From: Mark Boyle, Designer Selection Board Chair, Public Member of the Board

The 2024 Annual Report of the Designer Selection Board (DSB) is hereby provided in accordance with Chapter 7C, Section 56. The Annual Report lists all Designer finalists for public projects selected by the Board in calendar year 2024 and includes a summary of the actions taken by the Board and a description of other relevant activities by the Agency.

The Board held twenty-two virtual, public meetings to deliberate and vote on Designers for 21 Public Notices. The "Executive Narrative" outlines the specific Board's accomplishments, actions, and other developments which have had an impact on the conduct of the Designer Selection Board business.

DSB staff continued to provide timely and effective responses to the needs of the Board and its Stakeholders, expediting the processing of new requests for designer selection. The staff responded efficiently to questions from agencies, architects, engineers, and municipalities on designer selection procedures, on specific inquiries on Division of Capital Asset Management and Maintenance (DCAMM), and on charter school projects, past, present, and future.

While the DSB Board is the central administering body for the selection of all designers for vertical building construction projects throughout the Commonwealth, certain public agencies, Massachusetts Convention Center Authority, Massport, and the Executive Office of Housing and Livable Communities have Board approved exemptions to have designer selection done by their own appointed Committees. To receive a two-year exemption, the agencies provide semi-annual reports and come before the DSB Board to receive a review and approval of their designer selection procedures. In 2024, Massport and MCC received an exemption for an additional two years. EOHLC will receive a review in 2025.

The Board and DSB staff look forward to continued cooperation and assistance in achieving the Commonwealth's goal of providing well designed, sustainable public buildings at reasonable cost.

In compliance with the General Laws and past practices, the Designer Selection Board's Fifty Fourth Annual Report for 2024 is available to the public and will be distributed to the State House Library, various architectural and engineering professional organizations, DSB board members, and be posted on the DSB website and the Designer Selection Network.

The Board held twenty-two meetings in 2024. They acted on 21 advertised projects advertised and reviewed 315 related applications. In addition, two projects with 15 applications carried over for action from public notices that were advertised in 2023.

The procedures employed to select finalists for each project were in accordance with Chapter 7C of the Massachusetts General Laws, and were tailored to maintain the mission of the Board, namely to:

- a. *ensure that the commonwealth receives the highest quality design services for all its building projects;*
- b. *provide for increased confidence in the procedures followed in the procurement of design and design related services;*
- c. *promote consistency in the methods of procurement of design and design related services;*
- d. *foster effective broad-based participation in public work within the design professions; and*
- e. *provide safeguards for the maintenance of the integrity of the system for the procurement of designers' services within the commonwealth.*

Distribution of Designer Selection Board Vote

During the 2024 calendar year, no single major area of concentration occurred in the designer selection workload; rather, a variety of project types was advertised. Sixteen of the Public Notices were House Doctor project awards and seven were single project awards. See attached Appendix: **Designer Selection Board Published Projects** for a breakdown of the individual project awards.

From time to time, the Board receives queries by telephone and email requesting interpretations of the laws governing designer selection procedures. The questions may come from public agencies, city or town officials, members of designer selection bodies, or practicing architects and engineers.

The Designer Selection Board staff attempt to research the applicable laws, particularly to find reasonably similar cases in the Board's files to provide information, however, they do not provide legal counsel.

The Office of the Attorney General, Fair Labor & Business Practices should be contacted for any legal interpretations. Another valuable source of information on these matters has been the Inspector General's Office

Staff Business Operations

Staff operational actions to facilitate the work and mission of the Board, Designers, Agencies, Charter Schools and Municipalities:

- **Board Membership:** The DSB continues to partner with and facilitate the Governor's Office, AIA, and ACEC to select board members for the Designer Selection Board. The Board reset of the 2011 resolution noted above to a baseline qualification requirement at the Board meeting of April 24, 2024, allowed the Board selection process to incorporate a broader pool of candidates with experience working on public building contracts.
- **Executive Order #630:** In March, Simone Early was appointed to the Public Construction Advisory Council pursuant to Governor Healey's Executive Order #630. On September 30, 2024, the Public Construction Project Advisory Council issued a Report. The Public Construction Project Advisory Council Report identified barriers to the participation of small, emerging, and diverse Massachusetts businesses within the existing procurement and bidding systems for public construction projects as well as a menu of recommended options to reduce or eliminate these barriers.
- **Designer Selection Network Updates:** The DSB did an extensive update to the Designer Selection Network this year. Updates were made to the Disclosure and Evaluation portal, and changes are ongoing in the Application section of the portal. The changes should increase the efficiency and effectiveness of the tool for the full scope of users – the Board, Agencies, Municipalities and Designers.
- **Charter School Tools:** A Public Notice template for design services was developed for Commonwealth Charter Schools to assist them in developing the scope and criteria for their projects to be advertised. The template more closely correlates with the all-agency DCAMM template to make the application process more standardized for Designers across public building projects advertised through the DSB. The DSB worked with the Department of Elementary and Secondary Education (DESE) and collaborated with Owners Project Managers who had done multiple charter school projects to develop language that directly reflected the needs of Commonwealth Charter Schools. The language includes a comprehensive description of the goals for Charter School Education and updated sustainability language, including language on creating healthy building environments for children.

- **Website Updates:** The DSB website was re-imagined in appearance, content, naming and navigation.
 - **About the DSB :** The page was reorganized, and a new DSB Board page was added which includes bio pages for each board member and the executive director.
 - **DSB Meetings, Events and Minutes:** Links for upcoming and past events hosted by the DSB were added to the page.
 - **For Designers Applying for Projects:** The page was reorganized and new resources such as a link for Economic Development for Small and Emerging Firms and one to the Conflict-of-Interest Training were added. The DSB Projects page was also made more prominent for Designers and the DSB Equity Statement was rewritten.
 - **For Municipalities and Public Agencies:** The page was reorganized. Future updates are to be made to the page, including a Public Notice Template to be added to the page.
 - **For Commonwealth Charter Schools:** The page is a new add to the website and has numerous resources for Charter Schools including a form to initiate the process with the DSB and receive a Public Notice Template, a Capital Project Assessment, A Guide for Capital Projects and the Designer Procurement Process, a link to the Designer Selection Network, Fee Calculations edited for Charter Schools, a link to Contact Mass Development – the primary financier for Charter School capital projects, Model Design Contracts, and more.
- **Presentations to Designers, Agencies, and other Stakeholders:** The DSB hosted and provided presentations for the Design Community as part of DSB Board Meetings and at various professional meetings. The presentations targeted understanding the process, goals, and requirements of design in the field of public building construction. Working with the AIA, some presentations received Health Safety and Welfare credits for participating Architects. Most presentations are available on the DSB webpage under [past events](#). The following presentations were undertaken:
