

Hate Crime in Massachusetts 2013

Massachusetts State Police
Commonwealth Fusion Center
Crime Reporting Unit
September 2014

Massachusetts Hate Crimes, 2013

Executive Summary

Bias Motivation

Bias crimes entail a variety of different criminal offenses, ranging from violent crimes to harassment to vandalism. Of the 491 criminal offenses reported in 2013, the most frequent offense was harassment (33.0%, up from 28.9% in 2012). Acts of vandalism were second (19.1%, down from 19.6% the previous year). General civil rights violations were third (18.9%, down from 26.1% the year before). There were 18 aggravated assaults reported in 2013, down from 44 reported in 2012. (See Table 1)

In 2013 prejudice against race/ethnicity or national origin was the most widely reported bias motivation, representing 49.8% of the total (down from 50.5% the year before). Bias against sexual orientation is the second most frequent bias motivation, with 27.3% of the total (down from 31.9% in 2012). Religious bias was third with 19.1% (up from 15.9% the year before). (See Table 2)

Victims and Offenders

As in previous years, males were the most frequent victims (60.3%, down from 70.1% in 2012) and offenders (70.1%, down from 80.4% in 2012) of hate crimes. Females were victims in 39.7% of incidents (up from 29.9% in 2012). Females as a percentage of offenders were 29.9% (up from 19.6% in 2012). (For a breakdown of victims and offenders by gender, please refer to Tables 15 and 17.) Whites were also the most frequent racial category as victims (51.4%, up from 48.9% in 2012), and also as offenders (62.7%, down from 69.1% the previous year). Black victims of both genders composed 38.0% of the total victim population, up from 29.9% the previous year. Black offenders comprised 30.0% of offenders, up from 21.3% the previous year. (See Table 3)

Victims were reported to have some type of injury in 21.8% of cases, up from 21.2% of cases in 2012. (See Table 18)

Location

Bias incidents reported by police in Massachusetts occur in a variety of locations, both public and private. In 2013, 35.8% of incidents occurred in a residence, up from 29.6% in 2012. An additional 16.5% occurred on a highway or street, down from 24.1% in 2012. The third most frequent location

were schools and colleges at 11.3%, up from 8.1% in 2012, while another 8.7 % of incidents occurred at unknown locations, up from 7.8% in 2012. (See Table 12)

Targets

Individuals and private property were primarily the targets for bias crimes in the Commonwealth, with 85.3% of the reports, down from 87.5% the previous year. Businesses were the second most-frequent target in 2013 with 5.2% of the reports, up from 2.9% the year before. Police cited “Government” and “Other” targets, comprising 3.2% of the incidents each, tied for the third most frequently targeted location. (See Table 11)

Hate Crimes Historical Perspective

Over the past 14 years, the numbers and the categories of bias motivations has remained fairly consistent. Between 2000 and 2002, approximately 500 bias motivations were reported each year. From 2003 through 2013, the number has declined to an average of about 350 bias motivations per year. Over this time period, the most frequently reported bias motivations have remained similar: anti-Black bias has consistently been most frequent (roughly 30% of the total), followed by anti-gay (19%), anti-Semitic (14%) and anti-White (10%). (See Table 19) Note: all percentages are rounded.

Notes on Data

The 2013 Hate Crime report for Massachusetts was compiled using data voluntarily supplied from police departments across the Commonwealth. The Commonwealth Fusion Center’s Crime Reporting Unit received a total of 346 reports of incidents of hate crime (up from 345 in 2012) from 68 municipal police departments and 9 campus police agencies. An additional 263 municipal police departments, 27 campus police agencies, the Environmental Police, and a specialized agency reported zero hate crimes during 2013. The 346 incidents encompassed 356 bias types and 491 criminal charges (up from 353 bias types in 2012, an increase of 0.8%; and down from 551 criminal charges in 2012, a decrease of 10.9%). After receipt and state data quality check, the CRU submits all Massachusetts hate crime data to the FBI for further analysis and inclusion in their annual *Hate Crime Statistics* publication.

