

**ENGINEERING DIRECTIVE****ACTING CHIEF ENGINEER****MassHighway Bridge Manual, Parts I & II, 2005 Edition**  
**2007 Revisions**

Effective August 1, 2007, the *MassHighway Bridge Manual, Parts I & II, 2005 Edition* is amended by the 2007 Revisions. These revisions include June 2007 revisions to select chapters and sections of Part I, February 2007 revisions to select standard drawings of Part II, and February/May revisions to the railing/protective screen standard sheets.

Those individuals who have a hard copy of the 2005 Bridge Manual can receive a hard copy of the 2007 Revisions, suitable for inserting into their three ring binder hard copy. The 2007 Revisions can also be downloaded from the MassHighway website at [www.mhd.state.ma.us](http://www.mhd.state.ma.us). Each revised chapter and standard drawing is indicated with the appropriate Revision Date on the website cover pages for Part I and Part II. The complete version of the revised Bridge Manual will not be available on CD. Those individuals who have a CD copy of the Bridge Manual may update their copy from the download files available on the MassHighway website.

Effective August 1, 2007, the *MassHighway Bridge Manual, Parts I & II, 2005 Edition, Revised 2007*, shall be the standard for bridge design projects to be advertised by MassHighway and shall supersede all previous editions of the MassHighway Bridge Manual.

All bridge designs currently in progress and scheduled to be advertised after July 31, 2007 shall be updated to include the revised Part II Standard Details and Standard Sheets and the revised Part I Bridge Design Guidelines and Special Provision and Estimate guidelines.

All bridge ratings started after July 31, 2007 shall use the revised Part I Bridge Load Rating Guidelines. For bridge ratings already in progress prior to August 1, 2007, the Director of Bridges and Structures shall determine if revisions are required on a project by project basis.
