Audit Findings

Audit Narrative

The auditor's description of the audit methodology should include a detailed description of the following processes during the pre-onsite audit, onsite audit, and post-audit phases: documents and files reviewed, discussions and types of interviews conducted, number of days spent on-site, observations made during the site-review, and a detailed description of any follow-up work conducted during the post-audit phase. The narrative should describe the techniques the auditor used to sample documentation and select interviewees, and the auditor's process for the site review.

The Massachusetts State Police (MSP) is an agency of the Commonwealth of Massachusetts' Executive Office of Public Safety and Security responsible for criminal law enforcement and traffic vehicle regulation across the state. At present, it has approximately 2,400 officers, 1,500 of them being uniformed troopers, and 400 civilian support staff—making it the largest law enforcement agency in New England. The MSP is headed by Colonel Kerry A. Gilpin.

The notification of the 2018 on-site audit at MSP A-5 Revere Barracks (A5RB) was posted on May 5, 2018, six weeks prior to the date of the onsite audit. The posting of the notices was verified by photographs received electronically from the facility's PREA Compliance Manager. The photographs indicated notices were posted in various locations throughout the facility including the intake and cell housing areas. Prior to the auditor's onsite visit to the facility, the auditor worked with the facility's PREA Compliance Manager, in developing and completing the Pre-Audit Questionnaire (PAQ). This document identified the minimum information and supporting documents the facility should submit to the auditor before the onsite audit begins. The A5RB PAQ was received on May 18, 2018, and included policies, procedures and supporting documentation which was within an adequate timeframe for review. The documents were uploaded to a USB flash drive. The initial review revealed well organized documents. Any additional information needed was discussed with the facility PREA Compliance Manager and was received within a timely manner or ready for review onsite. Prior to the on-site visit, the auditor utilized the Auditor Compliance Tool. This tool was used during each phase of the PREA audit as a guide in making audit compliance determinations for each provision of every standard, including the evidence collected to assess compliance.

The on-site visit at A5RB was conducted June 26, 2018. Upon arrival at the facility, an in-briefing meeting was held with the Station Commander to discuss the information contained in the PAQ. Site Review Instructions were reviewed describing the areas of the facility to be toured, operations and practices to be observed, and questions that should be asked of staff and inmates in order to conduct a thorough site review. Additionally, interview protocols to be used by the auditor to interview staff and detainees as part of the audit were discussed. Required documentation, relevant observations, the interview protocols, and the Auditor Compliance Tool were used to establish evidence of standard compliance. During the tour, the auditor noticed that the facility was well maintained and the sanitation level throughout was very good. While touring, the auditor inspected the holding cells to observe sleeping and toilet facility requirements for privacy purposes and handicap accessible. Staff of the opposite gender is required to announce their presence when detainees are held in the holding cells during their rounds.

The MSP Director and the Agency's PREA Coordinator (APC) were contacted for interviews and comments. Their roles and requirements were defined in the Agency's policy and are in compliance with the standards. Both the current MSP Director and the APC are newly appointed since the agency's last PREA Audit. At the time of this audit, the facility employed [REDACTED] employees and no contractual staff. The administrative staff interviewed included the Station Commander and Shift Sergeants. This facility operates on three shifts. The staffing pattern on the day of the on-site audit was [REDACTED] officers on the Mid shift; [REDACTED] officers on the Day shift; and [REDACTED] officers on the Evening shift. The auditor interviewed nine staff to include [REDACTED] troopers and the Acting Station Commander. During this process the auditor did not limit the interview questions to only those included in the protocols; rather,

additional site-specific questions were asked as a starting point for eliciting information about the facility's compliance with the PREA Standards. Responses to the interview questions were part of the auditor's compliance assessment. Policy and interviews support staff's compliance with the facility's prohibition of cross-gender viewing and pat searches. This auditor was provided evidence to ensure compliance to the PREA, as documented in this report. A5RB is part of the A Troop and is located on Revere Beach Boulevard and covers over 27 square miles in 5 cities and towns, including the heavily-traveled Route 1 from the Tobin Bridge to Copeland Circle in Revere. The A Troop headquarters has primary law enforcement responsibilities in many municipalities that lack local police departments. There was one detainee held on the day of the on-site audit. The detainee had arrived at approximately 0300 and was waiting for bail. The auditor met and interviewed the detainee on the barracks in-take procedures. The detainee informed the auditor that he was informed and explained the PREA requirements. The detainee had no concerns or complaints.

