ADDITIONAL STEPS TO PROTECT YOURSELF

Directions for Placing a Fraud Alert

You may want to consider placing an initial fraud alert on your credit file. A fraud alert tells creditors to contact you before they open any new accounts or change your existing accounts. You may place a fraud alert in your file by calling one of the three nationwide credit reporting agencies. The agency that processes your fraud alert will notify the other two credit reporting agencies on your behalf. An initial fraud alert stays on your credit report for 90 days. When you place this alert on your credit report, you will receive information about ordering one free credit report from each of the credit reporting companies. Once you receive your reports, review them carefully for inquiries from companies you did not contact, accounts you did not open, and debts on your accounts that you cannot explain. Verify the accuracy of your Social Security number, address(es), full name and employer(s). Notify the credit reporting companies if any information is incorrect.
