Dear <<Full Name>>:

Hospital Sisters Health System (HSHS) cares deeply about our colleagues, and that is why we are writing to update you regarding an incident that may have involved some of your personal information. This letter tells you what happened, what information was potentially accessed, what HSHS is doing in response to the incident, and provides guidance on what you can do to protect yourself, should you feel it is important to do so.

**What Happened?** As you may be aware, on August 27, 2023, HSHS discovered an unauthorized third party gained temporary access to HSHS's network. Upon learning of the situation, we immediately took steps to contain and remediate the incident and launched an internal investigation. We also reported the incident to law enforcement and engaged a leading forensic security firm to assist in our investigation and confirm the security of our computer systems and network. The forensic investigation determined that the unauthorized third party accessed certain files on our network between August 16 and August 27, 2023. We have since been reviewing those files and notifying individuals whose information was found in the files on a rolling basis as our review has continued.

**What Information Was Involved?** The type of information varied for each individual, but may have included your name, address, date of birth, and Social Security number and/or driver's license number. At this time, we have no reason to believe that your personal information has been misused for the purpose of committing fraud or identity theft.

**What We Are Doing.** In addition to the actions described above, we have taken steps to reduce the risk of this type of incident from occurring in the future, including enhancing our technical security measures. Although we are not aware of any instances of fraud or identity theft resulting from this incident, out of an abundance of caution, we are offering a free two-year membership of Experian IdentityWorks<sup>SM</sup> Credit 3B. This service helps detect possible misuse of your personal information and provides you with identity protection services including immediate identification and resolution of identity theft. IdentityWorks Credit 3B is completely free to you and enrolling in this program will not hurt your credit score. **For more information on identity theft prevention and IdentityWorks Credit 3B, including instructions on how to activate your complimentary, two-year membership, please see the additional information attached to this letter.**

**What You Can Do.** Again, while we have no evidence that your personal information has been misused, we encourage you to take advantage of the complimentary credit monitoring offer included in this letter. You can learn about more steps to protect yourself against possible identity theft or fraud in the enclosed *Additional Important Information* page.

**For More Information.** We value the trust you place in us to protect the privacy and security of your information and deeply regret any inconvenience or concern this incident might cause. For further information and assistance, please call [REDACTED] from 8:00 am - 8:00 pm Central, Monday through Friday, except major U.S. holidays.

Sincerely,

A handwritten signature in cursive script that reads "Melanie Wade".

The District of Columbia and Massachusetts law also allow consumers to place a security freeze on their credit reports. A security freeze can be placed without any charge. A security freeze prohibits a credit reporting agency from releasing any information from a consumer's credit report without written authorization. However, please be aware that placing a security freeze on your credit report may delay, interfere with, or prevent the timely approval of any requests you make for new loans, credit mortgages, employment, housing or other services.

To place a security freeze on your credit report, you must send a written request to each of the three major consumer reporting agencies by regular, certified or overnight mail at the addresses below or, if available, comply with the consumer reporting agencies' online security freeze request procedures:
