Ladies & Gentlemen:

Due to **Paralytic Shellfish Poisoning (PSP)** toxin (also known as “Red Tide”) in shellfish, the Division of Marine Fisheries is closing the entire below-defined Nauset Marsh System to the harvest of all shellfish.

Therefore, under authority of Massachusetts General Laws, Chapter 130, Section 74A and 75, the status of the below-defined areas will be changed to "**Closed to Shellfishing**" except for bay scallop harvest for the adductor muscle only, **effective immediately**. Digging, harvesting, or collecting and/or attempting to dig, harvest or collect shellfish and the possession of shellfish, including carnivorous snails, from the below-defined areas is prohibited.

Under authority of 322 CMR 7.01(7) all permits issued thereunder are hereby conditioned to prohibit the taking, selling or possession of shellfish from the below-defined areas. These areas will remain closed until further notice.

AREAS CLOSED TO THE HARVEST OF ALL SHELLFISH **Except for harvest of bay scallops for adductor muscle only**
