## Executive Summary

This aggregate statistical report of taxes collected from corporations and certain other businesses fulfills the requirements of section 82 of chapter 62C of the General Laws, as established by Chapter 402 of the Acts of 1992.

### *Contents of the Report*

The report provides summary information on the tax owed, income, and use of credits, deductions, exemptions, and exclusions by corporations doing business in the Commonwealth. The statistical tables cover each type of corporation subject to the Massachusetts corporate excise under M.G.L. Chapter 63, including business corporations, financial institutions, insurance companies, and public utilities. Information for the report is drawn from tax returns filed with the Department of Revenue for tax year 2000; as provided by section 82, information not reported on Massachusetts tax returns for tax year 2000 is not included in this report.

The tables in this report present aggregated total amounts by industry and by the amount of gross receipts, Massachusetts taxable income, and corporate excise due. In all cases, both the number of corporations reporting and the total dollar amount of a line item are given. Additional information about the structure of the business corporation, financial institution, insurance company, and public utility excises is provided in an appendix at the end of this report.

To the extent that data were available, the tables report all deductions, exemptions, and exclusions allowed under Massachusetts General Law for tax year 2000.

Industry group detail tables are provided for business corporation line item data, since corporations from many different industry groups are required to file such returns. The data presented in the tables reflect information as filed by the corporate taxpayer and have not been adjusted for subsequent audit or enforcement activity by the Department.

### *Missing or Not Applicable Data*

The tables in this report are based upon line item information from taxpayers' returns which may have missing information or which may be inapplicable to some detail subcategories presented in the table. In all cases, the aggregate amounts reported include all available information for a line item, subject to restrictions to preserve the confidentiality of taxpayer data. An example of missing data: some returns lacked North American Industry Classification System (NAICS) codes. Therefore, information for those returns is reported in the "Missing or Not Applicable Data" columns of the industry group detail tables. An example of data not applicable: the line item for Income Subject to Apportionment is not present for corporations filing as Small Business Corporations. These corporations are required to have all their income derived from Massachusetts activity, so there is no apportionment involved.

### *Confidentiality of Taxpayer Data*

The results presented in the tables comply with the Commonwealth's laws regarding the confidentiality of taxpayer data, including the relevant provisions of section 82, and the rules for implementing those laws. These rules disallow the reporting of line item information for an individual corporation; therefore, when the data upon which this report is based pertain to fewer than three corporations, no dollar amount has been disclosed.

## **Changes from the 2000 Report**

The statistics in this report reflect three tax law changes from 1999 that affected 2000 corporate excise collections. These are:

*Change of apportionment formulas for certain manufacturers.* The apportionment formula for a section 38 manufacturer, a corporation engaged in substantial manufacturing, was adjusted yearly through tax year 2000 to gradually increase its weight of sales by 10% annually, and to reduce the payroll and property factors' weight by 5% each per year. For section 38 manufacturers, the weights in tax year 2000 were 100%, 0%, and 0% for sales and property and payroll, respectively.

*Brownfields Tax Credit.* Effective July 1, 2000, legislation extended the time limit for incurring eligible costs that qualify for the credit and changed the limitation rules where the taxpayer receives state financial assistance. In general, the time limit was extended for two years; and state financial assistance must be deducted from the expense base for those taxpayers who received the assistance. Before this change, the taxpayers who received the assistance could not claim the credit.

*Property Tax Credit.* The property tax credit for a new facility in a poverty area expired.

### Table 2

\*To maintain confidentiality of tax return information, line item detail for corporations with negative gross receipts was combined with that for corporations with zero gross receipts.

### Table 3

\*The minimum corporate excise is \$456 for all corporations, including security corporations, for which the minimum excise was \$228 prior to 1995.

### Table 4

\*Because losses were not included in the aggregate statistics of Massachusetts Taxable Income, ranges are only greater than or equal to zero for this year's report.

## **Appendices**

## **Appendix A: The Corporate Excise**

### **Description of Massachusetts Business Corporation Excise**

#### **PART 1: INCOME EXCISE**

##### **1. Gross Receipts or Sales**

A corporation's gross receipts or sales, less returns, and allowances as stated on US Form 1120, line 1c (Massachusetts Form 355A, 355B, 355S-A, 355S-B, 355CA, 355CB, 355SBC, Schedule E, Item 1).

##### **2. Gross Profit**

A corporation's gross receipts less cost of goods sold as shown on US Form 1120, line 3 (Schedule E, line 2).

##### **3. Federal Net Income**

Total income minus total deductions as stated on US Form 1120, line 28. More specifically, this item reflects a corporation's federal taxable income before net operating losses and special deductions are applied (Schedule E, Item 4).

##### **4. Income Subject to Apportionment**

Income subject to apportionment is federal net income with certain adjustments. A deduction equal to the amount of the US Jobs Credit is allowed. The following items which are excluded from federal net income must be included in income subject to apportionment:

- state and municipal bond interest (Schedule E, Item 6);
- foreign, state or local income, franchise, excise or capital stock taxes (Schedule E, Item 7);
- other adjustments (Schedule E, Item 8).

The following deductions are then subtracted from federal net income to arrive at income subject to apportionment:

- abandoned building renovation deduction (Schedule E, Item 10);
- allowable dividends deduction (Schedule E, Item 11);
- allowable loss carryover (Schedule E, Item 13).

