

Massachusetts C&D Handling Facilities

Tons of C&D Accepted and Handled by Facility in 2015*

*Quantities are "as reported" to MassDEP in CY2015 C&D Annual Facility Reports

Note: The MassDEP definition of C&D material recycling is separate and distinct from the protocol used by the USGBC in calculating LEED C&D waste management credits. For example, when calculating its C&D materials recycling rate, MassDEP does not allow credit for any landfill dependant uses (e.g. alternative daily cover, grading & shaping, road stabilization, etc.), whereas the LEED v4 protocol only prohibits counting ADC toward C&D waste management credits. Please be mindful of such differences when using MassDEP data to calculate LEED credits.

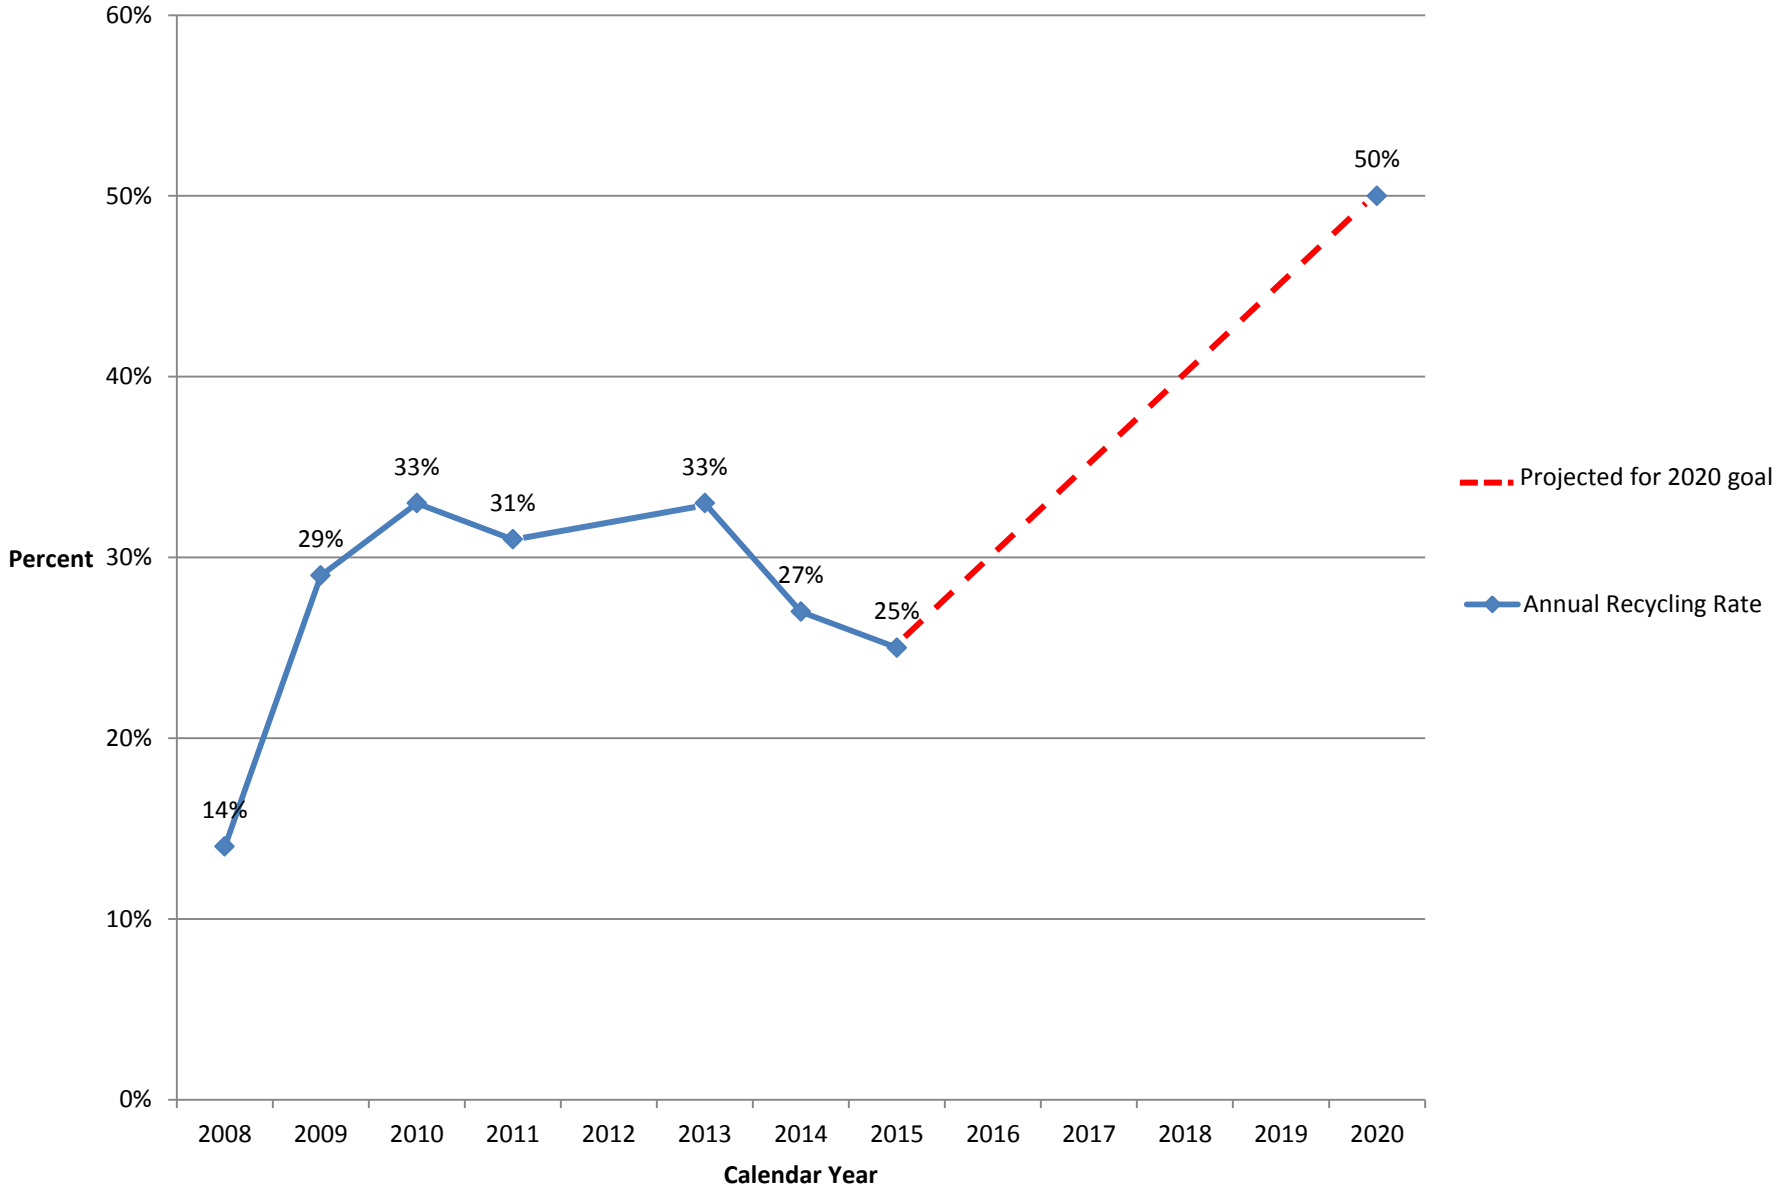

2015 Annual C&D Report Data Summary																	
Facility	Note: All data reported in tons unless otherwise indicated	Total C&D waste accepted	Transferred (to C&D Processor)	Total % of C&D waste transferred to another C&D processor	Handled by the facility. (less Transferred)	Recycled	Handled Recycling Rate (%) = tons of C&D materials recycled divided by tons handled (not including transferred material).	Wood reused (fuel, particleboard, mulch)	Total % of wood reused (fuel, particleboard, mulch)	Landfill dependant application (e.g. ADC, Roadbase, Shaping-Grading)	Total % of C&D fines & residuals used in landfill dependant applications	Disposed landfill/combustion	C&D % of disposed	Overall recycling rate (%) = tons recycled divided by total C&D waste accepted	C&D Residual accepted (for disposal)	Disposed landfill/combustion (less C&D Residual Accepted)	C&D Handling Facility's explanation of discrepancy in tonnage
