AUTHORITY

NON-TEXT PAGE

PURPOSE AND SCOPE**2.1 PURPOSE**

521 CMR is designed to make *public buildings* and facilities *accessible* to, functional for, and safe for use by *persons with disabilities*.

2.2 INTENT

It is the intent of 521 CMR to provide *persons with disabilities* full, free and safe use of all *buildings* and facilities so that all such persons may have the educational, living and recreational opportunities necessary to be as self-sufficient as possible and to assume full responsibilities as citizens.

2.3 VIOLATIONS

521 CMR is deemed to be a specialized code as referred to in M.G.L. c. 143, § 96, the violation of which shall constitute gross negligence for the purpose of M.G.L. c. 112, § 60G, clause (d), and shall be subject to the additional powers granted to the *Board* by M.G.L. c. 22, § 13A.

2.3.1 The *Board* shall receive complaints of non-compliance with any rule or regulation from any person or may receive complaints initiated by its own staff. If the *Board* finds, after notice and opportunity for a hearing, that any person is not in compliance with any rule or regulation, it may issue an order to compel such compliance. Such order may specify the date and the manner by which such person shall cure the noncompliance found by the Board and may require that pending the cure of such noncompliance a performance bond be furnished, payable to the Commonwealth, in such penal sum as the *Board* finds reasonable.

2.3.2 In the event that a person fails to cure such noncompliance by the date specified in the *Board's* order, the *Board* shall be empowered, after further hearing, to impose a fine payable to the Commonwealth not to exceed \$1,000 per day per violation for each day of noncompliance that the *Board* finds was without justification.

2.3.3 The *Board* shall also have the power, if it determines that such failure to cure noncompliance is without justification, to bring a complaint before any appropriate licensing or permit granting authority against the license or permit of such person.

2.3.4 The *Board* shall have the authority to issue subpoenas.

2.4 GENERAL CONVENTIONS

The following conventions apply when using 521 CMR:

2.4.1 Graphic and other illustrations are provided in 521 CMR to illustrate a solution only. They are not to be taken as the best solution or the only solution, but are provided to clarify the intent of the written regulations. The written word always prevails.

2.4.2 Graphic conventions are shown in Figure 2a. Dimensions that are not marked minimum or maximum shall comply with 521 CMR 2.4.4, unless otherwise noted in the text or captions.

Graphic Conventions
Fig. 2a

PURPOSE AND SCOPE

2.4.3 Words italicized in the text indicate that a definition of that word is provided in 521 CMR 5, DEFINITIONS.

2.4.4 Tolerances on all dimensions, unless otherwise noted, shall not exceed the following:

- a. Dimensions between zero and two inches, (0" and 2" = 0mm and 51mm) inclusive, shall have a maximum tolerance of plus or minus one-eighth inch ($\frac{1}{8}$ " = 3mm).
- b. Dimensions more than two inches and less than 36 inches ($>2"$ and $<36"$ = >51 mm and <914 mm) shall have a maximum tolerance of plus or minus one-half inch ($\frac{1}{2}$ " = 13mm).
- c. Dimensions 36 inches or greater (36" or ≥ 914 mm or $>$) shall have a maximum tolerance of plus or minus one inch (1" = 25mm).

2.4.5 When a percentage is calculated to determine the number of *accessible elements*, if the number ends in a fraction of five-tenths (.5) or more, the number shall be rounded up to the next whole number. If the number ends in a fraction less than five-tenths (.5), the number shall be rounded down.

2.4.6 When calculating the conversion from inches to millimeters (using 1"=25.4mm), if the number ends in a fraction of five-tenths (.5) or more, the number shall be rounded up to the next whole number. If the number ends in a fraction less than five-tenths (.5), the number shall be rounded down.

2.5 REASONABLE MODIFICATIONS

Reasonable modifications to public use and common use spaces in a multiple dwelling must comply with 521 CMR. Reasonable modifications to an individual unit do not need to comply with 521 CMR.