##### **5. Massachusetts Apportioned Income**

A corporation's Massachusetts apportioned income is determined by multiplying income subject to apportionment by the apportionment percentage (Schedule E, Item 16).

##### **6. Massachusetts Taxable Income**

Income taxable in Massachusetts is determined by deducting the following amounts from Massachusetts apportioned income: the certified Massachusetts solar or wind power deduction and 25% of wages paid to eligible poverty area employees (Schedule E, Item 19).

##### **7. Income Excise**

A corporation's income excise is determined by multiplying its taxable income in Massachusetts by the applicable tax rate. For C corporations, the tax rate is 9.5%. If two or more C corporations are organized as a combined corporate group, the income excise is reported by the principal reporting, or parent, corporation only (Forms 355A, 355B, 355C-A and 355C-B, Computation of Excise, Item 4). For businesses organized as S corporations, the income excise depends on the total income of the corporation (Forms 355S-A and 355S-B, Computation of Excise, Item 4a). If the total income is less than \$6 million, then there is no income excise levied. If total income is between \$6 and \$9 million, the tax rate is 3%. If total income is \$9 million or more, the tax rate is 4.5% (Forms 355S-A and 355S-B, Computation of Excise, Item 6).

## PART 2: NON-INCOME EXCISE

### 8a. Taxable Massachusetts Tangible Property

Applicable only to tangible property corporations. Generally, a tangible property corporation is a corporation which owns significant tangible property in the Commonwealth. A corporation is classified as a tangible property corporation if its qualifying Massachusetts property is 10% or more of its qualifying total Massachusetts assets apportioned according to the income apportionment percentage. Qualifying property is any property not subject to local taxation.

Taxable Massachusetts property is the net book value (cost minus allowable depreciation) of total Massachusetts tangible property minus exempt property. Exempt from Massachusetts tangible property is property subject to local taxation, as well as certified Massachusetts waste or air treatment facilities and certified solar or wind power facilities.

### 8b. Taxable Net Worth

Applicable only to intangible property corporations. Generally, an intangible property corporation is a corporation which owns insignificant tangible property in the Commonwealth. A corporation is classified as an intangible property corporation if its qualifying Massachusetts property is less than 10% of its qualifying total Massachusetts assets apportioned according to the income apportionment percentage. Qualifying property is any property not subject to local taxation.

Except as noted below, deductions are allowed against a corporation's net worth for capital stock and equity investments in some subsidiary corporations. Foreign corporations are allowed to exclude from Massachusetts assets investments in and advances to foreign subsidiaries for which it owns at least 80% of all voting stock and which are not registered or doing business in the Commonwealth. For domestic corporations, a deduction is given for investments in Massachusetts-based subsidiaries for which at least 80% of all voting stock is owned.

In a recent court ruling (see *Perini Corporation v. Commissioner of Revenue*), the above treatment of capital stock and equity investments in some subsidiaries was ruled unconstitutional by the Massachusetts Supreme Judicial Court because it is in conflict with the Commerce Clause of the US Constitution. As a result of the *Perini* decision, when calculating their taxable net worth, domestic and foreign corporations deduct the value of all investments in and advances to subsidiaries in which they have an ownership stake of 80% or more.

### 9. Non-Income Excise

A corporation's non-income excise is determined by multiplying the value of either taxable tangible property or net worth by the tax rate of \$2.60 per \$1,000, or 0.26% (Computation of Excise, Items 1 or 2).

