Complete reverse to calculate underpayment penalty.

## General Information

Who should use this form. Corporations taxed under Ch. 63 of the Massachusetts General Laws should use Form M-2220 to determine whether they paid the correct amount of estimated tax by the proper due date. If not, a penalty may be imposed on the underpayment amount.
Note: If you are claiming a refundable film credit on your return, you are not subject to the underpayment penalty. Do not file this form.
Short year. Corporations are liable for estimated payments even if there was no return filed for 2012 or if a return filed for 2012 was for less than 12 months. Corporations meeting either of these conditions should enter the smaller of lines 2 or 3 in line 5. See Massachusetts Regulation 830 CMR 63B.2.2 for additional information.

Large corporation. Any corporation having \$1 million or more of federal taxable income in any of its three preceding taxable years (IRC Sec. 6655(g)) may only use its prior year tax liability to calculate its first quarterly estimated payment. Any reduction in the first installment payment must be added to the second installment payment.

Note: New corporations in their first full taxable year with less than 10 employees have lower payment percentages - 30-25-25-20\%; 55-25-20\%; and $80-20 \%$. New corporations should check the box in line 7 and use these percentage amounts to complete line 7.

Commercial banks, insurance companies and public service companies. Enter in line 1 the Total Excise Due amount from the return being filed. Also, if an underpayment penalty is due, show this amount in the bottom margin of page 1 of your respective return as "underpayment penalty" and increase your total payment due or decrease excess payment to be refunded.

## Line Instructions

Lines 7 through 12. To determine the underpayment amount, complete lines 7 through 12 for each appropriate column. If line 11 shows an overpayment, that overpayment may first be used as a payment of any existing underpayment amount. Overpayments used as payments of prior underpayment amounts do not decrease the actual underpayment amount but serve to reduce instead the period of underpayment subject to penalty. If there are no existing underpayment amounts, the overpayment is applied as a credit against the next installment. If more than one payment is made for a given installment, attach separate computations for each payment.

## Figuring your underpayment penalty

| Enter same installment dates used in line $6 \ldots \ldots .$.13 Amount of underpayment from line $12 \ldots \ldots \ldots$. |  | a | b | c | d |
