = 095), KPMG agrees with Bell Atlantic's previous responses that value '095' is valid for the 'Type of CLASS' field. This Issue can be closed.	
47	KPMG was not billed for third party and collect calls made by KPMG's end users.	Closed	Discussion Completed	03/13/00: Issued 03/16/00: BA explained that it needs more time to analyze this problem. BA will address this Observation on 03/24/00. 03/24/00: BA announced that it needs more time to analyze this Observation. The status of this Observation remains deferred. 04/07/00: BA disagreed. BA explained that the specified calls were "0-" calls and therefore "0+COC" charges are not applicable. KPMG will consider BA's response. The status of this Observation remains deferred. 04/28/00: KPMG has accepted BA's response and verified that these calls were operator handled. This Observation can be closed.	MA Observation report 47.doc
48	A charge on KPMG's M40 bill is incorrectly prorated.	Closed	Discussion Completed	03/13/00: Issued 03/16/00: BA explained that the incorrectly prorated charge was caused by an incorrect EBD date entered by a BA billing representative. The proration would be correct if the effective bill date (EBD) was correct. 03/28/00: KPMG has been able to validate that the billing system correctly prorated the charges given the EBD date. This Observation can be closed.	MA Observation report 48.doc
49	KPMG was incorrectly charged for service order activity on a business account.	Closed	Discussion Completed	03/13/00: Issued 03/16/00: BA explained that it needs more time to analyze this problem. BA will address this Observation on 03/24/00. 03/24/00: BA disagreed BA stated that this is a residence account. KPMG disagreed. This account should have been provisioned as a business account. KPMG is going to provide the documentation to substantiate the order. The	MA Observation report 49.doc

				status of this Observation remains deferred for further discussion. 04/07/00: KPMG accepts BA's explanation that the charges are correct, since the account was provisioned as a residence account. This Observation can be closed.	
50	KPMG observed that the file names of certain billing files sent via NDM by Bell Atlantic differ from the agreed upon file naming convention.	Closed	Discussion Completed	03/21/00: Issued 03/24/00: BA agreed. BA stated that training took place in January to fix this problem. The status of this Observation remains deferred for the verification of the correction. 04/07/00: BA agreed to KPMG's concern that this problem has not been fixed by the training that took place in January. BA is investigating additional steps. However, BA commented that only "very few" customers request billing files via NDM. The status of this Observation remains deferred. 04/14/00: KPMG requested an official statement in writing from BA on its plan to implement additional steps that address this Observation. 04/28/00: KPMG has received the statement from BA. This Observation can be closed based on the communicated plan to correct the problem raised in the Observation. The correction has not been validated. KPMG does not plan a verification of this correction.	MA Observation report 50.doc
51	A service order on KPMG's Y40 bill appears to be incorrectly prorated.	Closed	Discussion Completed	03/21/00: Issued 03/24/00: BA agreed. BA explained that this Observation is based on a BA representative's error. An EBD of '11300' was assigned for the "out" activity. And an EBD '11400' was assigned for the "in" activity. KPMG is investigating this explanation. The status of the Observation remains deferred. 04/07/00: KPMG is still investigating this Issue. 04/14/00: KPMG has accepted BA's response. This Observation can be closed.	MA Observation report 51.doc
52	KPMG observed that the "called from city" and "called from	Closed	Discussion Completed	03/21/00: Issued 03/24/00: BA disagreed. BA stated that there is no information	MA Observation