## TOTAL EXCISE

### 10. Excise Due

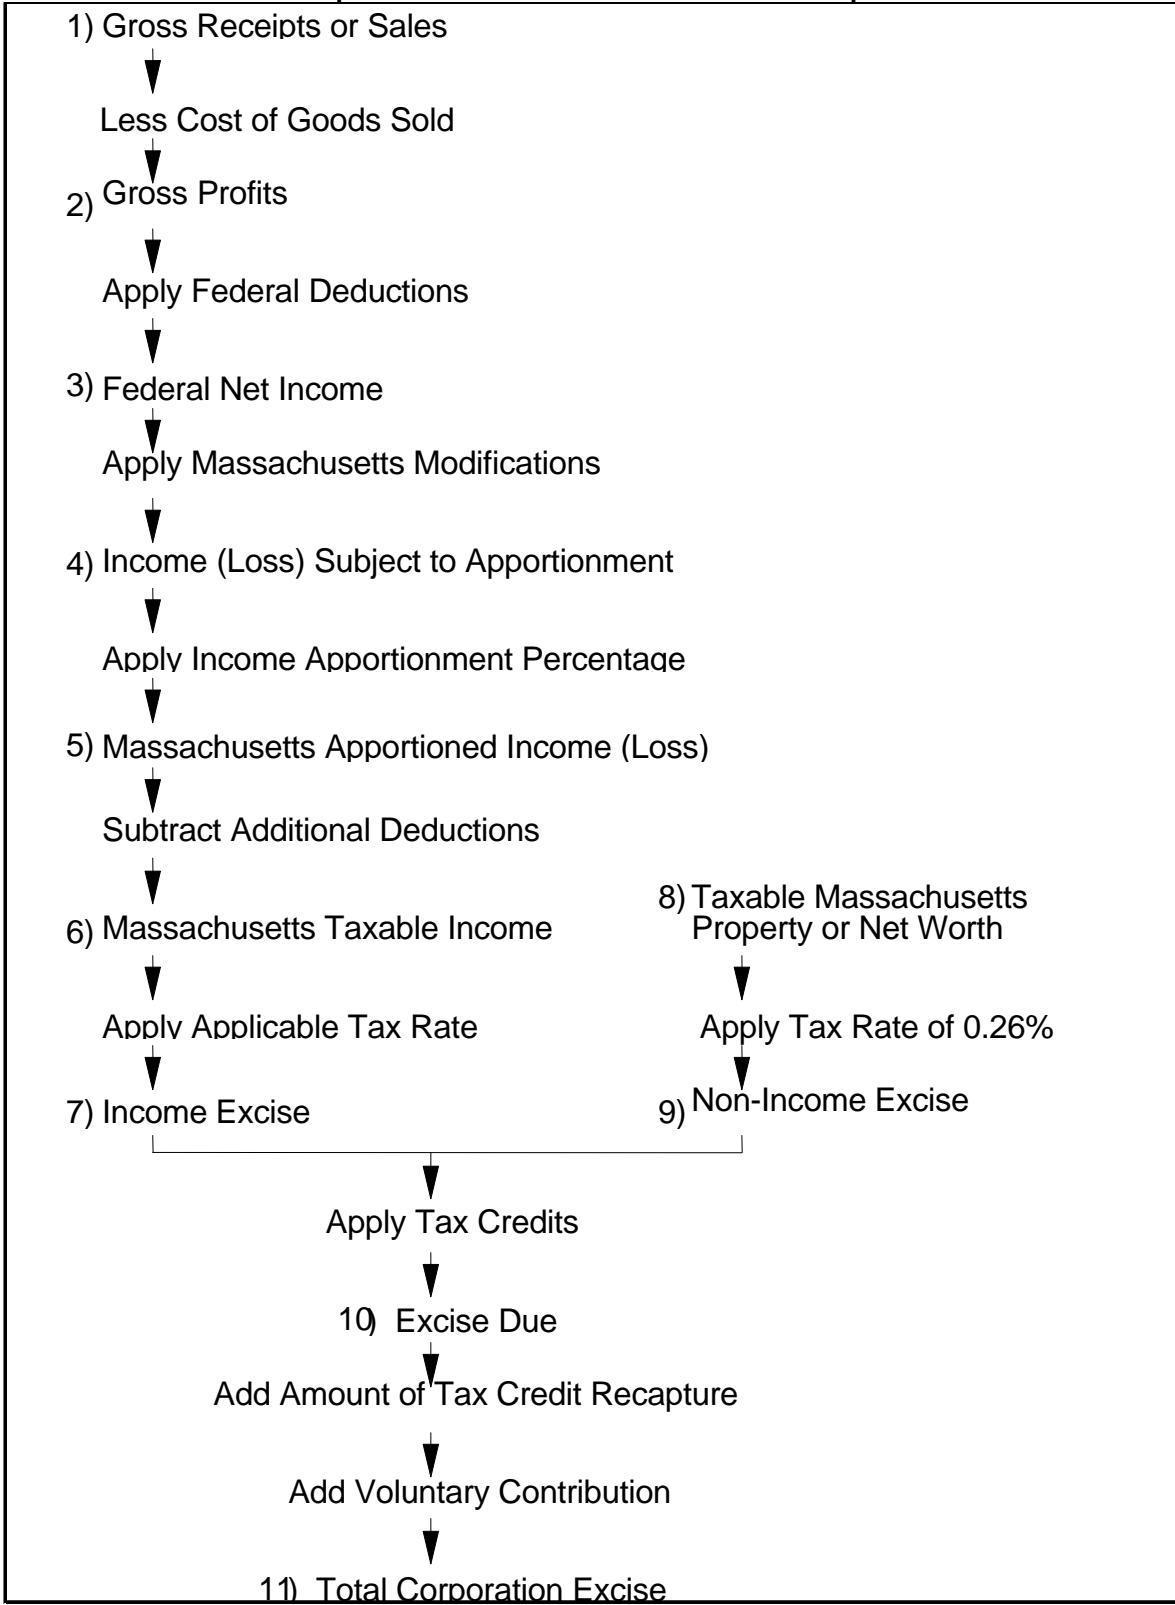

Excise due is the larger of the following two items: the sum of the income and non-income excise after deducting allowable tax credits – the economic opportunity area credit, the 3% Investment tax credit, the vanpool credit, the research credit, the harbor maintenance tax credit, the full employment credit, the brownfields credit, the low income housing credit, and any credits carried forward from previous tax years; or the minimum excise of \$456.

The maximum amount of tax credits which may be used in any one taxable year cannot exceed 50% of the excise imposed. A corporation may carry over and apply the remaining credits not allowed because of this limitation to the excise for any subsequent taxable year. Credits are not allowed to reduce a corporation's excise below the minimum tax.

### 11. Total Corporation Excise

Total corporation excise is calculated by adding the amount of the investment tax credit (ITC) recapture, the economic opportunity area tax credit recapture, the brownfields credit recapture and the voluntary contribution to the Endangered Wildlife Conservation fund to excise due. The ITC recapture is a payment of tax on the portion of the investment tax credit claimed on property which has ceased to be in qualified use before the end of its useful life.

