I received my second Pfizer shot last Friday and have been ill starting Saturday: Very tired, upset stomach, body aches, headaches but no fever. Is this normal?
- 00:19:54 Yuehlin Lee, DCR:  
Will booster shots be needed at some point?
- 00:19:59 Damon Guterman:  
Lynn: See <https://www.mass.gov/lists/pfizer-post-vaccine-fliers>
- 00:23:01 Stephanie Tarves:  
The mass.gov site was very challenging to get through as of last week. The site would crash during the sign-up process after an appointment was assigned and being held for 15 minutes. After crashing the appointment was lost. Experienced this multiple times. CVS and Walgreens were seamless.
- 00:25:18 Damon Guterman:  
My personal experience, being eligible on Monday this week, was that I was able to find an appointment today (48 hours).