2.5.1 Departures from particular technical and scoping requirements of 521 CMR by the use of other designs and technologies are permitted without a variance, where the alternative designs and technologies used will provide substantially equivalent or greater access and usability of the facility.

2.6 MAINTENANCE OF ACCESS FEATURES

At all times, accessibility features must be maintained and fully operational. (i.e. access aisles kept clear at all times, mechanical devices be kept in operating condition, etc).

3.1 SCOPE

All work performed on *public buildings* (see definition), including *construction, reconstruction, alterations, remodeling, additions, and changes of use* shall conform to 521 CMR.

- 3.1.1 To determine the scope of compliance, refer to 521 CMR 3.2, *New Construction* and 521 CMR 3.3, *Existing Buildings*. In the absence of jurisdiction by 521 CMR, 780 CMR: the State Building Code may apply.

3.2 NEW CONSTRUCTION

All new construction of *public buildings* shall comply fully with 521 CMR.

3.3 EXISTING BUILDINGS

All *additions to, reconstruction, remodeling, and alterations or repairs* of existing *public buildings*, which require a building permit or which are so defined by a state or local inspector, shall be governed by all applicable subsections in 521 CMR 3, JURISDICTION.

For specific applicability of 521 CMR to existing multiple dwellings undergoing renovations, see 521 CMR 9.2.1.

- 3.3.1 If the work being performed amounts to less than 30% of the *full and fair cash value* of the building and

- a. if the work costs less than \$100,000, then only the work being performed is required to comply with 521 CMR

or

- b. if the work costs \$100,000 or more, then the work being performed is required to comply with 521 CMR. In addition, an *accessible public entrance* and an *accessible toilet room, telephone, drinking fountain* (if toilets, telephones and drinking fountains are provided) shall also be provided in compliance with 521 CMR.

Exception: General maintenance and on-going upkeep of existing, underground transit facilities will not trigger the requirement for an accessible entrance and toilet unless the cost of the work exceeds \$500,000 or unless work is being performed on the entrance or toilet.

- 3.3.2 If the work performed amounts to 30% or more of the *full and fair cash value* of the building the entire building is required to comply with 521 CMR.

- a. Where the cost of constructing an *addition* to a building amounts to 30% or more of the *full and fair cash value* of the existing building, both the *addition* and the existing building must be fully accessible.

Exceptions: Whether performed alone or in combination with each other, the following types of *alterations* are not subject to 521 CMR 3.3.1 and 3.3.2. (When performing exempted work, a memo stating the exempted work and its costs must be filed with the permit application or a separate building permit must be obtained.)

- a. Curb Cuts: The construction of *curb cuts* shall comply with 521 CMR 21.
- b. Repairs: *Ordinary repairs* as defined in 780 CMR, the State Building Code.
- c. Alteration work which is limited solely to electrical mechanical, or plumbing systems; to abatement of hazardous materials; to retrofit of automatic sprinklers and does not involve the *alteration* of any *elements* or *spaces* required to be *accessible* under 521 CMR. Where electrical outlets and controls are altered, they must comply with 521 CMR.
- d. Roof repair or replacement, window repair or replacement, repointing and masonry repair work.

