

# CAUTION:

As of June 28, 2024, all Brownfields Tax Credit applications should be submitted on MassTaxConnect, the Department of Revenue's web-based application for filing and paying taxes. Please log in to your MassTaxConnect account to complete the application and upload documents. If you do not have an account, you can submit an application on MassTaxConnect by choosing Submit Credit Application under File on the homepage to complete the submission. As of September 1, 2024, only applications submitted on MassTaxConnect will be accepted.

# Form BCA Instructions

## Extension of Brownfields Tax Credit

The Brownfields Tax Credit, previously scheduled to expire on August 5, 2023, has been extended for five additional years. To qualify for a brownfields tax credit, a taxpayer must “commence and diligently pursue” the relevant environmental response action(s) on or before August 5, 2028, and incur net response and removal costs prior to January 1, 2029.

## What is the Brownfields Credit?

Non-profit organizations and taxpayers subject to tax under MGL chs 62 and 63 are allowed a credit for incurring eligible costs to remove oil or hazardous materials on property the taxpayer owns or leases for business purposes and which is located within an economically distressed area. See MGL ch 62, § 6(j) and MGL ch 63, § 38Q. In general, the amount of the credit will be either 25% or 50% of the “net response and removal costs” as that term is defined in M.G.L. c. 21E, § 2, depending upon whether an activity and use limitation has been imposed. The taxpayer must “commence and diligently pursue” the relevant environmental response action(s) on or before August 5, 2028 and incur net response and removal costs prior to January 1, 2029. See TIR 23-12 for more information.

## Who is Eligible for the Credit?

Only a non-profit organization or taxpayer that is an eligible person as defined in MGL ch 21E, § 2 and is not subject to any enforcement action pursuant to MGL ch 21E may receive a credit.

An eligible person is defined as an owner or operator of a site from which there has been a release of oil or hazardous material who did not cause or contribute to the release and did not own or operate the site at the time of the release.

## What Properties are Eligible for the Credit?

**Eligible property where all three conditions must be met:**

1. The property is owned or leased by the applicant for business purposes.
2. The property has been reported to the Department of Environmental Protection (DEP).
3. The property is located in an economically distressed area. A list of economically distressed areas is available from the DEP website.

## Limitations on the Credit

**There are limitations on the credit:**

- Fifty-percent limitation for MGL ch 62 taxpayers: the maximum amount of credit that may be taken may not exceed fifty percent (50%) of the tax liability for the taxable year;
- Fifty-percent limitation for business corporations: the maximum amount of credit that may be taken may not exceed fifty percent (50%) of the excise tax for the taxable year;
- Minimum excise limitation for business corporations: the credit may not be used to reduce the tax liability below the minimum excise which is currently \$456.

## Carryover of Credit

An unused credit may be carried over for up to five succeeding tax years. However, in no event may the taxpayer apply the credit in any taxable year in which it has ceased to maintain the remedy operation status or the permanent solution for which the credit was granted.

## Corporations Filing Combined Returns

Pursuant to MGL ch 63, § 32B, for tax years beginning on or after January 1, 2009, a credit that may be validly claimed by a taxable member of a combined group and that is attributable to the combined group's unitary business may be shared with the other taxable members of the combined group to the extent such sharing of the credit is consistent with the statutory requirement for claiming the credit, taking into account the nature of the business and activities of each of the taxable members that seek to share the credit.

## Financial Aid Received by All Taxpayers

Taxpayers may claim this credit even if they receive financial assistance from the Brownfields Development Fund or from the Redevelopment Access to Capital (RAC) Program. However, the amount of state funds received from either of these funds must be deducted from the expense base for which the credit is available.

With reference to RAC, the amount of state financial assistance is calculated as the amount of state funds paid on behalf of the borrower for participation in the program. If the taxpayer has borrowed funds subject to a state guarantee in order to finance the expenses of remediation, the amount of the loan is permitted to be included in the expense base for which the credit is available. However, if the borrower defaults on the loan and the guarantee is invoked, any credit taken for the amount of the loan will be recaptured as taxes due in the year the loan is paid.

