

GUIDANCE DOCUMENT

**Capital Improvement Plan
For
Public Water Systems**

August - 2010

FINAL

**COMMONWEALTH OF MASSACHUSETTS
DEPARTMENT OF ENVIRONMENTAL PROTECTION
DIVISION OF MUNICIPAL SERVICES**

FOREWORD

This capital improvement planning (CIP) document can be utilized to identify and document capital projects for a public water system. The CIP is divided into six (6) categories and gathers existing engineering and planning information. The CIP is designed to provoke a thought process for capital needs for the water works system that may not be apparent from existing engineering or evaluative documents.

This 'short form' CIP document is primarily intended to outline capital project needs for the existing water works system structures and components. Completion of the Massachusetts Department of Environmental Protection 'long term' Facilities Action Plan and Capital Improvement Program Guidance Document is intended to provide detailed answers to longer term planning needs, utilizes this 'short term' CIP document as data towards identifying capital needs projects and completes an Asset Management Plan for water works assets.

GENERAL INFORMATION

- a. **Name of Public Water System:** _____
Mass PWS Id No. - MA _____
- b. Street _____ Town/City _____ Zip _____
- c. Contact Name _____ Telephone _____
- d. Contact email address: _____

Interviewed by: Name _____ Firm: _____
Month/ Year Developed _____

Sources of Supply Type Ground _____ Surface _____ Purchased _____
(Check all that apply) GWUI _____ Other _____

Population Served _____

Type Large _____ (100,001) Medium _____ (3301 -100,000) Small _____ <3300

Ownership Type _____ Municipal _____ Investor or Private
_____ Other - Type _____

Number of Connections (residential, municipal, industrial, commercial and other) _____

Miles of water mains distribution _____ miles transmission _____ miles

Table of Contents

| No. | Description | Page Number |

I. SOURCE(s)

Inventory

Please list the existing sources of supply, and include any potential sources of supply that have not yet been identified.

| | | |
|------------------|--------------|--------------------------|
| Type of Source | Total Number | Safe or Firm Yield (mgd) |
| Wells or Springs | _____ | _____ |
| Reservoirs | _____ | _____ |

Please list individual sources of supply and existing yields as directed. The Facility No. can be utilized to identify capital needs throughout the CIP document.

S = Surface G = Groundwater GWUI = Groundwater Under the Influence

| <u>Facility No.</u> | <u>Name of Facility</u> | <u>Type S/G/GWUI</u> | <u>Yield (mgd) Firm or Safe</u> |

A. Water Quality - Please check and briefly outline quality issues that exist at any of the sources of supply AND indicate future capital project need(s) for the specific site on the Summary Sheet for Capital Projects provided at the end of this section.

Existing water quality - Are there changes or water quality upward trends or exceedances of Maximum Contaminant Levels (MCL) under 310 CMR 22.00 ?

a. **Primary Standards**

| | | | | | | | | | | | | |
|-----|----------------------------------|-------|-----|-----|-----|-----|-----|-----|-----|-----|-----|-----|

b. **Secondary Standards**

26 Any other water quality issue such as?

Facility No.

Iron ____

Manganese ____

Taste ____

Color ____

Please transfer identified capital project needs to Summary Sheet for Water Quality Capital Projects.

c **Water Quality Issues Queries**

Please answer question and outline needed capital project(s) and then transfer to Summary Sheet for Water Quality Capital Projects sheet at end of this section.

27. Any water quality issues such as Perchlorate - Bio film - Boil Orders?

___ Y ___ N

Facility No.

28 Are existing Surface Water Waiver(s) intact?

___ Y ___ N

Facility No.

29 Any WTF upgrades needed specifically to meet water quality standards (primary or secondary) ?

___ Y ___ N

Facility No.

30. Any water quality issues due to degraded media and/or replacement need?

___ Y ___ N

Facility No.

31. Is there a need to rehab any water treatment facility (WTF) for new or upcoming Mass 310 CMR 22.00 or Safe Drinking Water Act (SDWA) water quality standards?

___ Y ___ N

Facility No.

___ _ _ _ _ _ _ _ _ _

32. Any need for the addition of aeration units to minimize carbon dioxide and lessen chemical usage or for treatment of organics such as VOC's?

___ Y ___ N

Facility No.

___ _ _ _ _ _ _ _ _ _

33a. Are there any sources of supply that exist (utilized or unutilized) that need treatment in order to be used?

___ Y ___ N

Facility No.

___ _ _ _ _ _ _ _ _ _

33b. For unutilized sources of supply - to what extent is treatment needed?

33c. What is the total mgd _____ a. Type of Treatment _____
b. Type of Treatment _____
c. Type of Treatment _____

B. **Water Quantity:** Please answer the questions to address needed capital projects,
Then transfer capital projects to the summary table at the end of the section.

a. **Existing Conditions :** Please provide the total design capacity of the sources
of supply.

Total Design Capacity (Maximum Flow) _____ mgd

Total Safe Yield Capacity _____ mgd

1. Do the existing sources of supply meet present day and max day demands?

___ Y ___ N

2. If not - what is the mgd deficit?

Average Day
mgd

Maximum Day
mgd

3. How can the public water supply make up the deficit?

4a. Are any new or replacement wells needed to meet existing quantities?

___ Y ___ N

4b. Have the sites been identified to install wells?

___ Y ___ N

| Name of Site | Potential Yield |
|--------------|-----------------|
| _____ | _____ mgd |
| Name of Site | _____ mgd |
| _____ | _____ mgd |
| Name of Site | _____ mgd |
| _____ | _____ mgd |

5. What is the status of Source Approval or testing for additional sources of supply?

Name

Source _____ Status _____

Source _____ Status _____

Source _____ Status _____

6. Has the Source Approval Process (SAP) for additional groundwater sources been started or completed?

___ Y ___ N

Name

Source _____ Status _____

Source _____ Status _____

Source _____ Status _____

7. Has the SAP received MEPA approval?

___ Y ___ N

Name

Date Approval

| | |
|--------------|--------------|
| Source _____ | Status _____ |
| Source _____ | Status _____ |
| Source _____ | Status _____ |

8. Has MassDEP approved and completed SAP or other testing Needs Report?

___ Y ___ N

Name

| | |
|--------------|--------------|
| Source _____ | Status _____ |
| Source _____ | Status _____ |
| Source _____ | Status _____ |

9. Does the PWS have the ability to purchase from other public water suppliers?

___ Y ___ N

| | | |
|-----------------------------|-----|-----|
| Name of Potential PWS _____ | ___ | mgd |
| Name of Potential PWS _____ | ___ | mgd |
| Name of Potential PWS _____ | ___ | mgd |

b. **Future Needs**

| | Existing mgd | Population Year 2031 mgd | Build Out Yr. 2061 mgd |
|---|-------------------------|---|---------------------------------------|
| 1. What are the projected needs - water volumes for the next 20 and 50 years? (Population projections and separately - build out based upon existing community zoning) | _____ | _____ | _____ |

2. What are the Water Management Act Program permit requirements?

Existing Permit _____ mgd Future Needs _____ mgd

3. Any ground water under the influence sources of supply received any MassDEP approval for future treatment needs?

___ Y ___ N

Name

| | |
|--------------|--------------|
| Source _____ | Status _____ |
| Source _____ | Status _____ |
| Source _____ | Status _____ |

4. Are there any needs to consolidate water supplies to maintain compliance due to water quality standards violations (MCL of 310 CMR 22.00)?

___ Y ___ N

Name

Source _____ Status _____

Source _____ Status _____

Source _____ Status _____

5. What existing sources need new facilities due to water quality or operational condition changes?

Facility

No.

Type of Change

6. Are there any plans for utilizing desalination to meet water quantity needs?

___ Y ___ N

Site Name

Potential Yield

D. Sources of Supply: This section evaluates sources of supply and provides an outline of needed capital projects. If proposed capital project is not in a report, provide a brief explanation of why the project is needed.

Y = Yes N = No

1. Detailed Information

Provide a very brief operational description of the existing public water systems sources of supply.

2. Are there any sources of supply not presently utilized. If so - which ones have contaminants that may require treatment, improvements or operational changes?

Facility

No. Type of Treatment

| | |
|-------|-------|
| _____ | _____ |
| _____ | _____ |
| _____ | _____ |

2. For Surface Waters

Please outline issues that may pertain to identifying capital improvements to surface water sources of supply.

| 1. Existing Surface Sources | Volume | (mgd) | WMAF Permit |
|-----------------------------|------------|-------|-----------------|
| Facility | | | or Registration |
| No. | | | |
| 1a. Name _____ | Firm Yield | _____ | ___ P ___ R |
| 1b. Name _____ | Firm Yield | _____ | ___ P ___ R |
| 1c. Name _____ | Firm Yield | _____ | ___ P ___ R |
| 1d. Name _____ | Firm Yield | _____ | ___ P ___ R |

2. Are there any detailed engineering evaluations needed for the existing and long term needs of the reservoirs such as:

| | Estimated Cost |
|---|----------------|
| a. dredging | _____ |
| b. expansion | _____ |
| c. connections to diversion works or to other potential or existing sources | _____ |
| d. storm water discharge units | _____ |
| e. clean out of brooks/streams that add inflow or aid discharge | _____ |

- f. overflow structures _____
- g. other _____

3. Are there any approved for use surface source development needs that require capital project needs? ? If so, what type of engineering solution can be implemented?

___ Y ___ N

| Facility No. | Type of Capital Projects Needed |
|--------------|---------------------------------|
| 1a.____ | _____ |
| 1b.____ | _____ |
| 1c.____ | _____ |
| 1d.____ | _____ |

4. Are there any periodic limits to withdrawals from intakes due to lowered surface water levels? If so, what type of engineering solution can be implemented?

___ Y ___ N

| Facility No, | Type of Capital Projects or Solution Needed |
|--------------|---|
| 1a.____ | _____ |
| 1b.____ | _____ |
| 1c.____ | _____ |
| 1d.____ | _____ |

5. Are there any reservoir diversion sources with pumping limitations or other needs?

| | Facility No. |
|--|--------------|
| a. intake size | _____ |
| b. pump volumes | _____ |
| c. legislative or permit conditions that limit drawdown levels | _____ |
| d. Other _____ | _____ |
| e. Other _____ | _____ |

6. Are there any tie ins to other surface or ground water supplies that need or to be constructed or upgraded? ___ Y ___ N

| Facility No. | Type of Capital Projects Needed | Size (inch) | Length (feet) | Other Works | Type |
|--------------|---------------------------------|-------------|---------------|-------------|-------|
| 1a.____ | _____ | _____ | _____ | _____ | _____ |
| 1b.____ | _____ | _____ | _____ | _____ | _____ |
| 1c.____ | _____ | _____ | _____ | _____ | _____ |
| 1d.____ | _____ | _____ | _____ | _____ | _____ |

7. Are there any emergency tie ins could be constructed or need to be upgraded?

___ Y ___ N

| Facility No. | Type of Capital Projects Needed | Size (inch) | Length (feet) | Other Works | Type |
|--------------|---------------------------------|-------------|---------------|-------------|-------|
| 1a.____ | _____ | ___ | _____ | _____ | _____ |
| 1b.____ | _____ | ___ | _____ | _____ | _____ |
| 1c.____ | _____ | ___ | _____ | _____ | _____ |
| 1d.____ | _____ | ___ | _____ | _____ | _____ |

Please evaluate mechanical systems that may have exceeded their useful life.

Note the improvement need along with age, replacement year of need and what would be done.

