# Local Climate Adaptation and Climate Action Plans

## 1.1 Identified Plans

Table F-1 provides a list of 26 of local and regional climate adaptation and climate action plans that were identified during the preparation of the State Hazard Mitigation and Climate Adaptation Plan (SHMCAP). This list should not be considered an exhaustive list. It is likely that many plans that have been developed or are currently under development were not identified during this preliminary screening of local plans.

<sup>1</sup> A plan is categorized as an adaptation plan if it is primarily a climate change vulnerability and adaptation or resiliency plan. A plan is categorized as mitigation if it is primarily focused on identifying actions to mitigate climate change and reduce greenhouse gas emissions.
