Source: Massachusetts Violent Death Reporting System, Injury Surveillance Program, Massachusetts Department of Public Health

• Data were extracted and compiled by the Injury Surveillance Program, Bureau of Community Health and Prevention, MDPH, September 2020.

Y35.6-Y35.7, Y86 (firearms only), Y87.0-Y87.2, Y89.0, Y89.9, W32-W34, U01-U03).

• Data is for occurrent deaths only; Massachusetts residents who died out-of-state are excluded from this analysis.

• Rates are crude rates and were not calculated on counts of less than six and where population data is unavailable. Rates

based on counts less than 20 may be unstable.

Percents may not add to 100 due to rounding.

Population data used to calculate rates are based on 2018 population estimates generated by the National Center for Health Statistics

Vintage 2019 Bridged-Race Postcensal Population in collaboration with the US Census Bureau (<u>http://www.cdc.gov/nchs/nvss/bridged_race.ntm</u>, source file: pcen_v2019_y1019.sas) and the U.S. Census Bureau American Community Survey 2014-2018 five year estimates.

• For additional information and technical notes, please refer to the annual reports which can be found at www.mass.gov/dph/isp.

* Total violent deaths include four legal intervention deaths and two unintentional firearm death that are not included in the table.

[•] Analysis is based on a calendar year (Jan. 1 - Dec. 31, 2018) and analyzed by ICD-10 code (X60-X99, Y00-Y34, Y35.0-Y35.4,