R = Replace Rh = Rehabilitate or upgrade N = New

| Facility No. | Age | Replacement Year | R - R or N | Type of Improvement |
|-------------------|-------|------------------|------------|---------------------|
| 8. Intakes ___ a. | _____ | _____ | _____ | _____ |
| ___ b. | _____ | _____ | _____ | _____ |
| ___ c. | _____ | _____ | _____ | _____ |
| ___ d. | _____ | _____ | _____ | _____ |

9. Are there any existing physical conditions and issues with any of the intakes?

___ Y ___ N

| Facility No. | Type of Capital Projects Needed |
|--------------|---------------------------------|
| 1a.____ | _____ |
| 1b.____ | _____ |
| 1c.____ | _____ |
| 1d.____ | _____ |

10. Are there needs for replacement and deepening due to water level drops?

___ Y ___ N

| Facility No. | Type of Capital Projects Needed |
|--------------|---------------------------------|
| 1a.____ | _____ |
| 1b.____ | _____ |
| 1c.____ | _____ |
| 1d.____ | _____ |

11. Are there Air level systems for water level measurement and instrumentation needs?

___ Y ___ N

| | |
|--------------|---------------------------------|
| Facility No. | Type of Capital Projects Needed |
| 1a. ___ | _____ |
| 1b. ___ | _____ |
| 1c. ___ | _____ |
| 1d. ___ | _____ |

12. Is there any needed or existing vacuum system for non flooded suction/centrifugal pumps that need to be upgraded or replaced?

___ Y ___ N

| | |
|--------------|---------------------------------|
| Facility No. | Type of Capital Projects Needed |
| 1a. ___ | _____ |
| 1b. ___ | _____ |
| 1c. ___ | _____ |
| 1d. ___ | _____ |

13. Are there any needs to provide or upgrade aeration of reservoirs needed for destratification?

___ Y ___ N

| | |
|--------------|---------------------------------|
| Facility No. | Type of Capital Projects Needed |
| 1a. ___ | _____ |
| 1b. ___ | _____ |
| 1c. ___ | _____ |
| 1d. ___ | _____ |

14. Intake buildings or other out buildings status – Any need to upgrade, rehabilitation or new construction of these facilities?

___ Y ___ N

Facility No.

| | | | | | |
|-------------------|-----|-----|-----|-----|-----|
| | ___ | ___ | ___ | ___ | ___ |
| a. roofs | ___ | ___ | ___ | ___ | ___ |
| b. windows | ___ | ___ | ___ | ___ | ___ |
| c. lights | ___ | ___ | ___ | ___ | ___ |
| d. internal | ___ | ___ | ___ | ___ | ___ |
| e. electrical | ___ | ___ | ___ | ___ | ___ |
| f. screens | ___ | ___ | ___ | ___ | ___ |
| g. control valves | ___ | ___ | ___ | ___ | ___ |
| h. other | ___ | ___ | ___ | ___ | ___ |
| i. other | ___ | ___ | ___ | ___ | ___ |

N = New Rh = rehabilitation R = Replace

15. What is the status and age of intakes pumps?

| Fac. No. | Intake Pumps | Age | Year to Replace | Back Up Doc No. (from Pg. 4 - 6) | N/R/Rh |
|----------|--------------|-------|-----------------|-------------------------------------|--------|
| a. | _____ | _____ | _____ | _____ | _____ |
| b. | _____ | _____ | _____ | _____ | _____ |
| c. | _____ | _____ | _____ | _____ | _____ |
| d. | _____ | _____ | _____ | _____ | _____ |
| e. | _____ | _____ | _____ | _____ | _____ |

16. Are there existing Instrumentation and control system status and replacement or upgrade needs?

| | Site Name | Age | Type of Need | Year of Need | Back Up Doc No. | N/R/Rh |
|----|-----------|-------|--------------|--------------|-----------------|--------|
| a. | _____ | _____ | _____ | _____ | _____ | _____ |
| b. | _____ | _____ | _____ | _____ | _____ | _____ |
| c. | _____ | _____ | _____ | _____ | _____ | _____ |
| d. | _____ | _____ | _____ | _____ | _____ | _____ |
| e. | _____ | _____ | _____ | _____ | _____ | _____ |

17. What are the conditions of the reservoir overflow systems and any capital project needs?

| Fac. No. | Overflow Name | Age | Type of Need | Year of Need | Back Up Doc No. | N/R/Rh |
|----------|---------------|-------|--------------|--------------|-----------------|--------|
| a. | _____ | _____ | _____ | _____ | _____ | _____ |
| b. | _____ | _____ | _____ | _____ | _____ | _____ |
| c. | _____ | _____ | _____ | _____ | _____ | _____ |
| d. | _____ | _____ | _____ | _____ | _____ | _____ |
| e. | _____ | _____ | _____ | _____ | _____ | _____ |

18. Are there any diversion works and needs associated with them?

| Fac No. | Diversion Name | Need | Year of Need | Doc No | N/R/Rh |
|---------|----------------|-------|--------------|--------|--------|
| a. | _____ | _____ | _____ | _____ | _____ |
| b. | _____ | _____ | _____ | _____ | _____ |
| c. | _____ | _____ | _____ | _____ | _____ |
| d. | _____ | _____ | _____ | _____ | _____ |
| e. | _____ | _____ | _____ | _____ | _____ |

19. Are there any surface water crossings (raw - diversion) that need to be replaced - rehabilitated or upgraded?

| Overflow Name | Age | Need | Year of Need | Doc No. | N/R/Rh |
|---------------|-------|-------|--------------|---------|--------|
| a. _____ | _____ | _____ | _____ | _____ | _____ |
| b. _____ | _____ | _____ | _____ | _____ | _____ |
| c. _____ | _____ | _____ | _____ | _____ | _____ |
| d. _____ | _____ | _____ | _____ | _____ | _____ |
| e. _____ | _____ | _____ | _____ | _____ | _____ |

20. Are there any water main (raw) 'old' connections to remove (get rid of) due to cross connections or other concerns?_____

| Connection Name | Age | Need | N/Rh/R | Doc No | Est. \$ |
|-----------------|-------|-------|--------|--------|---------|
| a. _____ | _____ | _____ | _____ | _____ | _____ |
| b. _____ | _____ | _____ | _____ | _____ | _____ |
| c. _____ | _____ | _____ | _____ | _____ | _____ |
| d. _____ | _____ | _____ | _____ | _____ | _____ |
| e. _____ | _____ | _____ | _____ | _____ | _____ |

21. Are there any existing Infiltration Galleries that need to be upgraded or rehabilitated?

| Gallery Name | Age | Need | N/Rh/R | Doc No | Est. \$ |
|--------------|-------|-------|--------|--------|---------|
| a. _____ | _____ | _____ | _____ | _____ | _____ |
| b. _____ | _____ | _____ | _____ | _____ | _____ |
| c. _____ | _____ | _____ | _____ | _____ | _____ |
| d. _____ | _____ | _____ | _____ | _____ | _____ |
| e. _____ | _____ | _____ | _____ | _____ | _____ |

22. Any need to upgrade or replace internal piping and valving systems at raw water transmission water mains?

| Name | Age | N/Rh/R | N/Rh/R | Doc No | Est. \$ |
|----------|-------|--------|--------|--------|---------|
| a. _____ | _____ | _____ | _____ | _____ | _____ |
| b. _____ | _____ | _____ | _____ | _____ | _____ |
| c. _____ | _____ | _____ | _____ | _____ | _____ |
| d. _____ | _____ | _____ | _____ | _____ | _____ |
| e. _____ | _____ | _____ | _____ | _____ | _____ |

23. Does the water system have canals or similar transport systems that act as overflows or diversions that need repair or replacement?

| Name | Age | N/Rh/R | Year of Need | Doc No | Est. \$ |
|----------|-------|--------|--------------|--------|---------|
| a. _____ | _____ | _____ | _____ | _____ | _____ |
| b. _____ | _____ | _____ | _____ | _____ | _____ |
| c. _____ | _____ | _____ | _____ | _____ | _____ |
| d. _____ | _____ | _____ | _____ | _____ | _____ |
| e. _____ | _____ | _____ | _____ | _____ | _____ |

24. Are there any pumping systems to other surface sources with capital project needs?

| Name | Age | N/Rh/R | Year of Need | Doc No | Est. \$ |
|----------|-------|--------|--------------|--------|---------|
| a. _____ | _____ | _____ | _____ | _____ | _____ |
| b. _____ | _____ | _____ | _____ | _____ | _____ |
| c. _____ | _____ | _____ | _____ | _____ | _____ |
| d. _____ | _____ | _____ | _____ | _____ | _____ |
| e. _____ | _____ | _____ | _____ | _____ | _____ |

25. Are there existing emergency sources of supply with capital project needs? Describe existing condition and need.

| Name | Age | N/Rh/R | Year of Need | Doc No | Est. \$ |
|----------|-------|--------|--------------|--------|---------|
| a. _____ | _____ | _____ | _____ | _____ | _____ |
| b. _____ | _____ | _____ | _____ | _____ | _____ |
| c. _____ | _____ | _____ | _____ | _____ | _____ |
| d. _____ | _____ | _____ | _____ | _____ | _____ |
| e. _____ | _____ | _____ | _____ | _____ | _____ |

26. Please identify capital projects that may include needs planning, permitting or construction needs for other potential emergency sources of supply.

| Name | Age | N/Rh/R | Year of Need | Doc No | Est. \$ |
|----------|-------|--------|--------------|--------|---------|
| a. _____ | _____ | _____ | _____ | _____ | _____ |
| b. _____ | _____ | _____ | _____ | _____ | _____ |
| c. _____ | _____ | _____ | _____ | _____ | _____ |
| d. _____ | _____ | _____ | _____ | _____ | _____ |
| e. _____ | _____ | _____ | _____ | _____ | _____ |

27. Is there a need for reservoir water treatment components – algae treatment (copper sulfate or carbon) that need boat or physical applicator units?

| Name | Age | N/Rh/R | Year of Need | Doc No | Est. \$ |
|----------|-------|--------|--------------|--------|---------|
| a. _____ | _____ | _____ | _____ | _____ | _____ |
| b. _____ | _____ | _____ | _____ | _____ | _____ |
| c. _____ | _____ | _____ | _____ | _____ | _____ |
| d. _____ | _____ | _____ | _____ | _____ | _____ |
| e. _____ | _____ | _____ | _____ | _____ | _____ |

28. Is there a need for reservoir expansion to meet future needs or to increase capacity?

| Overflow Name | Age | Need | Year of Need | Doc No | Est. \$ |
|---------------|-------|-------|--------------|--------|---------|
| a. _____ | _____ | _____ | _____ | _____ | _____ |
| b. _____ | _____ | _____ | _____ | _____ | _____ |
| c. _____ | _____ | _____ | _____ | _____ | _____ |
| d. _____ | _____ | _____ | _____ | _____ | _____ |
| e. _____ | _____ | _____ | _____ | _____ | _____ |

29. Is there a need to increase capacity of surface water reservoirs by dredging or other earth removal activities?

___ Y ___ N

| Name | Age | Need | Year of Need | Doc No | Est. \$ |
|----------|-------|-------|--------------|--------|---------|
| a. _____ | _____ | _____ | _____ | _____ | _____ |
| b. _____ | _____ | _____ | _____ | _____ | _____ |
| c. _____ | _____ | _____ | _____ | _____ | _____ |
| d. _____ | _____ | _____ | _____ | _____ | _____ |
| e. _____ | _____ | _____ | _____ | _____ | _____ |

3. For Groundwater Systems

Rehabilitation or replacement of wells due to diminished specific capacity greater than 20% is reasonable) and/or over 20 years of age is justification for replacement of source rather than just rehabilitation.

a. Please list year to be replaced based on projected specific capacity and age.