JURISDICTION

- e. Work relating to septic system repairs, (including Title V, 310 CMR 15.00, improvements) site utilities and landscaping.
 - 3.3.3 Tenant vs. owner of *building*. Alterations by a tenant do not trigger the requirements of 521 CMR 3.3.1.b. and 3.3.2 for the owner. Although tenants are not required to make changes in areas not under their control, any work that tenants perform or cause to be performed must comply with 521 CMR.
 - 3.3.4 No alteration shall be undertaken which decreases or has the effect of decreasing accessibility or usability of a *building* or *facility* below the requirements for new *construction*.
 - 3.3.5 If alterations of single *elements*, when considered together, amount to an alteration of a room or *space* in a *building* or *facility*, that *space* shall be made *accessible*.
 - 3.3.6 No alteration of an existing *element*, *space*, or area of a *building* or *facility* shall impose a requirement for greater accessibility than that which would be required for new *construction*.
-
- 3.4 **CHANGE IN USE**
When the use of a building changes from a private use to one that is open to and used by the public, an accessible entrance must be provided, even if no work is being performed.
- 3.4.1 RESERVED FOR FUTURE ACTION: Changes in use, from private to public, in private residential homes where no work is being performed.
-
- 3.5 **WORK PERFORMED OVER TIME**
When the work performed on a *building* is divided into separate phases or projects or is under separate *building* permits, the total cost of such work in any 36 month period shall be added together in applying 521 CMR 3.3, Existing Buildings.
-
- 3.6 **MULTIPLE USES**
When a *building* is occupied by two or more uses, the Regulations which apply to each use shall apply to such parts of the *building* within that use.
- 3.6.1 521 CMR 3.3, Existing Buildings shall apply based upon each *use* and not on the entire *building*.
- Example: If a three story *building* valued at \$300,000 has one floor of retail *use* and two floors of residential *use*, the *full and fair cash value* of the retail portion shall be 1/3 of the total value which would be \$100,000.
-
- 3.7 **PARTIAL APPLICATION**
When only a portion of a *building* is subject to 521 CMR, the *full and fair cash value* shall be prorated by the ratio of the square footage of that portion to the square footage of the whole *building*.
- Example: Where the whole *building* is 100,000 square feet, the *full and fair cash value* is \$1,000,000, and the part subject to 521 CMR is 10,000 square feet (one-tenth of the total), then the *full and fair cash value* of the part subject to 521 CMR would be one-tenth of \$1,000,000 or \$100,000.
- 3.7.1 If the *Board* determines that such proration would cause an inequitable result, the *Board* may otherwise calculate the *full and fair cash value* of the portion of the *building*.

3.8 OUTDOOR FACILITIES

For facilities where the *primary function areas* are outdoors, including but not limited to beaches, parks, picnic areas, playgrounds, and campsites, the *full and fair cash value* shall include the value of the land as well as any *buildings or facilities* on the land.

3.9 HISTORIC BUILDINGS

An historic *building or facility* that is listed or is eligible for listing in the National or State Register of Historic Places or is designated as historic under appropriate state or local laws may be granted a *variance* by the *Board* to allow alternate accessibility. If a variance is requested on the basis of historical significance, then consultation with the Massachusetts Historical Commission is required in order to determine whether a building or facility is eligible for listing or listed in the National or State Register of Historic Places. The Massachusetts Historical Commission may request a copy of the proposed variance request and supporting documentation to substantiate the variance request and its effect on historic resources. A written statement from the Massachusetts Historical Commission is required with the application for variance.

3.10 TEMPORARY STRUCTURES

Temporary *buildings or facilities*, including but not limited to reviewing stands, temporary classrooms, bleacher areas, exhibit areas, temporary banking facilities, temporary health screening services, or temporary pedestrian passageways around a *construction site*, shall comply with 521 CMR. Structures, *sites* and equipment directly associated with the actual processes of *construction*, such as scaffolding, bridging, materials hoists, or *construction* trailers, need not apply.

3.11 SECURITY STRUCTURES

Accessibility is not required to observation galleries used primarily for security purposes.

3.12 NON-OCCUPIABLE SPACES

Spaces accessed only by ladders, catwalks, crawl spaces, or freight (non-passenger) elevators, and frequented only by service personnel for repair purposes, are exempt. Such spaces may include, but are not limited to, elevator pits, elevator penthouses, piping or equipment catwalks.

JURISDICTION

NON-TEXT PAGE

1. The Architectural Access Board is a public body created by the Massachusetts General Laws, Chapter 271B, Section 1. The Board is composed of seven members, five of whom are appointed by the Governor and two by the Legislature. The Board's primary responsibility is to ensure that the Commonwealth's architectural and building codes are accessible to people with disabilities. To this end, the Board has developed and adopted various regulations, including those that require the use of accessible design standards in new construction and the renovation of existing buildings. The Board also provides technical assistance and guidance to building owners and designers to help them understand and comply with these standards. Furthermore, the Board has established a process for reviewing and approving accessible design alternatives for buildings that are unable to meet the minimum requirements of the standards. This process allows for flexibility in the application of the standards while ensuring that the fundamental principles of accessibility are maintained. The Board's work is ongoing, and it continues to monitor the effectiveness of its regulations and to make any necessary updates to ensure that the Commonwealth's buildings are truly accessible to all people.

