

The Department of Energy Resources
100 Cambridge Street, Suite 1020
Boston, MA 02114

Dear Department of Energy Resources,

Solar energy is on the rise in Massachusetts. We need to make sure that solar continues to grow so that we can get it on 50,000 roofs by 2020 and make solar a centerpiece of our state's plan to move toward this pollution-free energy source.

Expanding the so-called solar carve-out in the renewable energy standard will play a critical role in making Massachusetts a national leader on solar, providing access to solar for our citizens and businesses. In order to make solar energy thrive in Massachusetts, I urge you to increase the current 400 Megawatt (MW) solar requirement to 1600 MW. Quadrupling the solar carve out will help put Massachusetts on track to meeting our energy and environmental challenges by tapping this virtually unlimited energy source with no fuel costs.

Solar energy is clean, renewable, and local. It is critical that we get solar on every available roof in every neighborhood across Massachusetts.

Sincerely,

Nate Hendrick