Need = **R = Replace** **Rh = Rehabilitation** **N = New**

Total Number of Wells _____ **SC = Specific Capacity in gpm**

| <u>Fac. No.</u> <u>or Name</u> | <u>Safe</u> <u>Yield(s)</u> <u>mgd</u> | <u>Installed</u> <u>Yr,</u> <u>_____</u> | <u>Original</u> <u>SC</u> | <u>Existing.</u> <u>SC</u> | <u>%</u> <u>Diff.</u> | <u>Age</u> | <u>Yr. of</u> <u>Improv.</u> | <u>N/Rh/R</u> |

II. TREATMENT

II. Treatment

This section is intended to prompt internal and external needs for existing water treatment facilities that generally include filtration and/or aeration and generate capital project needs. In addition, equipment should be evaluated for age and replacement over a 20 year time period.

a. Water Treatment Facilities (WTF) S = Surface G = Groundwater

1. Provide a brief description of any existing facilities

| <u>WTF No.</u> | <u>Year Built</u> | <u>WTF Name -</u> | <u>S -G or S/G</u> | <u>Facility Type</u> |
|-----------------------|--------------------------|--------------------------|---------------------------|-----------------------------|
| 1a. | _____ | _____ | _____ | _____ |
| 1b. | _____ | _____ | _____ | _____ |
| 1c. | _____ | _____ | _____ | _____ |
| 1d. | _____ | _____ | _____ | _____ |
| 1e. | _____ | _____ | _____ | _____ |

2. Please provide a comment on the aging and conditions of the water treatment facilities and what type of capital improvements may be necessary. i.e. - Is there a need to upgrade the WTF in order to meet 310 CRM 22.00 or SDWA water quality (primary or secondary) standards; worn out equipment; expansion is required; or other needs.

| Facility No. | Brief Comments on Capital Needs |
|---------------------|--|
| 1a. | _____ |
| 1b. | _____ |
| 1c. | _____ |
| 1d. | _____ |
| 1e. | _____ |

3. What are the Intake chambers status? Any need for a location change? Is there excessive icing or water quality concerns at the existing intake? Any railway or other potential hazardous concerns. Does the intake need new bar racks or other improvements?.

___ Y ___ N

| | |
|-----|-------|
| 1a. | _____ |
| 1b. | _____ |
| 1c. | _____ |
| 1d. | _____ |
| 1e. | _____ |

4. Do the raw transmission pipelines or external systems require upgrades or connection type changes?

___ Y ___ N

- 1a. _____
- 1b. _____
- 1c. _____
- 1d. _____
- 1e. _____

5. Are there specific water quality issues that require the WTF to change the treatment train in order to meet existing or proposed SDWA requirements? (repeated question)

___ Y ___ N

- 1a. _____
- 1b. _____
- 1c. _____
- 1d. _____
- 1e. _____

6. Is there a need to improve filtration type and methods for surface and/or ground water supplies or other reasons?

___ Y ___ N

- 1a. _____
- 1b. _____
- 1c. _____
- 1d. _____
- 1e. _____

7. Is there any need for raw and finished water sampling point(s) service line changes?

___ Y ___ N

- 1a. _____
- 1b. _____
- 1c. _____
- 1d. _____
- 1e. _____

8. Are there needs for any disinfectant injection point changes?

___ Y ___ N

- 1a. _____
- 1b. _____
- 1c. _____
- 1d. _____
- 1e. _____

9. Is there a need to improve upon disinfection storage techniques and for changes to the types of disinfectant?

___ Y ___ N

- 1a. _____

- 1b. _____
- 1c. _____
- 1d. _____
- 1e. _____

10. Does the clearwell storage at the water treatment facility have any needs such as an increase in volume; baffles; finished water pumps or other upgrades?
 Y N

- 1a. _____
- 1b. _____
- 1c. _____
- 1d. _____
- 1e. _____

11. Is there a need for new treatment techniques, application points or chemicals to handle water quality changes or future 310 CMR 22.00 and SDWA needs?
 Y N

- 1a. _____
- 1b. _____
- 1c. _____
- 1d. _____
- 1e. _____

12. What are the needs for general upgrades or rehabilitation or replacement of the existing facility? Please go through equipment for treatment train process and note probable needs - such as raw water and finished water pumps?

Rh = Rehabilitation N = New R = Replacement

Rapid Mixers - Flocculators - Backwash Equipment - Other treatment equipment based on age (Over 20 years) or wear?

13. Is the use of ozone as a disinfectant a desirable addition to the facility? Have any evaluations been completed? What would be the mgd requirement if so?
 ___ Y ___ N

| Fac. No. | mgd | New Disinfectant Type or Process |
|----------|-----|----------------------------------|
| 1a. | | |
| 1b. | | |
| 1c. | | |
| 1d. | | |
| 1e. | | |

14. Are the chemical feed systems in need of upgrade/replace - including pumps and feed lines?

| Facility No. | Need | Approx. Age (yrs.) | Approx. Useful Life Age (yrs.) | Yr. of N - Rh - R |
|--------------|------|--------------------|--------------------------------|-------------------|
| 1a. | | | | |
| 1b. | | | | |
| 1c. | | | | |
| 1d. | | | | |
| 1e. | | | | |

15. Are there any need for additional or new chemical storage tanks?
 ___ Y ___ N

| Est. \$ | Need |
|---------|------|
| 1a. | |
| 1b. | |
| 1c. | |
| 1d. | |
| 1e. | |

16. If there are tube settlers for sedimentation is there any short circuiting and need to replace with varying angular units or new types?

| Est. \$ | Need | ___ Y | ___ N |
|-----------|-------|-------|-------|
| 1a. _____ | _____ | | |
| 1b. _____ | _____ | | |
| 1c. _____ | _____ | | |
| 1d. _____ | _____ | | |
| 1e. _____ | _____ | | |

17. Repeat - is there any need to change from chlorine to hypochlorite or ozone?

| Est. \$ | Need | ___ Y | ___ N |
|-----------|-------|-------|-------|
| 1a. _____ | _____ | | |
| 1b. _____ | _____ | | |
| 1c. _____ | _____ | | |
| 1d. _____ | _____ | | |
| 1e. _____ | _____ | | |

18. Is there any need to replace or add need weirs or baffles in the flash mixers - flocculation - sedimentation basins or improvements to the filtering units - OR - add baffles or piping changes to water treatment train or flow system?

| Est. \$ | Need | ___ Y | ___ N |
|-----------|-------|-------|-------|
| 1a. _____ | _____ | | |
| 1b. _____ | _____ | | |
| 1c. _____ | _____ | | |
| 1d. _____ | _____ | | |
| 1e. _____ | _____ | | |

19. Does the WTF need upgrades or replacement to the: chlorinators, chemicals, chemical storage tanks - etc ?

| Est. \$ | Need | ___ Y | ___ N |
|-----------|-------|-------|-------|
| 1a. _____ | _____ | | |
| 1b. _____ | _____ | | |
| 1c. _____ | _____ | | |
| 1d. _____ | _____ | | |
| 1e. _____ | _____ | | |

20. Is the addition of aeration needed or are units needed to be replaced or upgrade?

| Est. \$ | Need | ___ Y | ___ N |
|-----------|-------|-------|-------|
| 1a. _____ | _____ | | |
| 1b. _____ | _____ | | |
| 1c. _____ | _____ | | |
| 1d. _____ | _____ | | |

1e. _____

21. Does the filter media need to be replaced - changed or evaluated for a new type?
_____ Y _____ N

| | |
|-----------|-------|
| Est. \$ | Need |
| 1a. _____ | _____ |
| 1b. _____ | _____ |
| 1c. _____ | _____ |
| 1d. _____ | _____ |
| 1e. _____ | _____ |

22. Is there a need to replace, increase capacity or rehabilitation the filter media backwash system?

| | | | |
|-----------|-------|---------|---------|
| Est. \$ | Need | _____ Y | _____ N |
| 1a. _____ | _____ | | |
| 1b. _____ | _____ | | |
| 1c. _____ | _____ | | |
| 1d. _____ | _____ | | |
| 1e. _____ | _____ | | |

23. How old is the roof and does the WTF need any building structural changes or new or rehabilitation to the roofing system?

| | |
|-----------|------------------|
| AGE | Est. \$ and Need |
| 1a. _____ | _____ |
| 1b. _____ | _____ |
| 1c. _____ | _____ |
| 1d. _____ | _____ |
| 1e. _____ | _____ |

24. Does the facility have sludge collectors? What is the age and status - is an upgrade - replacement or rehabilitation needed?

| | | | |
|-----------|-------|---------|---------|
| Est. \$ | Need | _____ Y | _____ N |
| 1a. _____ | _____ | | |
| 1b. _____ | _____ | | |
| 1c. _____ | _____ | | |
| 1d. _____ | _____ | | |
| 1e. _____ | _____ | | |

25. Is there a (repeat) need to increase the existing clearwell storage volume to meet system needs or to allow the water treatment facility to operate over a longer time period to improve operational efficiencies?

_____ Y _____ N

| | Est. \$ | Need |
|-----|---------|-------|
| 1a. | _____ | _____ |
| 1b. | _____ | _____ |
| 1c. | _____ | _____ |
| 1d. | _____ | _____ |
| 1e. | _____ | _____ |

26. What is the condition of the electrical cabinets and switching systems? Is there a need to replace existing transformers or upgrade the overall electrical operational system?

| | Est. \$ | Need | ___ Y | ___ N |
|-----|---------|-------|-------|-------|
| 1a. | _____ | _____ | | |
| 1b. | _____ | _____ | | |
| 1c. | _____ | _____ | | |
| 1d. | _____ | _____ | | |
| 1e. | _____ | _____ | | |

27. Does the emergency power system need upgrades - What is the age of the generator ? Is a replacement or increased power need at the water treatment facility? How about automatic switching equipment?

| | Est. \$ | Need | ___ Y | ___ N |
|-----|---------|-------|-------|-------|
| 1a. | _____ | _____ | | |
| 1b. | _____ | _____ | | |
| 1c. | _____ | _____ | | |
| 1d. | _____ | _____ | | |
| 1e. | _____ | _____ | | |

28. Is there a need to bury electrical lines for security or other purpose; to increase electrical capacity; or to modify power service lines at water treatment facility?

| | Est. \$ | Need | ___ Y | ___ N |
|-----|---------|-------|-------|-------|
| 1a. | _____ | _____ | | |
| 1b. | _____ | _____ | | |
| 1c. | _____ | _____ | | |
| 1d. | _____ | _____ | | |
| 1e. | _____ | _____ | | |

29. Is there a need to run new electrical conduit to outlying source of supply or other areas at the site?

| | Est. \$ | Need | ___ Y | ___ N |
|-----|---------|-------|-------|-------|
| 1a. | _____ | _____ | | |
| 1b. | _____ | _____ | | |
| 1c. | _____ | _____ | | |
| 1d. | _____ | _____ | | |

1e. _____

30. Is there a need to replace the emergency power unit's type of fuel from diesel to gas or other fuel sources to improve heating of building, etc.?