				the fix. 06/23/00: Issue 59.2 This Issue can be closed based on KPMG's re-test results.	
60	KPMG observed that the Cable-Id field in the Local Service Confirmation (LSC) is being returned with a code that is different from the code in the Local Service Request (LSR).	Closed	Discussion Completed	04/11/00: Issued 04/14/00: BA agreed. BA explained that a change bulletin (CR#928) has been sent in December 1999 to address this Issue. Additionally, a CLEC conference call took place. The status of this Observation remains deferred for further clarification. 04/28/00: KPMG explained that the change bulleting is not satisfactorily addressing this Observation. The status of this Observation remains deferred. 05/05/00: BA announced to publish an informational CLEC notice on the changes of the Notes and Conditions for the cable ID field on the LSC for clarification. The status of this Observation remains deferred. 05/12/00: BA has submitted a change notification (#1435) to address this problem. KPMG is assessing the offered solution. The status of this Observation remains deferred. 05/19/00: KPMG continues to analyze the solution provided by BA. This Observation remains deferred until 05/30/00. 05/30/00: KPMG explained that including the Cable-ID on the LSC is the desired solution to this Observation. BA suggested the change request to be addressed via Change Control by the CLEC community. KPMG is considering BA's response. This Observation remains deferred. 06/02/00: KPMG has completed its analysis of BA's response. KPMG agrees to the solution provided on 5/30/00. This Observation can be closed. 				Issue can be closed. This Observation can be closed.	
62	KPMG was overcharged for the OWC rate applied to UNE Usage.	Closed	Discussion Completed	04/18/00: Issued 04/24/00: BA requested more time to investigate this Issue. 04/28/00: BA disagreed. BA explained that OWC was being charged on a "per second" basis. The rate on the bill was the "per second" rate multiplied by 60 and, therefore, expressed in minutes. KPMG confirmed BA's explanation. This Observation can be closed.	MA Observation report 62.doc
63	KPMG is not being charged for Operator Work Time (OWC) in a manner consistent with its Interconnection Agreement with Bell Atlantic.	Closed	Discussion Complete	04/25/00: Issued 04/28/00: BA agreed. BA explained that the rate being applied was displayed incorrectly in the "per second" rate. A fix was implemented 02/01/00 to show the "per minute" rate (refer to Observation 62). The correction should be evidenced on KPMG's February bills. This Observation remains deferred for the verification of the correction. 05/05/00: KPMG will take a look at its next bill. This Observation remains deferred for verification. 05/19/00: KPMG will analyze the April bill. This Observation remains deferred pending verification. 06/02/00: The correction has been verified. This Observation can be closed.	MA Observation report 63.doc
64	Directory assistance unbranded charges are not documented in the Unbundler Scenarios located in the CLEC handbook.	Closed	Discussion Complete	04/25/00: Issued 04/28/00: BA disagreed that there is no documentation for unbranded DAC charges in unbundler scenarios in the CLEC handbook. However, BA agreed that the documentation could be made clearer and announced that a documentation change will be made to reflect scenarios that apply to both branded and unbranded DAC charges. The status of this Observation remains deferred.	MA Observation report 64.doc

ID	Brief Description	Status	Status Reason	Notes	Additional Documents
74	KPMG observed several instances of unclear documentation in the Bell Atlantic North Order Business Rules, LSOG 2, v1.8.1.	Closed	Discussion Complete	<p>05/23/00: Issued</p> <p>05/30/00: BA requested more time to investigate Issues 74.1, 74.2, 74.3, 74.4, and 74.6. KPMG has eliminated Issue 74.5.</p> <p>06/23/00: BA provided KPMG a detailed response in writing via email on 06/18/00 addressing all deferred Issues under this Observation.</p> <p>Issue 74.1 BA explained that the Order, as submitted, was in agreement with the business rules and accurate. As such, the order should not have been rejected. The SEM was incorrectly originated by a service representative. The representative has been instructed on the correct rules for this issue. A Methods flash will be sent to the TISOC to reinforce to the correct rules. KPMG is waiting to verify an internal flash BA sent to the TISOC to correct this issue. This Issue is deferred.</p> <p>Issue 74.2 Bell Atlantic stated it will modify these fields to include a condition that states, “ Required when ((the actual service address, as identified in Bell Atlantic databases, contains this component) and (the SASN is populated)), otherwise prohibited.” KPMG has been able to verify this modification communicated Flash #1512. This Issue is closed.</p> <p>Issue 74.3 Bell Atlantic stated in its response that it disagrees with KPMG’s conclusion. The information about product USOC feature compatibility is not found in the Order Business Rules. To understand these relationships, a CLEC/Reseller should review: “Bell Atlantic North USOC In-Scope Table, Resale Products”, located on the BA Web Site. This document identifies the different class of service USOCs for main lines and additional lines required by Bell Atlantic. KPMG was able to verify this statement by checking the BA North USOC in-scope document on BA’s web site. This Issue is closed.</p> <p>Issue 74.4 BA explained that, currently, the Business Rules state that the LAZC, LAST, and LALOC, are required when the LASN is populated. These conditions are accurate. The LANO is conditional, with the notes and conditions stating “Optional when the LASN is populated, otherwise</p>	MA Observation report 74.doc