The PREA information/zero tolerance multi-colored poster was clearly visible in the booking area and states in large block letters that, SEXUAL ASSAULT IS AN ACT OF VIOLENCE. It informs detainees that they can report sexual assault or harassment by telling any State Police staff member, by submitting a written complaint, or by having a friend or relative report the incident for the detainee. It also informs the detainee that they, or someone on their behalf, can anonymously report any alleged incident to the Massachusetts Attorney General's Office at (617) 963-2800, and that the States Attorney General Office is a third-party entity not affiliated with the State Police. The agency website contains a dedicated PREA webpage that contains the agency's PREA zero tolerance policy, how to report sexual abuse or harassment, including third-party reporting and links to a list of sexual assault and rape crisis centers, a list of Sexual Assault Nurse Examiners, and several to the PREA Resource Center.

During an interview with the Commander, it was revealed that the agency has made a major commitment to training its employees, regarding PREA. The majority of the evidence to this fact is provided through the curriculums on PREA Training for Lockups. This is a comprehensive training that is given at both the Academy and on-line and contains all the topics required by the policy and this Standard. It is a mandated training for all Department staff. All of the officers interviewed stated they had completed the course at either the Academy or on-line. This was confirmed by review of the officers' training files.

The APC shared information in reference to the Human Resource Requirements. The APC informed the auditor that the agency's MSP Certification Unit, a Unit under the Division of Standards and Training, requires each applicant to complete a Background Investigation Questionnaire, which on Page 6 contains the three questions required by Standard §115.117(a). The primary function of this Unit is conducting background investigations and is comprised of a full-time staff; [G.L. c. 4, sec. 7 cl. 26\(n\) Security](#)

Lockup Characteristics

The auditor's description of the audited lockup should include details about the lockup type, demographics and size of the inmate, resident or detainee population, numbers and type of staff positions, configuration and layout of the lockup, numbers of housing units, description of housing units including any special housing units, a description of programs and services, including food service and recreation. The auditor should describe how these details are relevant to PREA implementation and compliance.

Station A-5, Revere Barrack, is located on Revere Beach Boulevard and covers over 27 square miles in five cities and towns, including the heavily-traveled Route 1 from the Tobin Bridge to Copeland Circle in Revere. Cities/Towns patrolled by the Revere Barracks include Chelsea, East Boston, Lynn, Revere and Winthrop. The Police Station was built in 1899 and was a Metropolitan Police Station until 1992 when it was merged into State Police barracks system as H-2 Revere. Under Troop re-alignment, the station went from Troop H to Troop A and was renamed A-5 Revere. The barracks is responsible for the patrol of the Atlantic Ocean

coastal towns from East Boston to the Swampscott line. It covers over 27 square miles in 5 cities and towns, including the heavily traveled Route 1 from the Tobin Bridge to Copeland Circle in Revere. Recreation in the area includes Belle Isle, Rumney Marsh, skating rinks, boating areas, ball fields and O'Malley Park, which lies under the Tobin Bridge.

The main building is a one-story unit that contains a **G.L. c. 4, sec. 7 cl. 26(n) Security**. There were two cuffing rail/benches and nine cells. Three of the cells are designated for females. All cells have handicap accessibility. The cells contain a bench/bed and toilet. The facility does not have showering facilities for detainees. In the rare instance where a detainee is held for a long period of time or overnight, the detainee is provided a basin of water to bathe/refresh, if needed. Cameras cover the booking area, cells and building perimeter to include the streets adjacent to the barracks. The perimeter cameras have video capabilities. However, **G.L. c. 4, sec. 7 cl. 26(n) Security**. The cameras are monitored by the desk officer. The auditor observed the camera monitoring viewing capabilities and noted that, because the cameras are located inside the cells, it is possible that opposite gender staff may be able to view detainees conducting bodily functions when placed in holding cells. However, as part of the interim report response, the Department develop a unified procedure that would **G.L. c. 4, sec. 7 cl. 26(n) Security** **G.L. c. 4, sec. 7 cl. 26(n) Security** restrict direct viewing of detainee's buttocks, or genitalia, except in exigent circumstances or when such viewing is incidental to routine cell checks. The Department has **G.L. c. 4, sec. 7 cl. 26(n) Security** the cell cameras and photographs evidencing their activation was provided. The primary purpose of the cameras is to monitor for self-harming behavior of any detainee placed in a cell. The remainder of the facility contains several office spaces, a kitchen area, and storage areas and is well maintained. A review of the Station Arrest Journal and interview with the Station Commander, it was noted that the average booking and holding time is estimated at two (2) hours. Generally, detainees are transported to Middleton House of Corrections (MHOC) per the facility's Memorandum of Understandings. The MHOC fully supports PREA and the National Standards by enforcing a Zero Tolerance Policy concerning Sexual Abuse and Sexual Harassment in its facilities. The Zero Tolerance Policy applies to every employee, contractor, volunteer, visitor, and every person under our correctional supervision. Medical or mental health staff are not located on site, but is available on-call for immediate response, as needed. Sexual Assault Forensic Examinations are conducted at Everett General Hospital by SANE/SAFE Nurses.

