RE: IMPORTANT INFORMATION PLEASE REVIEW CAREFULLY

Dear [REDACTED]

We are writing with important information regarding a recent cyber security incident at Lucent Health Solutions, LLC ("Lucent Health") that may involve your personal information. We wanted to provide you with information about the incident, tell you about the services that we are providing to you, and let you know that we continue to take significant measures to protect your information.

On October 2, 2023, a Lucent Health manager opened a single "phishing" email from a trusted broker. Lucent Health's IT Team identified suspicious activity on the employee's email account, and eliminated access within approximately ninety (90) minutes.

Upon learning of this issue, we immediately commenced a prompt and thorough investigation working very closely with external cybersecurity professionals experienced in handling these types of incidents to determine whether there was any unauthorized access to protected information.

After an extensive forensic investigation, Lucent Health determined that one e-mail account was subject to unauthorized access for a limited period (approximately ninety (90) minutes), and that the unauthorized individual queried select search terms. **The cybersecurity firm confirmed no information was downloaded or electronically transferred from the email account, and they did not identify evidence that the unauthorized individual actually viewed any information.** Out of an abundance of caution, we wanted to notify you about the incident.

The potentially accessed information includes your full name and Social Security number.

Once again, we have no evidence that the information was obtained or actually viewed or that any information has been misused.

Nevertheless, out of an abundance of caution, we want to make you aware of the incident. To protect you from potential misuse of your information, we are providing you with access to Single Bureau Credit Monitoring/Single Bureau Credit Report/Single Bureau Credit Score services at no charge. Once you receive your credit reports, review them for discrepancies. Identify any accounts you did not open or inquiries from creditors that you did not authorize. Verify all information is correct. If you have questions or notice incorrect information, contact the credit reporting company.

2. Placing a Fraud Alert on Your Credit File.

Whether or not you choose to use the credit monitoring services, we recommend that you place an initial 1-year “fraud alert” on your credit files, at no charge. An initial fraud alert is free and will stay on your credit file for at least twelve months. The alert informs creditors of possible fraudulent activity within your report and requests that the creditor contact you before establishing any accounts in your name. To place a fraud alert, call any one of the three major credit bureaus at the numbers listed below. As soon as one credit bureau confirms your fraud alert, they will notify the others. Additional information is available at <https://www.equifax.com/personal/credit-report-services/credit-fraud-alerts/>.

3. Placing a Security Freeze on Your Credit File.

Following is general information about how to request a security freeze from the three credit reporting agencies at no charge. While we believe this information is accurate, you should contact each agency for the most accurate and up-to-date information. A security freeze prohibits a credit reporting agency from releasing any information from a consumer’s credit report without written authorization. However, please be aware that placing a security freeze on your credit report may delay, interfere with, or prevent the timely approval of any requests you make for new loans, credit, mortgages, employment, housing, or other services. There might be additional information required, and as such, to find out more information, please contact the three nationwide credit reporting agencies (contact information provided below). You may place a security freeze on your credit report by contacting all three nationwide credit reporting companies at the numbers below and following the stated directions or by sending a request in writing, by mail, to all three credit reporting companies:

In order to place the security freeze, you will need to supply your name, address, date of birth, Social Security number and other personal information. After receiving your freeze request, each credit reporting company will send you a confirmation letter containing a unique PIN (personal identification number) or password. Keep the PIN or password in a safe place. You will need it if you choose to lift the freeze.

If your personal information has been used to file a false tax return, to open an account or to attempt to open an account in your name or to commit fraud or other crimes against you, you may file a police report in the City in which you currently reside.

If you do place a security freeze *prior* to enrolling in the credit monitoring service as described above, you will need to remove the freeze in order to sign up for the credit monitoring service. After you sign up for the credit monitoring service, you may refreeze your credit file.

4. Protecting Your Medical Information.

As a general matter, the following practices can help to protect you from medical identity theft.

1. Only share your health insurance cards with your health care providers and other family members who are covered under your insurance plan or who help you with your medical care.
2. Review your “explanation of benefits statement” which you receive from your health insurance company. Follow up with your insurance company or care provider for any items you do not recognize. If necessary, contact the care provider on the explanation of benefits statement and ask for copies of medical records from the date of the potential access (noted above) to current date.
3. Ask your insurance company for a current year-to-date report of all services paid for you as a beneficiary. Follow up with your insurance company or the care provider for any items you do not recognize.

5. Additional Helpful Resources.

Even if you do not find any suspicious activity on your initial credit reports, the Federal Trade Commission (FTC) recommends that you check your credit reports periodically. Checking your credit report periodically can help you spot problems and address them quickly.

If you find suspicious activity on your credit reports or have reason to believe your information is being misused, call your local law enforcement agency and file a police report. Be sure to obtain a copy of the police report, as many creditors will want the information it contains to absolve you of the fraudulent debts. You may also file a complaint with the FTC by contacting them on the web at www.ftc.gov/idtheft, by phone at 1-877-IDTHEFT (1-877-438-4338), or by mail at Federal Trade Commission, Consumer Response Center, 600 Pennsylvania Avenue, NW, Washington, DC 20580. Your complaint will be added to the FTC’s Identity Theft Data Clearinghouse, where it will be accessible to law enforcement for their investigations. In addition, you may obtain information from the FTC about fraud alerts and security freezes.

Massachusetts Residents: Under Massachusetts law, you have the right to obtain a police report in regard to this incident. If you are the victim of identity theft, you also have the right to file a police report and obtain a copy of it.