ID	Brief Description	Status	Status Reason	Notes	Additional Documents
				<p>prohibited.” This statement is accurate. The LATH is conditional, with the notes and conditions stating “Optional when the LASN is populated, otherwise prohibited.” This statement will be modified to indicate: “Required when the (LASN field is populated) and ((the LATH is not a street) or (the LASN is a single digit) or (the LASN is a directional sign) or (the LASN is a letter) or (the LASN is the same as the LALOC)), otherwise prohibited’. BA will modify the LASN field to make it conditional. In addition, a statement will be added to read: “Required when the LACT is = “N” or “I”, otherwise optional”. KPMG has been able to verify the information in Flash #1513. This Issue is closed.</p> <p>Issue 74.6 Bell Atlantic announced it will modify a conditional statement in the Blocking Activity field on the PS form from: “ When the ACT field on the LSR form = “V” and the LNA field = “N”, only an entry of “A” is valid.” To: “ When the LNA field = “N”, only an entry of “A” is valid.” KPMG has been able to verify the information in Flash #1514. This Issue is closed.</p> <p>06/30/00: Issue 74.1 KPMG received the internal flash BA sent to the TISOC to correct this issue and was able to verify BA’s statement. This Issue is closed.</p> <p>07/05/00: Addendum to Issue 74.2 has been issued.</p> <p>07/07/00: BA deferred its response to the Addendum.</p> <p>07/20/00: BA announced that a Flash CR# 1600 will address Addendum to Issue 74.2. This Observation remains deferred.</p> <p>07/27/00: Flash CR# 1600 has been sent and is being analyzed by KPMG.</p> <p>07/28/00: KPMG has analyzed and verified Flash CR#1600. This Observation has been closed.</p>

				<p>This Issue is closed.</p> <p>Issue 76.3 KPMG verified that the Business Rules were clarified. This Issue is closed.</p> <p>07/25/00:</p> <p>Issue 76.1 This issue is covered in Exception #10 under Issue (B) and Exception #12 under Issue 1 (E). Both Exception Issues have been closed based on CR#1605. CR# 1605 was issued for Pre-Order Business Rules v2.8.1 and v4.3.1. KPMG was able to verify that mapping specifications have been provided. Additionally, an EDI Example has been added. The Business Rules and EDI Guidelines match regarding the Data Size field. This Issue can be closed.</p>	
77	KPMG observed several instances of unexpected responses to erred orders and preorders.	Closed	Discussion Complete	<p>05/23/00: Issued</p> <p>05/30/00: KPMG is considering BA's response. All three Issues under this Observation remain deferred.</p> <p>06/02/00:</p> <p>Issue 77.1 BA disagreed. This Issue remains deferred for further discussion.</p> <p>Issue 77.2 BA explained this Issue and it can be closed.</p> <p>Issue 77.3 BA explained that this Issue is the result of human error. This Issue can be closed.</p> <p>06/09/00:</p> <p>Issue 77.1 Upon KPMG's request, BA is going to send an email to provide further clarification.</p> <p>06/13/00:</p> <p>Issue 77.1 In its email, BA explains that it does not agree with the conclusion drawn in this Observation. This order was correctly processed and confirmed without a SEM. On a REQTYPE = AB, Bell Atlantic allows CLECs to submit new listings as part of the request. Since the request is not associated with a Port Out transaction, this listing is processed in a similar manner as if it were submitted as a standalone listing. As with Standalone Listings, Bell Atlantic does not validate or verify the accuracy of the listed number – it expects the CLEC to be responsible for accurately listing the end user. This Issue remains</p>	MA Observation report 77.doc

ID	Brief Description	Status	Status Reason	Notes	Additional Documents
86	KPMG has detected the receipt of late Billing Completion Notices (BCNs).	Closed	Discussion Complete	<p>05/30/00: Issued</p> <p>06/02/00: BA disagreed. BA explained that KPMG has to look at the CRIS completion date in Metrics in order to verify that the BCNs are not late. KPMG has requested a printout of CRIS reports showing completion dates for verification. This Observation remains deferred.</p> <p>06/23/00: BA provided the dates for the BCNs and KPMG was able to verify that the BCNs were not late. This Observation is closed.</p>	MA Observation report 86.doc
87	KPMG has detected discrepancies between the completion date within the Provisioning Completion Notice (PCN CD) and the Due Date on the last Local Service Confirmation (LSC DD).	Closed	Discussion Complete	<p>05/30/00: Issued</p> <p>06/02/00: BA agreed. KPMG should not have received PCNs at all. This problem was fixed on 5/25/00. KPMG defers this Observation for verification.</p> <p>06/23/00: KPMG continues to collect data. This Observation remains deferred.</p> <p>06/30/00: KPMG has encountered further instances of this issue since BA implemented a fix on 5/25. KPMG will issue an addendum to this Observation. This Observation remains deferred.</p> <p>07/07/00: KPMG has provided BA the details on these instances via email. In its response BA explained that since 5/25, BA has received six PCNs with Completion Dates that have earlier than the Due Date on the last LSC. The first 5 PONs received PCNs with correct due dates. This Observation remains deferred for consideration of BA's response.</p> <p>07/21/00: BA explained that this Observation is based on human error. A BA representative changed the DD on the PCN to KPMG's requested DDD on the LSR and did not send a second LSC with the new DD. KPMG accepted this explanation. This Observation has been closed.</p>	MA Observation report 87.doc

