Hello,

I'm writing to express concern that residents and citizens of Massachusetts who have expressly signed up to be notified of activities related to solar siting have not be duly notified.

It is insufficient to make such notification only via a website when the Commonwealth has explicitly provided sign-up lists in order for people to be kept up to date.

Please keep your word for a robust, participatory public process that demonstrates taking public input to heart and putting it in action.

sincerely,

Stephanie Jo Kent
