

**Massachusetts C&D Handling Facilities**  
**Tons of C&D Accepted and Handled by the Facility in 2010\***  
 Does not include tons of C&D accepted and transferred to another facility  
 Recycling rate for each facility shown at the top of each bar

\*As reported to MassDEP in Facility's 2010 Annual Solid Waste Report

**2010 Annual C&D Report Data Summary**

Facility	C&D Facility's Material Sorting Method	Total tons of C&D waste accepted	Total tons of C&D waste transferred to another C&D handling facility	Total % of C&D waste transferred to another C&D handling facility	Total tons handled by the facility. Does not include tons transferred to another facility.	Tons of C&D materials recycled. Excludes material used in landfill applications (C&D Fines) and C&D waste transferred to another facility	Total % of materials recycled (Recycling Rate) Recycling Rate = tons of C&D materials recycled divided by tons handled. Recycling Rate does not include C&D material used in landfill applications (C&D fines) or C&D waste transferred to another facility	Total tons of wood reused (fuel, particleboard, mulch)	Total % of wood reused (fuel, particleboard, mulch)	Tons of C&D used in landfill applications (C&D Fines/Residuals)	Total % of C&D fines & residuals used as ADC or G&S	Tons of C&D disposed in landfills or municipal waste combustors	C&D % of disposed Note: this does not include mixed C&D waste transferred to another processor	C&D Handling Facility's explanation of discrepancy in tonnage
