(4) Assessment for Overhead Costs

(a) On January 31st of each year, the Division of Banks shall assign all trust companies, savings banks, co-operative banks and credit unions to one of three asset assessment categories which shall be based upon the institution's supervisory rating assigned by its most recent report of examination completed by either the Division of Banks or the appropriate federal bank regulatory agency as of the preceding December 31st.

An institution's assessment is determined by multiplying its assets by a cumulative declining rate scale. Declining rates are assigned according to increasing asset stratifications, whereby an institution's assets are initially multiplied by a base rate, followed by decreasing rates for assets in excess of the established asset stratifications. Category A institutions pay 100% of the calculated asset assessment. Category B institutions pay 200% of the calculated asset assessment. Category C institutions pay 300% of the calculated asset assessment.

If the amount of total balance sheet assets (consolidated domestic and foreign subsidiaries) is:			The Annual Assessment will be:

*1 The payment required with the filing of the Notice of Intent will be determined by the facility's initial estimated construction cost.

*2 The payment required subsequent to the Council's determination of an Adequate Final Socio-Economic Appendix will be based on the facility's estimated construction cost incorporating the requirements imposed on its design by the negotiated siting agreement and by the draft facility permit issued by the Department of Environmental Protection pursuant to M.G.L. c. 21C, if such a draft permit has been issued.

4.03: Rents and Meals to be Paid by State Employees

(1) Housing Charges: The monthly charge for any housing unit provided by a state agency, facility, department, or institution, for the use of any state employee shall be calculated in accordance with 801 CMR 4.03(1).

(a) State agencies may enter into housing agreements with state employees for the occupancy of state property only if such occupancy has been determined by the Secretary for that agency to be in the best interest of, and necessary for, the operation of the agency and for the benefit of the Commonwealth.

(b) All agreements for employee housing shall be in writing for a term of one year and shall be executed by the employee, the head of the agency with care and control of the state property and the Secretary of that agency. The housing agreement shall conform with the form of residential housing agreement prepared by the Division of Capital Planning and Operations. Such housing agreement shall clearly state the housing charge calculated in accordance with 801 CMR 4.03(1)(d) as well as any reduction in the housing charge calculated in accordance with 801 CMR 4.03(1)(e). The housing agreement shall include a clear description of the premises to be occupied by the employee, including any limitations on the use of the premises to be occupied by the employee, including any limitations on the use of the premises by the employee, any other state or public uses to be made of the premises and a diagram illustrating the interior of the premises and detailing the areas to be occupied.

(c) The housing agreement shall contain a clearly articulated statement supporting the occupancy of the premises by the employee in accordance with the requirements of 801 CMR 4.03(1)(a). Execution of the housing agreement by the Secretary for the agency will satisfy the determination requirement in 801 CMR 4.03(1)(a).

(d) The housing charge for the premises shall be established by the agency and shall equal the fair market rent for the premises as established by an independent appraisal. An independent appraisal shall be performed at the initial inception of the housing agreement and at least once every five years thereafter. The housing charge shall be paid by payroll deduction. At the end of the first term and every year thereafter, until a new independent appraisal is performed, the housing charge shall be adjusted based on the consumer price index annual average for all urban consumers (CPI-U) Boston, Massachusetts, or an equivalent successor index, as published by the Bureau of Labor Statistics, U.S. Department of Labor or its successors.

(e) The agency may reduce the housing charge to be paid by the employee by an amount equal to the value of the series the employee shall provide, which shall be clearly stated in the housing agreement, provided that the reduction does not exceed 50% of the fair market rent. The value of such services shall be calculated by multiplying the employee's hourly wage rate by the minimum number of hours the employee will be required to perform services related to the property, such as nightly security checks, maintenance, public information, etc., but only to the extent such tasks are not part of the employee's regular work hours. Such calculations shall be included in the housing agreement.

(f) Any such housing agreement shall provide that in the event that the employee dies while occupying the premises, any family members who are occupying the premises and are specifically named in the housing agreement may continue to occupy the premises for one year following the death of the employee at the same housing charge rate as the employee was paying at the time of his or her death.

It is further provided that, if any part of a project having a Federal Grant is performed in a state-owned building or elsewhere, the rent paid to the Commonwealth of Massachusetts shall be at the rate established by the Federal Funds Coordinator, Executive Office for Administration and Finance.

4.05: Fee Schedule - Laboratory Testing and Calibration Services

TABLE 1.

(1) The following is the fee schedule for laboratory testing and calibration of weights, measures or instruments submitted to the Standards Laboratory of the Division of Standards as provided for in M.G.L. c. 98, § 46.

(a) Weights.

1. Tolerance Testing

Up to and including 2 lbs.	$2.00	each
Over 2 lbs. and including 50 lbs.	2.50	each
Up to and including 1 kilogram	2.00	each
Over 1 kilogram and including 30 Kg.	2.50	each

Tolerance testing reports will not indicate any value of error or direction of error and will only indicate whether the weights do or do not meet the classes of tolerances specified in National Bureau of Standards publications. If a request is made that weights be adjusted to meet the indicated tolerance, an additional charge of $1.00 per weight shall be made on those weights which are readily adjustable.

2. Apparent Mass Calibrations

Up to and including 2 lbs.	$3.00	each
Over 2 lbs. and including 50 lbs.	3.50	each
Up to and including 1 kilogram	3.00	each
Over 1 kilogram and including 30 Kg.	3.50	each

Apparent Mass calibration reports will indicate the apparent mass correction which may be applied in the use of the weight.