88	KPMG has detected three instances of orders that received BCNs without PCNs.	Closed	Discussion Complete	<p>05/30/00: Issued</p> <p>06/02/00: BA announced that this problem was fixed on 5/25/00. KPMG defers this Observation for verification.</p> <p>06/23/00: KPMG continues to collect data. This Observation remains deferred.</p> <p>06/30/00: KPMG has encountered further instances of this issue since BA implemented a fix on 5/25. This Observation remains deferred.</p> <p>07/07/00: KPMG has provided BA the details on these instances. BA stated that the Issue is still under investigation. The Observation status remains deferred.</p> <p>07/20/00: BA explained that the instances KPMG provided are all Level 5. The first PON's PCN was not generated due to a "sporadic" DCAS database issue that is scheduled to be corrected with the 08/19/00 release. BA further explained that the remainder of the PON's did not generate PCN's due to an intermittent DCAS issue with "R" orders. A fix is scheduled for the 08/19/00 release. KPMG accepts BA's explanation. However, both fixes have not been verified by KPMG. Currently, KPMG is not planning to retest this Issue. The Observation has been closed.</p>	MA Observation report 88.doc
89	Flow through documentation regarding the eligibility of hunting is not publicly or readily available to CLECs.	Closed	Discussion Complete	<p>05/30/00: Issued</p> <p>06/02/00: BA agreed that this is a valid Observation and announced that the flow through documentation is going to be updated by the end of June. The updated information is going to include information on hunting. The Observation remains deferred for verification.</p> <p>06/09/00: BA announced the update of the flow through document for 6/17/00. The status of the Observation remains deferred for final verification.</p> <p>06/23/00: KPMG was able to verify the updated documentation. This Observation is closed.</p>	MA Observation report 89.doc

				Issue 97.3 KPMG has received and reviewed the copy of the internal memo. This Issue can be closed.	
98	Documented Methods and Procedures for provisioning coordinated hot-cuts are inconsistent across central office locations.	Closed	Discussion Complete	06/19/00: Issued 06/23/00: BA pointed out that KPMG visits occurred on different dates. BA was in the process of upgrading M&P documentation during that period, and some of the COs may have received the new version before others. KPMG will verify in the coming weeks that all COs are using consistent documentation. This Observation remains deferred pending verification. 07/07/00: KPMG has been able to verify that all COs are using consistent documentation. This Observation has been closed.	MA Observation report 98.doc
99	KPMG observed an instance of an unexpected SEM for a valid REQTYP entry.	Closed	Discussion Complete	06/19/00: Issued 06/23/00: Based upon the results of KPMG's re-test, this Observation can be closed.	MA Observation report 99.doc
100	KPMG observed an instance of inconsistent documentation provided by BA via Change Control and in the BA North Order Business Rules v1.8.1.	Closed	Discussion Complete	06/19/00: Issued 06/23/00: BA stated that the methods Flash it had sent out was not updated in the TISOC database. BA will send a communiqué to the TISOC with the update. KPMG requested a copy of this memo. This Observation remains deferred pending validation of BA's statement. 07/13/00: KPMG received and reviewed the memo on 6/26/2000 (Informational Letter #: 2000-0022). This Observation can be closed.	MA Observation report 100.doc

Massachusetts Bell Atlantic OSS Test Observations
Status Summary by Observation Number as of 08/18/00