Summary of Audit Findings

The summary should include the number of standards exceeded, number of standards met, and number of standards not met, along with a list of each of the standards in each category. If relevant, provide a summarized description of the corrective action plan, including deficiencies observed, recommendations made, actions taken by the agency, relevant timelines, and methods used by the auditor to reassess compliance.

Auditor Note: No standard should be found to be "Not Applicable" or "NA". A compliance determination must be made for each standard.

The auditor viewed the camera locations in the holding cells from the booking station and observed that the camera locations do not totally eliminate the possibility of viewing of detainee's breasts, buttocks, or genitalia in the holding cells when they may be performing bodily functions. Summary of Corrective Action (if any)

§115.115 – (d) Limits to cross-gender viewing and searches.
The facility shall implement policies and procedures that enable inmates to shower, perform bodily functions, and change clothing without non-medical staff of the opposite gender viewing their breasts, buttocks, or genitalia, except in exigent circumstances or when such viewing is incidental to routine cell checks. Such policies and procedures shall require staff of the opposite gender to announce their presence when entering an inmate housing unit.

Observation:

- The A-5 Revere Barracks did not have showers or change of clothing needs. However, the auditor [G.L. c. 4, sec. 7 cl. 26\(n\) Security](#), there is a possibility of viewing of detainee's breasts, buttocks, or genitalia by opposite gender staff, in the holding cells when they may be performing bodily functions. (115.115 (c)).

Corrective Action:

- As part of the interim report response, the Department develop a unified procedure [G.L. c. 4, sec. 7 cl. 26\(n\) Security](#) to restrict direct viewing of detainee's buttocks, or genitalia, except in exigent circumstances or when such viewing is incidental to routine cell checks. The Department [G.L. c. 4, sec. 7 cl. 26\(n\) Security](#) in the cell cameras and photographs evidencing their activation was provided.

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the lockup does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the lockup.

General Order PRI-07, Detainee Sexual Abuse and Sexual Harassment, details and mandates the agency's zero tolerance toward all forms of sexual abuse and sexual harassment. The definitions used, including prohibited behaviors, are consistent with the definitions of the PREA law. This written policy and Division Commander's Order 17-DFS-034, Prison Rape Elimination Act-PREA, detail the agency's approach to preventing, detecting, and responding to sexual abuse and sexual harassment. The policy clearly states that any employee determined to have engaged in sexual abuse or sexual harassment of detainees shall be subject to discipline. The presumptive sanction for having engaged in prohibited behavior under this policy is termination. Further, General Order ADM-18, Anti-Harassment/Sexual Harassment and Discrimination, states that any employee found to have engaged in harassment, sexual harassment, or discrimination is subject to disciplinary action up to and including termination.

The agency has designated a Detective Captain as the PREA Coordinator. He reports that he has been given sufficient time and authority to develop, implement, and oversee the agency's efforts to comply with the PREA standards in all of its facilities. The Commanding Officer and all of the officers interviewed knew of the Agency's PREA Coordinator and were very informed about the agency's PREA-related policies and requirements. The interview with the PREA Coordinator evidenced his detailed knowledge of the PREA and his commitment to ensuring that the agency's zero tolerance policy is thoroughly implemented as the Agency's and the Facility's PREA contact person.

The agreement between the agency and the officers' unions states that there **G.L. c. 4, sec. 7 cl. 26(n) Security** [REDACTED] Neither the agency, nor the Station Commander, is allowed to deviate from this minimum staffing of the Station. This is the base mandatory staffing level at each facility. General Order PRI-07 directs Station Commanders for each facility to develop and document the staffing plan for their facility. A review of General Order PRI-06, Prisoner Monitoring, requires the Desk Officer on each shift to conduct the monitoring of the booking area and cells (in the rare instance where a detainee is placed in a cell), which are the only areas where detainees may be held. General Order PRI-07 also states that if after screening, an officer determines that the detainee may be at risk, the detainee shall be housed alone in a holding cell for the duration of his/her detention at a State Police facility. This includes post-screening transportation in a Department vehicle to/from court, jail, prison, or other agency. The Station Commander stated that during the last 12 months 601 persons were held at the facility and estimated only 53 was held overnight. In addition, the Station Commander stated that juveniles are never held at this facility. There were no allegations of sexual abuse or sexual harassment during the past year. The agency's most recent annual assessment, then, was that the current staffing pattern, as required by the union contracts, is sufficient to ensure detainees are properly monitored and supervised. **G.L. c. 4, sec. 7 cl. 26(n) Security** [REDACTED] officers are assigned to A5RB, which currently operates a shift pattern of **G.L. c. 4, sec. 7 cl. 26(n) Security** officers on the Mid shift; **G.L. c. 4, sec. 7 cl. 26(n) Security** officers on the Day shift; and, **G.L. c. 4, sec. 7 cl. 26(n) Security** officers on the Evening shift.

