DEPARTMENT OF PUBLIC UTILITIES

NOTICE OF FILING AND PUBLIC HEARING

D.P.U. 25-30

August 6, 2025

Petition of NSTAR Electric Company, d/b/a Eversource Energy, for approval by the Department of Public Utilities of the Company's Southwick-Granville Capital Investment Project proposal under the Provisional Program established by the Department in Provisional System Planning Program, D.P.U. 20-75-B (2021).

On June 30, 2025, NSTAR Electric Company, doing business as Eversource Energy ("NSTAR Electric" or "Company"), submitted to the Department of Public Utilities ("Department") for review and approval of a capital investment project ("CIP") proposal. The Department docketed this matter as D.P.U. 25-30.

In Provisional System Planning Program, D.P.U. 20-75-B (2021), the Department established a new framework for planning and funding upgrades to an electric distribution company's ("EDC") electric power system ("EPS") related to the interconnection of a distributed generation ("DG") facility, such as a solar facility ("Provisional Program"). The Department established a new cost allocation method under the Provisional Program where the costs of the EPS upgrade (the CIP) would be shared by the interconnecting DG facilities and all ratepayers of the EDC. The ratepayers will initially pay the costs of the CIP through a monthly charge on their electric bills, then each DG facility that is able to interconnect due to the upgrade to the EPS will pay a pro rata share of the costs of the CIP. Costs collected from those DG facilities will be returned to ratepayers through a credit on their electric bill through a reconciliation mechanism. The requirements for the Provisional Program, including cost allocation, are discussed in the Department's Order establishing the program, D.P.U. 20-75-B. The Provisional Program is intended to foster timely and cost-effective development and interconnection of DG facilities. Through our Order approving the EDCs' Electric Sector Modernization Plans, the Department extended the Provisional Program, allowing the EDCs to file any potential future proposed CIPs until the establishment of a Long-Term System Planning Process or as otherwise directed by the Department. Electric Sector Modernization Plans, D.P.U. 24-10/D.P.U. 24-11/D.P.U. 24-12, at 343 (2024).

Here, NSTAR Electric's CIP proposal is designed to make EPS modifications to allow DG facilities to interconnect in and around Southwick and Granville, Massachusetts. The CIP proposal includes one distribution line addition and multiple distribution line upgrades to existing distribution lines (overhead and underground conductors) on the Southwick 29A distribution system, and the addition of a new substation transformer and the associated distribution switchgear at the Southwick 29A substation. The EPS upgrades and impacted area are discussed in the Southwick-Granville Group Study as part of the Southwick-Granville Panel component of the Company's filing. NSTAR Electric projects the total distribution cost to complete the system modifications under its CIP proposal to be approximately \$42 million and that the CIPs will enable 42 megawatts ("MW") of DG. Of the total cost, NSTAR Electric proposes \$21.2 million (50.5 percent) be paid by DG facilities through a \$499/kilowatt ("kW") CIP fee and the remaining approximately \$20.8 million (49.5 percent) be paid by ratepayers. NSTAR Electric proposes a 20-year period for its recovery of the costs paid by ratepayers. If the Department approves the Southwick-Granville CIP there will be an increase to electricity rates in NSTAR Electric's service territory. The Company estimates that average monthly bill impacts would vary across rate classes for the proposed 20-year recovery period averaging close to 0.00 percent. During the first year, a typical residential customer using on average 530 kilowatt-hours ("kWh") per month would experience a monthly bill increase of \$0.05 or 0.0 percent.

The Department will conduct a virtual public hearing to receive comments on the Company's filing. The Department may conduct a procedural conference immediately following the public hearing. The Department will conduct the hearing using Zoom videoconferencing on **Wednesday, September 10, 2025, beginning at 3:00 p.m.** Attendees can join by entering the link, <https://us06web.zoom.us/j/85441402397>, from a computer, smartphone, or tablet.