ID	Brief Description	Status	Status Reason	Notes	Additional Documents
101	KPMG observed instances of unclear documentation in the BA North Order Business Rules v1.8.1.	Closed	Discussion Complete	<p>06/19/00: Issued.</p> <p>06/23/00: BA agreed. BA stated that the Business Rules are incorrect. It will send a flash to correct. This Observation is deferred.</p> <p>07/17/00: BA announced that a Flash will go out on 07/20/00. The Flash will describe a workaround addressing this problem. This Observation is deferred pending the Flash and verification.</p> <p>07/25/00: BA released an Informational Message via Change Control to the CLEC community regarding "Loop Regrade Ordering Policy". KPMG is assessing and re-testing the information. The status of this Observation remains deferred.</p> <p>08/04/00: KPMG has submitted orders to retest BA's fix for this Observation and has received LSCs. KPMG will monitor the orders until the Due Date of 8/10 and will look for a BCN shortly after this date. This Observation remains deferred.</p> <p>8/14/00: KPMG completed a successful retest following guidelines posted on July 25, 2000 by BA Change Control in an Informational Message titled, "Loop Regrade Ordering Policy". This Observation has been closed.</p>	MA Observation report 101.doc
102	KPMG has received Local Service order Confirmations (LSCs) from Bell Atlantic for flow-through orders during SOP downtime.	Closed	Discussion Complete	<p>06/19/00: Issued</p> <p>06/23/00: BA stated that the SOP may be available intermittently during the downtime. BA also stated that the SOP hours are being extended; the new hours will be communicated to the CLECs. KPMG requested a copy of this notification. This Observation remains deferred pending verification.</p> <p>06/30/00: KPMG has received Flash #1543. This Observation remains deferred.</p> <p>07/07/00: KPMG has been able to verify the updated web site on the extended SOP hours. KPMG has not validated that BA's offered solution is going to fix the problem.</p>	MA Observation report 102.doc

Massachusetts Bell Atlantic OSS Test Observations
Status Summary by Observation Number as of 08/18/00

ID	Brief Description	Status	Status Reason	Notes	Additional Documents
103	Bell Atlantic records Complex ISDN orders as POTS orders I its transaction data.	Closed	Discussion Complete	<p>06/22/00: Issued.</p> <p>07/07/00: BA-MA agreed. BA-MA had been using a “quick fix” to identify Complex orders and had been using the AECN RISD field to identify the CLECs that submit only Complex orders. BA-MA has proposed both a short-term solution and a long-term solution. For the short term, a high-level SORD feed will be implemented on July 14th to identify Complex orders. For the long term, BA-MA will implement a disaggregated direct feed that will supply Complex flags. This solution will be implemented on August 19th and will be reported by September 1st. This Observation remains deferred for further consideration of BA’s suggested solutions.</p> <p>07/13/00: KPMG received data from BA and was able to verify that BA has implemented the short-term fix proposed in their response from 07/07/00. This Observation can be closed based on this result. KPMG has not verified the long-term fix to be implemented on 09/01/00.</p>	MA Observation report 103.doc
104	Both LSOG 2 and LSOG 4 documentation provide incorrect error correction procedures. In addition, BA error documentation excludes an explanation of REJ (reject) codes.	Closed	Discussion Complete	<p>06/27/00: Issued</p> <p>06/30/00: BA deferred its response.</p> <p>07/14/00: Issue 104.1 BA disagreed. BA explained that the error corrections that are referred to in sections 3.2 and 1.5 are corrections to accepted orders, that is orders that have been accepted by the Bell Atlantic OSS systems. 860 or supplemental transactions may only be sent against these orders. Rejected orders (as detailed in CR#1586) are not accepted by Bell Atlantic Order Systems and therefore cannot be modified with a supplement or an 860 transaction. KPMG received Flash CR# 1586 on 7/14/00. The update will be incorporated into the next version of the Order Error Messages document. The Observation remains deferred.</p> <p>Issue 104.2 BA stated this Issue has been answered by Flash CR#1586. This Issue remains deferred for verification.</p> <p>07/20/00: KPMG has reviewed Flash CR# 1586 and accepts BA’s notification of the update to the Order Error Messages</p>	MA Observation report 104.doc

ID	Brief Description	Status	Status Reason	Notes	Additional Documents
				document. Both Issues under this Observation have been closed. The update of the Preface in the next version has not been verified.	
105	KPMG observed discrepancies between the Local Service Request and EDI format of the June 2000 release of the Regression and Quality Baseline Validation Test Decks.	Closed	Discussion Complete	<p>06/28/00: Issued</p> <p>06/30/00: BA stated that EDI is used to generate the results of the test deck. The EDI inputs and outputs provided are correct. The LSRs provided are simply an additional reference for CLECs. These LSRs are manually typed in, and any errors are typos. BA is working on a solution to automate this process. This Observation remains deferred.</p> <p>07/14/00: BA explained the current steps undertaken to publish Local Service Request (LSR) information into the Quality Baseline Validation Test Deck ("Test Deck") as follows: (1) The BA Business Rules team is the owner of an Excel spreadsheet which is called the "control sheet". The control sheet is where the Business Rules team enters all the LSR information for the Test Deck. (2) A copy of the control sheet is provided to the EDI testers to perform their quality assurance testing. (3) The information in the control sheet is also manually typed into a Word document which is then published to the CLEC industry as the new release Test Deck document. It is the manual entry step that causes quality problems with the Test Deck document.</p> <p>For the upcoming October 2000 new release, BA will start implementing a new process to address this quality problem. BA's proposes the following new process: (1) The Business Rules team will still own a control sheet. (2) There will exist a separate spreadsheet for each Test Deck. This spreadsheet will be linked to the control sheet so as changes are made to the control sheet, the linked spreadsheet(s) will automatically be updated. Irrelevant</p>	MA Observation report 105.doc