___ Y ___ N

Est. \$ Need

1a. _____

1b. _____

1c. _____

1d. _____

1e. _____

24. Is there a need for internal and external security system upgrades? Can the needs be outlined for each facility? These needs should include lighting, fencing etc.

___ Y ___ N

Est. \$ Need

1a. _____

1b. _____

1c. _____

1d. _____

1e. _____

25. Can you outline the HVAC system (Heating- Ventilator - Air Conditioning) age and overall status and outline required upgrades?

___ Y ___ N

Est. \$ Need

1a. _____

1b. _____

1c. _____

1d. _____

1e. _____

26. Does any of the above work need an engineering evaluation and costs determination?

___ Y ___ N

Est. \$ Need

1a. _____

1b. _____

1c. _____

1d. _____

1e. _____

27. Has any energy 'savings' evaluations been made? Is there a need for equipment changes to decrease power usages?

___ Y ___ N

Est. \$ Need

1a. _____

1b. _____

1c. _____
 1d. _____
 1e. _____

28. Pressure Relief Valve System operational need and replacement need?

| | | |
|---------|-------|-------|
| | ___ Y | ___ N |
| Est. \$ | Need | |
| 1a. | _____ | _____ |
| 1b. | _____ | _____ |
| 1c. | _____ | _____ |
| 1d. | _____ | _____ |
| 1e. | _____ | _____ |

b. **Residuals Management Systems**

This section should include an evaluation of the existing or required residuals management systems for capital project needs.

1. Describe the existing lagoons and note age - status - fencing - overflows - expansion needs, condition of the lagoon bottoms, need for liner(s), etc. - capital needs.

| Facility No. | Type of Existing System | Immediate or Future Capital Needs |
|--------------|-------------------------|-----------------------------------|
| 1a. | _____ | _____ |
| 1b. | _____ | _____ |
| 1c. | _____ | _____ |
| 1d. | _____ | _____ |
| 1e. | _____ | _____ |

2. Is there any need to change from lagoons to a sewer discharge system?

| | | |
|---------|-------|-------|
| | ___ Y | ___ N |
| Est. \$ | Need | |
| 1a. | _____ | _____ |
| 1b. | _____ | _____ |
| 1c. | _____ | _____ |
| 1d. | _____ | _____ |
| 1e. | _____ | _____ |

3. What are the sludge pump(s) age and existing physical and operational status and present adequacy and future capital project needs?

| Facility No. | Age | \$ Status and Needs |
|--------------|-----|---------------------|
| 1a. | ___ | _____ |
| 1b. | ___ | _____ |
| 1c. | ___ | _____ |
| 1d. | ___ | _____ |
| 1e. | ___ | _____ |

4. Is there a sludge dewatering system and what are any needs associated with this system?

___ Y ___ N

Facility No. Age \$ Status and Needs

- 1a. _____
- 1b. _____
- 1c. _____
- 1d. _____
- 1e. _____

5. Are their applications of residual treatment chemicals and if so, are there any capital project needs association with these chemical feed systems?

___ Y ___ N

Facility No. \$ Status and Needs

- 1a. _____
- 1b. _____
- 1c. _____
- 1d. _____
- 1e. _____

6. Is there a need for metering components for the measurement of backwash flow?

___ Y ___ N

Facility No. . \$ Status and Needs

- 1a. _____
- 1b. _____
- 1c. _____
- 1d. _____
- 1e. _____

7. If residuals flow to an existing sewer collection system, are there any improvements to the dewatering and/or pumping system along with needed upgrades or changes?

___ Y ___ N

Facility No. . \$ Status and Needs

- 1a. _____
- 1b. _____
- 1c. _____
- 1d. _____
- 1e. _____

8. If there are pretreatment or thickening components for the WTF residuals, is there any need to upgrade or replace the chemical feed pretreatment or thickening systems?

___ Y ___ N

Facility No. . \$ Status and Needs
 1a. _____
 1b. _____
 1c. _____
 1d. _____
 1e. _____

9. Is there any need to upgrade at the WTF existing residual (sludge) lagoons or ponds?
 ___ Y ___ N

Facility No. . \$ Status and Needs
 1a. _____
 1b. _____
 1c. _____
 1d. _____
 1e. _____

10. Are there any existing National Pollutant Discharge Elimination System (NPDES) permit needs that require upgrades to meet water quality conditions?
 ___ Y ___ N

Facility No. . \$ Status and Needs
 1a. _____
 1b. _____
 1c. _____
 1d. _____
 1e. _____

C. Pumping stations and water treatment systems

This section evaluates the existing pumping and chemical treatment systems to determine replacement and rehabilitation needs for anything over 20 years.

Rh = Rehabilitation N = New R = Replacement

Please review the internal and external component list provided below - for each pump station, that may need replacement, rehabilitation or newly constructed and then place below:

1. Internal Components

| <u>Type</u> | <u>Station No. (from A List Sources of Supply)</u> |
|-----------------------------------|--|
| Water Sampling Service Lines | _____ |
| Chemical feed system replacements | _____ |
| Chlorinators? | _____ |
| Corrosion control systems | _____ |
| Fluoride system replacement | _____ |

- Chemical pumps _____
- Day tanks _____
- Regular storage _____
- Feeders (dry and wet) _____
- Hoppers/silo's _____
- Dust Collectors _____
- Retaining Walls? _____
- Scales _____
- Education - injection units _____
- Mixers/agitators _____
- Timers _____
- Controllers units _____
- Safety equipment _____
- Access ramps _____
- Emergency eye wash _____
- 2. Install new fuel lines for
new generator fuel tanks? _____
- Replace tanks? _____
- 3. Generators Work _____
- 4. Lighting (inside or outside) needs? _____
- 5. Alarms _____

| | |
|-----------|-------------------|
| | Estimated Cost |
| Total New | _____ |
| Total Rh | _____ |
| Total R | _____ |

6. External Components

Please evaluate the pump stations building condition. Note age of building, roof condition/status, etc. - expansion needs - enough hatches to remove equip?

Please summarize the needed capital projects here in this table, or transfer directly to the Summary Sheet, following this section.

1. Please outline existing pump stations pumping equipment.

| Facility No. | Name | Yr. Built | Pumps Age | Control Valves | Type and replacement needs over next 20 years |
|-----------------|-------|--------------|--------------|-------------------|--|
| 1a. | _____ | _____ | _____ | _____ | _____ |
| | _____ | _____ | _____ | _____ | _____ |
| 1b. | _____ | _____ | _____ | _____ | _____ |
| | _____ | _____ | _____ | _____ | _____ |
| 1c. | _____ | _____ | _____ | _____ | _____ |

2. Are there any low flow issues from restrictions in the distribution system that require a new pumping station upgrade to existing pumping system?

___ Y ___ N

| New Site Name | Pumping Size (mgd) | Description of New Facility |
|---------------|--------------------|-----------------------------|
| _____ | _____ | _____ |
| _____ | _____ | _____ |
| _____ | _____ | _____ |

3. Are there any pressure losses and fluctuations from problem areas in distribution system?

___ Y ___ N

| New Site Name | Pumping Size (mgd) | Description of New Facility |
|---------------|--------------------|-----------------------------|
| _____ | _____ | _____ |
| _____ | _____ | _____ |
| _____ | _____ | _____ |

4. In existing high pressure zones - are there any needs to install additional pumps, such as fire flow or constant pressure pumps to maintain or increase zone influence areas?

___ Y ___ N

| Site Name | Pumping Size (mgd) | Description of New Facility |
|-----------|--------------------|-----------------------------|
| _____ | _____ | _____ |
| _____ | _____ | _____ |
| _____ | _____ | _____ |

5. Are there replacement or rehabilitation projects for existing pumping stations? Please provide projects based on needs for replacement of parts; existing outlined capital program and needs based on breakdowns or interruptions of service.

___ Y ___ N

Pumping Station(s) Internal Components needing work

| | Need R/Rh/N | Facility No(s) |
|--------------------------------------|-------------|----------------|
| a. Chemical feed system replacements | _____ | _____ |

- b. Pumps _____
- c. Surge Control Valves _____
- d. Instrumentation _____
- e. Heating Units _____
- f. Safety equipment _____
- g. Ramps _____

6. Is there any need to add new energy type pumps to existing pumping stations?
 ___ Y ___ N

| Facility No. | Name | Yr. Built | Pumps Age | Control Valves | Type and replacement need |
|--------------|-------|-----------|-----------|----------------|---------------------------|
| 1a. | _____ | _____ | _____ | _____ | _____ |
| | _____ | _____ | _____ | _____ | _____ |
| 1b. | _____ | _____ | _____ | _____ | _____ |
| | _____ | _____ | _____ | _____ | _____ |
| 1c. | _____ | _____ | _____ | _____ | _____ |
| | _____ | _____ | _____ | _____ | _____ |
| | _____ | _____ | _____ | _____ | _____ |

7. Any need to add new natural gas lines to replace tanks used for heating or emergency power?
 ___ Y ___ N

| Facility No. | Name | Type and replacement needs over next 20 years | Year Needed |
|--------------|-------|---|-------------|
| 1a. | _____ | _____ | _____ |
| 1b. | _____ | _____ | _____ |
| 1c. | _____ | _____ | _____ |

8. Any need for or to change or upgrade emergency power systems -such as; direct drive power to emergency generator?
 ___ Y ___ N

| Facility No. | Name | Type and replacement needs over next 20 years | Year Needed |
|--------------|-------|---|-------------|
| 1a. | _____ | _____ | _____ |
| 1b. | _____ | _____ | _____ |
| 1c. | _____ | _____ | _____ |

9. Any need for security lighting (inside or outside)?

___ Y ___ N

| Facility No. | Name | Type and replacement needs over next 20 years | Year Needed |
|--------------|-------|---|-------------|
| 1a. | _____ | _____ | _____ |
| 1b. | _____ | _____ | _____ |
| 1c. | _____ | _____ | _____ |

10. Are there any security alarm system needs?

___ Y ___ N

| Facility No. | Name | Type and replacement needs over next 20 years | Year Needed |
|--------------|-------|---|-------------|
| 1a. | _____ | _____ | _____ |
| 1b. | _____ | _____ | _____ |
| 1c. | _____ | _____ | _____ |

11. External Components - please evaluate the outside of the building and outlined needed capital improvements.

| | Need | Station No. | | |
|---|-------|-------------|-------|-------|
| | | 1a. | 1b. | 1c. |
| a. Overall pump stations building need. | _____ | _____ | _____ | _____ |
| b. Roofing | _____ | _____ | _____ | _____ |
| c. Fencing | _____ | _____ | _____ | _____ |
| d. Fascia | _____ | _____ | _____ | _____ |
| e. Hatches | _____ | _____ | _____ | _____ |
| f. Walls and windows/air vents | _____ | _____ | _____ | _____ |
| g. Any other needs | _____ | _____ | _____ | _____ |
| _____ | _____ | _____ | _____ | _____ |
| _____ | _____ | _____ | _____ | _____ |

12. Do the electrical transformers need to be replaced or upgraded?

___ Y ___ N

| Facility No. | Name | Type and replacement needs over next 20 years | Year Needed |
|--------------|-------|---|-------------|
| 1a. | _____ | _____ | _____ |
| 1b. | _____ | _____ | _____ |
| 1c. | _____ | _____ | _____ |

13. Are there any underground electrical improvements needed to eliminate poles?

___ Y ___ N

| Facility No. | Name | Type and replacement needs over next 20 years | Year Needed |
|--------------|-------|---|-------------|
| 1a. | _____ | _____ | _____ |
| 1b. | _____ | _____ | _____ |
| 1c. | _____ | _____ | _____ |

14. Is there a need to replace diesel tanks or convert to other fuel system?

___ Y ___ N

| Facility No. | Name | Type and replacement needs over next 20 years | Year Needed |
|--------------|-------|---|-------------|
| 1a. | _____ | _____ | _____ |
| 1b. | _____ | _____ | _____ |
| 1c. | _____ | _____ | _____ |

15. Is there a need to add spill containment areas?

___ Y ___ N

| Facility No. | Name | Type and replacement needs over next 20 years | Year Needed |
|--------------|-------|---|-------------|
| 1a. | _____ | _____ | _____ |
| 1b. | _____ | _____ | _____ |
| 1c. | _____ | _____ | _____ |

16. Any need for improvements to outside or inside metering pit or instrumentation system?

___ Y ___ N

| Facility No. | Name | Type and replacement needs over next 20 years | Year Needed |
|--------------|-------|---|-------------|
| 1a. | _____ | _____ | _____ |
| 1b. | _____ | _____ | _____ |
| 1c. | _____ | _____ | _____ |

18. Any need for flow or metering system improvements or upgrades?

___ Y ___ N

| Facility No. | Name | Type and replacement needs over next 20 years | Year Needed |
|--------------|-------|---|-------------|
| 1a. | _____ | _____ | _____ |
| 1b. | _____ | _____ | _____ |
| 1c. | _____ | _____ | _____ |

III. FINISHED WATER STORAGE

III. Finished Water Storage Tanks

This section is intended to outline capital needs for all of the public water systems finished water storage tanks. Past inspection reports may highlight storage tank capital project needs.

