

2021 Schedule U-IC Instructions

Member's Individual Credits

Schedule U-IC must be filed by every taxable member of a combined group that possesses Massachusetts credits that are being used against either its own excise or the excise of another member of the combined group. A corporation that is a member of a combined group may be allowed to share a credit that is generated by another member where the credit derives from the unitary business of the combined group, consistent with the requirements and limitations referenced in 830 CMR 63.32B.2(9). Schedule U-IC must also be filed by a combined group member that is taking credits under the credit sharing rules.

Schedule U-IC works in conjunction with the Credit Manager Schedule (Schedule CMS) and with Schedule U-CS (which must be filed by any member that is taking a credit against its excise under the credit sharing rules).

Credit Manager Schedule

Any member using its own credits or allowing others to use them must complete and enclose Schedule CMS in order to report all credits generated, taken or carried over from prior years.

Schedule CMS (which replaces Schedule CR) reports in Section 1 the taxpayer's credits available (including credits carried over from prior years) and the credits taken. Credits are shown in a table format and may be listed in any order. Taxpayers with more than one credit available may choose how much of each credit to take in the current year. A taxpayer participating in a combined report and allowing other members of the combined group to use its credits as allowed in 830 CMR 63.32B.2(9) also reports the amount of each credit shared on this schedule.

Credit Certificate Number

Some credits are identified on Schedule CMS by a certificate number. The certificate number for the credit is assigned by the issuing agency (which may be the Department of Revenue) and must always be reported to claim the credit. A taxpayer with multiple certificates for the same type of credit will enter each separately, with the available (unused) balance associated with that certificate in column (e) and the amount of the credit used in the current year in column (f). Taxpayers claiming the EDIP Credit for a Certified Jobs Creation Project must enter a certificate number, but are only required to complete the header section of Schedule EDIP.

Credits Identified by Period End Date

Some credits are identified by the period end date which refers to the period in which the credit originated (i.e., when it was generated). This may be the current taxable year or a prior year if the credit is being carried forward from a prior year. If the period of origin is the current year, a schedule detailing the calculation of the amount of credit must be enclosed with the return. If the period of origin is a prior year, only the amount carried over to and available in the current year is shown in column (e) and no calculation schedule is required.

If, by operation of MGL ch 63, § 32C or another provision of law, a credit normally identified by period of origin is eligible for indefinite carryover, the credit should be reported as non-expiring. The taxpayer is not required to identify the period of origin on Schedule CMS (non-expiring credits were formerly referred to as unlimited). The abbreviation in the enumeration column is used to identify the credit type on Schedule CMS.

Section 2 of Schedule CMS reports any refundable credits claimed in the current year.

Refundable Credits

Certain credits are refundable only if specifically authorized or, in the case of the Film Credit, if the original recipient has not transferred the credit to another. Other conditions may apply depending on the terms applicable to the specific credit. Credits are identified separately. The amount in column (f) is the amount of the refund requested, which may be 100% or 90% of the amount reported in column (e).
