

3-12-2002

**VERIZON (formerly Bell Atlantic – fBA) APPROVED AND AUTHORIZED ENGINEERING AND INSTALLATION VENDORS**

The following tables contain Verizon (fBA) approved and authorized Vendors. The Vendors listed have met the requirements of Verizon's (fBA's) Network Engineering Standards, Q001106-00, Approval, Authorization, & Monitoring of E&I Suppliers.. An approved Vendor may provide services for Verizon (fBA) as listed in the following tables. Authorized Vendors may provide services for collocators but **Authorized Vendors shall not be used for Verizon (fBA) orders**. Refer to the "Service/Product" column for specific work clarifications. Any Approved Vendor may perform work for a collocator where allowed by the applicable FCC tariff and union.

**Section A: contains Verizon's approved Switch and Transport Vendors**

**Section B: contains Verizon's approved Power Vendors**

**Section C: contains Authorized Vendors for use by Collocators**

**Section A: Verizon (fBA) Approved Switch and Transport Vendors**

NOTES:                      A = Approved, not a Turf Vendor      RO = Removal Only                      T = Turf  
CA = Conditionally Approved                      SEO = Specific Equipment Only  
D = Developmental                      SW = Switch

| APPROVED VENDOR |                                                                                                                 | NOTES | SERVICE/PRODUCT                                                                  | CONTACTS                                |                                                                                                                                                                                                                                                                                                                                                                                                                     |