**Chart A-1: Computation of Massachusetts Business Corporation Excise**

## **Appendix B: The Financial Institution Excise Description of Massachusetts Financial Institution Excise**

### **1. Federal Net Income**

Total income minus total deductions as stated on US Form 1120, line 28. This item reflects a corporation's federal taxable income before net operating losses and special deductions are applied. Note that under the Internal Revenue Code, financial institutions are taxed as business corporations, not separately as under the Massachusetts General Law (Form 63 FI Schedule A, Item 2).

### **2. Total Adjusted Taxable Income**

Federal net income adjusted for the different definitions of taxable income between the federal and state tax codes.

The following items must be added to federal net income to arrive at adjusted income (Schedule A, Item 7):

- State and municipal bond interest (Schedule A, Item 3);
- Foreign, state or local income, franchise, excise or capital stock taxes (Schedule A, Item 4);
- Net capital loss carryover used to reduce capital gain (Schedule A, Item 5);
- Other income (Schedule A, Item 6).

The total adjusted taxable income (Schedule A, Item 13) is equal to the above adjusted income subtracting Abandoned Building Renovation Deduction (Schedule A, Item 8) and Dividends Deduction (Schedule A, item 9), then times the apportionment percentage (Schedule E, Item 5).

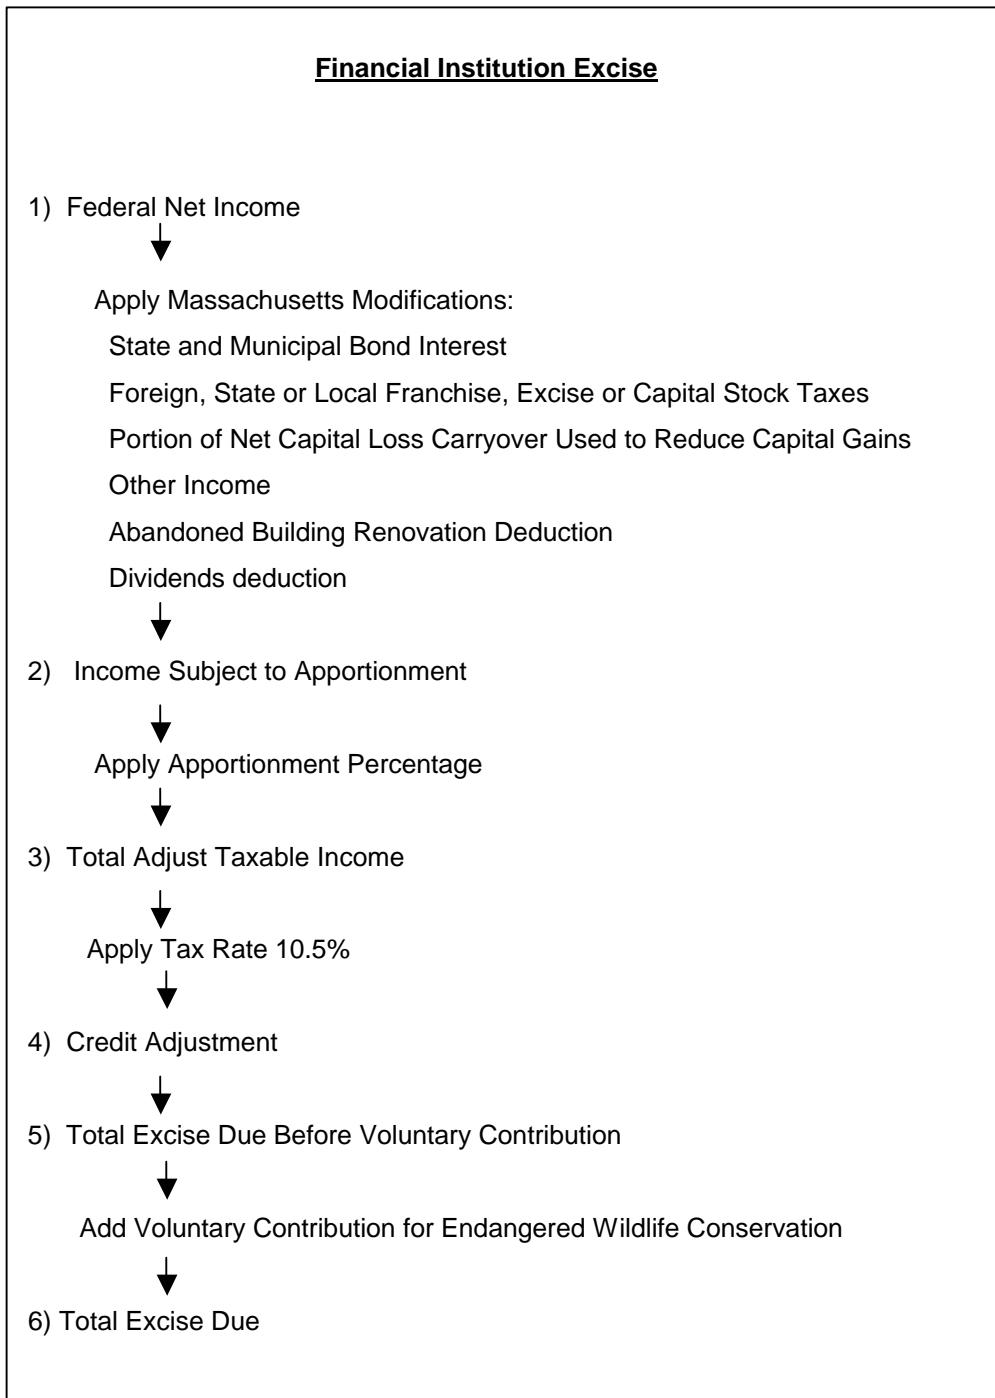

### **3. Excise Due**

Excise is determined by multiplying total adjusted taxable income in Massachusetts by the tax rate of 10.5% (Form 63 FI, Item 3). Excise due is equal to this excise plus Economic Opportunity Credit Recapture, minus the Economic Opportunity Credit and Full Employment Credit (Form 63 FI, Item 4 and 5), but not less than minimum tax \$456.

