

Unpaid Internship Position

Position Number: 2
Position Title: Ground Water Flooding Project Intern - DCR
Location: 10 Park Plaza - Remotely
Duration: September 22 – December 31, 2025

Brief Description of Internship Position:

The groundwater flooding project conducted statewide groundwater modeling, has multiple spatial products in raster and shapefile formats that require work before getting released to the public. In addition, the intern will have the opportunity to participate in staff meetings, join a field day with other staff and similar opportunities to be exposed to multiple programs across the office.

Description of Duties and Responsibilities:

The intern will produce secondary products from existing products such as change maps by comparing across scenarios. In addition, a viewer is needed with some basic functions so that the public may access these results and for advanced users to download the data. Finally, all products must be made accessible according to ADA Title II federal law that was published by the U.S. Department of Justice on April 24, 2024.

Preferred Knowledge and Skills:

Advanced GIS skills, Microsoft Word, familiarity with accessibility requirements for maps is a plus.

Hours per week: 10