If a juvenile is held in an approved detention area, the juvenile must be separated by sight and sound from adult prisoners. The A5RB Station Commander stated that juveniles are never detained at this facility. All of the officers interviewed stated that either juveniles could not be held in the facility or could not be mixed with adults. Several staff stated that they had been instructed to contact Juvenile Probation, whenever they had a juvenile in custody.

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the lockup does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the lockup.

General Order PRI-02 states that staff shall not physically search a subject for the sole purpose of determining the subject's gender, and that any search of transgender or intersex detainees be conducted in a respectful and appropriate manner and in the least intrusive manner possible, consistent with security needs. All staff interviewed knew of this prohibition. All staff interviewed stated that they had received training at either the Academy or online as to the proper method of conducting searches of transgender and intersex detainees. In addition, PRI-02, Custodial Inventory states that strip searches shall only be conducted with the approval of a supervisor (unless exigent circumstances exist); whenever practicable by two officers of the same gender as the subject; in an area that affords complete privacy (strip searches shall not be conducted outside of a Department facility, unless exigent circumstances exist); out of the public view (including video cameras, windows, et cetera); without any touching of the detainee; in a reasonable, non-abusive, and professional manner; and, only for the duration necessary to complete the search. Further, the policy prohibits physical intrusions into body cavities, and that if a body cavity search is required, that it is to be conducted by a medical practitioner in appropriate medical surroundings, after obtaining a warrant, issued by a judge, which is based on a high degree of probable cause.

A review of General Order PRI-06, it states that detainees will be allowed to perform bodily functions without officers of the opposite gender viewing their breasts, buttocks or genitalia, except in exigent circumstances or when such viewing is incidental to routine cell checks. Further, it states that officers shall announce themselves prior to entering the cell area containing a member(s) of the opposite sex. Staff shall not place themselves in a position where they can view the breasts, buttocks, or genitalia of a detainee of the opposite gender. There are no detainee shower facilities at this Station. The auditor viewed the monitor that is supervised by the Desk Officer. The cells contain a bed and toilet; however, viewing on the monitor of a detainee using the toilet is not effectively blocked by bars of the cell and the angle of the camera. As part of the interim report response, the Department develop a unified procedure that would **G.L. c. 4, sec. 7 cl. 26(n) Security** restrict direct viewing of detainee's buttocks, or genitalia, except in exigent circumstances or when such viewing is incidental to routine cell checks. The Department has activated the masking features in the cell cameras and photographs evidencing their activation was provided. All the officers interviewed were aware of the cross-gender pat downs and opposite gender announcement requirement.

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the lockup does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the lockup.

General Order PRI-07 defines detainees with disabilities to include detainees who are deaf, hard of hearing, blind or have low vision, and those who have intellectual, psychiatric, or speech disabilities. It states that officers shall take appropriate steps to ensure that detainees with disabilities have an equal opportunity to benefit from all aspects of the Department's efforts to prevent, detect, and respond to sexual abuse and sexual harassment. Such steps shall include providing access to interpreters who can interpret effectively, accurately, and impartially when necessary to ensure effective communication with detainees who are deaf or hard of hearing. In addition, members shall ensure that written materials are provided in formats and through methods that ensure effective communication with detainees with disabilities. The Commander informed me that officers shall take reasonable steps to ensure that detainees with limited English proficiency have meaningful access to information regarding the Department's policies and efforts to prevent, detect, and respond to sexual abuse and sexual harassment including by providing interpreters who can interpret effectively, accurately, and impartially.

The agency has established through Century Link Language a dedicated phone number for language translations for the entire agency, including all Stations. This policy prohibits officers using detainees as interpreters or readers or otherwise request assistance from another detainee except in limited circumstances where an extended delay in obtaining an effective interpreter could compromise the detainee's safety, the performance of first-response duties, or the investigation of the detainee's sexual abuse/harassment allegations. During onsite tour the auditor observed posted signs and information referencing services available to assist detainees with any disability concerns and was provided in Spanish and English. All other language needs could be serviced using the Tele language System that provides interpreters. The Department disseminated a directory listing the contact information for the Massachusetts Commission for the Deaf & Hard of Hearing and the Disabled Persons Protection Commission to assist with communicating with disabled detainees. All of the officers interviewed knew about the Century Link Language service and how to access it. All officers interviewed stated that they are prohibited from using another detainee to assist with interpretation.

Auditor Overall Compliance Determination

- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the lockup does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the lockup.