Sandblasting and painting are capital needs that can be outlined using recommended time periods for this work every (10 to 12 years).

This section will also provide needs for the site buildings, fencing and external water works components that a tank inspection report does not normally address.

Existing data Type E = Elevated S = Standpipe R = Reservoir
 Material St = Steel C = Concrete O = Other

| | Storage Tank Name | Type | Volume | Yr. Built | Material |
|------------------|-------------------|-------|--------|-----------|----------|
| 1. Storage Tanks | | | | | |
| 1a. | _____ | _____ | _____ | _____ | _____ |
| 1b. | _____ | _____ | _____ | _____ | _____ |
| 1c. | _____ | _____ | _____ | _____ | _____ |
| 1d. | _____ | _____ | _____ | _____ | _____ |
| 1e. | _____ | _____ | _____ | _____ | _____ |
| 1f. | _____ | _____ | _____ | _____ | _____ |

2. Please review reports of past storage tank(s) initial inspection and final inspections and list needs for painting - repairs - sandblasting and other needs or recommendations.

| Tank No. | Past Inside Yr. Date | Painting | | New Painting | |
|----------|-------------------------|--------------------------|---------|---------------------------------|---------|
| | | Past Outside Yr. Date | Est. \$ | New Yr. Date to Paint Inside | Outside |
| 1a | _____ | _____ | _____ | _____ | _____ |
| 1b | _____ | _____ | _____ | _____ | _____ |
| 1c | _____ | _____ | _____ | _____ | _____ |
| 1d | _____ | _____ | _____ | _____ | _____ |
| 1e | _____ | _____ | _____ | _____ | _____ |
| 1f | _____ | _____ | _____ | _____ | _____ |

| Tank No. | Past Inside Yr. Date | Sandblasting | | New Inside | Date to Blast Outside |

9. Instrumentation Needs

| Storage Tank No. | Age | Type | Needs/Est. \$ |
|------------------|-------|-------|---------------|
| _____ | _____ | _____ | _____ |
| _____ | _____ | _____ | _____ |
| _____ | _____ | _____ | _____ |
| _____ | _____ | _____ | _____ |
| _____ | _____ | _____ | _____ |

Please address other issues that could identify new capital projects.

10. What is the total volume available as storage in the distribution network including clearwells?

_____ mg.

11. What is the 'Needed Storage' volume based upon good engineering practices for public water systems?

_____ or deficit in mg.

12. What is the public water systems total 'Needed Storage' volume based on twenty (20) year future growth needs

_____ mg

13. Please summarize the needed storage tanks required to meet current and future demands. Land required for location of new tanks should be noted along with site conditions that may allow an expansion at existing site;

| Storage Volume (mg) | New Tank Site No. | Land Owned ___ Y ___ N | Expansion at Existing Site ___ Y ___ N | Projected Year for Construction |
|---------------------|-------------------|---------------------------|---|---------------------------------|
| _____ | 1N | _____ | _____ | _____ |
| _____ | 2N | _____ | _____ | _____ |
| _____ | 3N | _____ | _____ | _____ |
| _____ | 4N | _____ | _____ | _____ |
| _____ | 5N | _____ | _____ | _____ |

14. What are the requirements to connect these new tanks to the existing water supply?

| Site No. | Water Main Connection Route | Size Pipe (inches) | Length (feet) |
|----------|-----------------------------|--------------------|---------------|
| _____ | _____ | _____ | _____ |
| _____ | _____ | _____ | _____ |
| _____ | _____ | _____ | _____ |
| _____ | _____ | _____ | _____ |
| _____ | _____ | _____ | _____ |

15. Are there any requirements for demolition of old tank(s) or other site conditions that require capital improvements?

___ Y ___ N

| Site Name | Project Required | Estimated Cost |
|-----------|------------------|----------------|
| _____ | _____ | _____ |
| _____ | _____ | _____ |
| _____ | _____ | _____ |
| _____ | _____ | _____ |

16. Do pressure deficiencies exist throughout the distribution system that would be resolved by constructing new storage vessels?
 ___ Y ___ N

| Site Name | Project Required | Estimated Cost |
|-----------|------------------|----------------|
| _____ | _____ | _____ |
| _____ | _____ | _____ |
| _____ | _____ | _____ |
| _____ | _____ | _____ |

17. Would there be newly created pressure deficiencies caused by planned twenty (20) year growth patterns?
 ___ Y ___ N

Define Solution(s)

18. Please identify any of these items that should be replaced, rehabilitated or newly constructed (after 20 years of useful life).

| | Need | Site(s) Location | N/R/Rh | Estimated Cost |
|----|---------------------------------|------------------|--------|----------------|
| a. | Fencing needs | _____ | _____ | _____ |
| b. | Lighting | _____ | _____ | _____ |
| c. | Pits | _____ | _____ | _____ |
| d. | Building(s) on site upgrades | _____ | _____ | _____ |
| e. | Security Systems | _____ | _____ | _____ |
| f. | Instrumentation needs | _____ | _____ | _____ |
| g. | Electrical needs | _____ | _____ | _____ |
| h. | Site building new construction. | _____ | _____ | _____ |
| i. | New site piping requirements | _____ | _____ | _____ |

Standpipe - Reservoir - Elevated Tank

Please answer the following questions and note any capital project needs that may be generated.

19. Is there storage tank stagnation and any need to de-stratify due to short circuiting.
 ___ Y ___ N

| Site Name | Project Required | Estimated Cost |
|-----------|------------------|----------------|
| _____ | _____ | _____ |
| _____ | _____ | _____ |
| _____ | _____ | _____ |
| _____ | _____ | _____ |

20. Are floats or bladders needed to be installed to prevent short circuiting?

___ Y ___ N

| Site Name | Project Required | Estimated Cost |
|-----------|------------------|----------------|
| _____ | _____ | _____ |
| _____ | _____ | _____ |
| _____ | _____ | _____ |

21. Are existing hydraulic grade lines with other storage tanks consistent?

___ Y ___ N

| Site Name | Project Required | Estimated Cost |
|-----------|------------------|----------------|
| _____ | _____ | _____ |
| _____ | _____ | _____ |
| _____ | _____ | _____ |

22. Are there needs for an altitude valve system or other type of control units?

___ Y ___ N

| Site Name | Project Required | Estimated Cost |
|-----------|------------------|----------------|
| _____ | _____ | _____ |
| _____ | _____ | _____ |
| _____ | _____ | _____ |

23. Are there needs to reset pumping elevations through instrumentation upgrades or other type of changes (level controllers)?

___ Y ___ N

| Site Name | Project Required | Estimated Cost |
|-----------|------------------|----------------|
| _____ | _____ | _____ |
| _____ | _____ | _____ |
| _____ | _____ | _____ |

24. Are there insufficient pressures to get water out of tank?

___ Y ___ N

| Site Name | Project Required | Estimated Cost |
|-----------|------------------|----------------|
| _____ | _____ | _____ |
| _____ | _____ | _____ |
| _____ | _____ | _____ |

25. Is there a need to install booster pumps to pull water out of the standpipe or reservoir?

___ Y ___ N

| Site Name | Project Required | Estimated Cost |
|-----------|------------------|----------------|
| _____ | _____ | _____ |
| _____ | _____ | _____ |
| _____ | _____ | _____ |
| _____ | _____ | _____ |

26. Are connecting water main sizes increases needed to improve flow between storage tanks?

___ Y ___ N

| Site Name | Project Required | Estimated Cost |
|-----------|------------------|----------------|
| _____ | _____ | _____ |
| _____ | _____ | _____ |
| _____ | _____ | _____ |
| _____ | _____ | _____ |

27. Can all of the storage tanks be filled without effecting other tanks (overflows?)

___ Y ___ N

| Site Name | Project Required | Estimated Cost |
|-----------|------------------|----------------|
| _____ | _____ | _____ |
| _____ | _____ | _____ |
| _____ | _____ | _____ |
| _____ | _____ | _____ |

28. Are the tops - roofs - hatches in need or rehabilitation (repeat question)?

___ Y ___ N

| Site Name | Project Required | Estimated Cost |
|-----------|------------------|----------------|
| _____ | _____ | _____ |
| _____ | _____ | _____ |
| _____ | _____ | _____ |
| _____ | _____ | _____ |

29. Any floating covers - upgrade requirements - aged units and warranties?

___ Y ___ N

| Site Name | Project Required | Estimated Cost |
|-----------|------------------|----------------|
| _____ | _____ | _____ |
| _____ | _____ | _____ |
| _____ | _____ | _____ |
| _____ | _____ | _____ |

30. Any floating covers that have surface water removal systems needs?

___ Y ___ N

| Site Name | Project Required | Estimated Cost |
|-----------|------------------|----------------|
| _____ | _____ | _____ |
| _____ | _____ | _____ |
| _____ | _____ | _____ |
| _____ | _____ | _____ |

31. Are any antennae attached to the tank systems that have caused damage that needs to be repaired?

___ Y ___ N

| Site Name | Project Required | Estimated Cost |
|-----------|------------------|----------------|
| _____ | _____ | _____ |
| _____ | _____ | _____ |
| _____ | _____ | _____ |
| _____ | _____ | _____ |
| _____ | _____ | _____ |

IV. PUMPING PROJECTS

IV. Pumping Projects

Booster Pumping Stations

1. Please outline existing booster stations pumping equipment.

| Facility No. | Name | Yr. Built | Pumps Age | Control Valves | Type and replacement needs over next 20 years |
|--------------|-------|-----------|-----------|----------------|---|
| 1a. | _____ | _____ | _____ | _____ | _____ |
| | _____ | _____ | _____ | _____ | _____ |
| 1b. | _____ | _____ | _____ | _____ | _____ |
| | _____ | _____ | _____ | _____ | _____ |
| 1c. | _____ | _____ | _____ | _____ | _____ |
| | _____ | _____ | _____ | _____ | _____ |
| | _____ | _____ | _____ | _____ | _____ |

2. Are there any low flow issues from restrictions in the distribution system that require a new booster station or upgrades to an existing system?

