NOTICE OF DATA BREACH

Dear [Customer Name],

We are writing to inform you of a data security incident involving one of our third-party service providers that may have involved some of your personal information. Protecting your information is important to us, and we want to provide you with information about the incident, steps we are taking in response, and steps you may take to guard against identity theft and fraud, should you feel it is appropriate to do so.

What Happened

On April 29, 2026, we were notified by FoxTrot, LLC, a third-party service provider that provides software solutions supporting our back-office operations, of a data security incident within their systems.

Upon receiving this notification, we promptly began working with the vendor to understand the nature and scope of the incident, assess the impact of our data, and confirm that appropriate steps were taken to contain and remediate the issue.

Based on the information provided to us, an unauthorized third-party gained access to certain data maintained by FoxTrot, LLC on April 22, 2026 approximately between 4:00 to 8:00 PM Pacific Time. The investigation remains ongoing.

What Information Was Involved

Our review determined that the information involved for you included your name, account number, and Social Security number.

The information involved varies by individual. This notice reflects the information involved for you based on our review.

At this time, we are not aware of any misuse of your information. We are providing this notice out of an abundance of caution and in accordance with applicable law.

What We Are Doing

We take this matter seriously. In response to this incident, we worked closely with the vendor to ensure the breach has been contained and is implementing additional controls and safeguards, including making changes to existing policies and procedures.

We are evaluating and making notifications to regulators and other authorities as required by applicable state and federal law.

To help protect your identity, we are offering complimentary access to Experian IdentityWorksSM, which provides credit monitoring services, for 24 months at no cost to you. Taking advantage of the fraud detection tools, as well as the credit monitoring offering available through Experian IdentityWorksSM requires you to enroll into the service. In addition, you have access to Identity Restoration for 24 months from the date of this letter and does not require any action on your part at this time. The Terms and Conditions for this offer are located at www.ExperianIDWorks.com/restoration. Please see Appendix for additional details, including regarding enrollment in IdentityWorksSM.

What You Can Do

We recommend that you closely review and monitor statements sent to you from your healthcare providers, insurance company, and financial institution for unauthorized or suspicious activity. Report any questionable charges promptly to the provider or company with which you maintain the account.

You may also obtain a free credit report by visiting AnnualCreditReport.com, or by calling 1-877-322-8228. You may also consider placing a fraud alert or security freeze on your credit file. A fraud alert tells creditors to contact you before opening new accounts in your name. A security freeze restricts access to your credit report, which can make it more difficult for identity thieves to open new accounts in your name without your authorization. Contact the nationwide consumer reporting agencies listed below for more information about these options.

For more information on how to identify and report identity theft, you may visit the Federal Trade Commission's (FTC) website (www.ftc.gov) or usa.gov. We encourage you to promptly report any suspected incident of identity theft to the FTC and other law enforcement agencies.

For More Information

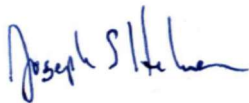

If you have questions or would like additional information, please contact us at (800) 456-1119 toll free, Monday through Friday from 6:00 AM – 5:00 PM Pacific (excluding major U.S. holidays) or email us at clientexperience@cald.com.