General Order PRI-07 requires all employees to disclose any of the misconduct, relating to sexual assault and sexual harassment. Material omissions regarding such misconduct, or the provision of materially false information, are grounds for termination. All the officers interviewed were aware of this requirement and the potential consequences for failure to comply. The agency MSP Certification Unit, a Unit under the Division of Standards and Training, requires each applicant to complete a Background Investigation Questionnaire, which on Page 6 contains the three questions required by Standard §115.117(a). The primary function of this Unit is conducting background investigations and is comprised of a full-time staff; **G.L. c. 4, sec. 7 cl. 26(n) Security**. These investigations are conducted on applicants seeking employment in various law enforcement positions including the Department of State Police Recruit Training Candidates, Department of State Police civilian employees, Chiefs of Police, NESPIN, Military, Private Detectives, Watch Guard Patrol Agency, Special State Police, Department of State Police Interns and temporary employees.

The APC confirmed that the agency provides information on substantiated allegations of sexual abuse or sexual harassment involving a former employee upon receiving a request from an institutional employer for

who such employee has applied to work. During the background investigations, officers verify the information provided by an applicant by researching computer records, conducting neighborhood interviews, performing reference checks and credit checks and verifying past employment. The candidate is also interviewed to provide information and to address any issues regarding their application. Upon completion of the investigation the Unit drafts a report of its findings, which is reviewed by a panel of high ranking officers, and who makes the final decision whether to hire. This process takes about six weeks or more. The APC stated that the agency does not hire contractors, but utilizes other state agency employees, as needed.

The agency also has a designated Harassment Officer (with the rank of Lt. or higher) in its Standards and Training Division who has the authority to conduct investigations of allegations of harassment. Substantiated allegations are forwarded to the Division Commander for disposition.

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the lockup does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the lockup.

General Order PRI-07 states that all employees who may have contact with lock-up detainees shall receive training regarding required subjects identified in 115.131 (a) of the Standard. The course, PREA Training for Lockups (2017), is a comprehensive training that is given at both the Academy and on-line and contains all the topics required by the policy and this Standard. It is a mandated training for all Department staff. The training covers the Department's zero-tolerance policy and detainees' right to be free from sexual abuse and sexual harassment; how to fulfill their responsibilities regarding prevention, detection, reporting, and response to sexual abuse and sexual harassment; the right of detainees and employees to be free from retaliation for reporting sexual abuse and sexual harassment; how to communicate effectively and

professionally with detainees, including lesbian, gay, bisexual, transgender, intersex, or gender nonconforming detainees; and compliance with relevant laws related to mandatory reporting of sexual abuse. The agency has made a major commitment to training its employees, regarding PREA.

The Commander as well as the APC both stated that the Agency provides each employee with refresher training annually to ensure that all employees know the agency's current sexual abuse and sexual harassment policies and procedures. In years in which an employee does not receive refresher training, the Department shall provide refresher information on current sexual abuse and sexual harassment policies. Further, every member or employee who may have contact with detainees shall acknowledge either in written or electronic format that he or she understands the Department's PREA policies and protocols and the PREA training he or she has received. All of the officers interviewed stated they had completed the course at either the Academy or on-line. This was confirmed by review of the officers' training files.

During the onsite visit the auditor observed posted the agency's two training bulletins that state the agency's zero tolerance policy, the dynamics of sexual abuse, officers' duties to prevent and detect sexual abuse, the duty to report sexual abuse and sexual harassment, protection from retaliation, first responder duties, and related topics that is distributed to all Stations. These bulletins are maintained on-line and at the Station and readily available to the assigned officers. This Station does not utilize volunteers.

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)

- Does Not Meet Standard** (*Requires Corrective Action*)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's

conclusions. This discussion must also include corrective action recommendations where the lockup does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the lockup.

The agency has created a Detainee PREA Information brochure that is given to each detainee. The brochure contains the agency's zero tolerance policy, detainee rights, how to report allegations, the right to report allegations to an outside agency (including contact information for the Office of the Attorney General), the right to make an anonymous report, and a list of supportive services, including sexual assault and rape crisis centers. Division Commander's Order 17-DFS-034 directs all agency facilities that house detainees to conspicuously post the PREA Rights Notification signage, which explains detainee rights and reporting mechanism under PREA, so that it is visible to all detainees. At this Station the sign is posted on the wall facing the detainee and, due to its dark color, is distinguishable from other posted notices. The poster replicates some of the information contained in the PREA brochure.

General Order PRI-07 states that the Department shall ensure that all contractors who enter Department facilities and who may have contact with detainees have been trained on their responsibilities under the Department's sexual abuse and sexual harassment prevention, detection, and response policies and procedures including the Department's zero-tolerance policy regarding prohibited behavior. The Commander stated that at this Station, given the location of the booking area and adjacent cells and both direct and monitored supervision, make it unlikely that a contractor would have contact with a detainee. Further, no contractors or inmates currently work at this Station.

