RE: NOTICE OF DATA BREACH

Dear <<Full Name >>:

Western Alliance Bank (“Western Alliance”) values and respects the privacy of your information, which is why we are writing to advise you of a recent incident that involved some of your personal information. We have no evidence to believe that your personal information has been misused for the purpose of committing fraud or identity theft. Nonetheless, we are writing to advise you about the isolated incident and to provide you with guidance on what you can do to protect yourself, should you feel it is appropriate to do so.

**What Happened?** A third-party vendor’s secure file transfer software used by Western Alliance and numerous other organizations had an unknown vulnerability. In October 2024, an unauthorized actor began exploiting this unknown vulnerability in the third-party software that allowed the unauthorized actor to gain access to a limited portion of Western Alliance’s systems and to obtain copies of files from those systems. Western Alliance learned that an unauthorized actor had potentially accessed some of Western Alliance’s data on January 27, 2025. Our investigation determined that the unauthorized actor acquired certain files from the systems from October 12, 2024, to October 24, 2024. Western Alliance has notified law enforcement of this incident.

**What Information Was Involved?** We reviewed the contents of the files acquired by the third party to determine if they contained any personal information. On February 21, 2025, we determined that the files contained some of your personal information, including your name and Social Security number. The files may have also contained your date of birth, financial account number, driver’s license number, tax identification number, and/or passport, if you provided it to Western Alliance.

**What We Are Doing.** In addition to the actions described above, Western Alliance has taken and will continue to take steps to reduce the risk of this type of incident occurring in the future, including enhancing our technical security measures. Although we are not aware of any instances of fraud or identity theft involving your information, we are offering a complimentary two-year membership of Experian IdentityWorks<sup>SM</sup> Credit 3B. This product helps detect possible misuse of your personal information and provides you with identity protection services focused on prompt identification and resolution of identity theft. IdentityWorks Credit 3B is completely free to you, and enrolling in this program will not hurt your credit score. **For more information on identity theft prevention and IdentityWorks Credit 3B, including instructions on how to activate your complimentary two-year membership, please see the additional information provided in this letter.**

You can also find more information on steps to protect yourself against possible identity theft or fraud in the enclosed *Additional Important Information* sheet.

The District of Columbia and Massachusetts law also allow consumers to place a security freeze on their credit reports. A security freeze can be placed without any charge. A security freeze prohibits a credit reporting agency from releasing any information from a consumer's credit report without written authorization. To place a security freeze on your credit report, you must send a written request to each of the three major consumer reporting agencies by regular, certified or overnight mail at the addresses below or, if available, comply with the consumer reporting agencies' online security freeze request procedures:
