The SAP was formally established by the MA Legislature in 2021. Its purpose is to provide enhanced communications between the Commonwealth of Massachusetts and members of the shellfish community on matters of interest to shellfish resources and shellfish fisheries. It is chaired by the Director of the Division of Marine Fisheries and includes a diverse mix of stakeholders throughout the state, including state government officials, recreational and commercial harvesters, seafood dealers and processors, aquaculturists, researchers, conservationists, and municipal shellfish officials. The Panel meets two times annually to address critical shellfish related issues.