Massachusetts Bell Atlantic OSS Test Observations

ID	Brief Description	Status	Status Reason	Notes	Additional Documents
				<p>fields will not appear in the spreadsheet. (3) When a new Test Deck is published, the contents in the linked spreadsheet will be copied and pasted into the Word document. This Observation remains deferred for further consideration of BA's suggested new solution to this problem.</p> <p>07/16/00: KPMG acknowledges that BA has initiated steps to address the quality concerns satisfactorily. This Observation can be closed. The process improvement has not been validated. KPMG has no plan to validate the improvement.</p>	
106	Bell Atlantic did not process flow through-eligible resale and platform orders at Level 5.	Closed	Discussion Complete	<p>06/28/00: Issued</p> <p>06/30/00: BA stated that the first PON referenced should have flown through, but did not due to a rare application error. BA also stated that the second PON referenced is not flow-through as written. The TISOC manually processed the order when it should have been queried back to KPMG. KPMG will consider this response. This Observation remains deferred.</p> <p>07/07/00: KPMG agreed to BA's response. The Observation is closed.</p>	MA Observation report 106.doc
107	KPMG observed several instances of late notification of a "no facilities" condition during ADSL qualified loop installations.	Closed	Discussion Complete	<p>06/29/00: Issued.</p> <p>07/07/00: BA agreed. KPMG requested and received supporting documentation (RCCC logs). The status of this Observation remains deferred.</p> <p>07/13/00: KPMG has received the supporting documentation regarding this Issue, and has been able to confirm that BA's performance was in an acceptable range. This Observation can be closed.</p>	MA Observation report 107.doc

**Massachusetts Bell Atlantic OSS Test Observations
Status Summary by Observation Number as of 08/18/00**

ID	Brief Description	Status	Status Reason	Notes	Additional Documents
108	A KPMG LSOG 4, resale, stand-alone directory listing service order was routed by Bell Atlantic to the wholesale department.	Closed	Discussion Complete	<p>06/29/00: Issued.</p> <p>07/07/00: BA agreed. In its response, BA referred to the Business Rules and clarified that the 'REQTYP' field on the LSR form should be populated with "DB" and the 'Activity' field with "J". The Observation remains deferred for further consideration of this response.</p> <p>07/13/00: BA explained that LSR form should be populated with "EB" for 'REQTYP' and not "DB" as stated on 07/07/00. KPMG has retested this Issue and was able to confirm that BA's statement is correct. This Observation can be closed.</p>	MA Observation report 108.doc
109	Call records were missing from the Daily Usage Feed (DUF) files received from Bell Atlantic.	Closed	Discussion Complete	<p>06/30/00: Issued.</p> <p>07/07/00: BA agreed. This Observation remains deferred.</p> <p>07/14/00: BA explained the reason for the missing call records being the following: Eleven call records could not be found (ref # 2,3,6,9-13,18,21&22). For five call records, according to BA, no call event for date and time has been specified. The Call duration time was "0" (ref # 1,16,17,19,20). These calls would not be billable and, therefore, no records have been sent. For six call records, the Order activity was on the account (ref # 4,5,7,8,15,23). These accounts were switched from retail to resale/UNE. Calls were placed on due date of order, and before the toll guide was updated. Finally, one Valuflex call (ref # 14) that is owned by BA had no record sent. KPMG accepts BA's explanation regarding all Items. This Observation can be closed.</p>	MA Observation report 109.doc

Massachusetts Bell Atlantic OSS Test Observations
Status Summary by Observation Number as of 08/18/00