Hate crimes are reported as ‘incidents.’ A bias incident may have multiple victims, offenders, offenses, and bias motivations. In addition, some reports are submitted with missing data. As a result of these issues, the totals in the following tables may not be the same.

Definitions

<i>Hate Crime</i>	Any criminal act to which a bias motive is evident as a contributing factor. The Reporting Act covers bias on account of race, religion, ethnicity, handicap, gender, or sexual orientation. Hate crimes can be reported only by law enforcement agencies.
<i>Zero Report</i>	An official report by a police department stating no hate crimes were reported to the department during the reporting period.
<i>Non-reporting agencies</i>	Local police departments, and other law enforcement agencies, which are not in compliance with the provisions of the Reporting Act. These agencies failed to indicate how many, if any, bias crimes occurred in their jurisdiction.
<i>Reporting agencies</i>	Local police departments, as well as other law enforcement agencies, who have voluntarily reported the incidence of identified bias crimes in their jurisdiction. Agencies can comply with the Reporting Act by reporting the number of bias crimes, even if zero. Participating agencies which reported zero hate crimes for 2012 are listed separately.

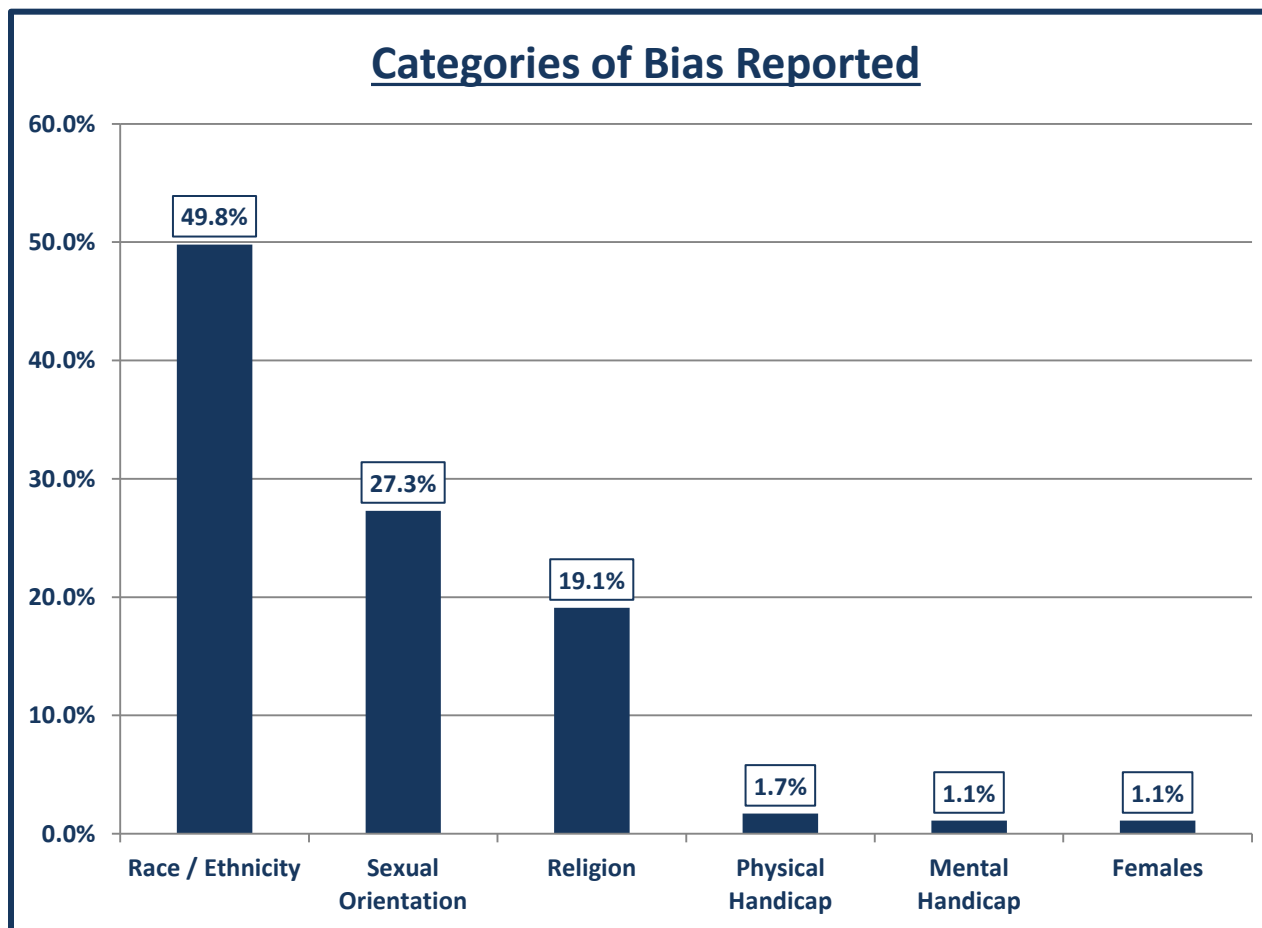

Reports by Law Enforcement Agencies

Hate crimes were reported by 67 local police departments and 11 campus police agencies. The local police departments reporting represent a total population of 3,270,747. A total of 346 hate crime reports were filed by these agencies, which included 491 criminal offenses and 356 reported bias motivations. An additional 227 municipal police departments, 24 campus police agencies, and the Environmental Police submitted Zero Reports for 2013. These municipalities represented a total population of 3,080,741. Fifty-seven municipal agencies and 34 campus police departments did not participate in the hate crime reporting program. These agencies had a total population of 196,141.

In the statistics that follow, it should be noted that a single incident report may include multiple offenses, bias motivations, victims or offenders. As a result, totals in some categories may exceed the number of reports. Similarly, some reports omit information in certain categories, resulting in totals lower than the number of incident reports collected.

