33rd Annual Firefighter of the Year Awards
Nomination and Award Information

I. NOMINATIONS

All nominations for the annual Massachusetts Firefighter of the Year Awards must be submitted on the official form included with this package and must be from the head of the department. All paid, call, or volunteer firefighters are eligible to receive an award. Only those incidents that occurred between July 1, 2021, and June 30, 2022, are eligible.

Nominations must include the nomination form with a brief narrative of the incident signed by the head of the department and supporting documents such as reports, testimonials, photos, or affidavits.

The head of the department will be asked to attend the meeting of the Heroic Awards Selection Committee to provide a brief overview of the incident and answer any questions the committee might have. The event coordinator will contact the chief with the date and a specific time.

Nominations are accepted on a rolling basis but must be emailed or postmarked by July 15, 2022. Emails should be sent to Kerry.Weihn@mass.gov and hard copies should be sent to Firefighter of the Year, c/o Kerry Weihl, Department of Fire Services, P.O. Box 1025, Stow, MA 01775.

II. AWARD CATEGORIES

Firefighters put their lives on the line every day to protect their communities. The Firefighter of the Year Awards recognize those firefighters whose actions truly go above and beyond the call of duty. The Heroic Awards Selection Committee also seeks to recognize those unsung heroes whose day-to-day work makes their communities safer. Please note that all nominees must be members of the fire service. Civilians who work with the department are not eligible for this award program.

Nominations may be made to recognize individuals and companies for performance in either emergency response or community service:

- **Emergency Response** nominations may include fire incidents with the rescue of victims, incidents involving hazardous materials, vehicle extrication and rescue, rescue from heights or depth, confined space rescue, water or ice rescue, etc. Keep in mind that firefighter safety should not have been unnecessarily compromised to effect a rescue unless the potential benefit exceeded the actual or perceived risk.
- **Community Service** nominations may include exemplary programs and/or actions including fire prevention, fire investigation, training, public fire education, or other innovative community service programs.