### **4. Total Excise Due After Voluntary Contribution**

The total excise due is calculated by adding any voluntary contribution (Form 63 FI, Item 9) to the Endangered Wildlife Conservation Fund to the excise due (Excise due, Item 10).

## **Chart B-1: Computation of the Financial Institution Excise**

## **Appendix C: The Public Service Excises**

### **Description of Massachusetts Public Service Company Excises**

The public service company excises cover two different groups of organizations. The first is the public service corporations that provide gas, electric and water service, public transportation and telephone service to Massachusetts residents. The second group is the organizations involved in urban redevelopment projects.

#### *Public Service Companies*

The companies file a Form P.S. 1 and pay an excise on their apportioned adjusted federal net income. The federal net income as calculated on the federal Form 1120 is used as the starting point and adjusted to conform to the Massachusetts definition of taxable income. The adjustments made are: add taxes paid to other jurisdictions which are subtracted from federal net income; add interest earned from state and municipal bonds; add the portion of net capital loss carryovers used to reduce capital gains (from US Form 1120, Schedule D); and subtract dividends received from other utility corporations for which 80% or more of voting stock is owned. There is also a line item for other income that is included in Massachusetts taxable income. This adjusted net income amount is then apportioned to reflect Massachusetts activity using an equally-weighted, three-factor formula based on payroll, property and sales.

Once the Massachusetts taxable income is calculated, a tax rate of 6.5% is applied. No credits are allowed under the public service company excise. These companies do not face a minimum excise as do business corporations.

#### *Urban Redevelopment Organizations*

Corporations, partnerships, trusts and individuals that redevelop a site in an urban area for reuse are subject to tax under Chapter 121A of the Massachusetts General Laws. They are required to annually file a Form 121A for this excise.

The excise consists of two parts. The first is a 5% tax on gross income from all sources, defined as payments received from persons for the right to reside in or occupy a portion of a redeveloped project less federal interest deduction payments. The second is a 1% tax on the fair cash value of owned or leased real and tangible personal property exempt from local taxation.

There is also a provision for a minimum tax based on the three-year average assessed value of owned or leased real and tangible personal property before it was made exempt from local taxation. The final excise due is the greater of the minimum excise and the excise based on gross income and fair cash value of property.

#### *Computation of Public Service Excises*

### **PUBLIC SERVICE CORPORATIONS**

#### **1. Federal Net Income**

Total income minus total deductions as stated on US Form 1120, line 28. More specifically, this item reflects a corporation's federal taxable income before net operating losses and special deductions are applied. Note that under the Internal Revenue Code, public utilities are taxed as business corporations, not separately as under the Massachusetts General Law (Form P.S. 1, Computation of Franchise Tax, Item 1).

#### **2. Total Income**

Federal net income adjusted for the different definitions of taxable income between the federal and state tax codes. The following items must be added to federal net income to arrive at total income (Computation of Franchise Tax, Item 6):

- State and municipal bond interest (Computation of Franchise Tax, Item 2);
- Foreign, state or local franchise, excise or capital stock taxes (Computation of Franchise Tax, Item 3);
- Net capital loss carryover used to reduce capital gain (Computation of Franchise Tax, Item 4);
- Other income (Computation of Franchise Tax, Item 5).

#### **3. Adjusted Net Income**

Total Income determined above is adjusted for the receipt of dividends from utility companies of which at least

80% of the stock is owned by the public service corporation. This is the amount of income that is subject to apportionment (Computation of Franchise Tax, Item 8).

4. **Massachusetts Taxable Income**

Adjusted net income is multiplied by the income apportionment percentage to determine the income taxable in Massachusetts (Computation of Franchise Tax, Item 10).

5. **Excise Due**

A public service company's excise is determined by multiplying its Massachusetts taxable income by the tax rate of 6.5% (Computation of Franchise Tax, Item 11).

6. **Total Excise Due After Voluntary Contribution**

The total excise due is calculated by adding any voluntary contribution to the Endangered Wildlife Conservation Fund to the excise due (Schedule A, Item 15).

## **URBAN REDEVELOPMENT ORGANIZATIONS**

1. **Gross Income From All Sources**

This covers all income generated from the redeveloped site through payments made by persons for the right to reside in or occupy a portion or all of the project (Form 121A, Computation of Excise, Item 1A). Only federal interest deduction payments are permitted to reduce income according to this concept. This income is subject to a 5% tax (Computation of Excise, Item 2B).

2. **Fair Cash Value of Property Exempt From Local Taxation**

The fair cash value of owned or leased real and tangible property exempt from local taxation is also subject to tax (Computation of Excise, Item 2A). Such property deemed tax-exempt as of January 1, 2001 is subject to a state-level tax of \$10 per \$1,000 of value, or 1% (Computation of Excise, Item 2B).