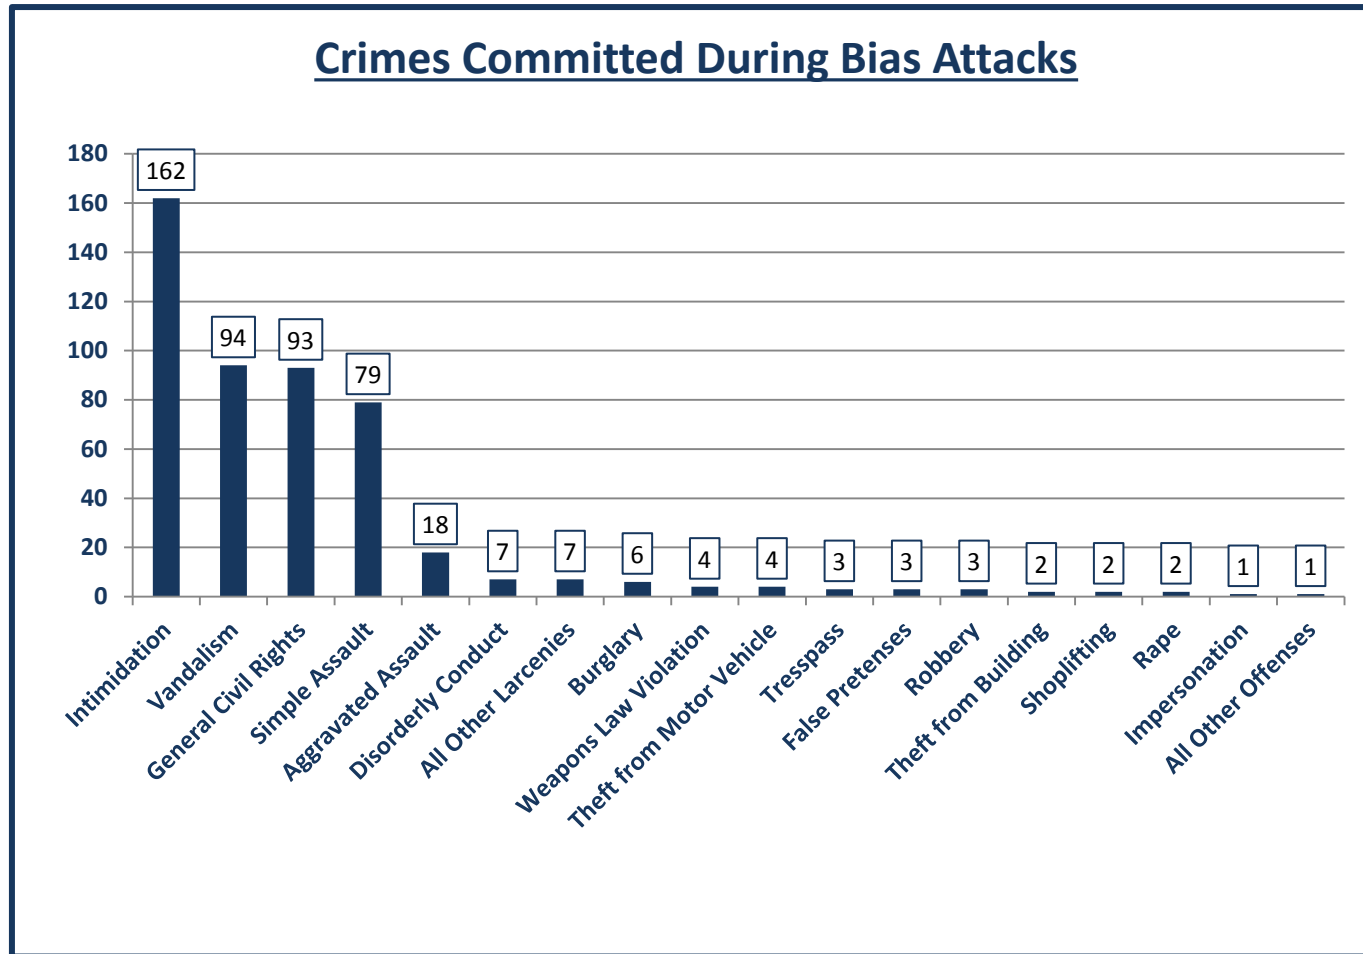

Categories of Bias Reported

Bias motivations break down as follows: of the 356 bias motivations for particular incidents reported, race/ethnicity/national origin bias constituted the largest category of reported motives, with 49.8% of the total (down from 50.5% in 2012). Offenses motivated by sexual orientation bias were the second most frequent category, with 27.3% of the total (down from 31.9% in 2012). Offenses related to religious affiliation were the third most prevalent, with 19.1% (up from 15.9% in 2012), while anti-physical handicap offenses were 1.7% of the total (0.6% were reported in 2012); mental handicap was 1.1% of the total (up from 0.8% in 2012), and against females were also 1.1% of the total (not reported from 2012).

Categories of Crimes Reported

Of the 491 total crimes reported, Harassment Threats were the most frequently reported offense, representing 33.0% of the total (up from 28.9% in 2012). Vandalism was the second most frequently reported offense, with 19.1% (down from 19.6% in 2012). General Civil Rights were the third most frequently reported offense, representing 18.9% (down from 28.1% in 2012). Other frequently reported offenses were Simple Assault (16.1%, up from 12.0% in 2012) and Aggravated Assault (3.7%, down from 8.0% in 2012).