___ Y ___ N

| New Site Name | Pumping Size (mgd) | Description of New Facility |
|---------------|--------------------|-----------------------------|
| _____ | _____ | _____ |
| _____ | _____ | _____ |
| _____ | _____ | _____ |

3. Are there any pressure losses and fluctuations from problem areas in distribution system and what could be done to resolve them?

___ Y ___ N

| New Site Name | Pumping Size (mgd) | Description of New Facility |
|---------------|--------------------|-----------------------------|
| _____ | _____ | _____ |
| _____ | _____ | _____ |
| _____ | _____ | _____ |

4. In existing high pressure zones - are there any needs to install additional pumps, such as fire flow or constant pressure pumps to maintain or increase zone influence areas?

___ Y ___ N

| Site Name | Pumping Size (mgd) | Description of New Facility |
|-----------|--------------------|-----------------------------|
| _____ | _____ | _____ |
| _____ | _____ | _____ |
| _____ | _____ | _____ |

5. Are there replacement or rehabilitation projects for existing booster pumping stations? Please provide projects based on needs for replacement of parts; existing outlined capital program and needs based on breakdowns or interruptions of service.

___ Y ___ N

Booster Pumping Station(s) Internal Components needing work

| | Need R/Rh/N | Facility No(s) |
|--------------------------------------|-------------|----------------|
| a. Chemical feed system replacements | _____ | _____ |
| b. Pumps | _____ | _____ |
| c. Surge Control Valves | _____ | _____ |
| d. Instrumentation | _____ | _____ |
| e. Heating Units | _____ | _____ |
| f. Safety equipment | _____ | _____ |
| g. Ramps | _____ | _____ |

6. Is there any need to add fire flow pumps to existing booster pumping stations?

___ Y ___ N

| Facility No. | Name | Yr. Built | Pumps Age | Control Valves | Type and replacement need |
|--------------|-------|-----------|-----------|----------------|---------------------------|
| 1a. | _____ | _____ | _____ | _____ | _____ |
| | _____ | _____ | _____ | _____ | _____ |
| 1b. | _____ | _____ | _____ | _____ | _____ |
| | _____ | _____ | _____ | _____ | _____ |
| 1c. | _____ | _____ | _____ | _____ | _____ |
| | _____ | _____ | _____ | _____ | _____ |
| | _____ | _____ | _____ | _____ | _____ |

7. Any need to add new natural gas lines to replace tanks used for heating or emergency power? ___ Y ___ N

| Facility No. | Name | Type and replacement needs over next 20 years | Year Needed |
|--------------|-------|---|-------------|
| 1a. | _____ | _____ | _____ |
| 1b. | _____ | _____ | _____ |
| 1c. | _____ | _____ | _____ |

8. Any need for or to change or upgrade emergency power systems -such as; direct drive power to emergency generator? ___ Y ___ N

| Facility No. | Name | Type and replacement needs over next 20 years | Year Needed |
|--------------|-------|---|-------------|
| 1a. | _____ | _____ | _____ |
| 1b. | _____ | _____ | _____ |
| 1c. | _____ | _____ | _____ |

9. Any need for security lighting (inside or outside)? ___ Y ___ N

| Facility No. | Name | Type and replacement needs over next 20 years | Year Needed |
|--------------|-------|---|-------------|
| 1a. | _____ | _____ | _____ |
| 1b. | _____ | _____ | _____ |
| 1c. | _____ | _____ | _____ |

10. Are there any security alarm system needs? ___ Y ___ N

| Facility No. | Name | Type and replacement needs over next 20 years | Year Needed |
|--------------|-------|---|-------------|
| 1a. | _____ | _____ | _____ |
| 1b. | _____ | _____ | _____ |
| 1c. | _____ | _____ | _____ |

11. External Components - please evaluate the outside of the building and outlined needed capital improvements.

| | | Need | Station No. | | |
|----|--------------------------------------|-------|-------------|-------|-------|
| | | | 1a. | 1b. | 1c. |
| a. | Overall pump stations building need. | _____ | _____ | _____ | _____ |
| b. | Roofing | _____ | _____ | _____ | _____ |
| c. | Fencing | _____ | _____ | _____ | _____ |
| d. | Fascia | _____ | _____ | _____ | _____ |
| e. | Hatches | _____ | _____ | _____ | _____ |

- f. Walls and windows/air vents _____
- g. Any other needs _____
- _____
- _____

13. Do the electrical transformers need to be replaced or upgraded?
 ___ Y ___ N

| Facility No. | Name | Type and replacement needs over next 20 years | Year Needed |
|--------------|-------|---|-------------|
| 1a. | _____ | _____ | _____ |
| 1b. | _____ | _____ | _____ |
| 1c. | _____ | _____ | _____ |

14. Are there any underground electrical improvements needed to eliminate poles?
 ___ Y ___ N

| Facility No. | Name | Type and replacement needs over next 20 years | Year Needed |
|--------------|-------|---|-------------|
| 1a. | _____ | _____ | _____ |
| 1b. | _____ | _____ | _____ |
| 1c. | _____ | _____ | _____ |

15. Is there a need to replace diesel tanks or convert to other fuel system?
 ___ Y ___ N

| Facility No. | Name | Type and replacement needs over next 20 years | Year Needed |
|--------------|-------|---|-------------|
| 1a. | _____ | _____ | _____ |
| 1b. | _____ | _____ | _____ |
| 1c. | _____ | _____ | _____ |

16. Is there a need to add spill containment areas?
 ___ Y ___ N

| Facility No. | Name | Type and replacement needs over next 20 years | Year Needed |
|--------------|-------|---|-------------|
| 1a. | _____ | _____ | _____ |
| 1b. | _____ | _____ | _____ |
| 1c. | _____ | _____ | _____ |

17. Any need for improvements to outside or inside metering pit or instrumentation system?

___ Y ___ N

| Facility No. | Name | Type and replacement needs over next 20 years | Year Needed |
|--------------|-------|---|-------------|
| 1a. | _____ | _____ | _____ |
| 1b. | _____ | _____ | _____ |
| 1c. | _____ | _____ | _____ |

18. Any need for flow or metering system improvements or upgrades?

___ Y ___ N

| Facility No. | Name | Type and replacement needs over next 20 years | Year Needed |
|--------------|-------|---|-------------|
| 1a. | _____ | _____ | _____ |
| 1b. | _____ | _____ | _____ |
| 1c. | _____ | _____ | _____ |

IV. TRANSMISSION AND DISTRIBUTION WATER MAINS

INVENTORY

Please complete the following inventory sheet.

Transmission and Distribution Inventory

Transmission and distribution projects are the piping needs of a water system. Projects for **valves, hydrants, and meters** that are not part of a transmission or distribution project listed in this table should be recorded in the table on page 7.

On the table below, please provide an estimate of the total feet or miles of pipe in your system, if possible. Completion of this table is not required, but it may be helpful to ensure all potential transmission and distribution pipe projects are considered.

Note: The total feet or miles of pipe in your system is required information if any pipe projects are submitted based solely on survey-generated documentation (documentation codes 10 or 11).

_____ _____
Total feet or miles of pipe in system
(Check feet or miles)

| | | <u><=6 inch</u> | <u>8-12 inch</u> | <u>15-42 inch</u> | <u>>=48 inch</u> |
|--|--|---|---|---|---|
| <p><u>Total Pipe in System</u> <i>(Circle or underline feet or miles)</i></p> <p>_____ feet or miles</p> | | | | | |
| <p><u>PVC</u></p> <p>_____ % of total pipe</p> | <p>Amount of PVC by pipe size</p> <p>% of this category/size pipe currently in poor condition or beyond useful life</p> | <p>_____ feet or miles</p> <p>_____ %</p> | <p>_____ feet or miles</p> <p>_____ %</p> | <p>_____ feet or miles</p> <p>_____ %</p> | <p>_____ feet or miles</p> <p>_____ %</p> |
| | | | | | |
| <p><u>Ductile Iron</u></p> <p>_____ feet or miles</p> | | | | | |
| <p>_____ % of total pipe</p> | <p>Amount of ductile iron by pipe size</p> <p>% of this category/size pipe currently in poor condition or beyond useful life</p> | <p>_____ feet or miles</p> <p>_____ %</p> | <p>_____ feet or miles</p> <p>_____ %</p> | <p>_____ feet or miles</p> <p>_____ %</p> | <p>_____ feet or miles</p> <p>_____ %</p> |

| | | | | | | |
|------------------------|-----------------------|--|---------------------|---------------------|---------------------|---------------------|
| <u>Cast Iron</u> | _____ feet or miles | Amount of cast iron by pipe size | _____ feet or miles | _____ feet or miles | _____ feet or miles | _____ feet or miles |
| | _____ % of total pipe | % of this category/size pipe currently in poor condition or beyond useful life | _____ % | _____ % | _____ % | _____ % |
| <u>Asbestos Cement</u> | _____ feet or miles | Amount of asbestos cement by pipe size | _____ feet or miles | _____ feet or miles | _____ feet or miles | _____ feet or miles |
| | _____ % of total pipe | % of this category/size pipe currently in poor condition or beyond useful life | _____ % | _____ % | _____ % | _____ % |
| <u>Other</u> | _____ feet or miles | Amount of other by pipe size | _____ feet or miles | _____ feet or miles | _____ feet or miles | _____ feet or miles |
| | _____ % of total pipe | % of other currently in poor condition or beyond useful life | _____ % | _____ % | _____ % | _____ % |

V. Transmission and Distribution - Water Mains

This section outlines needed capital improvements to raw water and finished water transmission water mains, along with distribution system water mains and appurtenances. Separate details on appurtenant systems, such as valves, hydrants and service lines can be provided in VI. - Other.

This section is intended to document identify needed water main capital projects and to define other areas within the piping system that may need to be improved upon.

a. Raw Water Transmission Mains and Appurtenant Systems

This section outlines the water mains from sources of supply to pumping and/or treatment facilities.

1. Provide a description of any raw water transmission main needs along with the age and condition.

G = Gravity P = Pumped

| Raw No. | Piping Route Name | Age (yrs.) | Length (ft.) | G or P | Needed Improvements |
|---------|-------------------|------------|--------------|--------|---------------------|
| 1a. | _____ | _____ | _____ | _____ | _____ |
| 1b. | _____ | _____ | _____ | _____ | _____ |
| 1c. | _____ | _____ | _____ | _____ | _____ |
| 1d. | _____ | _____ | _____ | _____ | _____ |
| 1e. | _____ | _____ | _____ | _____ | _____ |

2. Have the raw water transmission main(s) been 'leak' surveyed?

___ Y ___ N

| Raw No. | Year | Results (% Loss) | Needed Improvements |
|---------|-------|------------------|---------------------|
| 1a. | _____ | _____ | _____ |
| 1b. | _____ | _____ | _____ |
| 1c. | _____ | _____ | _____ |
| 1d. | _____ | _____ | _____ |
| 1e. | _____ | _____ | _____ |

3. Are there buried water mains located in water or wetlands?

___ Y ___ N

| Raw No. | Piping Route Name | Length (ft.) | Needed Improvements |
|---------|-------------------|--------------|---------------------|
| 1a. | _____ | _____ | _____ |
| 1b. | _____ | _____ | _____ |
| 1c. | _____ | _____ | _____ |
| 1d. | _____ | _____ | _____ |

1e. _____

4 For these transmission water mains, do they need upgrades, replacement or installation of control valve systems?

| Raw No. | N - R - Rh | Length | Identified Needs |
|---------|------------|--------|------------------|
| 1a. | _____ | _____ | _____ |
| 1b. | _____ | _____ | _____ |
| 1c. | _____ | _____ | _____ |
| 1d. | _____ | _____ | _____ |
| 1e. | _____ | _____ | _____ |

5. Are there any capital improvements needed for raw water transmission water mains that are needed to bring water to the existing pump station or water treatment facilities?

