The Clean Vessel Act in Massachusetts

Funding for a number of the pumpout facilities and a portion
of this guide is provided through the Massachusetts Clean
Vessel Act (CVA) program. Administered by the Division of
Marine Fisheries, CVA has been underway since 1994.
Funding is provided through the U.S. Fish and Wildlife
Service's Sportfish Restoration Program. Since the CVA pro-
gram's inception, Massachusetts harbors have put more pump-
out boats in service than any other state.

Questions? If you have any questions about the CVA
program or CVA-funded facilities, please call Cecil French at
(978) 491-6215.

Massachusetts No Discharge Zone (NDZ)

Boat sewage can contain bacteria and viruses, nutrients,
and chemicals that can be harmful to water quality and pub-
lic health. NDZs are designated bodies of water where the
discharge of all boat sewage, whether treated or not, is prohib-
ited. All of Massachusetts coastal waters are a designated No
Discharge zone.