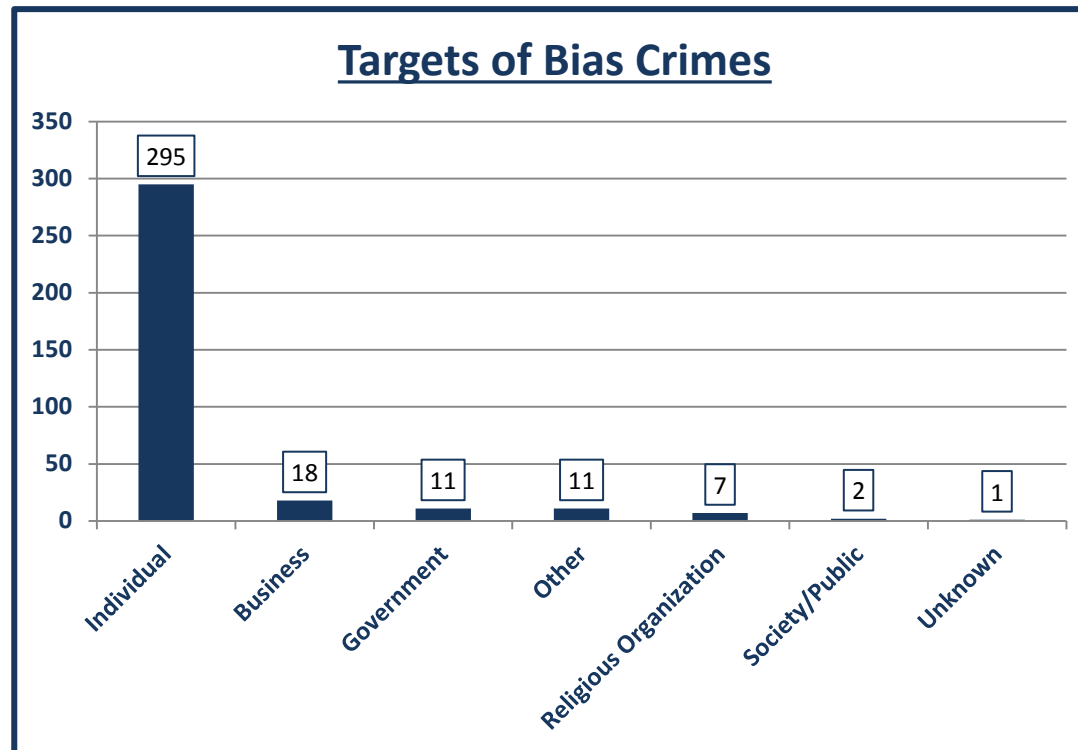

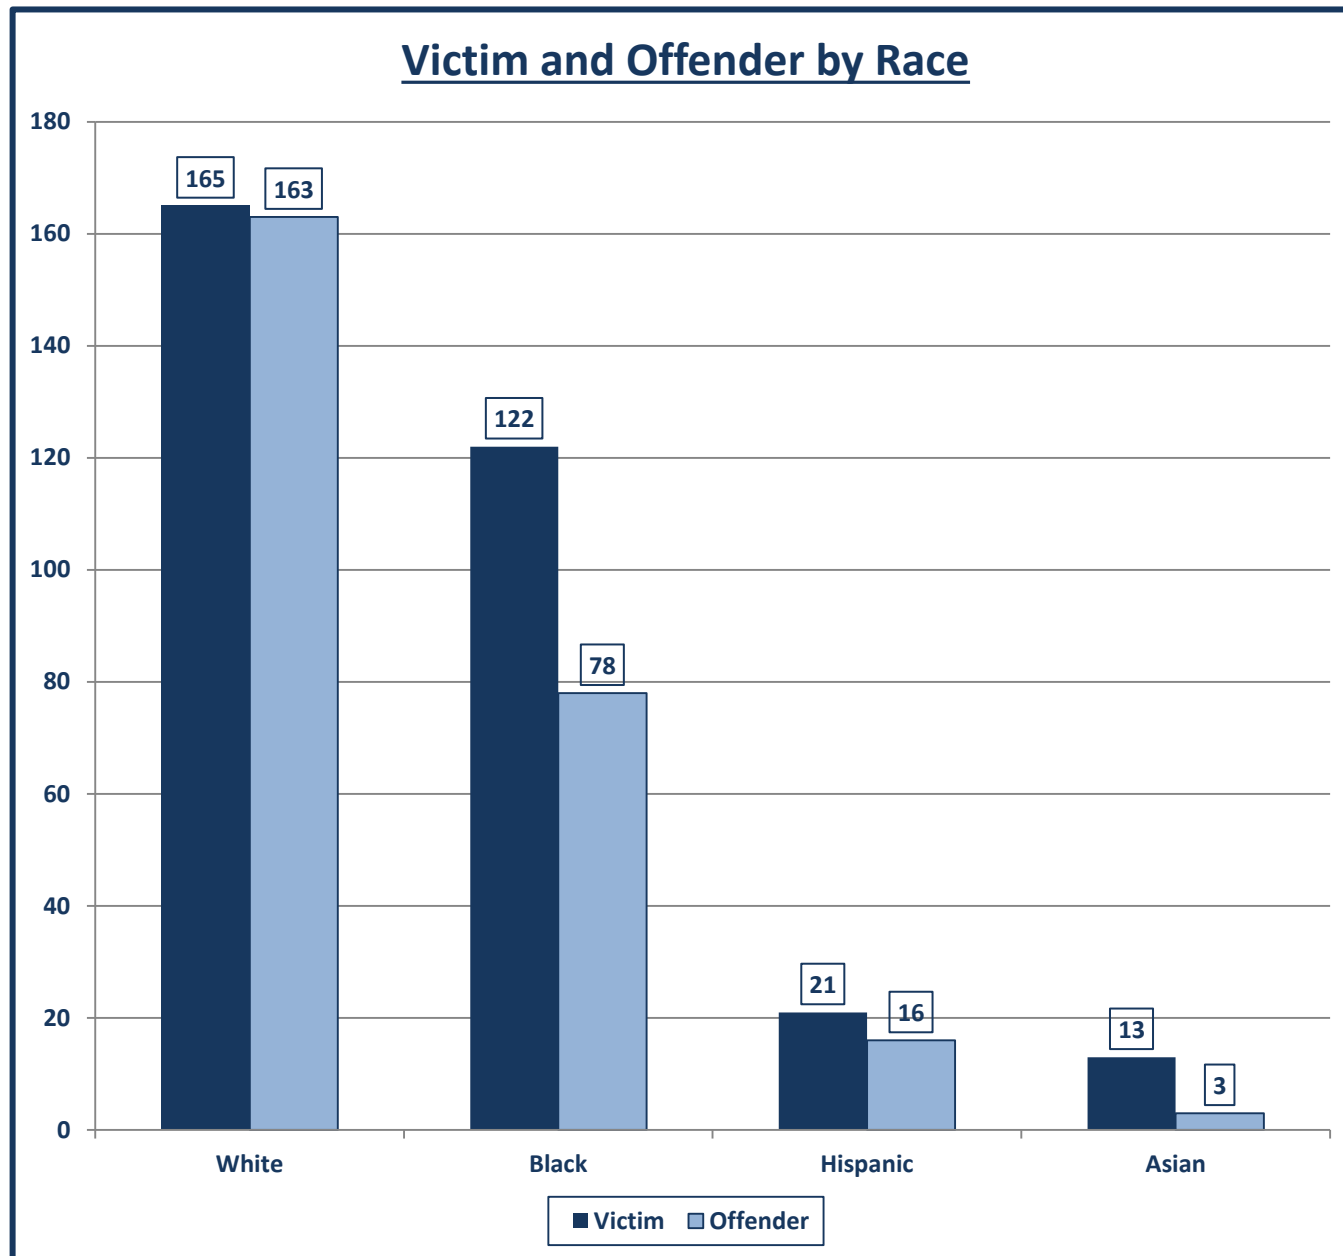

Victim and Offender Profile

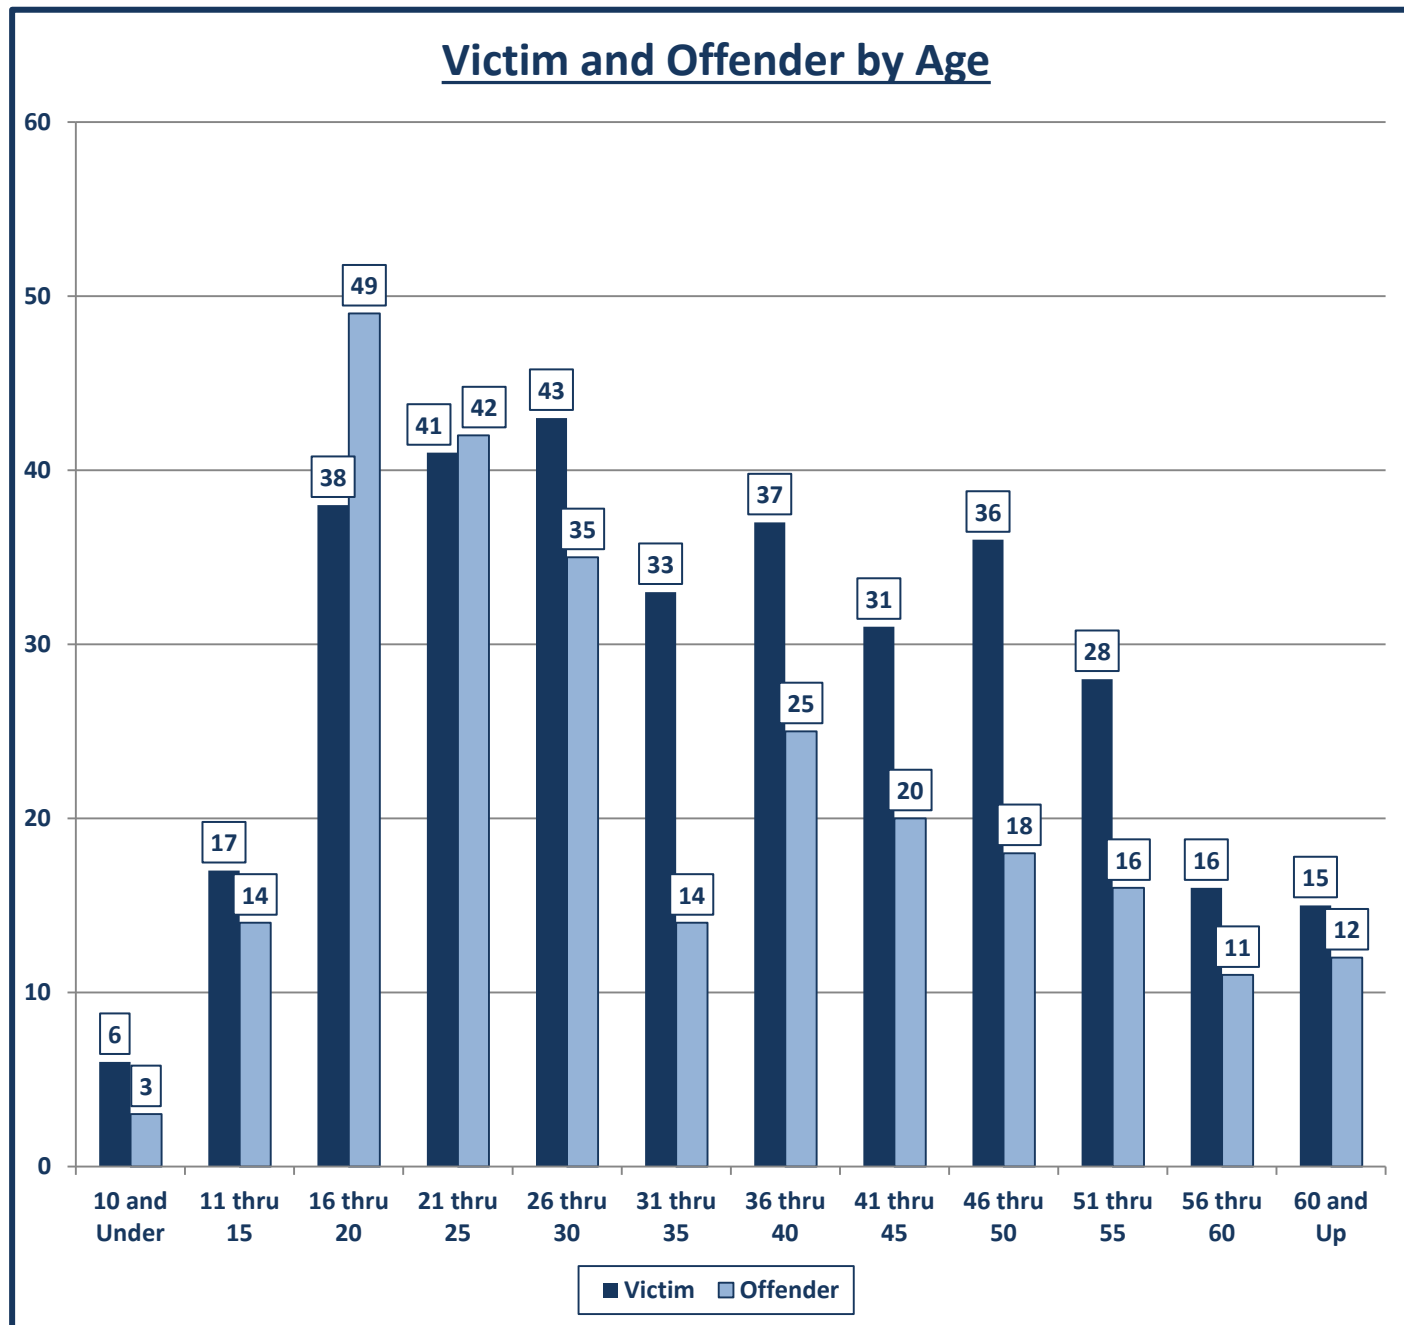

Of the cases with valid information, a “Person” (including private property) was the target in 85.3% of cases (down from 87.5% in 2012). “Businesses” were second, with 5.2% (up from 2.9% in 2012). “Government” and “Other” targets were tied as the third most frequently targeted group, each with 3.2% of the incidents (up from 4.3% and 1.2% in 2012, respectively). “Religious Institutions” were fourth with 2.0% (up from 1.2% the previous year), and “Society/Public” were the fifth most frequently targeted group with 0.6% of the incidents (down from 1.4% the previous year).

