Marine Fisheries Advisory

Commercial Striped Bass Fishery Open Days to Remain Tuesdays and Wednesdays

DMF's commercial striped bass regulations include a fishery performance-based trigger to add Thursdays as an open fishing day if 30% or more of the annual quota remains available after July 31. As of today, DMF has determined that less than 30% of the annual quota remains after the July 31 open fishing day. Accordingly, **the open fishing days will remain Tuesdays and Wednesdays.**