All the officers interviewed who conduct bookings stated they hand the brochure to the detainee, direct their attention to the posted notice, and ask PREA-related questions from a script taped to the booking desk. The facility reported that all 45 detainees during the previous 12 months received the brochure.

General Order PRI-07A states that Department Investigators shall receive special training in detainee sexual abuse and sexual harassment investigations according to Code of Federal Regulations (CFR) 28 § 115.34, to include techniques for interviewing sexually abused or sexually harassed victims; proper use of Miranda and Garrity warnings; sexual abuse evidence collection in confinement settings; and the criteria and evidence required to substantiate a case for administrative action or prosecution referral.

The agency has developed in conjunction with the Massachusetts Department of Corrections a comprehensive specialized training course on how to conduct sexual abuse investigations. This specialized training includes all of the topics required by the Standard. The Agency PREA Coordinator provided a copy of the specialized training developed in collaboration with the Massachusetts Department of Correction and a list of the investigators who have completed this detailed training.

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the lockup does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the lockup.

The Commander provided the auditor a memo dated May 23, 2016, to all Barracks Commanders (Lieutenants), addressing the PREA screening requirements for lock-ups. The section entitled Responsibilities, Prevention and Detection of Sexual Abuse, requires that the Department staff assess all detainees for both those vulnerable to victimization and for those likely to abuse. General Order PRI-07 states that in accordance with training, when booking detainees, members shall screen all detainees to assess their risk of being sexually abused by other detainees or sexually abusive toward other detainees. The screening shall be documented in RAMS/Department Records Management System. If after screening, the member determines that the detainee may be at risk, the detainee shall be housed alone in a holding cell for the duration of his/her detention at a State Police facility. This includes post-screening transportation in a Department vehicle to/from court, jail, prison, or other agency. The auditor reviewed the facility’s department records management system and noted the questions and documentation process. All staff interviewed indicated that they are aware of the requirements at booking or intake, to assess whether (based on the information that they have access to, which is most often minimal at best), a detainee may be at a high risk of being sexually abused and when appropriate, to take necessary steps to mitigate any such danger to the detainee. Troopers are required then, at booking, to screen all detainees to assess their risk of being sexually abused by other detainees or sexually abusive toward other detainees. Screening consists of asking the detainee about his or her own perception of vulnerability and assessing the detainees risk of being sexually abused or sexually abusive by considering the following: whether the detainee has a mental, physical or developmental disability; age of the detainee; physical build and appearance of the detainee; whether the detainee has previously been incarcerated; and the nature of the detainee’s alleged offense and criminal history. At the conclusion of the screening process, the trooper has to document “PREA Screening consistent with PRI-07,” in the RAM (Agency Database System). Interview results with barracks staff indicated that screening is taking place.

The barracks has some excellent practices related to housing detainees that ensures they are protected from other detainees regardless of whether or not they are higher risks for either victimization or abusiveness. All the interviewed troopers related that detainees are never “double bunked” or housed in “double occupancy” housing. All detainees are housed in single occupancy cells. Practice also requires that males are separated from females by having an empty cell in between them, if possible. If two females were detained and only one female cell was available, one of the females would be transported to a neighboring

barracks for housing. Too, detainees are not allowed out of their cells, therefore, they would never have contact with each other.

General Order PRI-06 states that continuous supervision is essential for maintaining and assuring the safety and welfare of prisoners while in custody. Division Commander's Order 17-DFS-034 requires all officers to take immediate action to protect a detainee from imminent sexual abuse. This direction is posted at the booking desk. All of the officers interviewed stated that they follow this screening procedure, even when the detainee is the only detainee in the booking area and there is no plan to place the detainee in a cell. Also stated was the policy to never "double bunk" detainees. There were 53 detainees held overnight in this facility during the prior 12 months.

PRI-07 states Detainees are informed of at least one way to report sexual abuse and/or sexual harassment to a public or private entity or office that is not part of the Department, allowing the detainee to remain anonymous if so requested. The Detainee PREA Information brochure that is given to every detainee during the booking process contains several methods for reporting allegations of sexual abuse or sexual harassment. Detainees themselves can verbally report to station staff or have someone on their behalf complete a SP 340 Citizens Response Form. The Submission of a complaint can be done anonymously. Reporting Form SP 340 can be obtained by contacting a State Police facility for instructions; by appearing in person at a State Police facility and obtain a copy of a SP 340 form; by downloading the SP 340 form from the State Police external website www.mass.gov/msp ; or by calling the Citizen Response Intake Line (508) 988-7003.

