# Schedule SC Instructions

## What is the Title 5 Septic Credit?

The Septic Credit is a credit equal to 40% of the actual costs incurred in the repair or replacement of a failed septic system. The expenses are the lesser of the taxpayer's actual costs paid to repair and replace the system, or \$15,000. The maximum amount of the credit that may be claimed in any tax year is \$1,500.

**Note:** If you moved during the taxable year and had more than one principal residence that qualified for the Septic Credit, you must file a separate Schedule SC for each of those principal residences. However, the maximum amount of the combined Schedule SC credits cannot exceed \$1,500. Any excess credit amount may be used in the five tax years following the year in which the credit was initially claimed. The total amount of credit that may be claimed by the owner for a residential property is \$6,000.

## Who is Qualified to Claim the Credit?

To claim the Septic Credit, you:

- Must be the owner of the residential property located in Massachusetts;
- Must occupy the property as your principal residence; and
- May not be the dependent of another taxpayer.

You are the owner of the residential property if you have legal title to the property. Co-owners of the residential property who meet each of the above requirements may claim the credit proportionate to the amount of actual costs paid by each such co-owner, up to the total maximum amount of the credit of \$1,500 per year. A principal residence is generally the residence that you live in most of the time. If another taxpayer may claim you as a dependent on his or her 2021 Massachusetts income tax form you are not eligible to claim the credit.

## What are Actual Costs?

Actual costs are the reasonable and necessary costs paid by the owner to repair and replace a failed septic system, including the costs for materials, equipment, demolition, relocation, design, engineering, testing and inspection. Expenses incurred by the owner in 1995 through 2018 to repair or replace a failed system are also actual costs. Actual costs do not include costs paid for the repair and replacement of any system that is not a failed system, or for the repair and replacement of any system not undertaken pursuant to the relevant Department of Environmental Protection (DEP) regulations. A copy of the Certificate of Compliance or verification letter issued to the owner by the appropriate authority stating that the system has been repaired or replaced in compliance with the relevant DEP regulations must be kept with your records.

## What is an Interest Subsidy?

The Commonwealth, through the efforts of the DEP, and the Massachusetts Housing Finance Agency (MHFA) and the state's cities and towns, offers qualified owners interest subsidies in the form of low interest rate loans and betterments for the repair and replacement of failed septic systems. If an owner has received an interest subsidy, the amount of the Title 5 credit that the owner may claim is reduced by the amount of the interest subsidy the owner receives. Generally, the amount of the interest subsidy is the difference between the unsubsidized interest rate determined under G.L. c. 62C, § 32(a) in effect at the time the owner receives the subsidy and the amount of interest the owner actually pays.

## How Do I Claim the Credit?

To claim the credit, you must complete and enclose Schedule SC with your return. Failure to do so will result in this credit being disallowed on your tax return and an adjustment of your reported tax.

You must retain for your records:

- A copy of the Certificate of Compliance or verification letter;
- If you have received an interest subsidy from the Commonwealth, a copy of a truth in lending statement or similar document from the lender stating the lender's name, the amount of the loan, the interest rate imposed, the length of the repayment term, and the amount of the loan that you have repaid; and/or
- If the interest subsidy is in the form of a betterment, the relevant property tax bill(s) or other documents received from the taxpayer's city or town stating the name of the city or town, the amount of the betterment, the interest rate imposed, the length of the repayment term, and the amount of the betterment that you have repaid.

For more information on the Septic Credit, see Technical Information Releases 97-12, 98-8, 99-5 and 99-20 and DOR Directive 01-6.

## What If I Am Taking the Septic Credit and Another Credit On My Tax Return?

If you are taking another credit in addition to the Septic Credit on your tax return, you must reduce the amount of tax reported in line 12 of Schedule SC (from Form 1, line 28 or Form 1-NR/PY, line 32) by any Limited Income Credit and/or Credit for Taxes Paid to Other Jurisdiction and any other credits you may be eligible for. These include but are not limited to the Solar and Wind Energy Credit, Lead Paint Credit, Economic Opportunity Area Credit, Economic Development Incentive Program Credit, Brownfields Credit, Low-Income Housing Credit, Historic Rehabilitation Credit, Film Incentive Credit, Medical Device Credit, Employer Wellness Program Credit, Farming and Fisheries Credit, Low-Income Housing Donation Credit and Veterans Hire Credit.

**Note:** It is more advantageous to use the credit(s) that is going to expire first.
