The Honorable Select Boards of the following Commonwealth of Massachusetts coastal municipalities: Bourne and Sandwich

Ladies and Gentlemen,

In accordance with Chapter 130, section 74A of the Massachusetts General Laws, the Division of Marine Fisheries has determined that shellfish growing areas CCB35, CCB36, CCB37 and CCB38, precautionarily closed on September 25, 2026, due to heavy rain, now meet the National Shellfish Sanitation Program guidelines for an "Open to Shellfishing" status.

Therefore, the below-defined areas will revert to their former status prior to the closure issued on September 25, 2026, or in the case of "CONDITIONALLY APPROVED" areas, acquire the status dictated by its Conditional Area Management Plan criteria, and local rules and regulations under authority of MGL Chapter 130, section 52. This opening will be **effective at sunrise on October 2, 2026.**

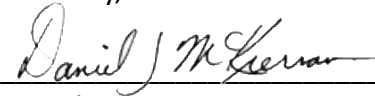

Under authority of 322 CMR 7.01(7) all permits issued thereunder are hereby conditioned to permit the taking, selling or possession of shellfish from the area listed below.

STATUS: OPEN TO THE TAKING OF SHELLFISH
Subject to conditional area management plan criteria where applicable

The waters, flats and all tributaries of the Commonwealth of Massachusetts within the growing areas of CCB35, CCB36, CCB37 and CCB38.

Individual shellfish growing area definition boundaries are mapped on the Division's website at [Shellfish classification areas | Mass.gov](#).

Sincerely,

A handwritten signature in cursive script, reading "Daniel J. McKiernan", written in black ink.