___ Y ___ N

| Raw No. | Piping Length | Size (inch) | Identified Needs |
|---------|---------------|-------------|------------------|
| 1a. | _____ | _____ | _____ |
| 1b. | _____ | _____ | _____ |
| 1c. | _____ | _____ | _____ |
| 1d. | _____ | _____ | _____ |
| 1e. | _____ | _____ | _____ |

6. Do the transmission water main pumping systems need replacement or rehabilitation due to age, underperformance or other issues?

___ Y ___ N

| Raw No. | R - Rh - N | Identified Needs |
|---------|------------|------------------|
| 1a. | _____ | _____ |
| 1b. | _____ | _____ |
| 1c. | _____ | _____ |
| 1d. | _____ | _____ |
| 1e. | _____ | _____ |

b. Finished Water Transmission Water Mains

This section outlines the water mains from pumping and/or treatment facilities to the distribution network.

1. Provide a description of any finished water transmission mains needs along with the age and condition.

G = Gravity P = Pumped

| Finished No. | Piping Route Name | Age (yrs.) | Length (ft.) | Needed Improvements |
|---------------------|--------------------------|-------------------|---------------------|----------------------------|
| 1a. | _____ | _____ | _____ | _____ |
| 1b. | _____ | _____ | _____ | _____ |
| 1c. | _____ | _____ | _____ | _____ |
| 1d. | _____ | _____ | _____ | _____ |
| 1e. | _____ | _____ | _____ | _____ |

2. Have the finished water transmission main(s) been 'leak' surveyed?
 Y N

| Finished Year No. | Results (% Loss) | Needed Improvements |
|--------------------------|-------------------------|----------------------------|
| 1a. | _____ | _____ |
| 1b. | _____ | _____ |
| 1c. | _____ | _____ |
| 1d. | _____ | _____ |
| 1e. | _____ | _____ |

3. Are there buried water mains located in water or wetlands or easements?
 Y N

| Finished No. | Piping Route Name | Length (ft.) | Size and Needed Improvements |
|---------------------|--------------------------|---------------------|-------------------------------------|
| 1a. | _____ | _____ | _____ |
| 1b. | _____ | _____ | _____ |
| 1c. | _____ | _____ | _____ |
| 1d. | _____ | _____ | _____ |
| 1e. | _____ | _____ | _____ |

4. For these finished transmission water mains, do they need upgrades, replacement or installation of control valve systems?

| Finished No. | N - R - Rh | Length | Identified Needs |
|---------------------|-------------------|---------------|-------------------------|
| 1a. | _____ | _____ | _____ |
| 1b. | _____ | _____ | _____ |
| 1c. | _____ | _____ | _____ |
| 1d. | _____ | _____ | _____ |
| 1e. | _____ | _____ | _____ |

5. Are there any capital improvements needed for finished water transmission water mains that are needed to bring water from the existing pump station or water treatment facilities to the distribution network?

___ Y ___ N

| Finished No. | Piping Length | Size (inch) | Identified Needs |
|--------------|---------------|-------------|------------------|
| 1a. | _____ | _____ | _____ |
| 1b. | _____ | _____ | _____ |
| 1c. | _____ | _____ | _____ |
| 1d. | _____ | _____ | _____ |
| 1e. | _____ | _____ | _____ |

6. Do the finished water transmission mains need replacement or rehabilitation due to age, underperformance or other issues?

| Finished No. | R - Rh - N | Identified Needs |
|--------------|------------|------------------|
| 1a. | _____ | _____ |
| 1b. | _____ | _____ |
| 1c. | _____ | _____ |
| 1d. | _____ | _____ |
| 1e. | _____ | _____ |

C. Diversion Works

1. What is the status of any diversion works - status - age - new needs - construction - upgrades.

| Facility No. | Name | Year Built | Identified Needs |
|--------------|-------|------------|------------------|
| 1a. | _____ | _____ | _____ |
| 1b. | _____ | _____ | _____ |
| 1c. | _____ | _____ | _____ |
| 1d. | _____ | _____ | _____ |

2. Are there any pump or gravity feed control buildings - Status and upgrade or replacement needs?

| Diversiony No. | Pumps | Type | Identified Needs |
|----------------|-------|-------|------------------|
| 1a. | _____ | _____ | _____ |
| 1b. | _____ | _____ | _____ |
| 1c. | _____ | _____ | _____ |
| 1d. | _____ | _____ | _____ |

3. Is there emergency power or direct drive engines at the site and is there a need to upgrade or replace?

Please lists needs for each system (if KW is not known use KW=Hp times 0.746 x 1.5 to get rough value of need)

| Diversion No. | Power kW or Direct Drive | Type (gas/diesel) | Age and Identified Needs |
|---------------|--------------------------|-------------------|--------------------------|
| 1a. | _____ | _____ | _____ |
| 1b. | _____ | _____ | _____ |
| 1c. | _____ | _____ | _____ |
| 1d. | _____ | _____ | _____ |

4. List generator sizing improvements to sizing - age - replace or rehab - and fuel status.

| Diversion No. | Generator Size | kW | Identified Needs |
|---------------|----------------|-------|------------------|
| 1a. | _____ | _____ | _____ |
| 1b. | _____ | _____ | _____ |
| 1c. | _____ | _____ | _____ |
| 1d. | _____ | _____ | _____ |

5. Is there a need to improve or change the generator or direct drive fuel service lines or tank?

___ Y ___ N

| Diversion No. | Generator or Direct Drive | R-Rh-N | Identified Needs |
|---------------|---------------------------|--------|------------------|
| 1a. | _____ | _____ | _____ |
| 1b. | _____ | _____ | _____ |
| 1c. | _____ | _____ | _____ |
| 1d. | _____ | _____ | _____ |

6. Please outline any needs for building improvements at diversion works:

| | Component | Need | | | | Description of Need |
|----|-----------------|------|-----|-----|-----|---------------------|
| | | 1a | 1b | 1c | 1d | |
| a. | Building roof | ___ | ___ | ___ | ___ | _____ |
| b. | Building fascia | ___ | ___ | ___ | ___ | _____ |
| c. | Fencing | ___ | ___ | ___ | ___ | _____ |
| d. | Lighting | ___ | ___ | ___ | ___ | _____ |
| e. | Security | ___ | ___ | ___ | ___ | _____ |
| f. | Instrumentation | ___ | ___ | ___ | ___ | _____ |
| g. | Other_____ | ___ | ___ | ___ | ___ | _____ |

D. Water mains

1a. Are there identified water main replacement projects?
 ___ Y ___ N

| Street | Size (inch) | Length (feet) | New Size (Inch) | Street | Size (inch) | Length (feet) | New Size (inch) |
|--------|-------------|---------------|-----------------|--------|-------------|---------------|-----------------|
| _____ | _____ | _____ | _____ | _____ | _____ | _____ | _____ |
| _____ | _____ | _____ | _____ | _____ | _____ | _____ | _____ |
| _____ | _____ | _____ | _____ | _____ | _____ | _____ | _____ |
| _____ | _____ | _____ | _____ | _____ | _____ | _____ | _____ |
| _____ | _____ | _____ | _____ | _____ | _____ | _____ | _____ |
| _____ | _____ | _____ | _____ | _____ | _____ | _____ | _____ |
| _____ | _____ | _____ | _____ | _____ | _____ | _____ | _____ |
| _____ | _____ | _____ | _____ | _____ | _____ | _____ | _____ |
| _____ | _____ | _____ | _____ | _____ | _____ | _____ | _____ |
| _____ | _____ | _____ | _____ | _____ | _____ | _____ | _____ |
| _____ | _____ | _____ | _____ | _____ | _____ | _____ | _____ |
| _____ | _____ | _____ | _____ | _____ | _____ | _____ | _____ |
| _____ | _____ | _____ | _____ | _____ | _____ | _____ | _____ |
| _____ | _____ | _____ | _____ | _____ | _____ | _____ | _____ |
| _____ | _____ | _____ | _____ | _____ | _____ | _____ | _____ |
| _____ | _____ | _____ | _____ | _____ | _____ | _____ | _____ |
| _____ | _____ | _____ | _____ | _____ | _____ | _____ | _____ |
| _____ | _____ | _____ | _____ | _____ | _____ | _____ | _____ |
| _____ | _____ | _____ | _____ | _____ | _____ | _____ | _____ |
| _____ | _____ | _____ | _____ | _____ | _____ | _____ | _____ |
| _____ | _____ | _____ | _____ | _____ | _____ | _____ | _____ |
| _____ | _____ | _____ | _____ | _____ | _____ | _____ | _____ |
| _____ | _____ | _____ | _____ | _____ | _____ | _____ | _____ |
| _____ | _____ | _____ | _____ | _____ | _____ | _____ | _____ |

1b. Are these capital projects listed in an engineering report or other document?
 If so, please list the document Number - from pages 4 through 6.

Document No. _____ Document No. _____
 Document No. _____ Document No. _____

2a. Are there any Identified cleaning and lining projects?
 ___ Y ___ N

| Street | Existing Size (inch) | Length (feet) | | Street | Size (inch) | Length (feet) | |
|--------|----------------------|---------------|-------|--------|-------------|---------------|-------|
| _____ | _____ | _____ | _____ | _____ | _____ | _____ | _____ |

V. OTHER

Backflow Prevention Devices/Assemblies, Hydrants, Service Lines, Valves, Water Meter, and Other Inventory

Projects for backflow prevention devices and assemblies, hydrants used to flush water mains, service line replacement, and other items such as valves and meters are recorded in this section to accommodate entries of multiple identical items on one line in the project table.

Record only projects that are not a part of another project (e.g., water main replacement projects will already include valves, hydrants and other appurtenances).

To ensure all potential projects are considered, it may be helpful to complete some or all of this inventory table. However, completion of this table is not required.

| Inventory | Needing Replacement | Needing Renovation | New Infrastructure Needs |
|---|--|--|--|
| Total Number of Existing Valves (gate, butterfly, PRVs, altitude, etc.): _____ | Number of Valves: _____ | Number of Valves: _____ | Number of Valves: _____ |
| Total Number of Existing Water Meters: _____ | Number of Water Meters: _____ | Number of Water Meters: _____ | Number of Water Meters: _____ |
| Total Number of Existing Hydrants for Flushing Water Mains: _____ | Number of Hydrants for Flushing Water Mains: _____ | Number of Hydrants for Flushing Water Mains: _____ | Number of Hydrants for Flushing Water Mains: _____ |
| Total Number of Lead Service Lines: _____ | Number of Lead Service Lines: _____ | Number of Lead Service Lines: _____ | Number of Lead Service Lines: _____ |
| Total Number of Backflow Prevention Devices/Assemblies: _____ | Number of Backflow Prevention Devices/Assemblies: _____ | Number of Backflow Prevention Devices/Assemblies: _____ | Number of Backflow Prevention Devices/Assemblies: _____ |
| Total Number of Other Items (security components, well houses, computer hardware, etc.): _____ | Number of Other Items: _____ | Number of Other Items: _____ | Number of Other Items: _____ |

VI. Other - This section outlines needs for:

- A. Backflow prevention devices assemblies
- B. Hydrants
- C. Water service lines
- D. Valves
- E. Water meters
- F. Cross Connections
- G. Instrumentation
- H. Miscellaneous Needs
- I. Laboratory
- J. Security
- K. Emergency Planning
- L. Permit Study and Planning Needs

This section is used to determine the needs of the pws for the various replacement programs for mechanical devices as noted. Valves and hydrants should be replaced in accordance with reported needs beyond the useful life of the appurtenance.