All of the officers interviewed were able to describe the various methods that detainees could use to make reports. Most made reference to the Detainee PREA Information brochure and/or the PREA Information poster that is posted in the booking area. The officers further stated that they could make a private, anonymous report to the AG's office, report to the State police HQ or the PREA Coordinator.

The Training Bulletin 2016-09 states that a detainee, or someone on his or her behalf, can report an alleged incident of sexual abuse or harassment to the Massachusetts Attorney General's Office at (617) 963-2800, a third-party entity not affiliated with the State Police. This office, which is not affiliated with the State Police, will report the incident directly to the appropriate State Police authorities who will investigate the claim. This information is stated in both the Detainee PREA Information brochure and on the PREA information poster posted in the booking area of the facility. Finally, the agency PREA web page contains third-party reporting procedures. The auditor called the number and listened to the recorded announcement (It was identified that you reached the Attorney General's Office PREA reporting number where you can verbally report an incident of sexual abuse alleged to occur while in State Police custody). The announcement was provided in English and Spanish.

PREA imposes an independent duty to report separate from Massachusetts mandatory reporting laws. -You must report any neglect or violation of responsibilities that may have contributed to such incidents."

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the lockup does

not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the lockup.

General Order PRI-07 identifies the first responder duties to report of a sexual assault by an officer and non-officer. The responding officer duties include immediately separating the alleged victim and abuser; take immediate action to protect the detainee from substantial risk of imminent sexual abuse; keep the detainee either with the officer or in the cell and under surveillance until a supervisor can investigate and determine any further actions to take to protect the detainee. All staff are required to follow uniform evidence protocol that maximizes the potential for obtaining usable physical evidence including preserving and protecting any crime scene until appropriate steps can be taken to collect any evidence. If the abuse occurred within a time period that still allows for the collection of physical evidence, request that the alleged victim not take any actions that could destroy physical evidence, including, as appropriate, washing, brushing teeth, changing clothes, urinating, defecating, smoking, drinking, or eating. This policy further states that if the first responder is not an officer, that responder shall request that the alleged victim not take any actions that could destroy physical evidence; and immediately notify an officer.

All victims are offered access to forensic medical examinations performed by a Sexual Assault Forensic Examiner (SAFE), Sexual Assault Nurse Examiners (SANEs) or qualified medical practitioner without financial cost to the victim, if evidentiary or medically appropriate. The MSP does not have medical or forensic examiners at the barracks. If required, all detainees would be transported for a forensic examination to an outside hospital that offers victim advocacy services. The facility would ensure that the detainee be permitted to use such services to the extent available, consistent with security needs. The facility would document all efforts to provide a SAFE or medical.

The Training Bulletin 2016-09 directs first responders to separate victim and abuser; protect crime scene; and protect physical evidence to be collected. The responses from the officers who were interviewed stated that they were aware of the agency's policy and understood their requirements as it relates to the Standard.

All Yes/No Questions Must Be Answered by the Auditor to Complete the Report

- If a victim is transferred from the lockup to a jail, prison, or medical facility, does the agency, as permitted by law and unless the victim requests otherwise, inform the receiving facility of the incident and the victim's potential need for medical or social services? Yes No

115.165 (b)

- If a victim is transferred from the lockup to a jail, prison, or medical facility, does the agency, as permitted by law, inform the receiving facility of the incident unless the victim requests otherwise? A review of the agency's coordinated response plan was found in General Order PRI-07 and is very detailed, providing directions for the first responder, Desk Officer, Duty Officer, State Police Investigator, Station Commander, Troop Commander, Reviewing Commissioned Officer, and the Field Services Division Commander. Additional directions are stated in General Order PRI-07A, regarding the conduct of investigations. The plan clearly states that if the victim is transferred from the lock-up to a jail, prison, or medical facility, the responsibility to inform the receiving facility of the incident, and the victim's potential need for medical or social services (unless the victim requests otherwise), rests with the Desk Officer. The facility Commander reported that no detainees were transferred from the Station to a jail, prison, or medical facility as the result of an allegation of sexual abuse.

The agency has entered into collective bargaining agreements with State Police Association Massachusetts (SPAM) labor unions, which have been reviewed for disciplinary issues. All agreements clearly state that employees covered by the agreements can be discharged, suspended, or demoted for just cause. Nothing in these agreements limits the agency's ability to remove alleged staff abusers from contact with detainees pending the outcome of an investigation or of a determination of whether and to what extent discipline is warranted.

This discussion must also include corrective action recommendations where the lockup does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the lockup.