## Eligible Costs

The Brownfields Act states that eligible costs are net response and removal costs paid by the taxpayer for the purpose of achieving a permanent solution or remedy operation status in compliance with MGL ch 21E. The costs must be equal or greater than 15% of the assessed value of the property prior to remediation. The Department in conjunction with DEP has determined that the following costs are eligible for consideration as net response and removal costs where such costs are a direct and necessary part of attaining a permanent solution or remedy operation status and where such costs have been incurred by the taxpayer while the taxpayer owned or leased the property:

- Any assessment, removal, or containment action as required under MGL ch 21E;
- Assessment activities performed prior to notification that identify an obligation to notify DEP;
- Preparation of phase reports, status reports, or other submittals required by the Massachusetts Contingency Plan (MCP) pursuant to 310 CMR 40.0000;
- Removal, assessment, containment, treatment, transport, storage, reuse, recycling and/or disposal of soil, groundwater, surface water or sediments that contain oil and/or hazardous materials;
- Development and implementation of assessment and remediation plans, including pilot testing and treatability tests;
- Geotechnical or environmental testing; Demolition or repair of buildings;
- Replacement or repair of blacktop or concrete;
- Hydrogeologic/aquifer tests;
- Provisions for the temporary and/or permanent replacement or treatment of potable drinking water supply contaminated by oil and/or hazardous materials;

- Installation of test borings, monitoring wells, recovery wells, and/or gaseous injection or extraction wells;
- Attorney fees for “compliance assistance” in the preparation of submittals documenting response actions required pursuant to the MCP;
- Permit fees, cost of paid police details and security details;
- Closure or removal of components of an Underground Storage Tank System pursuant to 527 CMR 9.07(H), 9.07(I), or 310 CMR 80.00 et. seq., as the case may be; and
- Rental of temporary storage tanks for the management of remediation wastes.

Costs that are not eligible for the Brownfields credit include the following:

- Retro-fitting, relining or replacing UST Systems;
- Loss of business revenue because of shutdown of business due to a release or the performance of response actions;
- Landscaping expenses including expenses related to the loss, replacement, or installation of trees, shrubs, or signs;
- All governmental, federal, state and local oversight fees;
- Compliance fees, punitive damages, civil or administrative penalties, and criminal fines;
- Interest payments or any finance charges;
- Small tools;
- Costs incurred prior to notification to the DEP of the release and the receipt of a DEP tracking number that are not otherwise eligible;
- Ordinary business expenses or capital improvements, including expenses that would have been incurred in the ordinary course of development of the property in the absence of contamination, oil and hazardous materials management, and replacement of tanks;
- Insurance costs associated with remediation;
- Costs attributable to the time and expense of an owner, operator, or principal;
- Any other costs that are not a direct and necessary part of attaining a permanent solution or remedy operation status and incurred by the taxpayer while the taxpayer owned or leased the property;
- Any costs for which the taxpayer received or anticipates reimbursement; and
- Any other costs not expressly listed as eligible.

### **Additional Requirements**

**Please upload the following supporting documentation to MassTaxConnect:**

- A copy of the Response Action Outcome Report/Remedy Operation Status Report/Permanent Solution Statement prepared by the Licensed Site Professional hired for this project;
- Documentation showing the assessed value of the property prior to remediation;
- The deed or lease agreement for the property;
- A description of the business purpose for which the property is owned or leased, i.e., the current business activity that is taking place on this site;
- Copies of all correspondence sent to and received from the DEP relating to the cleanup and outcome of this property.

The following requirement should be uploaded to MassTaxConnect.

**Note:** This must be in a standard database spreadsheet format:

- A complete list of all eligible costs. This list should include the invoice date, invoice number, vendor, eligible net response and removal costs and a brief description of the service(s) provided.

Questions or concerns relating to the Brownfields Credit Application should be directed to the Brownfields Unit at 617-887-6974.

PAPER SUBMISSIONS WILL NOT BE ACCEPTED. MASSTAXCONNECT ONLY.
