

Refundable Life Science Credit Life Science Company

The Life Sciences Tax Incentive Program under M.G.L. Ch. 23I, sec. 5(a) and 5(d) authorizes the Massachusetts Life Sciences Center (MLSC) to approve applications from "life sciences companies" for specified tax benefits. Taxpayers may claim such benefits only as, and to the extent, such benefits were previously authorized by the MLSC. Taxpayers with unused Life Sciences Investment Tax Credits or FDA User Fees Credits under Ch. 62, sec. 6(m) and 6(n) or Ch. 63, sec. 31M or 38U may apply for a refund of the current year credits remaining after reducing their tax liability, in lieu of any carryover to future years, at 90% of the value of such unused credits.

Corporations with unused credits under Ch. 63, sec. 38M from the current or prior years may similarly request a refund of their unused credits at 90% of their value to the extent authorized by the MLSC.

If taking a Life Science Credit against excise and not seeking a refund based upon the Life Science Credit, do not file this schedule. See TIR 08-23 for further information.