In the 321 incidents where the victim’s race was reported, whites were victims 51.4% of the time (up from 48.9% in 2012), while blacks were victims in 38.0% of cases (up from 29.9% in 2012). The victims were male in 60.3% of cases (down from 70.1% in 2012). As in 2012, in the cases where the victim(s)’s age group was identified, the most frequently reported age group was 26-30 years of age.

The perpetrator(s) of hate crimes were white in 62.7% of cases (down from 69.1% in 2012), and black in 30.0% of cases (up from 21.3% in 2012), in the 260 cases where this information was identified. The perpetrator was male in 70.1% of cases (down from 80.4% in 2012), and of the cases where the offender(s)’s age group was identified, the most frequently reported age group was 16-20 years of age, the same as the previous year.

Characteristics of the Incidents

The majority of hate crime incidents in 2013 occurred in residences (35.8%, up from 29.6% in 2012); followed by highways or streets (16.5%, down from 24.1% in 2012). Other locations where incidents occurred, in descending order, were schools/colleges (11.3%, up from 8.1% in 2012); other/unknown locations (8.7%, up from 7.8% in 2012); parking lots/garages (5.2%, down from 6.1% in 2012); commercial office buildings (3.5%, down from 4.9% in 2012); restaurants (3.2%); churches (2.6%) and the locations field/woods (2.3%). (See Table 12)

Weapons of some type were reported in 92 incidents. In cases where the type of weapon was identified, hands/fist/feet were used the most frequently (15.9%, down from 22.3% in 2012). “Other weapons” were the second most frequent, listed in 5.2% of cases (down from 6.4% in 2012); knives or cutting instruments were third, in 2.9% of cases (down from 4.9% in 2012); fourth were blunt objects, used in 0.9% of cases (down from 4.1% in 2012); and firearms were fifth, cited in 0.6% of cases. The fifth most frequent weapons were “unknown”, in 1.2% of the cases. (See Table 13)

Of the 196 incidents in which injury information was submitted, no visible injuries were reported in 153 (78.1%) of the incidents. Other reported injuries were minor in 34 incidents (17.3%); broken bones in four incidents (2.0%); severe lacerations in four incidents (2.0%); and one internal injury (0.5%) were reported. (See Table 18)
