Very respectfully,
Your obedient servant,

AUDITOR'S DEPARTMENT, BOSTON, January 14, 1873.

To the Honorable Senate and House of Representatives.

I have the honor to present the Twenty-Fourth Annual Report of this Department, for the year ended December 31, 1872.

The laws pertaining to the subject-matter and form of the Auditor's Report, are as follows:—

“The annual report of the Auditor shall contain a summary statement of the receipts into and payments from the treasury of the Commonwealth for the preceding year; also a detailed and particular statement of the receipts and expenditures belonging to each year; said detailed statement of expenditures to include, first, the expense incurred during the year for the support of all permanent departments, services and institutions; and second, all special and exceptional charges, incurred for objects ordered within the year, the account being constructed in such manner as to show the expenditures actually incurred within the year, as far as can be ascertained, whether the same have been paid during the year, or whether the whole or part thereof remain unpaid at the close of the year.

“The Auditor's Report in each year shall show the aggregate amount of funded debt at the beginning and end of the year respectively, the balance of increase or decrease, and a statement of the cause of such balance; and in like manner shall show the aggregate amount of all temporary loans at the beginning and end of the year, the balance of increase or decrease, and a statement of the cause of such balance. The report shall likewise state whether the ordinary expenses of the year have exceeded the income, or the contrary, and show the amount of balance.

"It shall be the duty of the Auditor to include in his report the items of all accounts of expenditures, so far as they may be useful or interesting to the people of the Commonwealth; and in particular, so far as may be practicable, the various heads of expenditure shall be separated, so as to show the different officers or boards under whose directions the several portions of the expenditure have been incurred; all salaries and other general charges shall likewise be separated so as to show the different classes of officers who receive the several portions of the expenditure; and no expenditure exceeding five hundred dollars shall be included under any indefinite head, if it be composed of separate items.

"The Auditor's Report shall annually contain a particular statement of the transactions of the funds belonging to, or held in trust by, the Commonwealth, including new investments of any portion of said funds, which may have been made during the preceding year, and also of the manner in which the moiety of the income of the school fund applicable to educational purposes has been disbursed.

"The Auditor shall also include in his report an estimate for the current year of the ordinary revenue of the Commonwealth, and of such other means as he may be able to point out for the defraying of expenditures."

The following Summary Statement shows the entire receipts into and payments from the treasury during the year, the same being for and on account of the year 1872 and previous years. For the actual expenditures properly belonging to the year 1872, so far as the same can now be ascertained, reference must be had to Statement No. IX.

A reduction of \$120,000 is made from the estimates of last year for receipts from corporation and bank taxes, and \$200,000 has been added to the estimated receipts from the savings bank tax.

The net receipts from corporation taxes in 1872, when all settlements shall have been made, will not vary much from \$370,000, and from bank stocks \$142,500. The changes made in the laws of 1872, largely diminished the anticipated receipts from the bank stock tax.

The fire in Boston has so seriously affected the insurance companies, and possibly some other corporations, as to lead to the belief that the revenue to be derived from corporation taxes will be quite materially lessened. The receipts from alien passengers will hereafter wholly cease, in consequence of the repealing legislation of last year; but the continued increase in the receipts from the savings bank taxes has more than supplied these deficiencies; the receipts from this source amounting in 1872 to the sum of \$1,311,736.25.

A state tax of \$2,000,000, unless the legislature, at its present session, shall authorize very considerable expenditures in addition to those now provided for, will, with the ordinary revenue, be sufficient for all the needs of the treasury, and leave at the close of the year a sufficient amount of cash on hand to save the necessity of immediately thereafter resorting to the expedient of a temporary loan.

The great fire of November 9th and 10th in Boston has added to the revenue expenditures of the year more than

\$125,000, viz.:—For the special session of the legislature \$63,900; for military expenses \$50,000; and other items, say \$12,000.

TROY AND GREENFIELD RAILROAD AND HOOSAC TUNNEL.

During the past year scrip to the amount of \$1,178,540, has been negotiated, leaving £200,000,—equal to \$968,000,—of the authorized issue, still unsold.

As the Hoosac Tunnel is nearing its completion, more than seven-eighths of its entire length having been penetrated, and legislation is being called for with a view to the consolidation of the line from Boston to Troy, it may be useful to present, in brief, a statement of the cost of the enterprise.