ID	Brief Description	Status	Status Reason	Notes	Additional Documents
110	KPMG observed that the process for ordering xDSL migrations in the BA-North Order Business Rules v 4.3.1 is incorrect.	Closed	Discussion Complete	<p>07/07/00: Issued.</p> <p>07/14/00: BA stated that when the first character of the REQTYP is 'A', the ACT field cannot be populated with 'V'.</p> <p>07/17/00: KPMG agreed to BA's response. However, in the instance referenced in the Observation report, the ACT field was populated with "C". And when using an LNA of "C" on the LS form according to Business Rules, KPMG received an error message. It appears that the Business Rules are incorrect for loop orders when the first character of the REQTYP = "A" in an upgrade from POTS to xDSL service. Currently, a character of "C" is not prohibited on the LNA field of the LS form when upgrading a POTS line to xDSL. KPMG stated that there was a typographical error in the listed PON. The corrected Observation report has been issued. This Observation remains deferred for further discussion.</p> <p>07/18/00: BA explained that an upgrade of this nature is not supported by BA today. A CLEC would have to request a 'disconnect' first, and then a new. There is no specific documentation that states this process.</p> <p>07/21/00: BA announced that a CLEC notification will go out regarding this Observation.</p> <p>07/25/00: BA released an Informational Message via Change Control to the CLEC community regarding "Loop Regrade Ordering Policy". KPMG is assessing the information. The status of this Observation remains deferred.</p> <p>07/26/00: KPMG agrees that the "Loop Regrade Ordering Policy" as presented in the Informational Message via Change Control to the CLEC community delivers a satisfactory solution to this Observation. The Observation can be closed.</p>	MA Observation report 110.doc

Massachusetts Bell Atlantic OSS Test Observations
Status Summary by Observation Number as of 08/18/00

ID	Brief Description	Status	Status Reason	Notes	Additional Documents
111	KPMG observed that flow through orders have been processed inconsistently.	Closed	Discussion Complete	<p>07/10/00: Issued.</p> <p>07/14/00: BA stated that the PON's noted on this Observation received an internal system error message due to an unavailable backend system. BA further explained that the in the Observation listed LSR's went Level 4, as all service orders associated with those were mechanically generated. TISOC intervention was only required to allow the system to send the LSC. BA concluded that instances of this nature are captured in BA's Achieved Flow Through Metric. This Observation remains deferred for consideration of BA's response.</p> <p>07/18/00: KPMG agrees to BA's response. This Observation can be closed.</p>	MA Observation report 111.doc
112	The BA Pre-Order Business Rules version 2.8.1 states that the Service Address State/Province (SAST) Field is conditional on a Address Validate Inquiry/ Direct TN Selection Inquiry (ADR). KPMG observed, however, that this field is required.	Closed	Discussion Complete	<p>07/12/00: Issued.</p> <p>07/14/00: BA agreed. The Business Rules are not in line with the actual practice. Flash CR# 1516 addresses this Observation. This Observation remains deferred for further analysis of the Flash.</p> <p>07/21/00: KPMG has received Flash CR# 1516 and acknowledged the announced change of the SAST Field from 'conditional' to 'required' with the next release of the Pre-Order Business Rules. This Observation can be closed. The change could not be verified.</p>	MA Observation report 112.doc
113	Two DS1 circuits were found to be out of service due to Bell Atlantic wiring transpositions between the MUX and the RJ48 jack (Demarcation Point).	Closed	Discussion Complete	<p>07/12/00: Issued.</p> <p>07/14/00: BA stated that further clarification of this Observation is needed. The status of this Observation remains deferred.</p> <p>07/17/00: This problem is a result of human error in wiring transposition. Therefore, this Observation can be closed.</p>	MA Observation report 113.doc

Massachusetts Bell Atlantic OSS Test Observations
Status Summary by Observation Number as of 08/18/00

ID	Brief Description	Status	Status Reason	Notes	Additional Documents
114	KPMG observed four DS1 circuits installed with an incorrect Demarcation Labeling based on BA's Methods & Procedures.	Closed	Discussion Complete	<p>07/12/00: Issued.</p> <p>07/14/00: BA suspects that the Demarcation of the listed DS1 circuits has been mislabeled. This Observation remains deferred for further investigation.</p> <p>07/17/00: BA's assessment could be confirmed by KPMG. This Observation can be closed.</p>	MA Observation report 114.doc
115	KPMG has received misleading error messages when submitting orders as described by the Bell Atlantic North Order Business Rules, Version 4.3.1.	Closed	Discussion Completed	<p>07/19/00: Issued.</p> <p>07/20/00: Addendum for clarification of both Issues released. As a result, the original Observation has been closed.</p> <p>07/24/00: BA asked KPMG to supply the inbound EDI request and the EDI response from BA for the PON's referenced in Issues 1 and 2.</p> <p>07/25/00: KPMG provided BA with two PON numbers and the related version of the LSR's. BA is still analyzing this Observation. This Observation remains deferred.</p> <p>7/28/00: BA disagreed and explained that in both cases (Issue 115.1 and 115.2), the BA generated error messages were due to KPMG incorrectly constructing EDI inputs. These inputs, when read by BA, generated the messages based on what the order actually contained, which was not what KPMG intended or states above.</p> <p>Issue 115.1 BA explained that KPMG submitted an order with incorrect EDI structure. The fifth PO1 Loop did not properly identify the loop as a Level 1 indent. (The level is missing from the SLN 5 data- see BA Order EDI LSOG Specification Document Example 3.5, DSCR depiction). BA then correctly mapped the SI TI C3 data to the Header Telephone Number. This generates the error message above correctly.</p> <p>Issue 115.2 BA explained that KPMG incorrectly identified POC 1 as a Port Service Form ("SS") instead of identifying it as a Hunting segment (HNT). This caused BA to map the data to a Port Service Form, and since no Telephone Number (for a Port Service form) is present in this segment, the correct error message was generated. BA error messages were correct for the transactions as</p>	MA Observation report 115.doc

