Ladies & Gentlemen:

Due to **Paralytic Shellfish Poisoning (PSP)** toxin (also known as “Red Tide”) in shellfish, the Division of Marine Fisheries is closing Salt Pond (shellfish growing area **OC6**) in the Town of Eastham to the harvest of all shellfish.

Therefore, under authority of Massachusetts General Laws, Chapter 130, Section 74A and 75, the status of the below-defined area will be changed to "**Closed to Shellfishing**" except for bay scallop harvest for the adductor muscle only, **effective immediately**. Digging, harvesting, or collecting and/or attempting to dig, harvest or collect shellfish and the possession of shellfish, including carnivorous snails, from the below-defined area is prohibited.

Under authority of 322 CMR 7.01(7) all permits issued thereunder are hereby conditioned to prohibit the taking, selling or possession of shellfish from the below-defined areas. This area will remain closed until further notice.

### **AREA CLOSED TO THE HARVEST OF ALL SHELLFISH** **Except for harvest of bay scallops for adductor muscle only**

#### **OC6** **Salt Pond**

“The waters, flats and all tributaries of Salt Pond in the Town of Eastham, westerly of a line drawn across the mouth of Salt Pond River.”

Sincerely,

A handwritten signature in black ink, reading "Daniel J. McKiernan". The signature is fluid and cursive, with a horizontal line extending from the end of the name.

Daniel J. McKiernan, Director  
MA Division of Marine Fisheries
