

The Office of the Child Advocate Strategic Framework FY24-26

MARIA MOSSAIDES, DIRECTOR

Our Vision for the Commonwealth

The OCA envisions a future where all our Commonwealth's children, and their families, have the opportunity to thrive.

The OCA believes that significant change is needed over the next several years to ensure the future our children, and specifically our children in the care and/or custody of the state, deserve.

OCA Organizational Chart

Our Mission

The Office of the Child Advocate (OCA) provides independent oversight of state services for children to ensure that children receive appropriate, timely and quality services, with a particular focus on ensuring that the Commonwealth's most vulnerable and at-risk children have the opportunity to thrive.

Through collaboration with public and private stakeholders, the OCA identifies gaps in state services and recommends improvements in policy and practice. The OCA also serves as a resource for families who are receiving, or are eligible to receive, services from the Commonwealth.