A. Backflow Prevention Device Assemblies

Please outline backflow prevention device assembly needs for the next twenty (20) year time period.

| No. of Existing Systems | Size (inch) | Year of Needed Replacement |
|-------------------------|-------------|----------------------------|
| _____ | _____ | _____ |
| _____ | _____ | _____ |
| _____ | _____ | _____ |
| _____ | _____ | _____ |
| _____ | _____ | _____ |
| _____ | _____ | _____ |
| _____ | _____ | _____ |
| _____ | _____ | _____ |

B. Hydrants

1. Are there hydrant age issues due to - age - testing - replacement needs - spacing issues.

Hydrants and Appurtenances Replacement Program

| Street/Location | No of Replacements | Replacement Year |
|-----------------|--------------------|------------------|
| _____ | _____ | _____ |
| _____ | _____ | _____ |
| _____ | _____ | _____ |

| | | |
|--|--|--|
| | | |
| | | |
| | | |
| | | |
| | | |
| | | |
| | | |
| | | |
| | | |
| | | |
| | | |
| | | |
| | | |
| | | |

| | | |

E. Water Metering Systems

1. Sources of Supply - Master metering systems for sources of supply. Program and needs to replace or upgrade instrumentation?

| | |
|------|------|
| Site | Need |
|------|------|

| | |
|-------|-------|
| _____ | _____ |
| _____ | _____ |
| _____ | _____ |
| _____ | _____ |
| _____ | _____ |
| _____ | _____ |

2. Are there any meter pits upgrades required, such as - electricity for pits - and instrumentation - ladders - .meter type change - heat - dehumidifiers;

3a. Distribution System Meter replacement program - This section should outlined the planned meter change outs for the distribution system

Meters should replaced according to DEP Water Management Act Program Guidance Manual standards

3b. Residential Meters

> 1.0 inch every 10 years _____

< 1.0 inch every 15 years. _____

| Existing | Sizes/Types | Number of Meters | Costs for Install/Meter Change Out |
|-----------------|--------------------|-------------------------|---|
| _____ | _____ | _____ | _____ |
| _____ | _____ | _____ | _____ |
| _____ | _____ | _____ | _____ |
| _____ | _____ | _____ | _____ |
| _____ | _____ | _____ | _____ |
| _____ | _____ | _____ | _____ |
| _____ | _____ | _____ | _____ |
| _____ | _____ | _____ | _____ |
| _____ | _____ | _____ | _____ |

3c. Please outline large meter replacement needs.

Large Meters

| Existing | Sizes/Types | Number of Meters | Costs for Install/Meter Change Out |
|-----------------|--------------------|-------------------------|---|
| _____ | _____ | _____ | _____ |
| _____ | _____ | _____ | _____ |
| _____ | _____ | _____ | _____ |
| _____ | _____ | _____ | _____ |
| _____ | _____ | _____ | _____ |
| _____ | _____ | _____ | _____ |
| _____ | _____ | _____ | _____ |
| _____ | _____ | _____ | _____ |
| _____ | _____ | _____ | _____ |

F. Cross Connections and Backflow Programs Needs

1. Please outline any capital project needs outlined under MassDEP Annual Statistical Reports (ASR) or other pertinent documents for backflow devices

| | |
|-----------------|----------------------------------|
| Existing system | Number of installations/permits. |
| _____ | _____ |
| _____ | _____ |
| _____ | _____ |
| _____ | _____ |

2. Is there a need to permit and install meter irrigation system for determining volume and sewer deductions and if so, how many?

| | |
|-------------------------|----------------------------------|
| Existing system Size | Number of installations/permits. |
| _____ | _____ |
| _____ | _____ |

3. Is there a need of separation between drinking water and irrigation unit meters?

| | |
|-------------------------|---------------------------------|
| Existing system Size | Number of installations/permits |
| _____ | _____ |
| _____ | _____ |
| _____ | _____ |
| _____ | _____ |

4. Is there a need for sprinkler systems cross connections improvements?

| | |
|-------------------------|---------------------------------|
| Existing system Size | Number of installations/permits |
| _____ | _____ |
| _____ | _____ |
| _____ | _____ |
| _____ | _____ |

8. Existing Backflow Device Units Replacement

| Type | Age of Units | Replace > 10 years (25%) | Replace > 15 years (50%) | \$ Value |
|-------|--------------|--------------------------|--------------------------|----------|
| _____ | _____ | _____ | _____ | _____ |
| _____ | _____ | _____ | _____ | _____ |
| _____ | _____ | _____ | _____ | _____ |
| _____ | _____ | _____ | _____ | _____ |
| _____ | _____ | _____ | _____ | _____ |
| _____ | _____ | _____ | _____ | _____ |

| | | |
|-------|-------|-------|
| _____ | _____ | _____ |
| _____ | _____ | _____ |
| _____ | _____ | _____ |
| _____ | _____ | _____ |
| _____ | _____ | _____ |
| _____ | _____ | _____ |
| _____ | _____ | _____ |
| _____ | _____ | _____ |
| _____ | _____ | _____ |
| _____ | _____ | _____ |
| _____ | _____ | _____ |
| _____ | _____ | _____ |

G. Instrumentation

Overall evaluation of systems that exist or are needed in pump stations - storage tanks - water treatment facilities - booster pumping stations - or other systems - such as: pump control systems - telemetry systems. For this equipment, costs should be provided.

Older systems should be replaced with new electrical sensing units (transmitters - totalizers - recorders - pressure sensors - recorders - etc.) not repaired if over 20 yrs.

1. Types of Instrumentation Units

| Age | Instrumentation | Type | Replacement Time | Cost Constr. and Unit |
|-------|-----------------|-------|------------------|-----------------------|
| _____ | _____ | _____ | _____ | _____ |
| _____ | _____ | _____ | _____ | _____ |
| _____ | _____ | _____ | _____ | _____ |
| _____ | _____ | _____ | _____ | _____ |
| _____ | _____ | _____ | _____ | _____ |
| _____ | _____ | _____ | _____ | _____ |
| _____ | _____ | _____ | _____ | _____ |
| _____ | _____ | _____ | _____ | _____ |
| _____ | _____ | _____ | _____ | _____ |
| _____ | _____ | _____ | _____ | _____ |
| _____ | _____ | _____ | _____ | _____ |
| _____ | _____ | _____ | _____ | _____ |

2. New SCADA and/or upgrade?
 ___ Y ___ N

Type and Cost Estimate

2b. New Annunciator Panels

- 2c. Tie into security systems needs

- 3. Computer needs - data handling system?

- 4. Control Boards or Other Types

- 5. Telemeter system - upgrades to wireless

- 6. Alarm Systems or internal Power systems

H. List any Miscellaneous Needs

Please outline any miscellaneous needs for capital projects needed for the Water Department administrative and daily work crews.

- 1. Computer Billing - Master computer needs as capital investment.

- 2. DATA storage. _____
- 3. New HQ - Main building replacement and or expansion _____
- 4. Garage(s) _____
- 5. New trucks to do capital improvements dumps, tools...(or just o&m)

I. Laboratory Needs

Please outline any needed capital projects for the laboratory.

- 1. List laboratory system replacement and new needs in house testing needs.

-
2. Chromatographs _____
 3. AA Spectrometers _____
 4. Other Laboratory Improvements Needs _____
 5. Laboratory equipment - replacement - _____
 6. Lab expansion or other needs. _____
 7. Certification needs _____
 8. New Expanded system needs _____
 9. General Laboratory Needs

10. Expansion Needs _____
11. Housing Needs _____
12. Rehabilitation _____
13. Equipment _____
14. Miscellaneous _____

15. Water Quality Monitoring Tools
 - Equipment/Analyzer _____
 - Recorders for _____
 - In Process Streams _____
 - Finished Water _____
 - Monitoring Streams _____

Summary of Projects

| Project Name | Cost | Documentation |
|--------------|-------|---------------|
| _____ | _____ | _____ |
| _____ | _____ | _____ |
| _____ | _____ | _____ |
| _____ | _____ | _____ |
| _____ | _____ | _____ |
| _____ | _____ | _____ |
| _____ | _____ | _____ |
| _____ | _____ | _____ |

J. Security

Please list any Projects contained in Massachusetts DEP Vulnerability Assessments or other reports.

1. Various information that can be utilized to determine projects and costs associated with emergency planning.

Each facility should get evaluated for security needs, fencing, instrumentation tied into security issues at each site. Fencing is allowed around all sites, but not sources of supply. Security camera's should be considered and tied into fire and/or police stations. Please provide Costs.

2. Vulnerability Assessment Reports. _____

3. Security needs analysis. _____

4. Equipment needs
 - Spare Generators _____
 - Spare portable chlorinators _____
 - Back up equipment needs _____
 - Required new generators at existing sources? _____
 - Removable of outside fuel tanks. _____
 - New gas lines to replace tanks" _____

5. Security tie ins to police or fire department. \$\$_____
 - Station Location _____
 - _____
 - _____

- 6a. Lighting _____

- 6b. Locks _____

- 7a. Security systems - new - replace? _____

- 7b. Cyber
 - Firewall _____
 - SCADA _____
 - Closed Circuit Television _____

- 8.. New communication systems ..tie in to security systems/police/fire etc.

Summary of Projects

| | Project Name | Documentation |
|-------|--------------|---------------|
| _____ | _____ | _____ |
| _____ | _____ | _____ |
| _____ | _____ | _____ |
| _____ | _____ | _____ |
| _____ | _____ | _____ |

K. Emergency Planning -

Please list any projects generated by emergency planning documents.

1. Emergency planning should outline emergency conditions at each facility. (check to see if this written planning component can include plan preparation along with capital items.

L. Permit Engineering Study Evaluation and Planning Needs

1. Please review permits - legal documents and other documents and list any capital projects generated.

| | Project Name | Documentation |
|-------|--------------|---------------|
| _____ | _____ | _____ |
| _____ | _____ | _____ |
| _____ | _____ | _____ |
| _____ | _____ | _____ |
| _____ | _____ | _____ |
| _____ | _____ | _____ |
| _____ | _____ | _____ |
| _____ | _____ | _____ |
| _____ | _____ | _____ |
| _____ | _____ | _____ |

2. Federal or state Permit - Administrative Consent Orders and other conditional needs

List any projects that are required to meet various permitting or legal constraints.

| | Project Name | Documentation |
|-------|--------------|---------------|
| _____ | _____ | _____ |
| _____ | _____ | _____ |
| _____ | _____ | _____ |
| _____ | _____ | _____ |
| _____ | _____ | _____ |
| _____ | _____ | _____ |
| _____ | _____ | _____ |
| _____ | _____ | _____ |
| _____ | _____ | _____ |
| _____ | _____ | _____ |
| _____ | _____ | _____ |
| _____ | _____ | _____ |
| _____ | _____ | _____ |
| _____ | _____ | _____ |