3. **Excise Due Based on Income and Fair Cash Value**

This is the sum of the 5% tax on gross income and the 1% tax on the fair cash value of property exempt from local taxation (Computation of Excise, Item 3B).

4. **Minimum Excise**

The minimum excise faced by urban redevelopment organizations is based on the three-year average fair cash value of property not subject to local taxation. The local tax rate from fiscal 2000 is applied to this average value to determine the minimum excise amount (Computation of Excise, Item 7B).

5. **Total Excise Before Voluntary Contribution**

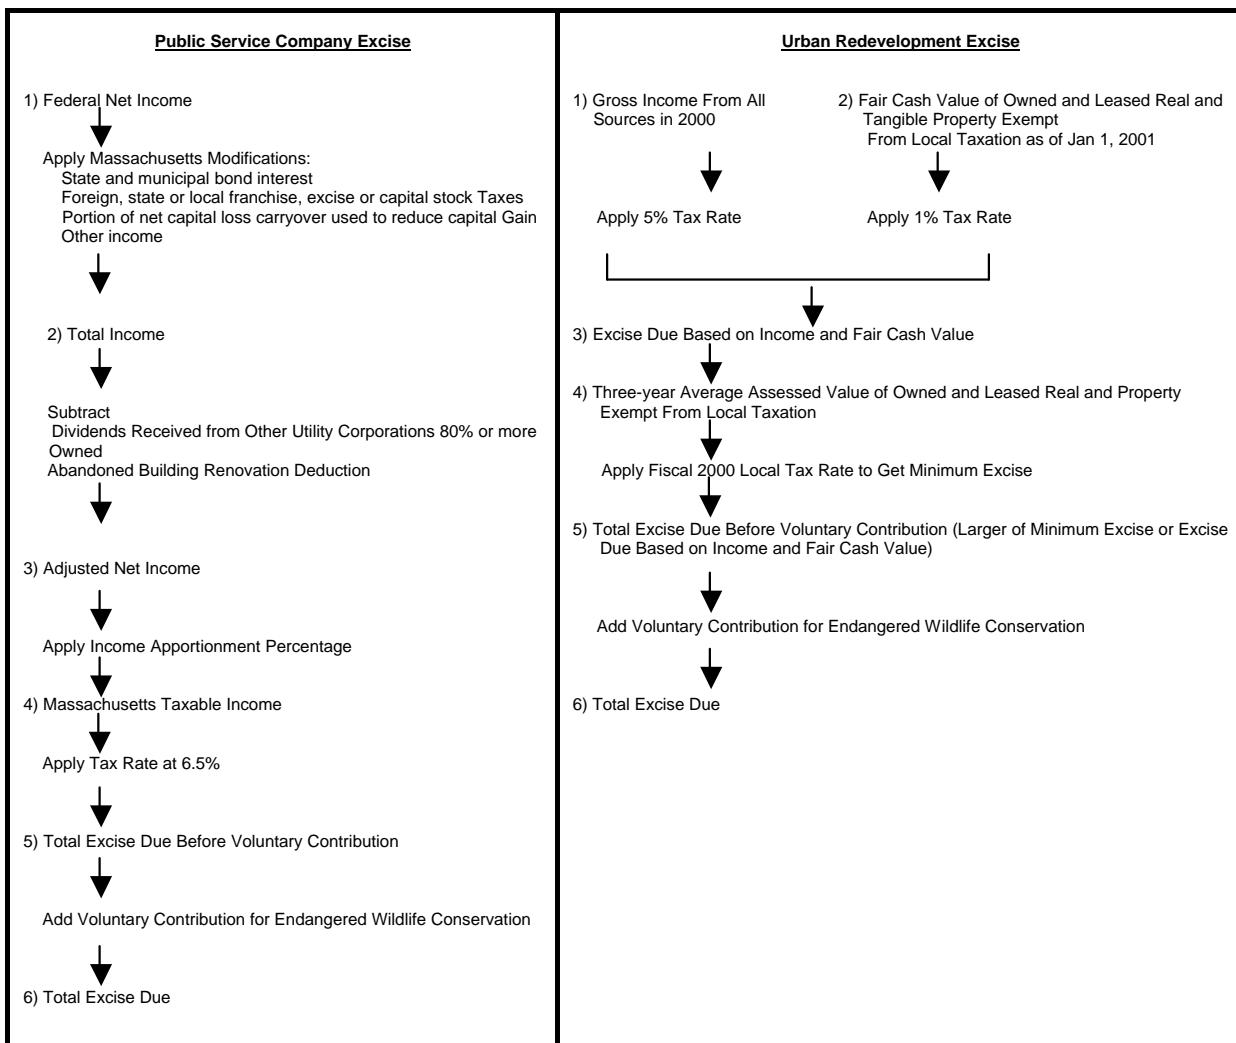

This is the larger of either the minimum excise or the excise based on income and fair cash value of property exempt from local taxation (Computation of Excise, Item 8B).

6. **Total Excise Due**

The total excise due is calculated by adding any voluntary contribution to the Endangered Wildlife Conservation Fund to the excise due (Computation of Excise, Item 10B).

