

ENGINEERING DIRECTIVE

Thomas F. Broderick, P.E. (signature on original)

CHIEF ENGINEER

March 2012 Construction Standard Details

The purpose of this Engineering Directive is to formally issue the March 2012 online edition of the *MassDOT Highway Division Construction Standard Details* for use on MassDOT Highway Division projects. This new edition of the *Construction Standard Details* incorporates drawings issued under Engineering Directives E-12-004 and E-12-005.

The *March 2012 Construction Standard Details* supersedes and replaces the *2010 Construction Standard Details* previously issued under Engineering Directive E-10-007.

The *March 2012 Construction Standard Details* shall be referenced in the plans and other contract documents of all MassDOT Highway Division projects advertised after March 31, 2012.

The *March 2012 Construction Standard Details* is available in electronic format (PDF) on MassDOT's public website and on MassDOT's internal TransNET. MassDOT will not print and distribute hard copies of the *March 2012 Construction Standard Details*. MassDOT will handle future updates to the *Construction Standard Details* in the same manner as this update by posting complete, current, online PDF versions of the document for use until further notice. MassDOT will also post superseded PDF versions of the *Construction Standard Details* online for public reference. The Highway Design Engineer will retain printed copies of each superseded version of the document for archiving purposes.