2. The Board's jurisdiction extends to all buildings and structures within the Commonwealth that are subject to the State Building Code. This includes new construction, as well as the renovation and alteration of existing buildings. The Board's authority is derived from the Massachusetts General Laws, Chapter 271B, Section 1, which grants the Board the power to "make and amend rules and regulations for the enforcement of the provisions of the State Building Code relating to the accessibility of buildings and structures." The Board's regulations are designed to ensure that buildings and structures are accessible to people with disabilities, and that the design and construction of these buildings and structures take into account the needs of people with disabilities. The Board's jurisdiction also extends to the review and approval of accessible design alternatives for buildings that are unable to meet the minimum requirements of the standards. This process allows for flexibility in the application of the standards while ensuring that the fundamental principles of accessibility are maintained.

3. The Board's jurisdiction is limited to the Commonwealth of Massachusetts. The Board does not have authority over buildings or structures located in other states or countries. However, the Board's regulations and standards are often referenced by other jurisdictions as a model for accessible design. The Board's work is also closely coordinated with the work of the United States Access Board, which is the federal agency responsible for developing and promoting accessible design standards for the United States. The Board's regulations and standards are designed to be consistent with the standards developed by the United States Access Board, and the Board often participates in the development of these standards. The Board's jurisdiction is also limited to the physical design and construction of buildings and structures. The Board does not have authority over the operation or maintenance of buildings and structures, or over the accessibility of public services and programs. The Board's focus is on ensuring that the physical environment is accessible to people with disabilities, and that the design and construction of buildings and structures take into account the needs of people with disabilities.

4.1 VARIANCES

Application: An owner or an owner's representative or tenant who thinks that full compliance with 521 CMR is *impracticable* may apply to the *Board* for a *variance* from 521 CMR. Application for a *variance* shall be made on a form provided by the *Board* for this purpose, shall contain such information as is required by the *Board*, and shall be signed by the applicant.

4.1.1 *Board* Action: Upon receipt of an application for *variance*, the *Board* shall send a copy of the application to the local building inspector, the local disability commission and the independent living center for their input. The *Board* shall also investigate the matter and may:

- a. grant the application with whatever conditions it deems appropriate or deny the application without a hearing. Any person aggrieved by the Board's action under 521 CMR may request an adjudicatory hearing within 30 days of the decision;
- b. schedule a conference to consider the simplification or clarification of the issues and/or the possibility of an agreement disposing of all or any matters as may aid in the disposition of an adjudicatory proceeding. Those matters agreed upon by the parties shall be electronically recorded and/or reduced to writing and shall be signed by the parties, and shall thereafter constitute a part of the record;

- a. issue a stipulated order indicating the date compliance must be achieved.
- b. schedule a conference to consider the simplification or clarification of the issues, the possibility of obtaining stipulations and agreements, the possibility of an agreement disposing of all or any of the issues in dispute, and any other matters as may aid in the disposition of an adjudicatory proceeding. Those matters agreed upon by the parties shall be electronically recorded and/or included in a written document and shall be signed by the parties, and shall thereafter constitute a part of the record.
- c. commence an adjudicatory hearing in accordance with the provisions of M.G.L. c. 30A and 801 CMR 1.01 or 1.02, Standard Adjudicatory Rules of Practice and Procedure, as stated in the hearing notice.

4.3 HEARINGS

All adjudicatory hearings shall be conducted in accordance with the provisions of M.G.L. c. 30A and 801 CMR 1.01 or 1.02: Standard Adjudicatory Rules of Practice and Procedure, as stated in the hearing notice.