Massachusetts Bell Atlantic OSS Test Observations
Status Summary by Observation Number as of 08/18/00

ID	Brief Description	Status	Status Reason	Notes	Additional Documents
				submitted. 7/28/00: KPMG has considered BA's explanation regarding both Issues and agrees. This Observation can be closed.	
116	KPMG noticed that in several cases Local Service Billing Completion (LSBCM) responses received from BA-MA did not contain the required fields 'Service Order Identifier' (SOID) and 'Service Order Billing Telephone Number' (SOBTN).	Closed	Discussion Completed	07/28/00: Issued. 08/03/00: Further analysis showed that the SOID and SOBTN fields are not in the Business Rules version 4.1.1 and, therefore, should not have been included in the analysis of the orders referenced in this Observation that were sent prior to the 4.3.1 release (June 17th). Orders sent after June 17th have the SOID and SOBTN fields. This Observation can be closed.	MA Observation report 116.doc
117	KPMG observed that in several cases, the Due Date (DD) on the Local Response received from BA-MA contained a date that did not match the Desired Due Date (DDD) sent to BA-MA on the Local Service Request.	Closed	Discussion Completed	07/31/00: Issued. 08/01/00: BA explained that it understands the importance of being consistent with the Desired Due Date requested by the CLEC and the Due Date assigned by BA-MA. Further, BA stated that in two of the three the cases mentioned in this Observation, BA methods were followed as described in document 2000-0015. The document states that "if the CLEC requests a short interval BA may assign the correct interval and then confirm the new Due Date back to the CLEC on the LSC". This occurred for PON #037011ZM0X000001 and #058012ZM0X010001 (on this PON the rep over calculated the date by 1 day, therefore, a 13 day interval was assigned instead of the proper 12 day interval). On the third PON #025012ZM0X000004, the Due Date was changed due to rep error. BA concluded that the 6/27/00 requested Due Date should have been used. The Observation remains deferred for further consideration of BA's response. 8/18/00: BA has provided KPMG with a second response	MA Observation report 117.doc

Massachusetts Bell Atlantic OSS Test Observations
Status Summary by Observation Number as of 08/18/00

ID	Brief Description	Status	Status Reason	Notes	Additional Documents
				addressing each of the 29 PONs in question. KPMG has assessed BA's response and raised this Observation to MA Exception #16. Therefore, this Observation can be closed.	
118	KPMG observed that BA-MA is unable to perform CLEC to CLEC loop migrations in both LSOG 2 and LSOG 4.	Closed	Discussion Completed	<p>08/01/00: Issued.</p> <p>08/07/00: BA disagreed. BA explained that complex migrations of unbundled elements and resale and platform services are an industry wide set of issues that still requires industry definition, consensus, and validation before BA can reasonably produce all the "rules" for all these transactions. Further, BA stated that it currently provides rules for transaction such as Platform to Platform migrations, migrations from Resale to Platform and Resale to Loop/Loop w/LNP. BA believes industry agreement permits such transactions. According to BA's response activities such as Loop to Loop migrations contain unresolved industry issues, such as: "Does an order from a New Service provider give the Network Service Provider (BA) the authority to remove the loop from the old Local Service Provider's inventory without separate express permission from the that Provider?" BA pointed out that these issues are being discussed with the Wholesale Community in several forums, including BA Change Control hosted Workshops, the current OBF working committee, and under a NY PSC proceeding. Finally, BA argued that until the industry resolves and concurs on these issues, BA could only handle such requests on a case by case basis with full cooperation of both the new and old Local Service Provider. This Observation remains deferred for consideration of BA's response.</p> <p>8/18/00: KPMG has considered BA's response and has come to the conclusion that this Observation can be closed.</p>	MA Observation report 118.doc
