

Combined Reporting Instructions

2013 Schedule U-IC Instructions

Member's Individual Credits

Schedule U-IC must be filed by every taxable member of a combined group that possesses Massachusetts credits that are being used against either its excise or that of another member of the combined group. The schedule is used to reconcile the total of a member's credits that are being used against the Massachusetts excise due from either the member itself or another member for the current taxable year. An additional schedule, specific to the credit in question, is generally required to support the claim of each particular credit (e.g., Schedule RC in the case of a research credit).

A corporation that is a member of a combined group may be allowed to share a credit that is generated by another member where the credit derives from the unitary business of the combined group, consistent with the requirements and limitations referenced in 830 CMR 63.32B.2(9).

Schedule U-IC is used to account for any credits that are so shared. In any case in which a credit is so shared, Schedule U-CS must also be filed and must identify both the member that is using the credit and the "contributing member" whose credit is being used.