4.07: Hazardous Waste Transporters Fee

M.G.L. c. 21c, § 7 as amended by St. 1983, c. 7, § 4, requires the Commissioner of Administration and Finance in consultation with the Commissioner of the Department of Environmental Protection, to establish a fee to be paid by authorized transporters of hazardous wastes. To the extent practical, the fee is to generate monies equaling the unrecovered costs to the commonwealth on account of projects to assess, contain, and remove releases and threats of release of oil and hazardous materials. The fee shall be assessed and paid as follows:

(1) Except as provided in 801 CMR 4.07(2) through (8), effective August 1, 2003, each authorized transporter of hazardous wastes shall pay a fee of 22.75 cents per gallon or 2.275 cents per pound and effective July 1, 2004, 26.4 cents per gallon and 2.64 cents per pound upon each gallon or pound of materials manifested or logged for transport in Massachusetts by said transporter in accordance with 310 CMR 30.000: *Hazardous Waste* by the Department of Environmental Protection. For the purposes of the fee, quantities logged or manifested in units of measure other than gallons or pounds shall be converted into gallons or pounds using conversion factors provided by the Commissioner of the Department of Environmental Protection.

(2) In order to avoid the imposition of multiple fees on the transport of a single volume of waste, materials manifested for transport out of an authorized Massachusetts treatment, storage, and disposal facility shall not be subject to the fee prescribed in 801 CMR 4.07(1). However, for the purposes of this 801 CMR 4.07(2), the Commissioner of the Department of Environmental Protection may designate as authorized Massachusetts treatment, storage, and disposal facilities other facilities, whether within or outside the Commonwealth, maintained for the temporary storage and transfer of hazardous wastes. The Commissioner shall make such designation only if it is established to the satisfaction of said Commissioner:

(a) that such a designation will prevent the imposition of multiple fees on a single volume of waste, and will not result in the avoidance of fees on any wastes transported in the Commonwealth; and

(b) that materials generated at treatment, storage, and disposal facilities (for instance, wastes generated in connection with remedial or emergency response actions at the facility or in connection with the closure of the facility) will be subject to the fee, provided, however, that the Department of Environmental Protection may exempt wastes generated in small quantities incident to the ordinary operation of such a facility.

(3) No fee shall be assessed for the transport of waste oils generated by a service station or other business which is engaged in the retail sale of automotive lubricating oils and which is licensed for such sales pursuant to M.G.L. c. 94, § 295B. This exemption shall not apply to waste oils generated in an unrelated line of business. The provisions of 801 CMR 4.07(3) shall apply to waste oil transported on or after July 1, 1989 and on or before June 30, 1990; provided, however, that upon certification by the Commissioner of the Department of Environmental Protection that continued application of the provisions of 801 CMR 4.07(3) is essential to the continued effective collection and recycling of waste oil, the provisions of 801 CMR 4.07(3) shall continue to apply for successive one-year periods; provided, however, that in no case shall the provisions of 801 CMR 4.07(3) remain in effect beyond December 31, 2002.

4.07: continued

(4) No fee shall be assessed for the transport of wastes generated in the course of a response action undertaken by a federal or state agency pursuant to M.G.L. c. 21E, §§ 4 and 8 or by a contractor employed for the purpose of said response action.

(5) No fee shall be assessed for the transport of wastes that have been approved for reuse or recycling pursuant to 310 CMR 30.200 and that, in accordance with said regulations, are not subject to manifesting or logging requirements.

(6) No fee shall be assessed for the transport of household hazardous waste including waste oil from householders, generated or collected in connection with a household hazardous waste collection program sponsored by an agency political sub division, or authority of the Commonwealth.

(7) No fee shall be assessed for the transport of non-hazardous wastes that are not required to be manifested under Massachusetts or federal regulations but which are properly manifested under the code "MA90" through "MA99" for the convenience of the generator or transporter, or for the transport of hazardous wastes approved for reuse or recycling pursuant to 310 CMR 30.200 and required under said regulations to be manifested under codes "MA90" through "MA99".

(8) For all materials manifested or logged for transport on or after July 1, 1989 and before October 1, 1989, the fee amounts provided in 801 CMR 4.07(2) shall not apply. For said period, the fee amounts otherwise in effect for all materials manifested or logged for transport prior to July 1, 1989 shall continue to be in effect.

(9) The fee shall be imposed on all materials manifested or logged for transport on or after October 1, 1989. The fee will be assessed on the basis of materials manifested or logged for transport during quarterly reporting periods, ending on September 30, December 31, March 31, and June 30 of each year. Within 30 days of the end of each such reporting period, each licensed transporter shall report to the Commissioner of the Department of Protection, on forms prescribed by said Commissioner, the total quantities of materials manifested or logged for transport by said transporter during said reporting period, along with such other information as said Commissioner shall require. Said report shall be accompanied by payment in full for the fee due on the amounts manifested or logged for transport by said transporter during said reporting period.

(10) Except where the context clearly requires otherwise, this section shall be interpreted in conformity with regulations governing the transport of hazardous waste promulgated by the Commissioner of the Department of Environmental Protection.

4.08: Returned Check Charge

Handling charge for checks returned for insufficient funds. Such charge shall apply against the payer of any check or other negotiable instrument made payable to the Commonwealth of Massachusetts or any agency thereof which is dishonored for insufficient funds, uncollected funds or for any other reason.	$ 15.00