## **Appendix D: The Insurance Company Excises**

### **Description of Massachusetts Insurance Excise**

In 2000 Massachusetts taxed insurance companies differently than other business corporations. Both the basis for taxation and tax rates differ among the various types of insurance companies -- life insurance companies, ocean marine and other insurance companies, and property and casualty companies.

#### **Determination of Excise**

##### *Life Insurance Companies*

In 2000, life insurance companies authorized to do business in the Commonwealth were subject to a premium-based excise. Domestic life insurers were liable for an additional investment privilege excise.

##### Premium Excise:

The premiums-based excise is imposed on life and accident and health (A&H) premiums issued during the preceding calendar year which are allocable to Massachusetts. (Premiums for approved preferred provider organizations are taxed separately. See preferred provider organizations for details.) For foreign companies, life premiums are allocable to Massachusetts if the insured is a resident of Massachusetts. A&H premiums are allocable to Massachusetts if the premiums are paid to insure property or interest in the state. For domestic companies, all premiums are allocable if the insured is a resident of Massachusetts or a resident in a jurisdiction where no tax is paid by the insurance company. Like most states, Massachusetts exempts annuity premiums from taxation. Massachusetts also imposes retaliatory taxes on insurance companies based in states that impose retaliatory taxes on Massachusetts-based companies.

Certain adjustments must be made to net life and A&H premiums to determine the value of premiums taxable in the Commonwealth. Dividends paid by the insurance company to policyholders which are applied to purchase additional insurance or to shorten the premium paying period are generally not included in net premiums, and must be added to foreign and domestic life premiums and domestic accident and health premiums. However, deductions are allowed for these dividends.

The Commonwealth allows other dividend-related deductions: deductions for dividends paid by the insurance company to policyholders which are either paid in cash, applied to future premiums, or left to accumulate interest. A deduction is also allowed for premiums returned to policyholders (not including cash surrender values).

Domestic corporations are allowed an additional deduction for premiums for employee group life and accident and health plans.

The excise on taxable life and accident and health premiums is calculated at a 2.00% rate. Foreign insurers are liable for the larger of the excise as calculated according to retaliatory provisions, or the excise calculated according to Massachusetts provisions as described above.

All insurance companies that are authorized to do business in the Commonwealth are entitled to a credit as members of the Massachusetts Life and Health Insurance Guaranty Association. The Massachusetts Life and Health Insurance Guaranty Association was established to protect policyholders against the insolvency of member insurers by assuming the obligations of a member insurer that cannot meet its contractual obligations. In order to carry out its duties, the Association assesses its members for certain costs. However, members are allowed a credit against their excise equal to 10% of assessments for five calendar years. In effect, the credit provides an offset of 50% of the Association's assessments over a five-year period. The credit is limited to \$3 million for all member insurers for a calendar year.

The credit is based on the annual assessment in the prior year, with the assessments for 1991 being the first year eligible for this credit.

Domestic life insurers can also claim a credit against their premium excise equal to 1.5% of the company's proportionate share of the cost of certain investments in the Massachusetts Capital Resource Company. The Massachusetts Capital Resource Company was established in 1977 to provide capital financing for businesses, and was funded through assessments on domestic life insurers.

Premiums excise due is the premium excise (or, for foreign insurers, an excise calculated according to retaliatory provision) less allowable credits. Since 1989, insurance companies can also make a voluntary contribution for endangered wildlife conservation.

#### Investment Privilege Excise:

In 2000, domestic insurers were also subject to an investment privilege excise which is based on a company's investment income allocable to Massachusetts. Investment income includes such items as interest, dividends, rents and royalties, less allowable deductions such as depreciation. Taxable investment income is calculated by using Federal investment income as its starting point. A company's federal taxable income is determined by dividing total taxable investment income into two components--"policyholders' share" and "company's share". For federal purposes, policyholders' share of income are earnings on the amounts that insurance companies are required to hold in reserve to meet policy and other contractual liabilities. Insurance companies are not taxed on the "policyholders' share" of investment income, but are taxed on the remainder--the "company's share" of investment income.

Massachusetts requires that certain adjustments be made to the company's share of taxable investment income. State and municipal bond interest not included in the company's Federal income and taxes deducted from Federal income must be added to income for Massachusetts purposes. Massachusetts does not allow the Federal deduction for dividends received, but allows its own deduction for most dividends.

Investment income is allocated to Massachusetts according to an apportionment percentage comprised of two factors--a premium factor, representing 90% of the apportionment percentage, and a payroll factor, representing 10% of the apportionment percentage. The premium factor is calculated by dividing the sum of life insurance premiums, annuity considerations and A&H premiums related to direct business in the Commonwealth, as well as premiums and annuities in jurisdictions where no taxes are paid by the total of all life premiums, annuity considerations and A&H premiums received during the taxable year. This total is then multiplied by 9. The payroll factor is calculated by dividing compensation paid in Massachusetts by the total amount of compensation paid during the taxable year. The premium factor and the payroll factor are combined and divided by 10 to arrive at the Massachusetts apportionment percentage. Because the apportionment factor cannot exceed 20% by statute, the actual apportionment percentage is either the Massachusetts apportionment percentage or 20%, whichever is less.

