Dear [REDACTED]:

What Happened? On August 8, 2024, we detected suspicious activity on our computer network. Upon identifying the issue, we promptly initiated an internal investigation, took steps to contain the incident, and engaged a forensic security firm to further investigate. On August 15, 2024, we learned that an unauthorized third party acquired some information from our network between August 6 and August 8, 2024.

What Information Was Involved? We have been reviewing the files at issue and recently determined that they contain some patients' personal information, including your name, address, residence information, medical record number, diagnosis, Social Security number and prescription information. While we are uncertain that your personal information was obtained, out of an abundance of caution, are notifying you of that potential.

What We Are Doing. In addition to the actions described above, we worked with the forensic firm to confirm the ongoing security of our computer systems. We also notified law enforcement and are cooperating with its investigation. Although we are not aware of any instances of fraud or identity theft involving your information, we are offering a complimentary two-year membership of Experian IdentityWorksSM Credit 3B.