General Order PRI-07 states that the agency has a zero tolerance policy toward all forms of retaliation against anyone who reports sexual abuse and sexual harassment or who cooperates in a sexual abuse investigation. Further, it states that the agency will take appropriate measures to prevent retaliation against individuals who report and/or cooperate with an investigation. The Department shall ensure that all detainees and staff who report sexual abuse or sexual harassment or cooperate with sexual abuse or sexual harassment investigations are protected from retaliation by other detainees or staff, and shall designate which staff members or departments are charged with monitoring retaliation. A member or employee who has knowledge, suspicion, or information regarding an incident of retaliation against detainees or staff who reported such an incident and any staff neglect that may have contributed to such retaliation, shall immediately report such incident or retaliation to his or her immediate supervisor.

Supervisors who receive reports of retaliation shall employ multiple protection measures, which may include transfers for detainee victims or abusers to prevent the alleged staff or detainee abusers from contact with victims; providing emotional support services for detainees or staff who fear retaliation for reporting sexual

abuse or sexual harassment or for cooperating with investigations; and/or closely monitoring detainees or staff who fear retaliation. The policy directs each Station Commander to monitor all employees who report sexual abuse or sexual harassment to ensure that the employees are not subject to retaliatory actions by other employees and shall document same.

General Order ADM-18 states that any retaliation against an individual who has complained about harassment, sexual harassment, or discrimination, and any retaliation against individuals for cooperating with an investigation of a harassment, sexual harassment, or discrimination complaint is unlawful and will not be tolerated. Division Commander's Order 17-DFS-034 designates Station Commanders as the Retaliation Monitor and directs Station Commanders to ensure that detainees and staff who report allegations are protected from retaliation.

The PREA Training Bulletin states that detainees and/or reporting parties must be free from retaliation for reporting sexual abuse and sexual harassment. Retaliation occurs when a staff member or detainee injures, harms, or intimidates a person who has reported sexual abuse and assault—or attempts to do so—in response to the report. Any retaliation against detainees or Department employees who reported such an incident must be reported to a supervisor.

All of the officers interviewed stated that they had not made any report of sexual abuse or sexual harassment during the previous 12 months, and therefore, would not have been subject to retaliation. The Station Commander reported that there were no incidents of retaliation during the previous 12 months because there were no reports made by staff or detainees of sexual abuse or sexual harassment.

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the lockup does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the lockup.

General Order PRI-07 states that the agency shall ensure that an administrative or criminal investigation is completed for all allegations of detainee sexual abuse and/or sexual harassment pursuant to PRI-07A Detainee Sexual Abuse and Sexual Harassment Investigations, Review and Data Collection. General Order PRI-07A states that the agency will investigate allegations of sexual abuse and/or sexual harassment from the Department of Correction or Department of Youth Services; investigate allegations of sexual abuse and sexual harassment from within the Department of State Police; and, investigate allegations of sexual abuse and sexual harassment alleged by a detainee while detained at another facility. The policy states that the agency will use investigators who have received specialized training in the investigation of sexual abuse and sexual harassment.

General Order PRI-07A states that agency investigators when conducting an investigation into allegations of detainee sexual assault and/or sexual harassment shall gather and preserve direct and circumstantial evidence, including any available physical and DNA evidence and any available electronic monitoring data; interview alleged victims, suspected perpetrators, and witnesses; review prior complaints and reports of sexual abuse and/or sexual harassment involving the suspected perpetrator; notify their Division Commander through channels of the possible outcome when the evidence appears to support criminal prosecution; make relevant information regarding the status of the investigation available to the Department

and/or requesting agency so that the detainee may be kept apprised of the investigation. The APC reported that when there is probable cause to believe that a detainee or a Department employee had sexual contact with another detainee in a holding cell, the Department will make a criminal referral to the District Attorney's Office of jurisdiction or to the Attorney General's Office. A criminal investigation will not be terminated because the alleged perpetrator separates from employment with the Department. Finally, if an outside agency investigates sexual contact, the Department will cooperate with the investigators and remain informed about the progress of the investigation.

The Commander informed the auditor that a trooper would be entitled to demand transactional immunity, if compelled to give a statement under the threat of adverse employment action, including termination, or possible criminal indictment. Under the Massachusetts Declaration of Rights such a grant of immunity must be given by all DAs in the state and the Attorney General. Thus, this serves the intent of the Standard in that all prosecutors would have the final say, regarding compelled statements. There would be no opportunity for an agency investigator to grant such immunity without the involvement and approval of the DAs.

Department of Police Rules and Regulations Article 6 establish the disciplinary procedures for the agency. Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the lockup does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the lockup.

The agency has published on its agency website and has otherwise made publicly available, all Final Audit Reports within 90 days of issuance by auditor. The review period is for prior audits completed during the past three years starting January 2014 through December 2017. The pendency of any agency appeal pursuant to 28 C.F.R. § 115.405 does not excuse noncompliance with this provision.