Investment income allocated to Massachusetts is taxed at a rate of 12% if it has contributed its full proportionate share to the life initiative for current taxable year; or 9.6% if it has contributed for the second year since January, 1999; otherwise it is taxed at 14%. Insurers with admitted assets of less than \$240 million are allowed a credit against their investment privilege excise. The credit is equal to \$20,000 for companies with assets totaling less than \$200 million, and declining by \$500 for each \$1 million in assets above \$200 million. In determining the total excise due, domestic life insurance companies can also make a voluntary contribution for endangered wildlife conservation.

Provisions in the law allow domestic corporations who were authorized to do business in the Commonwealth as of December 31, 1943 to calculate their excise based on the net value of life insurance policies rather than a premium-based life insurance excise. This provision is only available to corporations whose excise calculated on the basis of the value of policies has never exceeded the excise calculated on a premium basis. Given these restrictions, the use of this provision is extremely limited.

#### *Other Insurance Companies*

Life insurers and insurance companies engaged in ocean marine business are subject to taxation in the Commonwealth under separate provisions of the law. All other insurers, primarily property and casualty insurers, are subject to taxation based on the amount of premiums subject to tax in Massachusetts. Domestic insurers are liable for an additional excise on investment income.

#### Premium Excise:

Insurers taxable under these provisions are subject to an excise based on the amount of net direct premiums subject to tax in Massachusetts. Net direct premiums are, for Massachusetts purposes, gross premiums adjusted for certain other items such as additional assessments made on policyholders. Premiums and charges are subject to tax in Massachusetts if, for foreign corporations, the premiums relate to property or interests in Massachusetts or, for domestic corporations, if premiums are written in Massachusetts or in a jurisdiction where no tax is paid.

Both domestic and foreign insurers are allowed a deduction for premiums which are returned or credited to policyholders in Massachusetts as dividends. Net premiums, less the dividend deduction, are taxed at a 2.28% rate. Earnings from the Massachusetts Property Insurance Underwriting Association and Crime Insurance Program ("Fair Plan" programs), which companies doing business in Massachusetts are required to participate in, are also subject to tax at the 2.28% rate.

#### Investment Income Excise:

Domestic insurers are also subject to an excise on gross investment income. Gross investment income includes all interest earned on bonds, loans and cash, on dividends, on real estate, and on other invested assets. In 2000, either a 1.00%, 0.8%, or 0.6% tax rate was applied to a domestic insurer's gross investment income, depending on whether a company had contributed its full proportionate share to the Property and Casualty Initiative since January 1999.

Both foreign and domestic companies are entitled to a tax credit as members of the Massachusetts Life and Health Insurance Guaranty Association. Members are allowed a credit against their excise equal to 10% of assessments for five calendar years. In effect, the credit provides an offset of 50% of the Association's assessments over a five-year period. The credit is limited to \$3 million dollars for all member insurers for a calendar year.

Foreign insurers are liable for the larger of the excise as calculated according to retaliatory provisions, or the excise calculated according to Massachusetts provisions as described above.

### *Preferred Provider Organizations*

Since 1989, premiums generated by authorized preferred provider organizations have been taxed separately from other accident and health premiums. Preferred provider organizations are those organizations that offer or administer a health benefit plan under a preferred provider arrangement as authorized by the Commissioner of Insurance. The Commonwealth taxes gross premiums generated by these organizations for coverage of Massachusetts residents, net of premiums returned or credited to policyholders as dividends, at a 2.28% rate.

### *Ocean Marine Business*

Profits earned on ocean marine business are subject to a separate excise in Massachusetts. For purposes of this excise, ocean marine business means, in general, premiums related to the insurance of goods that are exported, imported, or transported by ocean.

The excise on ocean marine business is calculated based on a three-year average of net underwriting profits. Net underwriting profits are determined using total net premiums written in the United States during the taxable year as a starting point, and subtracting unearned premiums. Deductions are also allowed for losses incurred, net expenses, dividends, and federal income tax owed to arrive at net underwriting profit.

The average of the previous three-years' net underwriting profit is apportioned to Massachusetts using a ratio of the 3-year average of ocean marine business written in the Commonwealth to the three-year average of ocean marine business written in the United States. A 5.7% rate is applied to taxable profits to determine excise due in the Commonwealth.

**Chart D-1: Summary of 2000 Tax Forms for Insurance Companies**

Tax Form	Type of Company	Foreign or Domestic	Base of Tax	Tax Rate	Retaliatory Tax Provision
DL-1	Life Insurance	Domestic	Taxable life, accident and health insurance premiums, net value of policies	2% on life and acc./health ins. premiums, .25% on net value	N/A
DL-2	Life Insurance	Domestic	Taxable net investment income apportioned to Massachusetts	12% or 14%	N/A
63-22	Insurance Companies, except Life Insurance or Ocean Marine	Domestic	Taxable (non-life) insurance premiums and gross investment income	2.28% on premiums, 1% or 0.8% on investment income	N/A
63-23	Insurance Companies, except Life Insurance or Ocean Marine	Foreign	Taxable premiums for insurance of property or interests attributable to Massachusetts	2.28%	Yes
63-20-23	Life Insurance	Foreign	Taxable life insurance premiums attributable to Massachusetts, accident and health insurance premiums	2% on all premiums	Yes
176-I	Preferred Providers (Accident and Health Insurers, Nonprofit Hospitals, HMO's, and other Nonprofit Medical, Optometric or Dental Companies)	Domestic and Foreign	Gross premiums for coverage of persons who reside in Massachusetts	2.28%	N/A