4.3.1 Hearings will be scheduled within 60 days of the receipt of a request for an adjudicatory hearing unless the *Board* in its discretion extends such time for good cause shown. The *Board* will schedule hearings on two weeks notice unless it deems a shorter period necessary.

4.3.2 In proceedings under 801 CMR 1.02, the *Board* may provide for mandatory discovery.

APPEAL AND VARIANCE

4.3.3 The *Board* will issue a decision within 21 days of the hearing unless the *Board* in its discretion extends such time.

4.3.4 When the *Board* deems it necessary and subject to appropriation, the services of an independent expert may be sought.

4.4 REOPENING HEARING, MOTION FOR RECONSIDERATION

The *Board* on its own motion, or on motion of any applicant, complainant or aggrieved person, may reopen the hearing in order to receive additional evidence which was not reasonably available at the time of the hearing. The request for reopening shall summarize such evidence to be presented.

4.4.1 The *Board* shall notify all persons who testified at or received formal notice of an initial hearing of a decision to reopen a hearing to take further testimony or receive further evidence.

4.4.2 Within ten days from the date the *final decision* is received by the applicant or complainant, an applicant, complainant, or aggrieved person may file a motion for reconsideration, setting forth the grounds or statutory provisions relied upon to sustain the motion.

4.5 APPEALS

Any party aggrieved by the *final decision* of the *Board* may appeal such decision to State Superior Court in accordance with the provisions of M.G.L. c. 30A, § 14.

4.6 ADVISORY OPINIONS

Upon the written request, the *Board* may issue advisory opinions concerning the interpretation or applicability of 521 CMR. Advisory opinions issued by the *Board* may be relied upon by the persons requesting them, as well as by any agency, or official of a city, town, or region.

4.7 PETITION FOR THE ADOPTION OF REGULATIONS

Petition: Any interested person or such person's attorney may at any time petition the *Board* to adopt, amend or repeal any regulation. The petition shall be addressed to the *Board* and sent by mail or delivered in person during normal business hours. All petitions shall be signed by the petitioner or the petitioner's attorney, contain the petitioner's address or the address of the petitioner's attorney, and set forth clearly and concisely the text of the proposed regulation. The petition may be accompanied by any supporting data, views or arguments. A member of the *Board* may make a written recommendation that a regulation be adopted, amended or repealed.

4.7.1 Initial Procedure: Within 60 days of the receipt of a petition or recommendation, the *Board* shall hold a meeting to determine whether or not to schedule the petition or recommendation for further proceedings in accordance with M.G.L. c. 30A. If the regulation has been presented by petition, the *Board* shall notify the petitioner within ten days after making such a determination.

4.7.2 Procedure for the Adoption, Amendment or Repeal of Regulations:

- a. The procedures for the adoption, amendment or repeal of any regulation shall comply with M.G.L. c. 30A.
- b. Where no public hearing is required, the *Board* may afford any interested person or his duly authorized representative, or both, an opportunity to present data, views or arguments orally before the *Board* during the meeting at which the proposed action is to be considered. If the *Board* finds that such oral presentation is unnecessary or impracticable, it may require written presentation.
- c. Where a public hearing is required, the *Board* shall afford any interested person or his duly authorized representative, or both, an opportunity to present statements and arguments orally. In its discretion, the *Board* may limit the length of oral presentation.

- 4.7.3 Filing of Regulations: Upon the adoption of a regulation, an attested copy shall be filed with the Secretary of the Commonwealth together with a citation of the statutory authority under which the regulation has been promulgated. The regulation shall take effect upon filing unless a later date is required by law or is specified by the *Board* in the Regulation.

21.8 RETURNED SIDES

Curb cuts with returned sides are only permitted where they are protected by handrails pursuant to 521 CMR 24.5, *Handrails* or where pedestrian travel across the *ramp* is obstructed by permanently installed street hardware or landscaping. See Fig. 21d.

**21.9 BUILT-UP CURB CUTS**
