1. Strategies to Address Health Care Cost Growth.

Chapter 224 of the Acts of 2012 (Chapter 224) sets a health care cost growth benchmark for the Commonwealth based on the long-term growth in the state's economy. The benchmark has been set at 3.6% each year since 2013; however, beginning in 2017 the HPC may set a lower growth rate target.

- a. What are your top areas of concern for meeting the Health Care Cost Growth Benchmark in Massachusetts? (Please limit your answer to no more than three areas of concern)

Required Answer: [Click here to enter text.](#)

- b. What are the top changes in policy, payment, regulation, or statute you would recommend to support the goal of meeting the Health Care Cost Growth Benchmark? (Please limit your answer to no more than three changes)

2. Strategies to Address Pharmaceutical Spending.

In addition to concerns raised by payers, providers, and patients on the growing unaffordability and inaccessibility of clinically appropriate pharmaceutical treatment, the HPC's 2015 Cost Trends Report identified rising drug prices and spending as a policy concern for the state's ability to meet the Health Care Cost Growth Benchmark.

- a. Below, please find a list of potential strategies aimed at addressing pharmaceutical spending trends, including prescribing and utilization. By using the drop down menu for each strategy, please specify if your organization is currently implementing such a strategy, plans to implement it in the next 12 months, or does not plan to implement it in the next 12 months.

3. Strategies to Integrate Behavioral Health Care.

- a. What are the top strategies your organization is pursuing to enhance and/or integrate behavioral health care for your patients? (Please limit your answer to no more than three strategies)

Required Answer: [Click here to enter text.](#)

4. Strategies to Recognize and Address Social Determinants of Health.

There is growing recognition and evidence that social, economic and physical conditions, such as socioeconomic status, housing, domestic violence, and food insecurity, are important drivers of health outcomes and that addressing social determinants of health (SDH) is important for achieving greater health equity for racial and ethnic minorities, low-income and other vulnerable communities. Routine screening for SDH issues and developing programs to address those issues are core competencies of accountable, high performing health care systems.

5. Strategies to Encourage High-Value Referrals.

6. **Strategies to Increase the Adoption of Alternative Payment Methodologies.**

In the 2015 Cost Trends Report, the HPC recommended that payers and providers should continue to increase their use of alternate payment methodologies (APMs), with the goal that 80% of the state HMO population and 33% of the state PPO population be enrolled in APMs by 2017.

- a. What are the top strategies your organization is pursuing to increase the adoption of alternative payment methods (e.g., risk-based contracts, ACOs, PCMHs, global budgets, capitation, bundled or episode-based-payments)? (Please limit your answer to no more than three strategies)

7. **Strategies to Improve Quality Reporting.**

At the Cost Trends Hearings in 2013, 2014, and 2015, providers consistently called for statewide alignment on quality measures, both to reduce administrative burden and to create clear direction for focusing quality-improvement efforts. Providers have demonstrated that the level of operational resources (e.g. FTEs, amount spent on contracted resources) needed to comply with different quality reporting requirements for different health plans can be significant.

- a. Please describe the extent to which lack of alignment in quality reporting poses challenges for your organization and how your organization has sought to address any such challenges.

Required Answer: [Click here to enter text.](#)

- b. Please describe any suggested strategies to promote alignment in the number, type (i.e. process, outcome or patient experience), and specifications of quality measures in use as well as the quality measurement reporting requirements to payers (e.g., reporting frequency and reporting format).

Required Answer: [Click here to enter text.](#)

- 8. **Optional Supplemental Information.** On a voluntary basis, please provide any supplemental information on topics addressed in your response including, for example, any other policy, regulatory, payment, or statutory changes you would recommend to: a.) address the growth in pharmaceutical prices and spending; b.) enable the integration of behavioral health care; c.) enable the incorporation of services to address social determinants of health for your patients; d.) encourage the utilization of high-value providers, regardless of system affiliation; e.) enable the adoption of APMs; and f.) promote alignment of quality measurement and reporting.
